EIR is determined at the initial recognition of the financial asset. EIR is subsequently updated at every reset, in accordance with the terms of the respective contract.

Once the terms of financial assets are renegotiated, other than market driven interest rate movement, any gain / loss measured using the previous EIR as calculated before the modification, is recognised in the Statement of Profit and Loss in period during which such renegotiations occur.

(b) Financial Assets at Fair Value Through Other Comprehensive Income (FVTOCI)

A financial asset is measured at FVTOCI if both the following conditions are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial asset; and
- The contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

All fair value changes are recognised in Other Comprehensive Income (OCI) and accumulated in Reserve.

(c) Financial Assets at Fair Value Through Profit or Loss (FVTPL)

A financial asset is measured at FVTPL unless it is measured at amortised cost or FVTOCI, with all changes in fair value recognised in Statement of Profit and Loss.

Business Model

An assessment of business model for managing financial assets is fundamental to the classification of a financial asset. The Company determines the business model at a level that reflects how financial assets are managed together to achieve a particular business objective of generating cash flows. The Company's business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

The Company is in the business of providing loans across power, logisitics & infrastructure sector and such loans are managed to realize the contractual cash flows over the tenure of the loan. Further, other financial assets may also be held by the Company to collect the contractual cash flows.

(ii) Classification, Measurement and Derecognition of Equity Instruments

All equity investments other than in subsidiaries, joint ventures and associates are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company at initial recognition makes an irrevocable election to classify it as either FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis.

An equity investment classified as FVTOCI is initially measured at fair value plus transaction costs. Subsequently, it is measured at fair value and, all fair value changes are recognised in Other Comprehensive Income (OCI) and accumulated in Reserve. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company transfers the cumulative gain / loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Investment in equity shares of subsidiaries, joint ventures and associates are accounted at cost, less impairment if any.

(iii) Impairment of Financial Assets

Subsequent to initial recognition, the Company recognises expected credit loss (ECL) on financial assets measured at amortised cost as required under Ind AS 109 'Financial Instruments'. The Company presents the ECL charge or reversal (where the net amount is a negative balance for a particular period) in the Statement of Profit and Loss as "Impairment on financial instruments" and as a cumulative deduction from gross carrying amount in the Balance Sheet, wherever applicable.

The impairment requirements for the recognition and measurement of ECL are equally applied to financial asset measured at FVTOCI except that ECL is recognised in Other Comprehensive Income and is not reduced from the carrying amount in the Balance Sheet.

(a) Impairment of Loan Assets and commitments under Letter of Comfort (LoC) & Letter of Undertaking (LoU):

The Company measures ECL on loan assets at an amount equal to the lifetime ECL if there is credit impairment or there has been significant increase in credit risk (SICR) since initial recognition. If there is no SICR as compared to initial recognition, the Company measures ECL at an amount equal to 12-month ECL. When making the assessment of whether there has been a SICR since initial recognition, the Company considers reasonable and supportable information, that is available without undue cost or effort. If the Company measured loss allowance as lifetime ECL in the previous period, but determines in a subsequent period that there has been no SICR since initial recognition due to improvement in credit quality, the Company again measures the loss allowance based on 12-month ECL.

ECL is measured on individual basis for credit impaired loan assets, and on other loan assets it is generally measured on collective basis using homogenous groups.

The Company measures impairment on commitments under LoC & LoU on similar basis as in case of Loan assets.

(b) Impairment of financial assets, other than loan assets:

ECL on financial assets, other than loan assets, is measured at an amount equal to life time expected losses.

(iv) De-recognition of Financial Assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset along with all the substantial risks and rewards of ownership of the asset to another party. The renegotiation or modification of the contractual cash flows of a financial asset can also lead to derecognition of the existing financial asset.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received & receivable, and the cumulative gain or loss that had been recognised in Other Comprehensive Income and accumulated in Equity, is recognised in Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Statement of Profit and Loss on disposal of that financial asset.

5.3.2 Financial Liabilities

(i) All financial liabilities other than derivatives and financial guarantee contracts are subsequently measured at amortised cost using the effective interest rate (EIR) method.

EIR is determined at the initial recognition of the financial liability. EIR is subsequently updated for financial liabilities having floating interest rate, at the respective reset date, in accordance with the terms of the respective contract.

(ii) Financial guarantee

A financial guarantee issued by the Company is initially measured at fair value and, if not designated as at FVTPL, is subsequently measured at the higher of:

- the best estimate of expenditure required to settle any financial obligation arising as a result of the guarantee; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in the Statement of Profit and Loss.

(iii) De-recognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid & payable is recognised in Statement of Profit and Loss.

5.3.3 Derivative Financial Instruments

(i) The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks.

(ii) Under hedge accounting, an entity can designate derivative contracts either as cash flow hedge or fair value hedge. The Company designates certain derivative contracts as cash flow hedge or fair value hedge.

(iii) To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- There is an economic relationship between the hedged item and the hedging instrument.
- The effect of credit risk does not dominate the value changes that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Company actually hedges and the quantity of the hedging instrument that the Company actually uses to hedge that quantity of hedged item.

(iv) Cash flow hedge

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Statement of Profit and Loss on a systematic basis. The gain or loss relating to ineffective portion is recognized immediately in Statement of Profit and Loss.

(v) Fair Value hedge

The Company remeasures the hedged item for fair value changes attributable to the hedged risk (i.e. changes in the benchmark rate). Such fair value hedge adjustment are recognised in the statement of profit or loss at end of every reporting period. The change in fair value of the underlying hedged item on account of attributable hedged risk (benchmark rate) is offset by corresponding change in fair value of the derivative (Fixed to Float IRS).

(vi) Hedge accounting is discontinued when the hedging instrument expires, or terminated, or exercised, or when it no longer qualifies for hedge accounting.

(vii) Derivatives, other than those designated under hedge relationship, are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in Statement of Profit and Loss.

5.4 Offsetting of Financial Assets and Financial Liabilities

Financial Assets and Financial Liabilities are offset and the net amount is presented in the balance sheet when currently there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

5.5 Property, Plant and Equipment (PPE) and Depreciation

(i) Items of PPE are initially recognised at cost. Subsequent measurement is done at cost less accumulated depreciation and accumulated impairment losses, if any, except for freehold land which is not depreciated. An item of PPE retired from active use and held for disposal is stated at lower of its book value or net realizable value.

(ii) In case of assets put to use, capitalisation is done on the basis of bills approved or estimated value of work done as per contracts where final bill(s) is/are yet to be received / approved, subject to necessary adjustment in the year of final settlement.

(iii) Cost of replacing part of an item of PPE is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. Maintenance or servicing costs of PPE are recognized in Statement of Profit and Loss as incurred.

(iv) Under-construction PPE is carried at cost, less any recognised impairment loss. Such PPE items are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as of other assets, commences when the assets are ready for their intended use.

(v) Depreciation is recognised so as to write-off the cost of assets less their residual values as per written down value method, over the useful lives as prescribed in Schedule II to the Companies Act, 2013, except for cell phones where useful life has been estimated by the Company as 2 years. Residual value is estimated as 5% of the original cost of PPE.

(vi) Depreciation on additions to/deductions from PPE during the year is charged on pro-rata basis from / up to the date on which the asset is available for use/disposed.

(vii) An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

(viii) Items of PPE costing up to ₹ 5000/- each are fully depreciated, in the year of purchase.

5.6 Intangible Assets and Amortisation

(i) Intangible assets with finite useful lives that are acquired separately are recognised at cost. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use. Subsequent measurement is done at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives.

(ii) Expenditure incurred which are eligible for capitalisation under intangible assets is carried as Intangible Assets under Development till they are ready for their intended use.

(iii) Estimated useful life of intangible assets with finite useful lives has been estimated by the Company as 5 years.

(iv) An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognised in the Statement of Profit and Loss when the asset is derecognised.

5.7 Leases

For recognition, measurement and presentation of lease contracts, the Company applies the principles of Ind AS 116 'Leases'.

(i) The Company as a lessee

The Company at inception of a contract assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether

(a) the Company has substantially all of the economic benefits from use of the asset through the period of the lease, and

(b) the Company has the right to direct the use of the identified asset.

The Company at inception of a lease contract recognizes a Right-of-Use (RoU) asset at cost and a corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets which are recognised as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. RoU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use (RoU) assets are initially recognized at cost, which comprise the initial amount of the lease liability adjusted for any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. They are subsequently measured at cost less any accumulated depreciation and accumulated impairment losses. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

The lease liability is initially measured at amortised cost at the present value of future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the company's incremental borrowing rates in the country of domicile of the leases.

Lease liabilities are re-measured with a corresponding adjustment to the related right-of-use (RoU) asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and RoU asset is separately presented in the Balance Sheet. Interest expense on lease liability is presented separately from depreciation on right of use asset as a component of finance cost in the Statement of Profit and Loss. Lease payments for the principal portion are classified as Cash flow used in financing activities and lease payments for the interest portion are classified as Cash flow used in operating activities.

(ii) The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Contracts in which all the risks and rewards of the lease are substantially transferred to the lessee are classified as a finance lease. All other leases are classified as operating leases. For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

Amount due from lessee under finance leases is recognised as receivable at an amount equal to the net investment of the Company in the lease. Finance income on the lease is allocated to accounting periods so as to reflect a constant periodic rate of return on the Company's net investment outstanding in respect of lease at the reporting date.

5.8 Provisions, Contingent Liabilities and Contingent Assets

(i) Provisions are recognised when the Company has a present legal or constructive obligation as a result of a past event, if it is probable that the Company will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(ii) The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

(iii) When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(iv) Where it is not probable that an outflow of economic benefits will be required or the amount cannot be estimated reliably, the obligation is disclosed as contingent liability in notes to accounts, unless the probability of outflow of economic benefits is remote.

(v) Contingent assets are not recognised in the financial statements. However, contingent assets are disclosed in the financial statements when inflow of economic benefits is probable.

5.9 Recognition of Income and Expenditure

(i) Interest income, on financial assets subsequently measured at amortised cost, is recognized using the Effective Interest Rate (EIR) method. The Effective Interest Rate (EIR) is the rate that exactly discounts estimated future cash receipts through expected life of the financial asset to that asset's net carrying amount on initial recognition.

(ii) Interest on financial assets subsequently measured at fair value through profit and loss(FVTPL), is recognized on accrual basis in accordance with the terms of the respective contract and disclosed separately under the head 'Interest Income'

(iii) Rebate on account of timely payment of dues by borrowers is recognized on receipt of entire dues in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

(iv) Income from services rendered is recognized based on the terms of agreements / arrangements with reference to the stage of completion of contract at the reporting date.

(v) Dividend income from investments including those measured at FVTPL, is recognized in Statement of Profit and Loss under the head 'Dividend Income' when the Company's right to receive dividend is established and the amount of dividend can be measured reliably.

(vi) Interest expense on financial liabilities subsequently measured at amortised cost is recognized using Effective Interest Rate (EIR) method.

(vii) Other income and expenses are accounted on accrual basis, in accordance with terms of the respective contract.

(viii) A Prepaid expense up to ₹ 1,00,000/- is recognized as expense upon initial recognition in the Statement of Profit and Loss.

5.10 Foreign Currency Transactions and Translations

Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currency are translated using exchange rates prevailing on the last day of the reporting period. Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise. However, for the long-term monetary items recognised in the financial statements before April 01, 2018, such exchange differences are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortised over the balance period of such long term monetary item.

5.11 Employee Benefits

(i) Defined Contribution Plan

Company's contribution paid / payable during the reporting period towards pension is charged in the Statement of Profit and Loss when employees have rendered service entitling them to the contributions.

(ii) Defined Benefit Plan

The Company's obligation towards provident fund, gratuity to employees and post-retirement benefits such as medical benefit, economic rehabilitation benefit, and settlement allowance after retirement are determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Actuarial gain / loss on re-measurement of gratuity and other post-employment defined benefit plans are recognized in Other Comprehensive Income (OCI). Past service cost is recognized in the Statement of Profit and Loss in the period of a plan amendment.

(iii) Other long term employee benefits

The Company's obligation towards leave encashment, service award scheme is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These obligations are recognised in the Statement of Profit and Loss.

(iv) Short term employee benefits

Short term employee benefits such as salaries and wages are recognised in the Statement of Profit and Loss, in the period in which the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

(v) Loan to employees at concessional rate

Loans given to employees at concessional rate are initially recognized at fair value and subsequently measured at amortised cost. The difference between the initial fair value of such loans and transaction value is recognised as deferred employee cost upon issuance of Loan, which is amortised on a straight-line basis over the expected remaining period of the loan. In case of change in expected remaining period of the loan, the unamortised deferred employee cost on the date of change is amortised over the updated expected remaining period of the Loan on a prospective basis.

5.12 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

5.13 Income Taxes

Income Tax expense comprises of current and deferred tax. It is recognised in Statement of Profit and Loss, except when it relates to an item that is recognised in OCI or directly in equity, in which case, tax is also recognised in OCI or directly in equity.

(i) Current Tax

Current tax is the expected tax payable on taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of earlier years.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and liability on a net basis.

(ii) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable income. Deferred tax is measured at the tax rates based on the laws that have been enacted or substantively enacted by the reporting date, based on the expected manner of realisation or settlement of the carrying amount of assets / liabilities. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against liabilities, and they relate to income taxes levied by the same tax authority.

A deferred tax liability is recognised for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

5.14 Earnings Per Share

Basic earnings per equity share is calculated by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

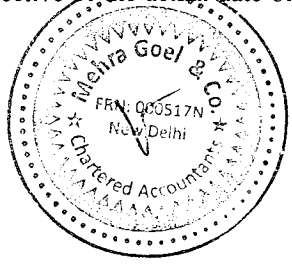
To calculate diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

5.15 Expenditure on issue of shares

Expenditure on issue of shares is charged to the securities premium account.

5.16 Dividends

Final dividends are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Board of Directors of the Company.



5.17 Business Combination under Common Control

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and that control is not transitory.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize material accounting policy information.
- The financial information in the financial statements in respect of prior periods is restated as if the business combination has occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination.

The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee. The identity of the reserves is preserved and the reserves of the transferor become the reserves of the transferee.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

6. Use of Estimates and Management Judgement

In preparation of the Standalone Financial Statements, the Management is required to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and the related disclosures. The estimates and underlying assumptions are based on historical experience & other relevant factors and are reviewed on an ongoing basis. Actual results may differ from these estimates.

Changes in accounting estimates, if any, are recognized prospectively in the period in which the estimate is revised if the revision affects only that period or in the period of the revision & future periods if it affects both current & future periods.

6.1 Significant Management Judgements

In order to enhance understanding of the Standalone Financial Statements, information about significant areas of critical judgments, apart from those involving estimation (Note 6.2), in applying accounting policies that have the most significant effect on the amounts recognised in the Standalone Financial Statements, are as under:

(i) Deferred tax Liability on Special Reserve

The Company had passed a Board resolution that it has no intention to withdraw any amount from the Special Reserve created and maintained under section 36(1)(viii) of the Income Tax Act, 1961. Accordingly, the Special Reserve created and maintained cannot be withdrawn and as there is no future tax incidence, the Company does not create deferred tax liability on the said reserve.

(ii) Non recognition of income on Credit Impaired loan assets

As a matter of prudence, income on credit impaired loan assets is recognised as and when received or on accrual basis when expected realization is higher than the loan amount outstanding.

(iii) Amortisation of transaction cost on credit impaired loan assets

Outstanding amount of unamortised transaction cost is credited to Statement of Profit and Loss on classification of loan asset as credit impaired.

(iv) Classification of Investments

In order to classify an investment in a company as investment in subsidiary or joint venture (JV) or associate, judgement is required to assess the level of control depending upon the facts and circumstances of each case.

(a) The Company along with its subsidiary RECL is holding 21.49 % stake in equity share capital of Energy Efficiency Services Limited (EESL). However, in the absence of any practical ability to direct the relevant activities as per the requirements of Ind AS 28'Investment in Associates and Joint Ventures', the Company does not have any significant influence, accordingly EESL has not been considered as an associate company.

(b) Ultra-Mega Power Projects (UMPPs) are managed as per the mandate from Government of India (GoI) and the Company does not have the practical ability to direct the relevant activities of these UMPPs unilaterally. The Company therefore, considers its investment in respective UMPPs as associates having significant influence despite the Company holding 100% of their paid-up equity share capital.

(c) By virtue of holding Board position or equity stake in borrower companies, the rights exercised by PFC in such companies are protective in nature. Thus, the borrower companies are not considered as Associates for the purpose of financial statements.

(v) Low value leases

An assessment is required, if lessee opts not to apply the recognition and measurement requirements of Ind AS 116 'Leases' to leases where the underlying asset is of low value. For the purpose of determining low value, the Company has considered nature of assets and concept of materiality as defined in Ind AS 1 'Presentation of Financial Statements' and the conceptual framework of Ind AS which involve significant judgement.

(vi) Sundry Liabilities- Interest Capitalisation

Unrealised income on credit impaired loans, represented by Funded Interest Term Loan (FITL) / debt / equity instruments acquired under resolution, is transferred to a separate account titled 'Sundry Liabilities Account (Interest Capitalisation)' and is recognised in Statement of Profit and Loss on repayment of FITL or sale / redemption of debt / equity instruments.

(vii) Evaluation of indicators for impairment loss allowance of financial assets

The evaluation of the applicability of indicators for computation of impairment loss allowance of assets requires assessment of several external and internal factors which could result in change in recoverable amount of the assets. The Company makes significant judgement in identifying the default and significant increase in credit risk (SICR) based on available information.

6.2 Assumptions and Key Sources of Estimation Uncertainty

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below:

(i) Defined Benefit Obligation (DBO)

The Company's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses as detailed at Note 44.2.

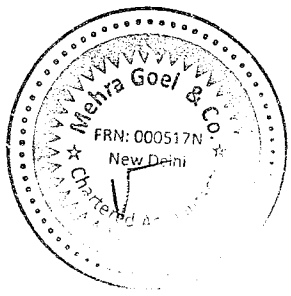
(ii) Impairment test of Financial Assets (Expected Credit Loss)

The measurement of impairment loss allowance for financial assets which includes loan, LoCs, LoUs and guarantees measured at amortised cost requires use of statistical models, expected future economic conditions, estimated cash flows and credit behaviour (e.g., inputs and weights used for credit risk scoring, likelihood of borrowers defaulting and resulting losses). The cash flows expected to be recovered from credit impaired loans are assessed based on the borrower's financial situation, current status of the project, bid-value, resolution plan amount, OTS amount as available.

As these estimates are based on various assumptions, actual results may vary. Refer Note 40.1 for further details.

(iii) Fair value measurement

Fair value of financial instruments is required to be estimated for financial reporting purposes. The Company applies appropriate valuation techniques and inputs for fair value measurements. In estimating the fair value of an asset or a liability, the Company uses quoted prices and market-observable data to the extent it is available. In case of non-availability of the same, unobservable inputs are used for calculation of fair value of the assets / liabilities. The information about the valuation techniques, inputs used in determination of fair value of various assets & liabilities and other details are disclosed at Note 42.



(iv) Income Taxes

Estimates are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset. Refer Note 37 for details.

(v) Useful life of Property, Plant & Equipment (PPE) and Intangible Assets

The Company reviews its estimate of the useful lives of depreciable / amortisable assets at the end of each financial year, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets. Refer Note 15 for details on useful lives and carrying values of PPE and Intangible assets.

(xi)	Jharkhand Infrapower Limited	India	100%	100%

*During the year, PFC Board subject to approval of Ministry of Power, GoI has proposed to strike off the name of Company from Register of Companies.

**Investment in each associate is ₹ 0.05 crore as at 31.03.2025 and 31.03.2024. These associates are companies incorporated as SPVs under mandate from GoI for development of Ultra Mega Power Projects (UMPPs) with the intention to hand over the same to successful bidders on completion of the bidding process. As per directions received from Ministry of Power, GoI, these associate companies are under the process of Strike off.

12.4 At initial recognition, the Company made an irrevocable election to present subsequent changes in the fair value of certain equity instruments in other comprehensive income. The Company's main operation is to extend financial assistance to power, logistics and infrastructure sector. Thus, in order to insulate Standalone Statement of Profit and Loss from price fluctuations of these instruments, the Management believes that FVTOCI classification provides a more meaningful presentation, rather than classifying them at FVTPL.

Details of FVTOCI instruments derecognised during the year:

Details of investment	No. of shares/units derecognised	Fair Value as on date of de-recognition (in ₹ Cr)	Cumulative gain/ (loss) on de-recognition (in ₹ Cr)
FY 2024-25			
NHPC Limited[(a)]	1,49,99,717	161.01	114.38
FY 2023-24			
NHPC Limited[(a)]	3,76,44,978	246.76	164.76

(a) These equity shares were sold in tranches during the year considering the market scenario. The fair value and gain have been computed based on the price as on the respective date of de-recognition and has been presented above on aggregate basis.
Subsequent to de-recognition of such investments, the Company has transferred the cumulative gain/loss on such shares within Equity (from Reserve for Equity Instruments through OCI to Retained Earnings) during the year. Refer Standalone Statement of Changes in Equity for further details.

12.5 Refer Note 42 for details of fair valuation of investments.

13 Other Financial Assets

The Company has categorised other financial assets at amortised cost in accordance with the requirements of Ind AS 109 'Financial Instruments'.

(₹ in crore)

18.13 None of the borrowings have been guaranteed by Directors.

18.14 There has been no default in repayment of borrowings and interest during periods presented above.

18.15 The amounts raised during the year have been utilized for the stated objects in the offer document/Information memorandum/facility agreement.

18.16 The Company has not received any fund which are material either individually or in the aggregate from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

19 Subordinated Liabilities

The Company has categorised Subordinated Liabilities at amortised cost in accordance with the requirements of Ind AS 109 'Financial Instruments'.

(₹ in crore)

Sr. No.	Particulars	As at 31.03.2025	As at 31.03.2024
(A)	**Subordinated Liabilities (Unsecured)**		
(i)	Perpetual Debt Instruments (Principal Outstanding) (Refer note 19.1)	100.00	100.00
(ii)	Subordinated Bonds (Principal Outstanding) (Refer note 19.2)	3,411.50	5,411.50
(iii)	**Total Principal Outstanding of Subordinated Laibilities**	**3,511.50**	**5,511.50**
(iv)	Interest accrued but not due on (iii) above	6.12	9.73
(v)	Unamortised Transaction Cost on (iii) above	(1.02)	(1.51)
(vi)	Hedging Adjustments - Loan Liability - FV Hedge on (iii) above	47.75	-
	Total Subordinated Liabilities	**3,564.35**	**5,519.72**
(B)	**Geography wise Subordinated Liabilities**		
(i)	Subordinated Liabilities in India	3,564.35	5,519.72
(ii)	Subordinated Liabilities outside India	-	-
	Total Geography wise Subordinated Liabilities	**3,564.35**	**5,519.72**

19.1 Details of Perpetual Debt Instruments (Unsecured) are as under :

Sr. No.	Subordinated Bond Series	Coupon Rate (p.a.)	Principal Amount (₹ in crore) outstanding as at		Date of Redemption	Redemption details
			31.03.2025	31.03.2024		
1	7.88 PERPETUAL TX UNS BND SRS 236	7.88%	100.00	100.00	NA	Perpetual bonds callable only at the option of the Company after minimum 10 years with prior approval of RBI.
Total Perpetual Debt			**100.00**	**100.00**		

The Company had issued Perpetual Debt Instruments (PDI) of Rs 100 crore having face value of Rs 1 crore each, with no maturity and callable only at the option of the Company after minimum 10 years with prior approval of RBI. The claims of the holders of the PDI are:

(a) Superior to the claims of the holders of the equity shares issued by the Company and perpetual non-cumulative preference shares, if any, of the Company; and

(b) Subordinated to the claims of all other creditors of the Company (but pari-passu inter se the holders of the PDIs). The Company may defer the payment of Coupon, if:

(i) The capital to risk assets ratio ("CRAR") of the Company is below the minimum regulatory requirement prescribed by RBI; or

(ii) the impact of such payment results in CRAR of the Company falling below or remaining below the minimum regulatory requirement prescribed by RBI. Further, it also has certain unique features which, inter-alia, grant PFC, in consultation with RBI a discretion in terms of writing down the principal / interest, to skip interest payments, to make an early recall etc. without commensurate right for investors to legal recourse, even if such actions might result in potential loss to investors. As these securities are perpetual in nature and claim of PDI holders is subordinate to claim of all other creditors and further as the Company does not have an unconditional right not to pay the coupon, these have been classified under subordinated liabilities.

19.2 Details of Subordinated Debt (Unsecured) are as under :

Sr. No.	Subordinated Bond Series	Coupon Rate (p.a.)	Principal Amount (₹ in crore) outstanding as at		Date of Redemption	Redemption details
			31.03.2025	31.03.2024		
1	Bond Series 184A	9.25%	-	2,000.00	25.09.2024	Repaid in FY 2024-25
2	Bond Series 184 B	9.10%	2,411.50	2,411.50	25.03.2029	Redeemable at par in FY 2028-29.
3	Bond Series 185	8.98%	1,000.00	1,000.00	28.03.2029	Redeemable at par in FY 2028-29.
Total Subordinated Debt			**3,411.50**	**5,411.50**		

20 Other Financial Liabilities

The Company has categorised Other Financial Liabilities at amortised cost in accordance with the requirements of Ind AS 109 'Financial Instruments' other than "Lease Liability" presented below, which is measured in accordance with Ind AS 116 'Leases'.

(₹ in crore)

Sr. No.	Particulars	As at 31.03.2025	As at 31.03.2024
(i)	Payable on account of Unsecured Government of India Serviced Bonds (Refer note 20.1)	5,038.21	5,038.72

Balance as at the end of the year	**20,292.33**	**15,876.21**

(x) Reserve for Equity Instruments through Other Comprehensive Income :

The Company elected to recognise changes in the fair value of certain investment in equity instruments through other comprehensive income. It represents cumulative gains and losses arising on the revaluation of equity instruments measured at fair value through other comprehensive income. When the asset is derecognized, amounts in the reserve are subsequently transferred to retained earnings and not to standalone statement of profit and loss. Dividends on such investments are recognized in statement of profit & loss unless the dividend clearly represents a recovery of part of the cost of the investment.

Details of Movement during the year:

(₹ in crore)

Particulars	**As at 31.03.2025**	**As at 31.03.2024**
Balance as at the beginning of the year	**1,278.50**	**55.54**
Add: Recognition through Other Comprehensive Income / (Expense) (net of taxes)	(55.13)	1,387.72
Less: Reclassification of (gain)/ loss on sale/ extinguishment of FVOCI equity instrument (net of taxes)	(114.38)	(164.76)
Balance as at the end of the year	**1,108.99**	**1,278.50**

(xi) Reserve for Effective portion of Cash Flow Hedges

The intrinsic value of hedging instruments which meets the qualifying criteria for hedge accounting & are designated and qualify as cash flow hedges is recognized in this reserve. The amounts recognized in such reserve are reclassified to the Statement of Profit or Loss when the hedged item affects profit or loss.

Details of Movement during the year:

(₹ in crore)

Particulars	**As at 31.03.2025**	**As at 31.03.2024**

35. Corporate Social Responsibility

In accordance with the Companies (Corporate Social Responsibility Policy) Amendment Rules, 2021 notified w.e.f. 22.01.2021, any unspent amount pursuant to any ongoing project shall be transferred to unspent CSR Account in any scheduled bank within a period of thirty days from the end of the financial year, to be utilised within a period of three financial years from the date of such transfer, after which any unspent CSR amount, if any shall be transferred to a Fund specified in Schedule VII, within a period of thirty days from the date of completion of the third financial year. Any unspent CSR amount, other than for any ongoing project, shall be transferred to a Fund specified in Schedule VII, within a period of six months of the expiry of the financial year. Further, if the company spends an amount in excess of the requirement under statute, the excess amount may be carried forward and set off in three succeeding financial years against the amount to be spent.

As the notification was made effective during FY 2020-21, the Company complied with the amended provisions of Section 135 of the Companies Act, 2013 with effect from the FY 2020-21. Accordingly, the unspent CSR amount upto 31.03.2020 would continue to be dealt with in accordance with the pre-amendment framework.

35.1 Details of amount required to be spent by the Company on CSR activities during the year:

(₹ in crore)

Sr. No.	Particulars	FY 2024-25			FY 2023-24		
		For FY 2024-25	For period up to 31.03.2020	Total	For FY 2023-24	For period up to 31.03.2020	Total

(ii)	for discontinued operations	-	-
(iii)	for continuing and discontinued operations	52.58	43.53

39. Capital Management

The Company maintains a capital base that is adequate to support the Company's risk profile, regulatory and business needs. The Company sources funds from domestic and international financial markets, inter-alia leading to diverse investor base and optimised cost of capital. Refer Note 17, 18 and 19 for details w.r.t. sources of funds and refer Standalone Statement of Changes in Equity for details w.r.t Equity.

As contained in Master Direction- Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023, as amended from time to time (hereinafter referred to as "RBI Master Directions"), the Company is required to maintain a capital ratio consisting of Tier I and Tier II capital which shall not be less than 15% of its aggregate risk weighted assets on-balance sheet and of risk adjusted value of off-balance sheet items. Out of this, Tier I capital shall not be less than 10%. The Company regularly monitors the maintenance of prescribed levels of Capital to Risk Weighted Assets Ratio (CRAR). Further, with regard to capital restructuring, the Company is also guided, inter alia, by guidelines on "Capital Restructuring of Central Public Sector Enterprises" issued by Department of Investment and Public Asset Management (DIPAM), Ministry of Finance, Department of Public Enterprises in respect of issue of bonus shares, dividend distribution, buy back of equity shares etc.

39.1 Certain key financial parameters of the Company are as under:

Sr. No.	Ratios	Numerator	Denominator	As at 31.03.2025	As at 31.03.2024
(i)*	Total Capital to risk- weighted assets ratio (CRAR)	Tier I Capital + Tier II Capital	Risk Weighted assets	22.08%	25.41%
	CRAR – Tier I Capital**	Tier I Capital	Risk Weighted assets	20.29%	23.18%
	CRAR – Tier II Capital	Tier II Capital	Risk Weighted assets	1.79%	2.23%
(ii)*	Liquidity Coverage Ratio(LCR) (refer Note 54.6)	Total High Quality Liquid Assets	Total Net Cash Outflows	100.00%	85.00%
(iii)	Debt- Equity Ratio (times)	Total Debt (principal outstanding)	Net Worth	5.12	5.14

* Computed as per applicable RBI guidelines.

**The amount of perpetual debt instruments of the Tier-I Capital is 0.13% (previous year 0.16%).

39.2 Details of Subordinated and Perpetual Debt Instruments raised during the year are as under:

(₹ in crore)

Particulars	Year ended 31.03.2025	Year ended 31.03.2024
Amount of Subordinated Debt raised as Tier-II capital	-	-
Amount raised by issue of Perpetual Debt Instruments	-	100.00

39.3 Dividend Distribution Policy

The Company has a well-defined dividend distribution policy. Dividend distribution policy focuses on various factors including but not limited to GoI guidelines, RBI circulars / guidelines, future capital expenditure plans, profits earned during the financial year, cost of raising funds from alternate sources, cash flow position and applicable taxes if any, subject to the guidelines as applicable from time to time.

Being a Central Public Sector Enterprise, the Company is required to comply with the guidelines on "Capital Restructuring of Central Public Sector Enterprises" issued by DIPAM, Govt. of India. As per DIPAM Guidelines, every CPSE would pay minimum annual dividend of 30% of PAT or 4% of the net-worth, whichever is higher subject to the limit, if any, under any extant legal provision. Financial sector CPSEs like NBFCs (applicable to PFC) may pay minimum annual dividend of 30% of PAT subject to the limit, if any, under any extant legal provisions.

Further, DIPAM advised that CPSEs may consider paying interim dividend every quarter after quarterly results, or at least twice a year. Further, all listed CPSEs should consider paying at least 90% of projected annual dividend, in one or more instalments, as interim dividend.

However, the Company may also consider various internal factors which inter-alia includes net-worth and capacity to borrow, CAPEX / business expansion needs; additional investments in subsidiaries / associates of the Company etc. The detailed Dividend Distribution Policy is available on the Company's website. For details of dividend paid / recommended during the year, refer Note 24.2.

40. FINANCIAL RISK MANAGEMENT

The Company is exposed to several risks which are inherent to the environment that it operates in. The Company is into business of extending financial assistance to power, logistics and infrastructure sector. The principal risks which are inherent with the Company's business model and from its use of financial instruments include credit risk, liquidity risk and market risk (currency risk, interest rate risk and price risk).

The following table broadly explains sources of risks which the Company is exposed to and how it manages the same and related impact in the financial statements:

Note	Risk	Exposure arising from	Measurement	Risk Management
40.1	Credit Risk	Loans, Investments (other than G-Sec), cash and cash equivalents, other financial assets	Ageing analysis	Detailed appraisal process, credit concentration limits and collateral including government guarantee
40.2	Liquidity Risk	Debt securities, Borrowings (other than debt securities), subordinated liabilities and other financial liabilities	Cash flow forecasts	Availability of committed credit lines and borrowing facilities
40.3	Market Risk – Foreign Currency Risk	Recognised financial liabilities not denominated in Indian Rupee (INR)	Sensitivity Analysis	Derivative contracts for hedging currency risk
40.4	Market Risk – Interest Rate Risk	Debt securities, Borrowings (other than debt securities), subordinated liabilities and loans at variable interest rates	Interest rate sensitivity analysis	Mix of loan arrangements with varied interest rate terms, derivative contract like interest rate swaps etc.
40.5	Market Risk – Price Risk	Investments in quoted equity instruments	Sensitivity Analysis	Diversification of portfolio, with focus on strategic investments

For managing these risks, the Company has put in place an integrated enterprise-wide risk management mechanism to ensure that these risks are monitored carefully and managed efficiently. In accordance with the RBI Master Direction in order to augment risk management practices in the Company, the Company has a Chief Risk Officer (CRO) who is involved in the process of identification, measurement and mitigation of risks. The Company also has a Board level Risk Management Committee (BLRMC), whose main function is to monitor and review the risk management plan of the Company and to make recommendations to the Board of Directors for taking up various risk management activities. The Chief Risk Officer (CRO) is a permanent invitee to all the meetings of Risk Management Committee. The risk management approach i.e., Company's objectives, policies and processes for identifying, measuring and managing each of above risk is set out in the subsequent paragraphs.

40.1 Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Company by failing to discharge its obligation. Details of financial assets that expose the Company to credit risk are:

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Low Credit Risk		
Cash and cash equivalents[a]	22.03	21.76
Bank balances other than included in cash and cash equivalents[a]	6,820.63	200.05
Loans (Principal Outstanding)[c]	5,01,495.96	4,34,204.39
Investments (Excluding equity investments)[a]	2,999.19	2,371.46
Other financial assets[b]	5,951.72	6,052.91
Trade receivables[b]	-	-
Moderate Credit Risk		
Loans (Principal Outstanding)[c]	31,107.60	31,184.29
High Credit Risk		
Loans (Principal Outstanding)[c]	10,516.85	16,073.22
Investments (Excluding equity investments)[a]	72.95	72.95
Other financial assets[b]	29.09	21.46
Trade receivables[b]	0.81	0.81

[a] Credit risk on cash and cash equivalents and other bank balances is limited as these are held with scheduled commercial public sector banks, high rated private sector banks and mutual fund houses, which meets the empanelment criteria as set out in the Company's policy. The Company has also set exposure limits for deployment of funds in various types of instruments with respective banks / mutual fund houses.

For investments, the Company manages its exposure to credit risk by periodically monitoring such investments, and applying the appropriate valuation techniques to arrive at the carrying value. The Company carries an impairment loss allowance of ₹ 72.95 crore on its investments as at 31.03.2025 (as at 31.03.2024 ₹ 72.95 crore).

[b] Credit risk on other financial assets and trade receivables is evaluated based on Company's knowledge of the credit worthiness of those parties and managed by monitoring the recoverability of such amounts. The Company carries an impairment loss allowance of ₹ 29.90 crore on its other financial assets and trade receivables as at 31.03.2025 (as at 31.03.2024 ₹ 22.27 crore).

[c] The Company is exposed to credit risk primarily through its lending operations. The same is explained in the paragraphs below.

40.1.1 Credit Risk Management for Lending Operations

The Company has put in place key policies and processes for managing credit risk, which include formulating credit policies, guiding the Company's appetite for credit risk exposures, undertaking reviews & objective assessment of credit risk, and monitoring performance and management of portfolios. All the procedures and processes of the Company are ISO 9001:2015 certified.

The credit risk management covers two key areas, i.e., project appraisal & project monitoring. The Company selects the borrowers in accordance with the Company's approved credit policy, which inter alia, defines factors to be considered for rating of the borrower / project. The Company's customer selection procedure assesses viability of project along with that of its promoting entity. Rate of interest and maximum admissible exposure is, inter alia, based on internal rating awarded by the Company.

(i) Appraisal of Projects

The Company follows a systematic, institutional project appraisal process to assess the credit risk before financing any project.

(a) Appraisal for Private Sector Projects

For private sector projects, a two-stage appraisal process is followed. Initially a preliminary appraisal is carried out in order to decide the prima facie preparedness of the project to be taken up for detailed appraisal. Detailed appraisal is carried out for those projects shortlisted on the basis of preliminary appraisal.
The Company along with evaluation of project viability also assesses the ability of its promoter(s) to contribute equity and complete the project. The Company follows an integrated rating methodology whereby Integrated Rating (IR) is calculated using the weighted average of the scores of the project grading and promoter grading. Based on the IR of the project, terms and conditions (including security package, interest rate and debt-equity ratio) are stipulated.

(b) Appraisal for State Sector Projects

State sector projects are taken up for detailed appraisal to determine, inter-alia, if they are techno economically / financially sound and compatible with integrated power development & expansion plans of the State.

The Company classifies state power generation utilities into various risk rating grades based on the evaluation of utility's performance against specific parameters covering operational and financial performance. With regards to transmission utilities, the Company adopts the categorisation of its subsidiary RECL as per its policy. With regard to State Power Distribution utilities including integrated utilities, the Company's categorisation policy provides for adoption of Ministry of Power's (MoP's) Integrated Ratings by aligning such ratings / grading with that of Company's rating structure. The categorization of Borrowers in the Logistics and Non-Power Infrastructure sector is carried out on the basis of recommendations of the Internal Committee considering the strengths and weaknesses of the project.

Such categories / ratings are used to determine security requirements and pricing of loans given to the State Sector Borrowers. The Company also has a mechanism in place for monitoring the exposure to borrowers.

The detailed project appraisal involves technical and financial appraisal covering various aspects such as project inputs, statutory and non-statutory clearances, contracts, implementation plan, project linkages, financial modelling / projections, calculation of returns, sensitivity analysis etc.

After detailed analysis indicated above, the overall viability of the project and entity is assessed and various conditions in the form of pre-commitment, pre-disbursement and other conditions are stipulated so as to ensure tying up of funds (debt and equity both), all physical inputs, appropriateness of all the contracts, compliance of conditions precedent in agreements / contracts / statutory and non- statutory clearances related to the project etc. and in general to ensure bankability of the project & protection of the interest of the Company as a lender for timely servicing of debt. The Company has an authorisation / delegation structure for the approval of credit facilities commensurating with the size of the loan.

(ii) Security and Covenants

The Company stipulates a package of security measures / covenants to mitigate risks during the construction and post COD (commercial operation date) stage of the project. Based on the risk appetite and appraisal of the project, the Company adopts a combination of the following measures:

(a) Primary Security -Charge on Project Assets and / or State Government Guarantees
(b) Collateral Securities - Corporate guarantee, Personal guarantee of promoters, Pledge of shares, Charge on assets / revenues of group/other companies

(c) Payment Security Mechanism - Escrow Account / Letter of Credit, Trust and Retention Account (TRA)
(d) Other covenants - Assignment of all project contracts, documents, insurance policies in favour of the Company, Upfront equity requirement, Debt Service Reserve Account (DSRA), Debt Equity ratio, shareholders' agreements, financial closure, etc.

(iii) Project Monitoring

The Company has comprehensive project / loan monitoring guidelines that captures aspects relating to monitoring, tracking of project construction, implementation, identifies risks where intervention is required to minimize the time / cost overruns / consequent slippages in disbursements and including progress of commissioned projects.

For State sector projects, monitoring is being carried out on the basis of project progress details obtained regularly from borrowers, site visits, discussions with the borrowers, information/reports available on Central Electricity Authority's (CEA) website etc.

For private sector, where the Company is Lead Financial Institution (FI), the Company engages Lenders' Engineers (LEs) / Project Management Agency (PMA) (a single entity, thereby facilitating better coordination of project monitoring activities) / Lenders' Financial Advisors (LFAs), which are independent agencies to act on behalf of various lenders / consortium members. The PMA / LEs conduct periodic site visits, review relevant documents, discusses with the borrowers and submit its reports on progress of the project. LFAs submit the statements of fund flow and utilization of funds in the project periodically. In cases the Company is not the lead FI, the tasks related to PMA / LEs and LFAs services are coordinated with the concerned lead lender.

Also, the consolidated periodic progress report of certain projects is prepared comprising important observations / issues viz. areas of concern, reasons for delay, issues affecting project construction / implementation etc. and is reviewed by the Company on a regular basis.

The Company continuously monitors delays and / or default of borrowers and their recoverability. On occurrence of default in the borrower's account, the Company initiates necessary steps which may involve action(s) including, but not limited to, Special Mention Account (SMA) reporting to RBI, credit information reporting to Central Repository of Information on Large Credits (CRILC) etc., regularization of the account by recovering all over dues, invocation of guarantees / securities to recover the dues, conversion of loan into equity as per loan agreement, restructuring of loan account, formulating resolution plan with the borrower, change in ownership, Corporate Insolvency Resolution Process (CIRP) under IBC -2016, sale of the exposures to other entities/investors, other recovery mechanisms like referring the case for legal action before Debt Recovery Tribunal (DRT), SARFAESI, etc. and other actions as specified under regulatory / legal framework.

40.1.2 Credit Risk Measurement - Impairment Assessment for Lending Operations

(i) Staging of loans

Ind-AS 109 outlines a three staged model for measurement of impairment based on changes in credit risk since initial recognition. For classification of its borrowers into various stages, the Company uses the following basis:

- A financial asset that is not credit impaired on initial recognition is classified in 'Stage 1'.
- If a significant increase in credit risk (SICR) is identified, the financial asset is moved to 'Stage 2'.

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting date by considering the change in the risk of default occurring over the remaining life of the financial assets. In accordance with Ind AS 109 'Financial Instruments', the Company has applied rebuttable presumption that considers more than 30 days past due as a parameter for determining significant increase in credit risk. Further, in case of private sector borrowers, other factors like downgradation in external credit rating to 'C-', restructuring resulting in asset downgradation as per IRAC norms, delay in commissioning of project for more than 4 years are also considered.

- If the financial asset is credit-impaired, it is moved to 'Stage 3' category.

In case of Stage 3 financial assets, after implementation of the resolution plan (except for change of ownership and/or resolution through NCLT), the financial asset is upgraded and classified as Stage 2 for four quarters from the date of implementation of resolution plan.

(ii) Default

In accordance with Ind AS 109 'Financial Instruments', the Company considers the rebuttable presumption to define a financial asset as in default, i.e. when the loan account is more than 90 days past due on its contractual payments. Credit impaired financial assets are aligned with the definition of default.

(iii) Measurement of Expected Credit Loss (ECL)

The Company recognises impairment loss allowance for the financial assets in accordance with a Board-approved expected credit loss (ECL) policy. ECL is measured on either a 12 month or lifetime basis depending on whether there is significant increase in credit risk since initial recognition. ECL is the product of Probability of default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). The Company has appointed an independent agency, CRISIL Ltd., for assessment of ECL in accordance with Ind AS 109 'Financial Instruments'. The brief methodology of computation of ECL is as follows:

(a) Probability of default (PD)
PD is an estimate of the likelihood of default over a given time horizon. It is estimated as at a point in time. For assessing 12-month PD, probability of a loan defaulting in next 12 months is ascertained and similarly for assessing lifetime PD, probability of a loan defaulting in its remaining lifetime is ascertained.
For Stage 1 accounts, 12 months PD is used.
For Stage 2 (significantly increased credit risk accounts), Lifetime PD is used.
For Stage 3 (credit impaired accounts), 100% PD is taken.

12-month PD: In case of State Sector borrowers, for the purpose of PD calculation, the risk rating grades of the utilities are considered. For Gencos / Transcos / Others, PFC's internal rating grades have been considered. For Discoms / Power Department borrowers, PFC has adopted the MoP ratings. The ratings as above has been be mapped with the standard external rating benchmarks. The PD factor associated with the mapped external rating as given in the PD transition matrix published by various CRAs have been used for PD calculation.

In case of Private sector borrowers, the latest external rating as published by various Credit Rating Agencies have been referred to compute PD using the PD transition matrix published by various CRAs . If external rating is not available, the PD has been computed through Proxy Risk Scoring Model on a 10-point scale with 1 suggesting minimum risk and 10 suggesting the highest risk. The said model uses the Quantitative financial ratios like Gearing (Debt / Equity), Return on Capital Employed, Interest Coverage ratio, Debt to EBITDA ratio and qualitative factors like PLF, ACS / ARR ratio or LAF to arrive at the final Risk score. The financial risk score obtained have been mapped to external rating benchmarks. This mapped rating has been referred to compute PD associated with the rating using the PD transition matrix published by various CRAs.
For Lifetime PD: Markov Chain Model has been used to compute Lifetime PDs of the rating grade.

(b) Loss Given Default (LGD)
LGD is the loss factor which the Company may experience in case the default occurs.

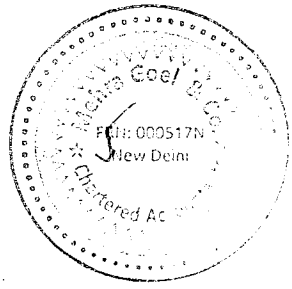
For State sector borrowers, the exposure is bifurcated into guaranteed and non guaranteed portion. Flat LGD has been applied to the exposure amount which is guaranteed by the State. For non guaranteed portion, the company considers the credit worthiness of the states on various parameters while estimating the LGD. For estimating the credit worthiness of the state, parameters like State GDP per capita, Fiscal deficit / GDP ratio, Proportion of infra and developmental expenditure and Proportion on Revenue Expenditure on Energy Sector, etc. are used as key inputs. The state utilities are bifurcated into Low, Medium and High-risk category based on the state category. Moreover, for non-guaranteed portfolio of State Sector borrowers, additional stress factors have been considered in the estimation of LGD based on their respective rating groups to account for the likelihood of default owing to borrower's adverse financial conditions or inability to repay.Thus, the company derives the realizable value of the assets by considering stress factor(s) based on financial health of the state and rating of the borrower. In case of Private sector borrowers, LGD has been assessed considering various factors related to the project to arrive at realisable value of the plant such as generation capacity, project cost per MW, percentage completion of the plant, and book value of the assets, cost incurred and other relevant information. A stress factor was also applied as a haircut to arrive at the realisable value.

For Stage 3 borrowers, LGD has been assessed project wise based on Bid value / resolution plan amount/OTS amount / any other value / discounted cash flows etc. as applicable.

(c) Exposure at Default (EAD)
Exposure at Default is the outstanding exposure on which ECL is computed. EAD includes outstanding principal and interest accrued and interest overdues on financial assets that the Company expects to be owed in the event of default in respect of the loan. As per Note 6.1.(ii) , income on credit impaired assets is recognised as and when received or on accrual basis when expected realisation is higher than the loan amount outstanding, therefore, the same is not used in computation of Exposure at default.

(d) Key assumptions used in measurement of ECL
- The Company considers the date of initial recognition as the base date from which significant increase in credit risk is determined.

- Since the Company has a right to cancel any sanctioned but undrawn limits to any of its borrowers, EAD is assumed to be outstanding balance and interest of the loan as on the reporting date.



(e) The calculation of ECL incorporates forward-looking information. Further, the independent agency appointed to assist the Company in ECL assessment also consider the forward-looking information in the determination of the impairment allowance to be assigned to the borrower, by taking into consideration various project operational parameters, project financial ratios, extension of the project completion and also possibility of stressed and favourable economic conditions. Further, the independent agency has also added some additional macroeconomic parameters such as Power demand, GDP growth, monthly weighted average prices of traded power and current account to arrive at a weighted shock factor to the base PD term structure for ECL computation so as to reflect the right risk assessment of the utilities.

40.1.3 Credit risk analysis for Lending Operations

(i) Exposure to credit risk
For loans recognized in the balance sheet, the gross exposure to credit risk equals their carrying amount. Refer Note 11 'Loans' for Company's exposure to credit risk arising from loans.

For financial guarantee issued, the maximum exposure to credit risk is the maximum amount that the Company would have to pay if the guarantees are called upon. For irrevocable loan commitments, the maximum exposure to credit risk is the full amount of the commitment facilities. Refer Note 46 for exposure of Guarantee and Outstanding Disbursement Commitments.

The credit quality and maximum exposure (Principal outstanding) to credit risk based on days past due and year end stage classification of loans is tabulated below:

(₹ in crore)

Days Past Due (DPD)	As at 31.03.2025				As at 31.03.2024			
	Stage 1	Stage 2	Stage 3	Total	Stage 1	Stage 2	Stage 3	Total
No overdue	5,01,495.96	-	307.07	**5,01,803.03**	4,34,204.39	441.45*	-	**4,34,645.84**
1-30 days	-	-	-	**-**	-	-	-	**-**
31-60 days	-	29,650.31	-	**29,650.31**	-	30,742.84	-	**30,742.84**
61-90 days	-	1,457.29	-	**1,457.29**	-	-	-	**-**
More than 90 days	-	-	10,209.78	**10,209.78**	-	-	16,073.22	**16,073.22**
Total	**5,01,495.96**	**31,107.60**	**10,516.85**	**5,43,120.41**	**4,34,204.39**	**31,184.29**	**16,073.22**	**4,81,461.90**
Impairment loss allowance	**5,381.05**	**560.76**	**8,424.25**	**14,366.06**	**3,732.95**	**175.83**	**11,962.53**	**15,871.31**

* classified in Stage-II pursuant to resolution plan implemented without change in ownership.

(ii) Concentration of credit risk

Credit concentration risk refers to risk associated with large credit/investment exposure to a single company or a group of companies based on its ownership, sector, region etc. that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions, with the potential to adversely affect lender's core operations.

The following table sets out an analysis of risk concentration of overall loan portfolio on the basis of similar risk characteristics:

(₹ in crore)

Particulars	As at 31.03.2025		As at 31.03.2024	
	Principal Outstanding	Impairment Loss Allowance*	Principal Outstanding	Impairment Loss Allowance*
Concentration by ownership				
Loans to state sector (i.e., entities under the control of state and / or central government)	4,20,549.01	4,974.60	3,89,525.42	3,059.63
Loans to private sector	1,22,571.40	9,442.16	91,936.48	12,811.68
Total	**5,43,120.41**	**14,416.76**	**4,81,461.90**	**15,871.31**

*including impairment loss allowance on Letter of Comfort & Letter of Undertaking of ₹ 50.71 crore (as at 31.03.2024 ₹ 48.63 crore).

Loans to state sector are well diversified as these are extended to multiple entities under the control of various State Governments and Central Government. The Company considers that these loans have a low credit risk in comparison to lending to private sector mainly due to low default / loss history in state sector and availability of government guarantee in certain loans. Presence of Government interest in these projects also lowers the risk of non-recoverability of dues.

Further, the Company has a lending portfolio comprising of loans to generation, renewable, transmission, distribution, power projects & other infrastructure projects spread across diverse geographical areas.

(₹ in crore)

Particulars	As at 31.03.2025		As at 31.03.2024

(vii) Percentage of Gross Credit Impaired Assets (Stage 3) to Gross Loans – sector wise

Description	As at 31.03.2025	As at 31.03.2024
Financing to power, logistics and infrastructure sector	1.94%	3.34%

40.1.4 Write off of Loan Assets

The company writes off Loan assets in whole or in part in line with its write off policy, when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include ceasure of enforcement activity or where the Company's recovery method is foreclosing on collateral and the value of collateral is such that there is no reasonable expectation of recovery in full. The waiver / write off is done in whole or in part as per the restructuring / settlement / resolution process.

40.1.5 Policy on sales out of amortised cost business model portfolio

The Company does not resort to the sale of financial assets, in ordinary course of business. However, the Company has an approved policy that it may proceed for resolution of stressed assets by either restructuring, change of ownership, settlement or otherwise. The assets are then assessed for derecognition as per Ind AS 109 'Financial Instruments'.

40.1.6 There are no accounts with overdues beyond 90 days but not treated as credit impaired (previous year Nil).

40.1.7 Details of provision required as per Income Recognition, Asset Classification & Provisioning Norms (IRACP) of RBI and impairment allowance as per Ind AS 109 'Financial Instruments'

40.1.8 In accordance with Master Direction- Reserve Bank of India (Non-Banking Financial Company –Scale Based Regulation) Directions, 2023 as amended from time to time, NPA ratios duly considering the loans which would have been otherwise required to be classified as NPA as per RBI norms is as under:

Particulars	As at 31.03.2025	As at 31.03.2024
Gross NPA to Gross Loans	2.46%	4.17%
Net NPA to Net Loans	0.89%	1.66%

40.2 Liquidity Risk

Liquidity risk is the risk that the Company doesn't have sufficient financial resources to meet its obligations as and when they fall due. The risk arises from the mismatches in the timing of the cash flows which are inherent in all financing operations and can be affected by a range of company specific and market wide events.

In order to effectively manage liquidity risk, the Company endeavours to maintain sufficient cash flows to cover maturing liabilities without incurring unacceptable losses or risking damage to the Company's reputation and also endeavours to maintain a diversified fund base by raising resources through different funding instruments. The adequacy of the Company's liquidity position is determined keeping in view the current liquidity position , anticipated future funding needs, present and future earning capacity and available sources of funds.

The Company manages its day to day liquidity to ensure that the company has sufficient liquidity to meet its financial obligation as & when due. The long term liquidity is managed keeping in view the long term fund position and the market factors. This is in line with the Board approved framework and breaches, if any, are to be reported as per approved framework. The Company has never defaulted in servicing of its borrowings.

Further, for overall liquidity monitoring and supervision, the Company has an Asset Liability Committee (ALCO) headed by Director (Finance). The ALCO tracks the liquidity risk by analysing the maturity or cash flow mismatches of its financial assets and liabilities. The mismatches are analysed by way of liquidity statements prescribed by RBI, wherein the cumulative surplus or deficit of funds is arrived at by distributing the cash flows against outstanding financial assets and financial liabilities according to the maturity ladder.

(i) The following table analyses the maturity pattern of items of financial liabilities(debt securities, borrowings and subordinated liabilities) by remaining maturity of contractual principal and interest on an undiscounted basis:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2025				
Domestic borrowings				
Principal	74,023.00	1,63,666.46	1,38,941.78	**3,76,631.24**
Interest	26,906.09	71,203.10	52,518.67	**1,50,627.86**

Total	**47.82**	**305.91**	-	**353.73**

* The above table details the Company's liquidity analysis for its derivative financial liabilities based on MTMs received from counterparty banks. Maturity buckets are as per the remaining tenor of the respective derivative instrument.

(iii) Significant cash flows required for meeting the financial liabilities shall be funded through cash flows (principal and interest repayments) generated from loan assets. The following table analyses the maturity pattern of loans by remaining maturity of contractual principal and interest on an undiscounted basis:

(₹ in crore)

Particulars	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2025				
Loan Assets				
Principal	93,945.48	1,79,906.40	2,60,844.27	**5,34,696.16**
Interest	47,387.72	1,39,380.69	1,41,752.59	**3,28,521.00**
Total	**1,41,333.20**	**3,19,287.09**	**4,02,596.86**	**8,63,217.16**
As at 31.03.2024				
Loan Assets				
Principal	73,417.94	1,57,731.78	2,38,349.65	**4,69,499.37**
Interest	43,540.93	1,26,940.80	1,16,636.46	**2,87,118.19**
Total	**1,16,958.87**	**2,84,672.58**	**3,54,986.11**	**7,56,617.56**

The principal cashflows net of impairment loss allowance relating to Stage 3 assets have been cosnidered in over 5 years bucket irrespective of the maturity bucket.

(iv) The Company has access to cash credit, overdraft, line of credits and working capital demand loans from banks to meet unanticipated liquidity need. Further, the Company has the highest domestic Credit Rating of AAA, thereby enabling it to mobilize funds from the domestic market within a short span of time. The Company has access to the following undrawn short term borrowing facilities :

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
CC / OD / LoC / WCDL limits	14,768.00	11,888.52

(v) The Company also maintains sufficient liquidity buffer in the form of High-Quality Liquid Assets (HQLA) as prescribed by RBI for NBFCs. Refer Note 54.6 for disclosure in this regard.

40.3 Market Risk – Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument, denominated in currency other than functional currency, will fluctuate because of changes in foreign exchange rates.

(i) The Company is exposed to foreign currency risk mainly on its borrowings denominated in foreign currency. The carrying amount of the Company's foreign currency denominated borrowings is as follows:

Description	As at 31.03.2025		As at 31.03.2024	
	Crore in respective currency	₹ in crore	Crore in respective currency	₹ in crore
USD Loans	**723.84**	**61,947.52**	**693.98**	**57,859.94**
- Hedged	723.50	61,918.14	633.50	52,817.37
- Unhedged	0.34	29.37	60.48	5,042.57
Euro Loans	**102.26**	**9,441.22**	**38.19**	**3,445.69**
- Hedged	72.53	6,696.55	-	-
- Unhedged	29.73	2,744.67	38.19	3,445.69
JPY Loans	**28,636.74**	**16,251.35**	**20,930.90**	**11,530.83**
- Hedged	25,844.25	14,666.61	20,566.55	11,330.11
- Unhedged	2,792.49	1,584.74	364.35	200.72
GBP Loans	**13.47**	**1,491.75**	-	-
- Hedged	13.47	1,491.75	-	-
- Unhedged	-	-	-	-
Total		**89,131.83**		**72,836.46**
- Hedged		**84,773.05**		**64,147.48**
- Unhedged		**4,358.78**		**8,688.98**

(ii) Foreign currency risk monitoring and management

The Company has put in place a Board approved "Policy for Management of Risks on Foreign Currency Borrowings" to manage and hedge risks associated with foreign currency borrowings which prescribes the structure and organization for management of associated risks.

The Company enters into various derivative transactions viz. principal only swaps, options and forward contracts for hedging the exchange rate risk. As per extant policy, a system for reporting and monitoring of risks is in place wherein Committee for Management of Risks on Foreign Currency Borrowings, consisting of senior executives of the Company, monitors the foreign currency exchange rate. These derivative transactions are done for hedging purpose and not for trading or speculative purpose The policy lays down the appropriate systems and controls to identify, measure and monitors, the currency risk for reporting to the Management.

(iii) Foreign Currency Sensitivity Analysis

The following table presents the impact on total equity [Gain / (Loss)] for 5% change in foreign currency exchange rate against INR on unhedged portfolio of outstanding foreign currency borrowings:

(₹ in crore)

Foreign Currency Liabilities	As at 31.03.2025		As at 31.03.2024	
	Decrease	Increase	Decrease	Increase
	on account of change in foreign exchange rate			
USD	1.47	(1.47)	252.13	(252.13)
EURO	137.23	(137.23)	172.28	(172.28)
JPY	79.24	(79.24)	10.04	(10.04)
GBP	-	-	-	-
Total	**217.94**	**(217.94)**	**434.45**	**(434.45)**

(iv) Refer Note 41 for disclosures related to hedge accounting.

40.4 Market Risk – Interest Rate Risk

40.4.1 Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in interest rates. The impact may be beneficial or adverse depending on the direction of change in interest rates and whether assets or liabilities re-price faster.

(i) Interest rate risk is managed with the objective to control market risk exposure while optimizing the return.

The Asset Liability Committee (ALCO) tracks the interest rate risk through the gap analysis i.e. by analysing the mismatches between Rate Sensitive Assets and Rate Sensitive Liabilities. For gap analysis, the interest rate sensitivity statement prescribed by RBI is used, wherein the gap is measured between the Rate Sensitive Assets and Rate Sensitive Liabilities which are distributed based on the maturity date or the re-pricing date whichever is earlier.

Further, for managing the interest rate risk, the Company reviews its interest rates periodically based on prevailing market conditions, borrowing cost, yield, spread, competitors' rates, etc. The asset mix is managed by the Company through its interest rate & credit policies which inter-alia covers aspects like reset periods; repayment periods, prepayment premium etc. The liabilities are managed keeping in view factors like cost, market appetite, timing, market scenario, ALM gap position etc. The Company also enters into various derivatives transactions like interest rate swaps, cross-currency interest rate swaps to hedge its interest rate risk.

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are:

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Fixed Rate Borrowings	3,02,058.41	3,02,902.78
Floating Rate Borrowings	1,63,704.67	1,04,480.54
Total Borrowings	**4,65,763.08**	**4,07,383.32**

(ii) Interest Rate Sensitivity Analysis

As per RBI Guidelines, Earning at Risk (EaR) is an important focal point for interest risk management. For Interest Rate Sensitivity analysis, the impact of movement of interest rates has been measured on the Earning at Risk derived from the gap statements. The impact has been worked out considering 25 basis upward / downward shocks to interest rates over a one-year period, assuming a constant balance sheet. The analysis shows that if rates are increased/decreased by 25 bps, the impact on EaR will be (+/-) ₹ 213.56 crore. (As at 31.03.2024 (+/-) ₹ 315.68 crore).

The analysis assumes that the Rate Sensitive Assets and Rate Sensitive Liabilities are being re-priced at the same time. Further, the analysis considers the earliest / first re-pricing date of the Rate Sensitive Assets and Rate Sensitive Liabilities.

Note: A 25 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

40.4.2 Disclosures in respect of Interest Rate Benchmark Reform

The Company has successfully completed its transition from LIBOR to alternative risk-free rates (RFRs), such as the Secured Overnight Financing Rate (SOFR) and the Tokyo Overnight Average Rate (TONA), in line with applicable transitional provisions.
Accordingly, the loan agreements and derivatives are now referenced to these alternative benchmarks.

40.5 Market Risk - Price risk

(i) The Company is exposed to price risks arising from investments in listed equity shares. Refer Note 12 'Investments' for Company's exposure to the same.

(ii) Sensitivity Analysis

The table below represents the impact on Statement of Profit and Loss for 5% increase or decrease in the respective prices on Company's quoted equity investments, outside the group:

(₹ in crore)

Particulars	As at 31.03.2025		As at 31.03.2024	
	Decrease	Increase	Decrease	Increase
Impact on P&L	11.51	(11.51)	9.70	(9.70)
Impact on OCI	117.53	(117.53)	121.13	(121.13)

41. Hedge Accounting

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Statement of Profit and Loss on a systematic basis.

(i) Hedge Effectiveness

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. The Company applies the following effectiveness testing strategies:

a) For derivatives other than options that exactly match the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method (where principal terms of the hedging instrument and the hedged item are same).

b) For option structures, the Company analyses the relationship of changes in value of the hedging instrument and hedged item using regression analysis.

(ii) The effects of hedging instruments designated as Cash-flow hedge on the Standalone Balance Sheet:

(f)	**Net amount recognised in OCI during the year (Net of Tax) (d + e)**	**(93.38)**	**161.10**
(g)	**Closing balance of Reserves (net of Tax) (a + f)**	**(831.78)**	**(738.40)**

(vi) Fair Value Hedge

At 31st March 2025, Company has outstanding interest rate swap agreements of ₹ 30,036.90 crores (Previous year -Nil) wherein the Company receives a fixed rate of interest and pays interest at a variable rate on the notional amount. Such agreements are being used to hedge the exposure to the changes in fair value of fixed rate borrowings.

There is an economic relationship between the hedged item and the hedging instrument as the terms of the interest rate swap match the terms of the fixed rate loan (i.e., notional amount, maturity, payment and reset dates). As such, a hedge ratio of 1:1 for the hedging relationships has been established as the underlying risk of the interest rate swap is identical to the hedged risk component.

The impact of the hedging instrument on the balance sheet is as follows:

(₹ in crore)

Particulars	Fair value hedge	Notional amount	Carrying amount *	Line item in balance sheet where hedging instrument is disclosed	Changes in fair value for calculating hedge ineffectiveness
As at 31-03-2025	- Interest rate swap	30,036.90	435.57	Derivative financial instruments	435.57
As at 31-03-2024	- Interest rate swap	-	-	Derivative financial instruments	-

*Carrying amount here is exclusive of the interest receivable under such derivative contract as on reporting date.

The impact of the hedged item on the balance sheet is as follows:

(₹ in crore)

Particulars	Fair value hedge	Principal Amount	Accumulated fair value adjustments	Line item in balance sheet where hedging instrument is disclosed	Changes in fair value for calculating hedge ineffectiveness
As at 31-03-2025	- Subordinated Liabilities	3,411.00	47.75	Subordinated Liabilities	47.75
	-Debt Securities-Bonds	26,625.90	387.82	Debt Securities-Bonds	387.82
As at 31-03-2024	- Subordinated Liabilities	-	-	Subordinated Liabilities	-
	-Debt Securities-Bonds	-	-	Debt Securities-Bonds	-

The increase in fair value of the interest rate swap of ₹ 435.57 crores (Previous year- Nil) has been offset with a similar loss on the respective subordinated liabilities and debt securities-bonds.

42. Fair Value Measurements

(i) Some of the Company's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

(₹ in crore)

Sr.No.	Financial asset / Financial Liability - Recurring fair value	Fair Value as at		Fair value hierarchy (Refer Note 5.1)	Valuation technique(s) & Key input(s)
		31.03.2025	31.03.2024		
(1)	**Quoted Equity investments***				
	- PTC India Limited	196.33	223.14	Level 1	Quoted market price
	- Coal India Limited	556.07	606.20		
	- NHPC Limited	844.03	1,055.58		
	- Suzlon Energy Limited	754.17	537.74

	- Mytrah Vayu Tungbhadra Pvt Ltd- Series A- OCD	0.00	0.00		
	- Mytrah Vayu Tungbhadra Pvt Ltd- Series B- OCD	0.00	0.00		
	-Dans Energy Private Limited-OCD	0.00	0.00		
(5)	**Derivative Financial Instruments**				
	- Assets	6,647.30	4,462.03	Level 2	The fair value of these contracts is obtained from counterparty banks, who determines it using valuation models that use inputs which are observable for the contracts, such as interest rates and yield curves, implied volatilities etc.
	- Liability	773.17	353.73		

*Refer Note 12

(ii) There were no transfers between Level 1 and Level 2 during the year.

(iii) Reconciliation of Financial Instruments fair valued through Level 3 inputs:

The following tables show the reconciliation of the opening and closing amounts of financial assets and liabilities measured at fair value using Level 3 inputs:

(₹ in crore)

Particulars	FY 2024-25		FY 2023-24	
	FVTOCI	FVTPL	FVTOCI	FVTPL
	Investment in Un-quoted Equity Shares	Investment in Debentures	Investment in Un-quoted Equity Shares	Investment in Debentures
Opening Balance	**630.61**	**46.77**	**592.25**	**50.00**
Investment made during the year	-	-	-	-
Settlement	-	(310.10)	-	(10.54)
Transfer in Level 3	-	-	-	-
Transfer from Level 3	-	-	-	-
Interest income[1]	-	1.01	-	3.27
Fair Value gain / (loss) [2]	(91.85)	262.32	38.36	4.04
Closing Balance	**538.76**	-	**630.61**	**46.77**
Unrealized gains / (loss) on assets held at the end of the year	**(91.85)**	-	38.36	4.04

[1] Forms part of line item 'Interest Income' in the Standalone Statement of Profit and Loss.

[2] Fair value gain / (loss) on Investments at FVTOCI forms part of line item 'Net Gain / (Loss) on Fair Value of Equity Instruments' in the Other Comprehensive section of Standalone Statement of Profit and Loss.

(iv) Fair Value of financial assets / liabilities measured at amortized cost:

The fair value of the following financial assets and liabilities have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant input being the discount rate that reflects the credit risk of counterparties except for the cases where quoted market prices are available. These fair values were calculated for disclosure purposes only.

(₹ in crore)

Asset / Liability	Fair Value Hierarchy	As at 31.03.2025		As at 31.03.2024	
		Amortized Cost	Fair value	Amortized Cost	Fair value
Loans	Level 3	5,32,818.27	5,42,797.89	4,69,928.41	4,75,901.80
Investments [a]	Level 1/3	2,999.19	3,075.43	2,324.68	2,347.16
Other Financial Assets	Level 2	5,951.72	5,949.16	6,052.91	6,047.74
Debt Securities[a]	Level 1/2	3,19,747.77	3,10,982.92	2,94,267.80	2,89,991.47
Borrowings other than debt securities[b]	Level 2	1,52,203.32	1,50,940.52	1,16,606.04	1,13,858.90
Subordinated Liabilities	Level 2	3,564.35	3,618.19	5,519.72	5,738.23

[a] Includes listed instruments with Level 1 fair value hierarchy
Investment in G-Sec being fair valued using market price as at reporting date.
Foreign currency Notes (GMTN issuances) being fair valued as per closing prices as per Reuters.

[b] Includes foreign currency loans linked to Floating rate of interest and multilateral agencies loans being valued at par. In accordance with the interest rate benchmark reform, the fair value as at 31st March, 2025 has been arrived at using the alternative benchmark i.e. SOFR (Secured Overnight Financing Rate).

The carrying amounts of financial assets and financial liabilities other than those shown in the above table are considered to be a reasonable approximation of their fair values.

43.5 Disclosure in respect of entities under the control of the same government (Government related entities)

The Company is a Central Public Sector Undertaking (CPSU) controlled by Central Government. During the year, the Company had transactions with the related entities under the control/ joint control of the same government including but not limited to:

Chenab Valley Power Projects Private Limited	HPCL Rajasthan Refinery Ltd
Mumbai Metro Rail Corporation Limited	Raichur Power Corporation Ltd.
Damodar Valley Corporation	Visakhapatnam Port Logistics Park Limited
Satluj Jal Vidyut Nigam Thermal Pvt Ltd	Chhattisgarh East Railway Limited
Neyveli Lignite Corporation Limited	Energy Efficiency Services Limited
NLC Tamilnadu Power Limited	PTC India Limited
Neyveli Uttar Pradesh Power Limited	Power Foundation of India
Meja Urja Nigam Pvt. Ltd	Coal India Ltd.
Bihar Grid Company Limited	NHPC Ltd.

Significant transactions with entities under the control of same government:

(₹ in crore)

Nature of Transaction	**During FY 2024-25**	**During FY 2023-24**
Dividend Income	65.67	66.24
Disbursement of loans	8,955.08	7,313.86
Interest Income received	3,151.77	2,856.69
Repayment of principal received	4,778.70	2,973.17
Membership Fee	5.00	5.00

Refer Note 13, 18.8,18.11, 20.1, 24.2 and 51 in respect of material transactions with the Central Govt.

Above transactions with the Government related entities cover transactions that are significant individually and collectively. The Company has also entered into other transactions such as telephone expenses, lease rental and deposits etc. with other CPSUs. They are insignificant individually & collectively and hence not disclosed. All the transactions have been carried out on market terms.

43.6 Major terms and conditions of transactions with related parties

(i) Transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions.

(ii) The remuneration to Key Managerial Personnel is in line with the HR policies of the Company.

(iii) Advances given to Directors/KMPs have specified terms / period of repayment and are in line with the HR Policies of the Company.

(iv) The Company makes advances to its associate companies which are incorporated as SPVs to meet the preliminary expenditure. Such advances carry interest rates at the rate applicable to Term Loans as per the Company's policy.

(v) The interest and/or dividend paid to the Trusts and Key Managerial Personnel are on account of their investments in the debt securities and/or equity shares of the Company and the interest and/or dividend paid on such securities is uniformly applicable to all the holders.

(vi) Outstanding balances of group companies at the year-end are unsecured except loan given to PFCCL amounting to ₹ 7.82 crore.

44. EMPLOYEE BENEFITS

44.1 Defined contribution plans:

(a) Pension

The Company pays fixed contribution to National Pension Scheme (NPS) for its pension obligation towards employees at pre-determined rates into the Tier-I NPS Accounts (Pension Accounts) of the employees.

An amount of ₹ 6.92 crore (previous year ₹11.07 crore) for the year is recognized as expense in the Standalone Statement of Profit and Loss on account of the Company's contribution to the defined contribution plans.

44.2 Defined benefit plans:

(a) Provident Fund

The Company pays fixed contribution on account of provident fund at prescribed rates to a separate trust, which invests the funds in permitted securities. Accordingly, the fund is a defined contribution plan. However, considering that the fund trust has to ensure a minimum rate of return to the members as specified by GoI and shortfall, if any needs to be compensated by the Company. from FY 2024-25, the Company has started treating the provident fund trust as defined benefit plan for accounting purposes. As per the actuarial valuation, the fund has adequate corpus for meeting its obligation, therefore no further provision is considered necessary and there is no impact of above on the profit of the Company.

(b) Gratuity

The Company has a defined gratuity scheme which is managed by a separate trust. Every employee who has rendered continuous service of five years or more is entitled to gratuity at 15 days salary for each completed year of service subject to a maximum of ₹ 0.20 crore on superannuation, resignation, termination, disablement or on death, considering the provisions of the Payment of Gratuity Act, 1972, as amended. The liability for the same is recognised on the basis of actuarial valuation.

(c) Post-Retirement Medical Scheme (PRMS)

The Company has a Post-Retirement Medical Scheme (PRMS) to provide medical facilities to superannuated employees, dependent family members of superannuated and deceased employees. The liability for PRMS is recognised on the basis of actuarial valuation.

This scheme is managed by a separate trust. The trust has to ensure adequate corpus for meeting the medical expenditure incurred by the eligible employees/family members. However, any short fall has to be compensated by the Company. Based on acturial valuation, it is estimated that no liability will arise in this regard in the near future and hence, no further provision is considered necessary.

(e) Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

i) Investment risk

Most of the plan asset investments are in government securities, other fixed income securities with high rating grades and mutual funds. The fair value of these assets is subject to volatility due to change in interest rates and other market & macro-economic factors. There is also a risk of asset liability mismatch i.e. the cash flow for plan assets does not match with cash flow for plan liabilities.

ii) Changes in discount rate

The present value of defined benefit plan liabilities is calculated using a discount rate which is determined by reference to government bonds' yields at the end of the reporting period. A decrease (increase) in discount rate will increase (decrease) present values of plan liabilities, although this will be partially offset by an increase in the value of the plans' investments.

iii) Mortality rate risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

iv) Salary escalation risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

v) Turnover rate / Withdrawal rate of employee

If the actual employee withdrawal rate in the future turns out to be more or less than expected then it may result in increase/decrease in the liability.

(f) Plan Assets

The fair value of plan assets for each category is as follows:

(₹ in crore)

Particulars	As at 31.03.2025			As at 31.03.2024		
	Provident Fund	Gratuity	PRMS	Provident Fund	Gratuity	PRMS

As at 31.03.2025 ₹ 0.80 crore (as at 31.03.2024 ₹ 1.10 crore) is included in the value of plan assets in respect of the Company's own financial instruments (corporate bonds).

Actual return on plan assets is ₹ 39.78 crore (previous year ₹ 38.84 crore).

(g) Significant actuarial assumptions

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at 31.03.2025 by TransValue Consultants. The present value of the defined benefit obligation, and the related current service cost, were measured using the projected unit credit method. The principal assumptions used for actuarial valuation are: -

Particulars	Provident Fund		Gratuity		PRMS		ERS	
	As at 31.03.2025	As at 31.03.2024	As at 31.03.2025	As at 31.03.2024	As at 31.03.2025	As at 31.03.2024	As at 31.03.2025	As at 31.03.2024
Discount Rate & expected return on plan assets, if funded	6.78%	7.09%	6.78%	7.09%	6.78%	7.09%	6.78%	7.09%
Salary Escalation Rate/Medical inflation rate	NA	NA	5.00%	5.00%	6.00%	6.00%	5.00%	5.00%
Mortality Rate	NA	NA	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate
Withdrawal rate	NA	NA	0.01%	0.01%	0.01%	0.01%	0.01%	0.01%

(h) Sensitivity Analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

(₹ in crore)

Particulars	As at 31.03.2025		As at 31.03.2024	
	Increase	Decrease	Increase	Decrease
Discount rate (0.50% movement)				
- Gratuity	(1.41)	1.52	(1.28)	1.38
- PRMS	(7.00)	7.97	(6.01)	6.85
- ERS	(0.36)	0.39	(0.36)	0.39
Salary Escalation/ Medical inflation Rate (0.50% movement)				
- Gratuity	0.18	(0.17)	0.14	(0.17)
- PRMS	7.14	(6.22)	4.57	(4.35)
- ERS	0.28	(0.26)	0.28	(0.26)
Medical Cost (10% movement)				
- PRMS	8.51	(8.38)	7.43	(7.10)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The Company actively monitors how the duration and expected yield of investments are matching the expected cash outflows arising from employee benefit obligations. Investments are well diversified, such that the failure of any single investment would not have a material impact on overall level of assets. There has been no change in the process used by the Company to manage its risks from prior periods.

(i) Expected maturity analysis of the defined benefit plans in future years

(₹ in crore)

Particulars	Gratuity		PRMS		ERS	
	31.03.2025	31.03.2024	31.03.2025	31.03.2024	31.03.2025	31.03.2024

Total	**72.19**	**68.05**	**137.72**	**121.02**	**13.27**	**13.48**

The table above is drawn on the basis of expected cash flows.

(j) Expected contributions to post-employment benefit plans

(₹ in crore)

Particulars	Provident Fund		Gratuity		PRMS	
	As at 31.03.2025	As at 31.03.2024	As at 31.03.2025	As at 31.03.2024	As at 31.03.2025	As at 31.03.2024
Expected contribution	-	-	4.29	2.67	12.46	11.52

(k) The weighted average duration of the defined benefit plan obligation at the end of the reporting period is 13.25 years (as at 31.03.2024: 13.13 years).

44.3 Other long term employee benefits

(a) Leave

The Company provides for earned leave benefit and half-pay leave benefit to the credit of the employees, which accrues on half-yearly basis at 15 days and 10 days respectively. A maximum of 300 days of earned leave can be accumulated at any point of time during the service. There is no limit for accumulation of half pay leave. On separation after 10 years of service or on superannuation, earned leave plus half pay leave taken together can be encashed subject to a maximum of 300 days. However, there is no restriction on the number of years of service for encashment of earned leave on separation from the service. Provision based on actuarial valuation amounting to ₹ 13.36 crore (previous year ₹ 5.70 crore) for the year has been made at the year end in the Standalone Statement of Profit and Loss.

(b) Other employee benefits

Provision for settlement allowance and long service awards amounting to ₹ 17.66 crore for the year (previous year ₹ 1.51 crore) has been made on the basis of actuarial valuation in the Standalone Statement of Profit and Loss.

44.4 Employee benefits (including Gratuity, PRMS, Terminal Benefits, leave encashment and other employee benefits) in respect of Company's employees working in its wholly-owned subsidiary on deputation / secondment basis are being allocated based on a fixed percentage of employee cost.

45. Leases

The Company has recognised a Right of Use Asset and Lease Liability with respect to leasehold land being used as office premises.

45.1 The table below shows the movement of lease liabilities during the year:

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Opening balance	8.81	8.81
Additions during the year	-	-
Finance cost accrued during the period	0.77	0.77
Payment of lease liabilities	(0.77)	(0.77)
Closing balance	**8.81**	**8.81**

45.2 The table below provides details regarding the contractual maturities of lease liabilities on an undiscounted basis:

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Upto 1 year	0.77	0.77
Over 1 year and upto 5 years	3.09	3.09
More than 5 years	53.20	53.97

45.3 During the year 2024-25, the expenses relating to short-term/low value leases amounting to ₹ 19.56 crore (Previous year ₹ 17.12 crore) has been charged to Standalone Statement of Profit and Loss. Included in the amount above are leases pertaining to residential accommodation of employees, space for official use, hiring of EDP equipment & other office equipment etc. These leases are usually renewable on mutually agreed terms and are cancellable.

45.4 The total cash outflow towards all leases, including Right-of-Use Assets is ₹ 19.51 crore. (Previous year ₹ 15.41 crore)

46. Contingent Liabilities and Commitments

(₹ in crore)

Sr.No.	Description	As at 31.03.2025	As at 31.03.2024
Contingent Liabilities			
(A)	**Claims against the Company not acknowledged as debts**	-	-

51. Government of India(GoI) schemes being implemented by the Company

Revamped Distribution Sector Scheme (RDSS)

The Company is a designated Nodal Agency for operationalization and implementation of Revamped Distribution Sector Scheme (RDSS). The role of Nodal Agency, inter-alia, includes transfer onward the GoI funds received from Ministry of Power to project implementing agencies i.e. State Power Distribution Utilities/ Power Departments as per the Scheme guidelines issued by Ministry of Power. The release of the funds under GoI Scheme is being done through Treasury Single Account (TSA) system of RBI, as per the office memorandum issued by Ministry of Finance, GoI dated 09th March 2022.This ensures that GoI funds under RDSS are released to project implementing agencies 'Just in time' directly from the Consolidated Fund of India (CFI).

This Scheme was launched by GoI in July, 2021 to improve the operational efficiencies and financial sustainability of DISCOMs, by providing reform linked financial assistance to DISCOMs. It is a Reform based and result linked Distribution sector scheme. PFC along with REC is the nodal agency for operationalization of the scheme. The implementation period of the Scheme is 5 Years (FY 2021-22 to FY 2025-26). The key objectives of the scheme is to:

i) Improve the quality, reliability and affordability of power supply to consumers through a financially sustainable and operationally efficient distribution sector.
ii) Reduce AT&C losses to pan-India levels of 12-15%.
iii) Reduce ACS-ARR gap to zero.

The Scheme has an outlay of ₹ 3,03,758 crore with an estimated gross budgetary support of ₹ 97,631 crore from the GoI. The amount of GoI grant administered by PFC to the eligible entities (net of funds lapsed/surrendered by power utilities) during FY 2024-25 is ₹ 4,897.09 crore (previous year ₹ 2,834.87 crore) and the cumulative grant administered (net of funds lapsed/surrendered by power utilities) till 31.03.2025 is ₹ 8,205.32 crore (till 31.03.2024 is ₹ 3,308.23crore).

The Company is eligible for nodal agency fee at the rate of 0.50% of the sum total of the gross budgetary component of the various projects approved by Monitoring Committee. The total amount of nodal agency fee income from this scheme for FY 2024-25 stands at ₹ 51.19 crore. (Previous year ₹ 45.73 crore)

Further, no amount of GoI grant remained undisbursed in the TSA A/c of PFC as on 31.03.2025 and 31.03.2024.

52. (a) Status of documentation subsequent to reorganization of the State of Jammu & Kashmir

After the bifurcation of the State of Jammu & Kashmir into two Union territories- Jammu & Kashmir UT and Ladakh UT , the existing entities pertaining to the erstwhile state of Jammu & Kashmir have been restructured vide unbundling order dated 23.10.19. The addendums to the agreements with new restructured departments are yet to be executed. Pending the execution of such documents, the existing loans are being serviced/repaid in line with the existing loan agreement.

(b) Status of documentation subsequent to reorganization of the State of Andhra Pradesh

Subsequent to the reorganization of erstwhile Andhra Pradesh, the State of Telangana has been formed on 02.06.2014. However, the assets and liabilities are yet to be transferred to the respective power utilities through a formal gazette notification except for assets and liabilities of TSSPDCL which have been transferred to APSPDCL for R-APDRP loans only amounting to ₹ 8.95 crore.

Once the final transfer scheme is notified through Gazette Notification by Govt. duly indicating the transfer of assets and liabilities among the power utilities, action for execution of documentation formalities will be taken up in respect of all the outstanding loans (except for above R-APDRP loans) with the new / name changed utilities. Till that time, the demand for payment of interest / principal is being segregated by the utilities and the respective portions are being paid by utilities in Telangana and Andhra Pradesh.

53. Disclosures as required under Master Direction- Reserve Bank of India (Non-Banking Financial Company- Scale Based Regulation) Directions, 2023 as amended from time to time

Being a Government owned NBFC the Company is subject to guidelines as prescribed under RBI Master Directions (NBFC-Scale based Regulation) as applicable for the NBFC-ML (Middle Layer).

53.1 Asset Liability Management - Maturity pattern of items of Assets and Liabilities:

In the tables below, the principal cash flows net of impairment loss allowance relating to Stage 3 assets have been considered in over 5 years bucket irrespective of the maturity date. Further, Bonds with put & call option have been shown considering the earliest exercise date. Further, the commercial papers and zero-coupon bonds have been shown at the maturity value.

7	Inflows from fully performing exposures	13,614.77	10,211.08	13,233.47	9,925.10
8	Other cash inflows	-	-	-	-
9	**TOTAL CASH INFLOWS**	**20,439.24**	**15,329.43**	**21,654.56**	**16,240.92**
10	**TOTAL HQLA**		**1,539.89**		**1,948.29**
11	**TOTAL NET CASH OUTFLOWS [(Total Weighted Cash Outflows)- Minimum of (75% of Total Weighted Cash outflow or Total Weighted Cash inflows)]**		**1,811.64**		**2,292.11**
12	**LIQUIDITY COVERAGE RATIO (%)**		85.00		85.00

(b) The Company is having adequate HQLA. However, for the above disclosure, HQLA amount required to meet the LCR level of 85% has been considered.

54.6.1 RBI Master Direction- Reserve Bank of India (Non-Banking Financial Company- Scale Based Regulation) Directions as amended from time to time, has stipulated maintaining of Liquidity Coverage Ratio by non-deposit taking NBFCs with asset size of more than ₹ 10,000 crore. The guidelines aim to maintain a liquidity buffer in terms of LCR by ensuring that they have sufficient High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for next 30 days. As per the guideline, LCR is represented by Stock of High-Quality Liquid Assets (HQLA) divided by Total Net Cash Outflows (stressed outflow less stressed inflows) over the next 30 calendar days. HQLA are defined by RBI as the liquid assets that can be readily sold or immediately convertible into cash at little / no loss of value or can be used as collateral to obtain funds in stress situations.

The company has complied with LCR requirement w.e.f. 01.12.2020 against stipulated requirement of minimum LCR of 50%, progressively increasing up to the required level of 100% by December 1, 2024.The HQLA is being maintained by the company as balance with Banks in Current Account and eligible securities. The Company is maintaining LCR in INR only; hence there is no currency mismatch.

54.6.2 The position of HQLA holding is as follows

Particulars	**% of Overall HQLA**	
	As at 31.03.2025	**As at 31.03.2024**
Assets without Haircut		
Cash and Cash Equivalents	-	-
Term/Demand Deposits	-	-
G-Sec	100%	100%
Assets with 15% Haircut	-	-
Assets with 50% Haircut	-	-
Coal India Ltd shares	-	-
UPPCL Bond	-	-
Total	**100%**	**100%**

55. During the year, the company does not have any transactions with the struck off companies except for equity shares held by nine companies as on 31.03.2025, which are individually not material and thus have not been reported.

56. There are no reportable cases of loans transferred/ acquired during the FY 2024-25 (previous year Nil) under Master Direction – Reserve Bank of India (Transfer of Loan Exposures) Directions, 2021 dated 24th September 2021, as amended from time to time.

57. The disclosures as required under Master Direction-Reserve Bank of India (NBFC-Scale Based Regulation), Directions,2023,as amended from time to time have been made in Note 5, 9.1 to 9.4, 12.2, 39.1, 39.2, 40.1.3(iii), 40.1.3(vi), 40.1.3(vii), 40.1.5, 40.1.6, 40.1.7, 40.1.8, 40.3, 40.4, 43, 49, 53, 54 and 56.

58. Disclosure in compliance with Regulation 52 (4) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 are as under:

Sr. No.	**Particulars**	**As at / Year ended 31.03.2025**	**As at / Year ended 31.03.2024**
(i)	Debt to Equity Ratio	5.12	5.14
(ii)	Outstanding Redeemable Preference Shares	-	-
(iii)	Capital redemption reserve/debenture redemption reserve	-	-
(iv)	Net Worth (₹ in crore)	90,936.86	79,203.49
(v)	Net profit after tax (₹ in crore)	17,352.18	14,367.02
(vi)	Earnings per share (in ₹)		
	Basic	52.58	52.58
	Diluted	52.58	52.58
(vii)	Total Debt to Total Assets (times)	0.81	0.81
(viii)	Operating Margin (%)	39.82	38.27
(ix)	Net Profit Margin (%)	32.66	31.21

(x)	Other Sector Specific Ratios (%)		
	Gross Credit Impaired Ratio	1.88	3.34
	Net Credit Impaired Ratio	0.33	0.85
	CRAR	22.08	25.41

Note:

(a) Debt to Equity ratio = Net Debt / (Equity Share Capital + Other Equity+ Non-Controlling Interest). Net debt = Principal outstanding of {Debt Securities + Borrowings (other than debt securities) + Subordinated Liabilities} less cash and cash equivalents.

(b) Net worth = Equity Share Capital + Other Equity.

(c) Total debt to Total assets = Principal outstanding of {Debt Securities + Borrowings (other than debt securities) + Subordinated Liabilities} / Total assets.

(d) Operating Margin = (Profit before Tax - Other Income) / Total Revenue from operations.

(e) Net profit margin = Net profit After Tax / Total Income.

(f) Gross Credit Impaired Assets Ratio = Gross Credit Impaired Assets /Gross Loan Assets.

(g) Net Credit Impaired Assets Ratio = Net Credit Impaired Assets /Gross Loan Assets.

(h) CRAR = Total Capital Fund (Tier 1 Capital +Tier 2 Capital) / Risk weighted assets, calculated as per applicable RBI guidelines.

(i) Debt service coverage ratio, Interest service coverage ratio, Current ratio, Long term debt to working capital, Bad debts to Account receivable ratio, Current Liability Ratio, Debtors turnover, Inventory turnover ratio are not applicable to the Company.

59. Figures of the previous year have been regrouped / reclassified wherever necessary, in order to make them comparable with the current year figures.

60. Figures have been rounded off to the nearest crore of rupees with two decimals. Further, figures in 0.00 represent value less than ₹50,000/-.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF POWER FINANCE CORPORATION LIMITED

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

1. OPINION

We have audited the accompanying Consolidated Financial Statements of Power Finance Corporation Limited (hereinafter referred to as "Holding Company") and its Four subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), and its Eleven associates, which comprise the Consolidated Balance Sheet as at 31st March, 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate Financial Statements and on the other financial information of the subsidiaries and associates, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group, and its associates as at 31st March, 2025, of consolidated profit (including other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended on that date.

2. BASIS FOR OPINION

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associates in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

3. KEY AUDIT MATTERS

Key audit matters ("KAM") are those matters that, in our professional judgement, were of most significance in our audit of the Consolidated Financial Statements of the current year. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the Key Audit Matters to be communicated in our report. For each matter below, description of how our audit addressed the matter is provided in that context:

Sr. No.	Key Audit Matter	Auditors' Response
(i)	**Impairment of financial instruments - Loan Assets and Undisbursed letter of comfort** The Holding Company follows a Board approved methodology wherein assessment for allowance is carried out by an External Agency for Impairment based on certain guidelines and procedures in respect of criterion/framework classifying the assets into various stages depending upon credit risk and level of evidence of Impairment. Impairment loss measurement requires use of statistical models to estimate the Probabilities of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). These models are key driver to measure Impairment loss. The key indicators underlying for assessment of impairment allowance are appraised on the ongoing basis by the management. The most significant areas where we identified greater levels of management Judgments are: Significant Increase in Credit Risk (SICR) – Company has classified SICR based on the indicator defined in Ind AS, estimate the	**Our audit procedures included:** • The Holding Company has availed services of an External Agency for assessment of ECL, whose report has been provided to us. We verified the criterion / framework with applicable regulatory requirements along with Company's internal guidelines and procedures in respect of the impairment allowance. • Verified loan assets by applying the standard audit procedures with respect to the credit appraisal, sanctioning, documentation, review and monitoring process of the Company. Also, loan balances were verified basis external confirmation from the borrowers and assessed quality of the borrower based on recovery and other criteria as per the credit policy of the Company. • Reviewed the underlying assumptions and broad methodology of ECL assessment. • Components and calculations in the study for impairment allowance carried out by the independent expert have been test checked, discussed with the management and relied upon by us. Also, our audit procedure in this regard is limited since certain parameters of study being considered confidential have not been shared by the aforesaid expert. We considered the credit impairment charge and provision recognized and the related disclosures to be acceptable & satisfactory.

Sr. No.	Key Audit Matter	Auditors' Response
	Probabilities of Default (PD), Loss Given Default (LGD) and Individually assessed Stage 3 carrying value. The carrying value of loans and advances to borrowers may be materially misstated if individual impairments are not appropriately estimated based upon certain assumptions, future cash flow and asset valuations. Considering the effect of these matters, as part of our risk assessment, we determined that the value of Expected Credit Loss (ECL) has a high degree of estimation & uncertainty. In view of the significance of the amount of loan assets out of total assets in the Consolidated Financial Statements, impairments of loan assets have been considered as key audit matter in our audit. [Refer Note No. 46.1.2 to 46.1.8 to the Consolidated Financial Statements read with Accounting Policy No. 6.4.1 (iii)]	
(ii)	**Fair Valuation of Derivative financial instruments** The Holding Company enters into derivative contracts in accordance with RBI guidelines to mitigate its currency and interest rate risk in accordance with currency risk management policy approved by the Board of Directors of the Holding Company. Derivative contracts are either categorized at Fair Value through P&L (FVTPL) or under cash flow hedge (Hedge Accounting). Mark to market gain/loss on derivatives categorized at FVTPL is	**Our audit procedures included:** The Holding Company has availed services of an independent expert for preparation of a model for derivative accounting as per Ind AS 109. Discussed with management to have an understanding of its perception and also reviewed policy of the Company for risk management. Evaluated key internal controls over classification of derivative instruments. The Company obtains fair value of derivative from the counterparty banks as on the reporting date, which are relied upon by us. Our procedure

Sr. No.	Key Audit Matter	Auditors' Response
	recognized in Statement of Profit and Loss and that of Hedge Accounting is recognized in the Other Comprehensive Income. We consider the valuation of the derivative financial instruments and hedge accounting as a key audit matter due to material exposure and the fact that the inappropriate application of these requirements /assumptions / estimate by contracting bank could lead to a material effect on the income statement. (Refer Note No. 6.4.3, 46.3 & 47 to the Consolidated Financial Statements)	included evaluation of details of various financial derivative contracts outstanding as on 31st March, 2025 and fair value thereof. Additionally, we verified the accounting of gain or loss on mark to market basis of derivative contracts in Statement of Profit & Loss and other comprehensive income in case of derivatives contracts under cash flow hedge. Based on the aforesaid procedure, we have reviewed accounting of derivatives in the books of account and assessed that the related disclosures are given in the financial statements.

In the case of subsidiary REC Limited, the following key audit matters are reported by their Joint Statutory Auditors:

Sr. No.	Key Audit Matter	Auditor's Response
1	**Impairment allowance of Loan Assets –** The Company follows a Board approved methodology wherein assessment for allowance is carried out by an external agency for impairment based on certain criterion/framework classifying the assets into various stages depending upon credit risk and level of evidence of impairment. Impairment allowance is measured as product of the Probability of Default, Exposure at Default and Loss Given Default being the key	**We have applied following audit procedures in this regard** a) Evaluation and testing of the key internal control mechanisms with respect to the loan assets monitoring, assessment of the loan impairment including testing of relevant data quality, and review of the real data entered. b). We have obtained the report of the external agency and verified the criterion/framework with various regulatory updates along with Company's internal guidelines and procedures in respect of the impairment allowance. c). Verification of loan assets on test check basis covering substantial part of total loans with respect to monitoring thereof for recovery/performance

Sr. No.	Key Audit Matter	Auditor's Response
	parameters for assessing the impairment allowance. The key indicators underlying for assessment of impairment allowance are appraised on an ongoing basis by the management. Further the management has adopted a methodology which in addition to the model adopted as above is further analyzed on case to case basis and wherever impairment impact need to be changed the same is considered in the financial statements. (Refer Note No. 6.4.1 (iii) & 46.1.2 to the Consolidated Financial Statements)	aspects and assessment of the loan impairment considering management perception on the same. d). Recoveries are verified applying the standard audit procedures to ascertain level of stress. Loan balances are confirmed and quality of the borrower is evaluated and tested with key control parameters. e) Assessment of impairment based upon performance of the loan assets is carried out on the basis of relevant evidence on record provided to us. f) We have discussed with the management wherever underlying weakness is observed and management assessment is carried out in detail in such cases.
2	**Fair valuation of Derivative Financial Instruments** The Company enters into derivative contracts in accordance with RBI guidelines to mitigate its currency and interest rate risk in accordance with the Company's board approved currency risk management policy. Derivative contracts are either categorized at Fair Value through P&L (FVTPL) or under cash flow hedge (Hedge Accounting). Mark to market gain/loss on derivatives categorized at FVTPL is recognized in Statement of Profit and Loss and that of cash flow hedge is recognized in the Other Comprehensive Income. In view of significance and impact on the financial statements we have considered the fair valuation of the derivative financial instruments as a key	**We have applied following audit procedure in this regard:** a) Discussing and understanding management's perception and studying policy of the Company for risk management. b) Verification of fair value of derivative in term of Ind AS 109. c) Evaluation of key internal control over classification of derivative instruments. d) The Company obtains fair value of derivative from the counterparty banks. Our procedure includes evaluation of details of various financial derivative contracts outstanding as on March 31, 2025, and fair value thereon. e) Additionally, we verified the accounting of gain or loss on mark to market basis of derivative contracts in Statement of Profit and Loss and Other Comprehensive Income in case of derivatives contracts under cash flow hedge. f) Reviewed the appropriateness and adequacy

Sr. No.	Key Audit Matter	Auditor's Response
	audit matter. (Refer Note No. 6.4.3, 46.3 & 47 to the Consolidated Financial Statements)	of disclosures by the management as required in terms of Ind AS 109.
	In the case of subsidiary of REC Limited viz. REC Power Development and Consultancy Limited, the following key audit matters are reported by their Statutory Auditor:	
3	**a. Valuation of account Receivable in view of risk of Credit loss** Account receivables is a significant item in the Company's financial statements as at March 31, 2025 and assumptions used for estimating the credit loss on receivables is an area which is influenced by management's judgment. The Company makes an assessment, of the estimated credit losses basis credit risk, project status, past history, latest discussion/correspondence with the customer. Given the relative significance of these receivables to the Financial Statements and the nature and extent of audit procedures involved to assess the recoverability of receivables, we determined this to be a key audit	**Principal Audit Procedures** Our audit incorporated the following procedure with regards to provisioning of receivables: • Understood and evaluated the accounting policy of the Company. • We evaluated the design and tested the operating effectiveness of key controls in relation to determination of estimated credit loss. • Inquired with senior management regarding status of collectability of the receivable. • For Material balances, the basis of provision was discussed with the management. • Assessed and challenged the information used by the Management to determine the expected credit losses by considering credit risk of the customer, cash collection, performance against historical trends and the level of credit loss charges over time. • Reviewing reconciliations performed by management for material differences.

Sr. No.	Key Audit Matter	Auditor's Response
	matter. (refer Note No. 11 & 46.1.13 to the Consolidated Financial Statements) **b. Accuracy and Completeness of Trade Payable's Balances** The accuracy and completeness of Trade Payable as at 31st March, 2025 was considered a key audit matter due to the significance of the balance and the associated risk.	
4	**Accuracy of recognition measurement, presentation and disclosures of revenues and other related balances in view of adoption of Ind AS 115 "Revenue from contracts with customers"** The application of the new revenue accounting standard involves certain key judgments relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized over a period. (Refer Note No. 6.12 to the Consolidated Financial Statements)	**Principal Audit Procedures** We assessed the Company's process to identify the impact of adoption of the new revenue accounting standard. We carried out the following procedures • Understand the design of internal controls relating to implementation of the new revenue accounting standard. • Selected a sample of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, re-performance and inspection of evidence in respect of operation of these controls. • Regarding the stage of completion and revenue in respect of ongoing projects, we have relied upon the reports of the Technical Experts of the Company as we did not have that technical expertise with us. • Selected a sample of continuing and new contracts and performed the following procedures: • Read, analyzed and identified the distinct performance obligations in these contracts. • Compared this performance obligation with that identified and recorded by the Company.

Sr. No.	Key Audit Matter	Auditor's Response
		• Considered the terms of the contracts to determine the transaction price including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration. • In respect of samples relating to fixed price contracts, progress towards satisfaction of performance obligation used to compute recorded revenue was verified with the terms of contracts and status of work provided by the project experts of the Company. • Sample of revenues disaggregated by type and service offerings was tested with the performance obligations specified in the underlying contracts. • Performed analytical procedures for reasonableness of revenues disclosed by type and serving offering.

4. INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Company's Director's Report including Annexures to Director's Report, Management Discussion and Analysis, Business Responsibility and Sustainability Report and Report on Corporate Governance (collectively referred to as "other information") but does not include the Consolidated Financial Statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this Auditor's report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above when it became available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we concluded that there is a material misstatement of this other information, we are required to report that fact, we have nothing to report in this regard.

T.V.A. & CO. New Delhi Chartered Accountants

Mehra Goel & Co. FRN: 000517N New Delhi Chartered Accountants

5. RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance (including Other Comprehensive Income), consolidated statement of changes in equity and consolidated cash flows of the Group including its associates in accordance with the Ind AS and other accounting principles generally accepted in India. The respective board of directors of the Companies included in the Group and its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the Companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the Companies included in the Group and of its associates are also responsible for overseeing the financial reporting process of the Group and of its associates.

6. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

T.V.A. & CO. Chartered Accountants New Delhi

Mehra Goel & Co. FRN: 000517N New Delhi Chartered Accountants

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Group and its associates have adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management of holding Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and

T.V.A. & CO. New Delhi Chartered Accountants

Mehra Goel & Co. FRN: 000517N New Delhi Chartered Accountants

qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. OTHER MATTERS

a) We did not audit the financial statements of one subsidiary, whose financial statements reflect total assets of Rs. 6,14,501.83 crore as at 31st March, 2025, total income Rs. 56,085.81 crore, total net profit after tax of Rs. 15,884.23 crore, total comprehensive income of Rs. 14,367.43 crore for the year ended on that date and net cash inflow of Rs. (331.99) crore for the year ended on that date, as considered in the Consolidated Financial Statements. These financial statements have been audited by other auditors, whose report has been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the said subsidiary, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the report of the other auditors.

b) We did not audit the financial statements of three subsidiaries, whose financial statements reflect total assets of Rs. 534.97 crore as at 31st March, 2025, total income of Rs. 304.26 crore, total net profit after tax of Rs. 185.84 crore, total comprehensive income of Rs. 187.91 crore and net cash inflow of Rs. 8.80 crore for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include Group's share of net profit/(loss) after tax of Rs. (0.235) crore and total comprehensive income of Rs. (0.235) crore for the year ended on that date, as considered in the Consolidated Financial Statements, in respect of eleven associates, whose financial statements have not been audited by us. These unaudited Financial Statements stated to have been approved by the Management, furnished to us and our opinion on the Statement, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associates,

and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associates, is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the Management of the Holding Company, these financial statements are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters as per (a) and (b) with respect to our reliance on the work done and the reports of the other auditors and the financial statements/ financial information certified by the Management.

c) The comparative data for the year ended 31.03.2024 included in the Consolidated Financial Statements have been audited by the then joint statutory auditors; whose audit report dated 15th May, 2024 expressed unmodified opinion on the comparative Consolidated Financial Statements.

Our opinion is not modified in respect of above matter as per (c).

8. REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

I As required by Section 143(3) of the Act, based on our audit and on consideration of reports of other auditors on separate Financial Statements and the other financial information of subsidiaries, associates as noted in the other matters paragraph, we report, to the extent applicable, that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.

(b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.

(c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of accounts maintained for the purpose of preparation of the Consolidated Financial Statements.

(d) In our opinion and to the best our information and explanation given to us, the aforesaid Consolidated Financial Statements comply with the Indian Accounting Standards (Ind AS specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended;

(e) Being a Government Company, pursuant to the Notification No. GSR 463(E) dated 05th June, 2015 issued by Ministry of Corporate Affairs, Government of India, provisions of sub-section (2) of Section 164 of the Act, are not applicable to the Holding Company and its subsidiaries, & Associates.

(f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in **Annexure A**.

(g) As per Notification No. GSR 463(E) dated 05th June, 2015 issued by the Ministry of Corporate Affairs, Government of India, Section 197 of the Act is not applicable to the Government Companies. Accordingly, reporting in accordance with requirement of provisions of section 197(16) of the Act is not applicable to the Holding Company and its subsidiaries, & Associates.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. The Consolidated Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group, - Refer Note No. 52 to the Consolidated Financial Statements;

ii. The group has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiaries and associate Companies, incorporated in India.

iv. (a) The Management of the Group has represented (Refer Note No.12.3), that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Group, to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Group, ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The Management of the Group, has represented (Refer Note No. 23.13) that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Group from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the

Group, shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement.

v. As stated in Note No. 29.2 to the Consolidated Financial Statements:

(a) The final dividend proposed in the previous year, declared and paid by the Holding Company during the year is in accordance with section 123 of the Companies Act, 2013.

(b) The interim dividend declared and paid during the year and until the date of this report is in compliance with section 123 of the Companies Act, 2013.

(c) The Board of Directors of the Holding Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

vi. Based on our examination which included test checks, the Holding Company has used accounting software for maintaining its books of account for the year ended March 31, 2025 which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved, from the date it was enabled, by the Holding Company as per the statutory requirements for record retention.

In the case of one subsidiary, its auditors have reported that subsidiary has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Also, the auditors of the above referred subsidiary did not come across any instance of audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

In respect of other three subsidiaries, whose unaudited financial statements stated to have been certified by the management of the respective companies, the management of the holding Company has confirmed that the requirement of audit trail has been implemented in respect of one of the three subsidiaries throughout the year for all relevant transactions recorded in the software and the audit trail has been preserved by the Company as per the statutory requirements for record retention and in respect of remaining two subsidiaries, since the books

of accounts are not maintained in electronic mode, the requirement of audit trail is not applicable for the current year.

II With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government in terms of sub-section (11) of section 143 of the Companies Act, 2013, to be included in the Auditor's report on the Consolidated Financial Statements on the basis of CARO report of the holding and subsidiaries, there are no qualifications or adverse remarks have been reported by the respective auditors except the following:

Sr. No.	Name	CIN	Holding Company/ Subsidiary/ Associate	Clause no. of CARO report which is qualified or adverse
1	REC Power Development and Consultancy Limited	U40101DL2007GOI165779	Subsidiary (Step Down)	Xiv(b)

In case of Holding Company(PFC Ltd – CIN L65910DL1986GOI024862), as per the information & explanations given to us by the management, no fraud by the Company or any fraud on the Company has been noticed or reported during the year. However, as per information & explanations given to us, one of the borrower is suspected to have committed fraud on the Company which is under investigation. The Company has downgraded the borrower loan account to Stage-III as per Ind AS and provided adequately against the outstanding loan amount (refer clause no. (xi)(a) of Standalone CARO Report).

Annexure - A to the Independent Auditors' Report on the Audit of the Consolidated Financial Statements

(Referred to in Para I(f) under the heading 'Report on other Legal and Regulatory Requirements' of our report of even date to The Members of Power Finance Corporation Limited on the Consolidated Financial Statements for the year ended 31st March, 2025)

Report on the Internal Financial Controls with reference to Consolidated Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Financial Statements of **Power Finance Corporation Limited** (hereinafter referred to as "the Holding Company") as of and for the year ended 31st March, 2025, we have audited the internal financial controls with reference to Consolidated Financial Statements of the Holding Company, its subsidiary companies, and its associate companies, which are companies incorporated in India, as of that date.

1. MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company, its Subsidiary Companies, and its Associate Companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company, its Subsidiary Companies, its Associate Companies, which are Companies incorporated in India, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

2. AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated Financial Statements of the Holding Company, its subsidiary companies, and its associate companies, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI prescribed under Sub-section 10 of Section 143 of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls with reference to Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the internal financial controls system with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial control with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their reports referred to in the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Consolidated Financial Statements.

3. MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED IND AS FINANCIAL STATEMENTS

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorization of management of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Consolidated Financial Statements.

4. INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED IND AS FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

5. OPINION

In our opinion, the Holding Company, its subsidiaries, its associates which are Companies incorporated in India have, in all material respects, an internal financial controls system with reference to Financial Statements and such internal financial controls with reference to Financial Statements were operating effectively as at 31st March, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

6. OTHER MATTERS

Our aforesaid reports under Sub-section 3 (i) of Section 143 of the Act, on the internal financial controls with reference to Consolidated Financial Statements in so far as applicable to one subsidiary is based on the corresponding report of the joint statutory auditors of such Company and in respect of three subsidiaries and eleven associates, we have relied on the explanation provided by the management of the holding Company in absence of report on Internal Financial Controls of such entities. In our opinion, the same is not considered material for the Consolidated Financial Statements of the Group.

Notes to the Consolidated Financial Statements for the year ended March 31, 2025

1 Group Information

Power Finance Corporation Limited ("PFC" or "the Company") was incorporated in India in the year 1986. PFC is domiciled in India and is limited by shares, having its registered office at 'Urjanidhi', 1, Barakhamba Lane, Connaught Place, New Delhi – 110001 and conferred with 'Maharatna' Status by the Govt. of India.

PFC is a Government Company engaged in extending financial assistance to power, logistics and infrastructure sector and is registered with Reserve Bank of India (RBI) as an Infrastructure Finance Company (IFC). The Company being a Government owned NBFC-IFC is placed in Middle layer under Master Direction (NBFC-Scale Based Regulation), 2023 issued by RBI.

Equity shares of PFC are listed on the National Stock Exchange of India Limited (NSE) and BSE Limited. Further,various debt securities of PFC are also listed on the Stock Exchanges.

These Consolidated Financial Statements comprise the financial statements of PFC & its subsidiaries (referred to collectively as the 'Group'), and its associates, as listed at Note 5. The Group is primarily engaged in extending financial assistance to power, logistics and infrastructure sector. Other businesses include providing consultancy services to power sector and facilitation of development of Ultra Mega Power Projects (UMPPs) and Independent Transmission Projects (ITPs) as per mandate from Government of India (GoI).

2 Statement of Compliance

These Consolidated Financial Statements comply with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms / guidelines. The Consolidated Balance Sheet, Statement of Profit and Loss and Statement of Changes in Equity are prepared and presented as per the requirements of Division III of Schedule III to the Companies Act, 2013 applicable for Non-Banking Financial Companies (NBFCs). The Consolidated Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 'Statement of Cash Flows'.

3

These Consolidated Financial Statements have been approved for issue by Board of Directors (BoD) of PFC on 21.05.2025.

4 Standards/ Amendments issued but not yet effective

During the FY 2024-25, the Ministry of Corporate Affairs (MCA) has not notified any new Indian Accounting Standards (Ind AS) or made amendments thereto, which are not yet effective.

5 The Consolidated Financial Statements represent consolidation of accounts of the Company, its Subsidiaries, and Associates as detailed below:

Sr. No.	Name of the company	Country of incorporation / Principal place of Business	Proportion of ownership interest as at		Status of Audit of financial statements for the year ended 31.03.2024

*Consolidated Financial Statements of these subsidiaries (which incorporates financial statements of their subsidiaries, JVs and associates) have been used for preparation of Consolidated Financial Statements of PFC.

5.1 Wherever unaudited financial statements of subsidiaries, JV & associates are used for preparation of Consolidated Financial Statements, the audited financial statements of those companies are obtained subsequently and necessary adjustment is made in Consolidated Financial Statements of subsequent year and is presented under 'Other adjustments' line item in Statement of changes in equity.

6. Group's Material Accounting Policy Information

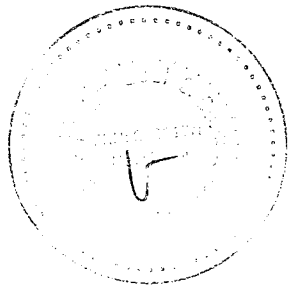
The Group's material accounting policy information in regard to preparation of the Consolidated Financial Statements is as given below:

6.1 Basis of Preparation and Measurement

These Consolidated Financial Statements have been prepared on going concern basis following accrual system of accounting. The assets and liabilities have been measured at historical cost or at amortised cost or at fair value as applicable at the end of each reporting period. The functional currency of the Group is Indian Rupees (₹) except for PIFIL, whose functional currency is USD.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements are categorised into Level 1, 2 or 3 as per Ind AS requirement, which are described as follows:



- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

6.2 Basis of Consolidation

The Consolidated Financial Statements incorporate the financial statements of the Company and its subsidiaries (collectively referred as the "Group"). The Group has investment in joint venture entity and associates which are accounted using equity method (except when the investment is classified as held for sale) in these Consolidated Financial Statements.

The financial statements of Subsidiaries, Joint Venture and Associates are drawn up to the same reporting date as of the Company for the purpose of Consolidation.

(i) **Subsidiaries:**

A subsidiary is an entity over which the Company has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which the Company obtains the control (except for Business Combinations under Common Control).

The Company combines the financial statements of its subsidiaries on a line by line basis, adding together like items of assets, liabilities, equity, income and expenses. The carrying amount of the Company's investment in each subsidiary and the Company's portion of equity of each subsidiary are eliminated. Intercompany transactions, balances, unrealised gains on transactions between the Company and subsidiaries are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Non-controlling interests (NCI) represent the proportion of income, other comprehensive income and net assets in subsidiaries that is not attributable to the Company's shareholders. Non-controlling interests are initially measured at the proportionate share of the recognised amounts of the acquiree's identifiable net assets. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of the interest at initial recognition plus the non-controlling interests' share of subsequent changes in equity.

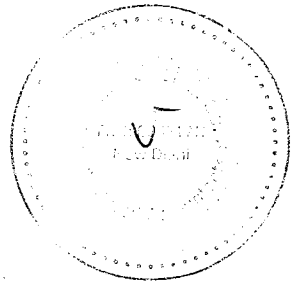
The Consolidated Financial Statements are prepared using uniform accounting policies consistently for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's Standalone Financial Statements except as otherwise stated. When necessary, adjustments are made to the financial statements to bring their accounting policies in line with the Group's material Accounting Policies.

If the Company loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognized in Consolidated Statement of Profit and Loss.

(ii) **Joint Venture and Associates:**

A Joint Venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

An Associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.



The results and assets and liabilities of Joint Venture or Associates are incorporated in these Consolidated Financial Statements using the equity method of accounting, except when the investment or a portion thereof, is classified as held for sale, in which case it is measured at lower of their carrying amount and fair value less cost to sell. Under the equity method, an investment in a Joint Venture or Associate is initially recognised in the Consolidated Balance Sheet at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the Joint Venture or Associate. Distributions received from a joint venture/ associate reduce the carrying amount of the investment.

Upon loss of joint control over the Joint Venture or significant influence over the Associate, the Company measures and recognises any retained investment at its fair value. Any difference between a) the carrying amount of the Joint Venture or Associate upon loss of joint control or significant influence respectively and b) the fair value of the retained investment and proceeds from disposal is recognised in Consolidated Statement of Profit and Loss.

6.3 Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits. The Group considers cash equivalents as all short term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

6.4 Financial Instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instruments.

On initial recognition, financial assets and financial liabilities are recognised at fair value plus/ minus transaction cost that is attributable to the acquisition or issue of financial assets and financial liabilities. In case of financial assets and financial liabilities which are recognised at fair value through profit and loss (FVTPL), its transaction costs are recognised in Consolidated Statement of Profit and Loss.

6.4.1 Financial Assets

All regular way purchases or sales of financial assets are recognised and derecognised on a settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

After initial recognition, financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

(i) Classification and Measurement of Financial Assets (other than Equity instruments)

(a) Financial Assets at Amortised Cost:

Financial assets that meet the following conditions are subsequently measured at amortised cost using Effective Interest Rate method (EIR):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- The contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Effective Interest Rate (EIR) method

The effective interest rate method is a method of calculating the amortised cost of financial asset and of allocating interest income over the expected life. The Group while applying EIR method, generally amortises any fee, transaction costs and other premiums or discount that are integral part of the effective interest rate of a financial instrument.

Income is recognised in the Consolidated Statement of Profit and Loss on an effective interest rate basis for financial assets other than those classified as at FVTPL.

EIR is determined at the initial recognition of the financial asset. EIR is subsequently updated at every reset, in accordance with the terms of the respective contract.

Once the terms of financial assets are renegotiated, other than market driven interest rate movement, any gain / loss measured using the previous EIR as calculated before the modification, is recognised in the Consolidated Statement of Profit and Loss in period during which such renegotiations occur.

(b) Financial Assets at Fair Value Through Other Comprehensive Income (FVTOCI)

A financial asset is measured at FVTOCI if both the following conditions are met:

- the objective of the business model is achieved both by collecting contractual cash flows and selling the financial asset; and
- the contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

All fair value changes are recognised in Consolidated Other Comprehensive Income (OCI) and accumulated in Consolidated Reserve.

(c) Financial Assets at Fair Value Through Profit or Loss (FVTPL)

A financial asset is measured at FVTPL unless it is measured at amortised cost or FVTOCI, with all changes in fair value recognised in Consolidated Statement of Profit and Loss.

T.V.A. & CO. New Delhi Chartered Accountants

Business Model

An assessment of business model for managing financial assets is fundamental to the classification of a financial asset. The Group determines the business model at a level that reflects how financial assets are managed together to achieve a particular business objective of generating cash flows. The Group's business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

The Group is primarily in the business of providing loans across power sector, logistics & infrastructure sector and such loans are managed to realize the contractual cash flows over the tenure of the loan. Further, other financial assets may also be held by the Group to collect the contractual cash flows.

(ii) Classification, Measurement and Derecognition of Equity Instruments

All equity investments other than in subsidiaries, joint ventures and associates are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group at initial recognition makes an irrevocable election to classify it as either FVTOCI or FVTPL. The Group makes such election on an instrument by instrument basis.

An equity investment classified as FVTOCI is initially measured at fair value plus transaction costs. Subsequently, it is measured at fair value and, all fair value changes are recognised in Consolidated Other Comprehensive Income (OCI) and accumulated in Consolidated Reserve. There is no recycling of the amounts from Consolidated OCI to Consolidated Statement of Profit and Loss, even on sale of investment. However, the Group transfers the cumulative gain/loss within consolidated equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Consolidated Statement of Profit and Loss.

(iii) Impairment of Financial Assets

Subsequent to initial recognition, the Group recognises expected credit loss (ECL) on financial assets measured at amortised cost as required under Ind AS 109 'Financial Instruments'. The Group presents the ECL charge or reversal (where the net amount is a negative balance for a particular period) in the Consolidated Statement of Profit and Loss as "Impairment on financial instruments" and as a cumulative deduction from gross carrying amount in the Consolidated Balance Sheet, wherever applicable.

The impairment requirements for the recognition and measurement of ECL are equally applied to financial asset measured at FVTOCI except that ECL is recognised in Consolidated Other Comprehensive Income and is not reduced from the carrying amount in the Consolidated Balance Sheet.

(a) Impairment of Loan Assets and commitments under Letter of Comfort (LoC) & Letter of Undertaking (LoU):

The Group measures ECL on loan assets at an amount equal to the lifetime ECL if there is credit impairment or there has been significant increase in credit risk (SICR) since initial recognition. If there is no SICR as compared to initial recognition, the Group measures ECL at an amount equal to 12-month ECL. When making the assessment of whether there has been a SICR since initial recognition, the Group considers reasonable and supportable information, that is available without undue cost or effort. If the Group measured loss allowance as lifetime ECL in the previous period, but determines in a subsequent period that there has been no SICR since initial recognition due to improvement in credit quality, the Group again measures the loss allowance based on 12-month ECL.

ECL is measured on individual basis for credit impaired loan assets, and on other loan assets it is generally measured on collective basis using homogenous groups.

The Group measures impairment on commitments under LoC & LoU on similar basis as in case of Loan assets.

(b) Impairment of financial assets, other than loan assets:
ECL on financial assets, other than loan assets, is measured at an amount equal to life time expected losses.

(c) Financial assets are written off by RECL either partially or in their entirety only when it has stopped pursuing the recovery or as directed by the order of the Judicial Authority.

A write-off constitutes a derecognition event. The Company may apply enforcement activities to financial assets written off/ may assign / sell loan exposure to ARC / Bank / a financial institution for a negotiated consideration.

Recoveries resulting from the Company's enforcement activities are recorded in statement of profit and loss.

(iv) **De-recognition of Financial Assets**
The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset along with all the substantial risks and rewards of ownership of the asset to another party. The renegotiation or modification of the contractual cash flows of a financial asset can also lead to derecognition of the existing financial asset.

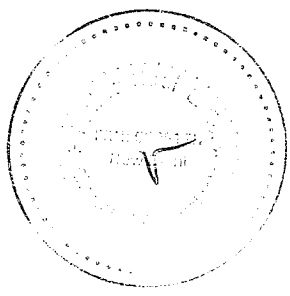
On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received & receivable, and the cumulative gain or loss that had been recognised in Consolidated Other Comprehensive Income and accumulated in Consolidated Equity, is recognised in Consolidated Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Consolidated Statement of Profit and Loss on disposal of that financial asset.

6.4.2 Financial Liabilities

(i) All financial liabilities other than derivatives and financial guarantee contracts are subsequently measured at amortised cost using the effective interest rate (EIR) method.

EIR is determined at the initial recognition of the financial liability. EIR is subsequently updated for financial liabilities having floating interest rate, at the respective reset date, in accordance with the terms of the respective contract.

(ii) Financial guarantee
A financial guarantee issued by the Group is initially measured at fair value and, if not designated as at FVTPL, is subsequently measured at the higher of:
• the best estimate of expenditure required to settle any financial obligation arising as a result of the guarantee; and
• the amount initially recognised less, when appropriate, the cumulative amount of income recognised in the Consolidated Statement of Profit and Loss.



(iii) De-recognition of financial liabilities
The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid & payable is recognised in Consolidated Statement of Profit and Loss.

6.4.3 Derivative Financial Instruments

(i) The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks.

(ii) Under hedge accounting, an entity can designate derivative contracts either as cashflow hedge or fair value hedge.

(iii) To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- there is an economic relationship between the hedged item and the hedging instrument.
- the effect of credit risk does not dominate the value changes that result from that economic relationship.
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

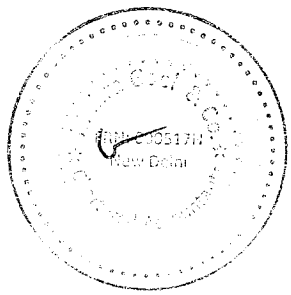
(iv) Cash flow hedge

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Consolidated Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Consolidated Statement of Profit and Loss on a systematic basis. The gain or loss relating to ineffective portion is recognized immediately in Consolidated Statement of Profit and Loss.

(v) Fair Value hedge

A. In respect of PFC

PFC remeasures the hedged item for fair value changes attributable to the hedged risk (i.e. changes in the benchmark rate). Such fair value hedge adjustment are recognised in the Consolidated Statement of Profit and Loss at end of every reporting period. The change in fair value of the underlying hedged item on account of attributable hedged risk (benchmark rate) is offset by corresponding change in fair value of the derivative (Fixed to Float IRS).



B. In respect of RECL

In line with the recognition of change in the fair value of the hedging instruments in the Consolidated Statement of Profit & Loss, the change in the fair value of the hedged item attributable to the risk hedged is recognised in the Consolidated Statement of Profit and Loss. Such changes are made to the carrying amount of the hedged item and are adjusted in Effective Interest Rate in the period when the hedging instrument ceases to exist. If the hedged item is derecognised, the unamortised fair value is recognised immediately in Consolidated Statement of Profit and Loss.

(vi) Hedge accounting is discontinued when the hedging instrument expires, or terminated, or exercised, or when it no longer qualifies for hedge accounting.

(vii) Derivatives, other than those designated under hedge relationship, are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in Consolidated Statement of Profit and Loss.

6.4.4 Embedded Derivatives

An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative cause some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, foreign exchange rate, or other variable, provided that, in the case of a non-financial variable, it is not specific to a party to the contract.

Derivatives embedded in all host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts or if the embedded derivative feature leverages the exposure and the host contracts are not held for trading or designated at fair value though profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

6.5 Offsetting of Financial Assets and Financial Liabilities

Financial Assets and Financial Liabilities are offset and the net amount is reported in the Balance Sheet when currently there is legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

6.6 Property, Plant and Equipment (PPE) and Depreciation

(i) Items of PPE are initially recognised at cost. Subsequent measurement is done at cost less accumulated depreciation and accumulated impairment losses, if any, except for freehold land which is not depreciated. An item of PPE retired from active use and held for disposal is stated at lower of its book value or net realizable value.

(ii) The expenditure incurred on improvement of leasehold premises is recognised at cost and is shown as "Leasehold Improvements" under PPE.

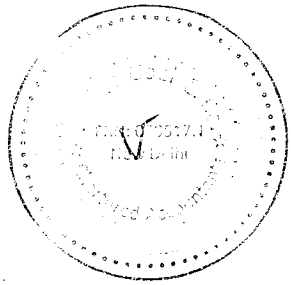
(iii) In case of assets put to use, capitalisation is done on the basis of bills approved or estimated value of work done as per contracts where final bill(s) is/are yet to be received / approved subject to necessary adjustment in the year of final settlement.

(iv) Cost of replacing part of an item of PPE is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. Maintenance or servicing costs of PPE are recognized in Consolidated Statement of Profit and Loss as incurred.

(v) Under-construction PPE is carried at cost, less any recognised impairment loss. Such PPE items are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as of other assets, commences when the assets are ready for their intended use.

(vi) Depreciation is recognised so as to write-off the cost of assets less their residual values[#] as per written down value method[*], over the useful lives as prescribed in Schedule II to the Companies Act, 2013, except following:

Nature of PPE	Life of PPE
Cell phones	2 years (in case of PFC & PFCCL)
Lease hold improvement[(1)]	Lease period or their useful lives whichever is shorter (in case of PFCCL)



[#] Residual value is estimated as 5% of the original cost of PPE.

[*] Depreciation is provided using Straight line method by RECL

[(1)] Leasehold Improvements are amortised on straight line basis

(vii) Depreciation on additions to/deductions from PPE during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed (charged for full month if asset is in use for more than 15 days in case of RECL).

(viii) An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the Consolidated Statement of Profit and Loss.

(ix) Capital expenditure directly attributable for Smart metering project are initially shown in 'Capital work-in-progress' (net of contribution from client) and capitalised as PPE when it is ready for use. Depreciation on items of PPE in smart metering project is recognised on pro-rata basis on Straight Line Method over the useful life of assets not exceeding project implementation period of 99 months.

(x) Items of PPE costing up to ₹ 5000/- each are fully depreciated, in the year of purchase.

(xi) The cost of PPE under construction at the reporting date is disclosed as 'Capital work-in-progress'. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Advances paid for the acquisition/ construction of PPE which are outstanding at the Balance Sheet date are classified under 'Capital Advances.'

6.7 Investment property

Recognition and measurement

Investment property are properties held to earn rentals and/or for capital appreciation.

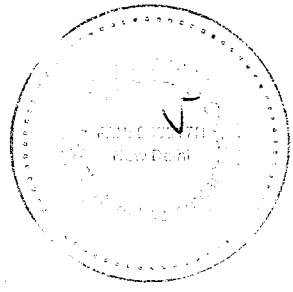
Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at cost less accumulated depreciation and accumulated impairment loss, if any. The depreciation is charged on straight-line method over the useful life of the assets as prescribed under Part 'C' of Schedule II of the Companies Act, 2013.

Derecognition

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

Reclassification to / from investment property

Transfers are made to (or from) investment property only when there is a change in use. Transfers between investment property and owner-occupied property do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purposes.



Fair value disclosure

The fair value of investment property is disclosed in the notes. Fair value is determined by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the relevant location and category of the investment property being valued.

6.8 Intangible Assets and Amortisation

(i) Intangible assets with finite useful lives that are acquired separately are recognised at cost. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use. Subsequent measurement is done at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives.

(ii) Expenditure incurred which are eligible for capitalisation under intangible assets is carried as Intangible Assets under Development till they are ready for their intended use. Advances paid for the acquisition/ development of intangible assets which are outstanding at the balance sheet date are classified under 'Capital Advances'.

(iii) Estimated useful life of intangible assets with finite useful lives has been estimated by the Group as 5 years. In case of PFCCL, life is estimated as 36 months.

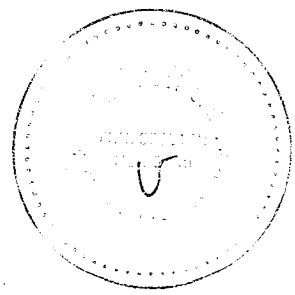
(iv) An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Consolidated Statement of Profit and Loss when the asset is derecognised.

6.9 Leases

For recognition, measurement and presentation of lease contracts, the Group applies the principles of Ind AS 116 'Leases'.

(i) **The Group as a lessee**

The Group at inception of a contract assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether (a) the Group has substantially all of the economic benefits from use of the asset through the period of the lease, and (b) the Group has the right to direct the use of the identified asset.



The Group at inception of a lease contract recognizes a Right-of-Use (RoU) asset at cost and a corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets which are recognised as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. RoU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use (RoU) assets are initially recognized at cost, which comprise the initial amount of the lease liability adjusted for any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. They are subsequently measured at cost less any accumulated depreciation and accumulated impairment losses. The right-of-use assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

The lease liability is initially measured at amortised cost at the present value of future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the Group's incremental borrowing rates in the country of domicile of the leases.
Lease liabilities are re-measured with a corresponding adjustment to the related right-of-use (RoU) asset if the Group changes its assessment if whether it will exercise an extension or a termination option.
Lease liability and RoU asset is separately presented in the Balance Sheet. Interest expense on lease liability is presented separately from depreciation on right of use asset as a component of finance cost in the Consolidated Statement of Profit and Loss. Lease payments for the principal portion are classified as Cash flow used in financing activities and lease payments for the interest portion are classified as Cash flow used in operating activities.

(ii) **The Group as a lessor**

Leases for which the Group is a lessor is classified as a finance or operating lease. Contracts in which all the risks and rewards of the lease are substantially transferred to the lessee are classified as a finance lease. All other leases are classified as operating leases. For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

Amount due from lessee under finance leases is recognised as receivable at an amount equal to the net investment of the Group in the lease. Finance income on the lease is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of lease at the reporting date.

6.10 Assets/ Disposal Groups held for sale

Non-current Assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and the sale is highly probable. A sale is considered as highly probable when such assets have been decided to be sold by the Group; are available for immediate sale in their present condition; are being actively marketed for sale at a price and the sale has been agreed or is expected to be concluded within one year of the date of classification. Such non-current assets are measured at lower of carrying amount or fair value less cost to sell.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Non-current assets held for sale are presented separately from other assets in the Consolidated Balance Sheet.

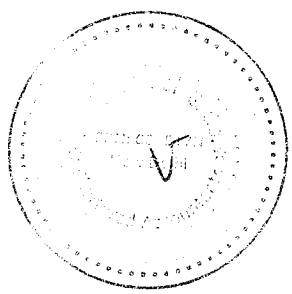
Where the Group is committed to a sale plan involving loss of control of an entity, it classifies investment in the entity (i.e. all the assets and liabilities of that entity) as held for sale.

6.11 Provisions, Contingent Liabilities and Contingent Assets

(i) Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, if it is probable that the Group will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(ii) The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

(iii) When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.



(iv) Where it is not probable that an outflow of economic benefits will be required or the amount cannot be estimated reliably, the obligation is disclosed as contingent liability in notes to accounts, unless the probability of outflow of economic benefits is remote.

(v) Contingent assets are not recognised in the Consolidated Financial Statements. However, contingent assets are disclosed in the Consolidated Financial Statements when inflow of economic benefits is probable.

6.12 Recognition of Income and Expenditure

(i) Interest income on financial assets subsequently measured at amortized cost, is recognized using the Effective Interest Rate (EIR) method. The Effective Interest Rate (EIR) is the rate that exactly discounts estimated future cash receipts through expected life of the financial asset to that asset's net carrying amount on initial recognition.

(ii) Unless otherwise specified, the recoveries from the borrowers of RECL are appropriated in the order of (i) costs and expenses of RECL (ii) delayed and penal interest including interest tax, if any (iii) overdue interest including interest tax, if any and (iv) repayment of principal; the oldest being adjusted first, except for credit impaired loans and recalled loans, where principal amount is appropriated only after the complete recovery of other costs, expenses, delayed and penal interest and overdue interest including interest tax, if any. The recoveries under One Time Settlement (OTS)/ Insolvency and Bankruptcy Code (IBC) proceedings are appropriated first towards the principal outstanding and remaining recovery thereafter, towards interest and other charges, if any.

(iii) Interest on financial assets subsequently measured at fair value through profit and loss (FVTPL), is recognized on accrual basis in accordance with the terms of the respective contract and is disclosed separately under the head 'Interest Income'

(iv) Rebate on account of timely payment of dues by borrowers is recognized on receipt of entire dues in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

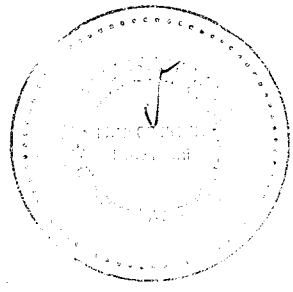
(v) The Group uses the principles laid down by Ind AS 115 to determine that how much and when revenue is recognized, what is the nature, amount, timing and uncertainty of revenues etc. In accordance with the same, revenue is recognised through a five-step approach:

a. Identify the contract(s) with customer;
b. Identify separate performance obligations in the contract;
c. Determine the transaction price;
d. Allocate the transaction price to the performance obligations; and
e. Recognise revenue when a performance obligation is satisfied.

Revenues are measured at the fair value of the consideration received or receivable, net of discounts and other indirect taxes.

In Cost Plus Contracts - Revenue is recognised by including eligible contractual items of expenditures plus proportionate margin as per contract;

In Fixed Price Contracts – Revenue is recognised on the basis of stage of completion of the contract. The Group has assessed that the stage of completion is determined as the proportion of the total time expected to complete the performance obligation to that has lapsed at the end of the reporting period, which is an appropriate measure of progress towards complete satisfaction of these performance obligations under Ind AS 115.



Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

(vi) Revenue from consulting services, in connection with development of Independent Transmission Projects (ITP) and Ultra Mega Power Projects (UMPP) taken up as per the directions from the Ministry of Power, Government of India, is recognized on completed contract method basis i.e. when the ITP /UMPP created for the project is transferred to a successful bidder evidenced by share purchase agreement. The expenses incurred on development of these projects which are not recovered as direct costs are recovered through billing manpower charges at agreed charge out rates decided by the management.

(vii) Income from Smart Metering services of PFCCL are recognised when bills for meter rent is raised to the clients and right to receive such income is established. Income from project development management agency charges (PDMA) during project implementation period is recognized over the period of contract.

(viii) The sale proceeds from Request for qualification (Rfq) documents for Independent Transmission Projects (ITPs) and Ultra Mega Power Project (UMPPs) are accounted for when received.

(ix) Income from short /medium term bidding of power and Coal Flexibility Scheme is recognised when letter of award (LOA) is issued to the successful bidder.

(x) Dividend income from investments including those measured at FVTPL, is recognized in Consolidated Statement of Profit and Loss under the head 'Dividend Income' when the Group's right to receive dividend is established and the amount of dividend can be measured reliably.

(xi) Rental income from investment property is recognised on a straight-line basis over the term of the lease.

(xii) Interest expense on financial liabilities subsequently measured at amortized cost is recognized using Effective Interest Rate (EIR) method.

(xiii) Other income and expenses are accounted on accrual basis, in accordance with terms of the respective contract.

(xiv) A Prepaid expense up to ₹ 1,00,000/- is recognized as expense upon initial recognition in the Consolidated Statement of Profit and Loss.

6.13 Foreign Currency Transactions and Translations

(i) Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction.

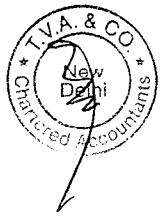
At the end of each reporting period, monetary items denominated in foreign currency are translated using exchange rates prevailing on the last day of the reporting period. Exchange differences on monetary items are recognised in the Consolidated Statement of Profit and Loss in the period in which they arise. However, for the long-term monetary items recognised in the consolidated financial statements before April 1 2018, such exchange differences are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortized over the balance period of such long term monetary item.

(ii) Financial statements of foreign operations whose functional currency is different than Indian Rupees are translated into Indian Rupees as follows:

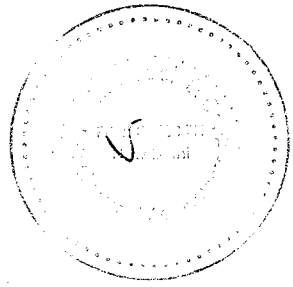
(a) assets and liabilities for each Balance Sheet presented are translated at the closing rate at the date of that Balance Sheet;
(b) income and expenses for each income statement are translated at average exchange rates; and
(c) all resulting exchange differences are recognised in other comprehensive income and accumulated in equity as foreign currency translation reserve for subsequent reclassification to profit or loss on disposal of such foreign operations.

6.14 Borrowing Costs

Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition and/ or construction of a qualifying asset, till the time such a qualifying asset becomes ready for its intended use, are capitalized. A qualifying asset is one that necessarily takes a substantial period to get ready for its intended use.



All other borrowing costs are charged to the Consolidated Statement of Profit and Loss on an accrual basis as per the effective interest rate method.



6.15 Employee Benefits

In respect of PFC

(i) Defined Contribution Plan

Company's contribution paid / payable during the reporting period towards pension is charged in the Statement of Profit and Loss when employees have rendered service entitling them to the contributions.

(ii) Defined Benefit Plan

The Company's obligation towards provident fund, gratuity to employees and post-retirement benefits such as medical benefit, economic rehabilitation benefit, and settlement allowance after retirement are determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Actuarial gain / loss on re-measurement of gratuity and other post-employment defined benefit plans are recognized in Other Comprehensive Income (OCI). Past service cost is recognized in the Statement of Profit and Loss in the period of a plan amendment.

In respect of group

(iii) Other long term employee benefits

The Group's obligation towards leave encashment, service award scheme is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These obligations are recognized in the Consolidated Statement of Profit and Loss.

(iv) Short term employee benefits

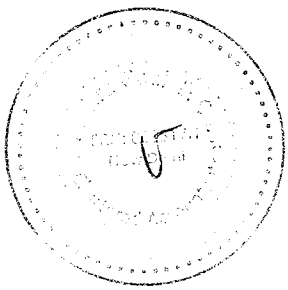
Short term employee benefits such as salaries and wages are recognised in the Consolidated Statement of Profit and Loss, in the period in which the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

(v) Loan to employees at concessional rate

Loans given to employees at concessional rate are initially recognized at fair value and subsequently measured at amortised cost. The difference between the initial fair value of such loans and transaction value is recognised as deferred employee cost upon issuance of Loan, which is amortised on a straight-line basis over the expected remaining period of the loan. In case of change in expected remaining period of the loan, the unamortised deferred employee cost on the date of change is amortised over the updated expected remaining period of the loan on a prospective basis.

In respect of RECL

(i) Defined Contribution Plan



A defined contribution plan is a plan under which the Company pays fixed contributions in respect of the employees into a separate fund. The Company has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution. The contributions made by the Company towards defined contribution plans are charged to the profit or loss in the period to which the contributions relate.

(ii) Defined benefit plan

The Company has an obligation towards gratuity, Post Retirement Medical Facility (PRMF), Provident Fund (PF) and Other Defined Retirement Benefit (ODRB) which are being considered as defined benefit plans covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service, final salary, and other defined parameters. The legal obligation for any benefits remains with the Company, even if plan assets for funding the defined benefit plan have been set aside. The Company's obligation towards defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The liability recognized in the statement of financial position for defined benefit plans is the present value of the Defined Benefit Obligation (DBO) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries.

Actuarial gains/losses resulting from re-measurements of the liability/asset are included in Other Comprehensive Income.

6.16 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

6.17 Income Taxes

Income Tax expense comprises of current and deferred tax. It is recognised in Consolidated Statement of Profit and Loss, except when it relates to an item that is recognised in Consolidated Other Comprehensive Income (OCI) or directly in equity, in which case, tax is also recognised in Consolidated OCI or directly in equity.

(i) Current Tax

Current tax is the expected tax payable on taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of earlier years.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and liability on a net basis.

(ii) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Consolidated Financial Statements and the corresponding tax bases used in the computation of taxable income. Deferred tax is measured at the tax rates based on the laws that have been enacted or substantively enacted by the reporting date, based on the expected manner of realisation or settlement of the carrying amount of assets / liabilities. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against liabilities, and they relate to income taxes levied by the same tax authority.

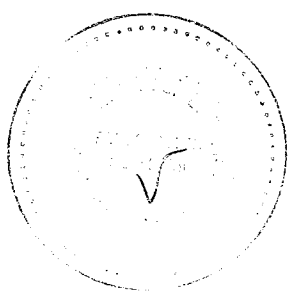
A deferred tax liability is recognised for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

6.18 Earnings Per Share

Basic earnings per equity share are calculated by dividing the net profit or loss attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the financial year.

To calculate diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

6.19 Expenditure on issue of shares



Expenditure on issue of shares is charged to the securities premium account.

6.20 Dividends and Other Payments to holders of Instruments classified as Equity

Final dividends are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Board of Directors of the respective company in the Group.

Liability for the payments to the holders of instruments classified as equity are recognized in the period when such payments are authorized for payment by the respective company in the Group.

6.21 Business Combination under Common Control

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and that control is not transitory.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize material accounting policies.
- The financial information in the Consolidated Financial Statements in respect of prior periods is restated as if the business combination has occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination.

The balance of the retained earnings appearing in the Consolidated Financial Statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee. The identity of the reserves is preserved and the reserves of the transferor become the reserves of the transferee.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

7. Use of Estimates and Management Judgement

In preparation of the Consolidated Financial Statements, the Management is required to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and the related disclosures. The estimates and underlying assumptions are based on historical experience & other relevant factors and are reviewed on an ongoing basis. Actual results may differ from these estimates.

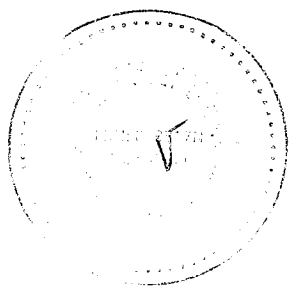
Changes in accounting estimates, if any, are recognized prospectively in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if it affects both current and future periods.

7.1 Significant Management Judgements

In order to enhance understanding of the Consolidated Financial Statements, information about significant areas of critical judgments, apart from those involving estimation (Note no. 7.2), in applying accounting policies that have the most significant effect on the amounts recognised in the Consolidated Financial Statements, are as under:

(i) Deferred Tax Liability on Special Reserve

The Company and its subsidiary RECL have obtained resolution from their respective Board of Directors that there is no intention to make withdrawal from the Special Reserve created and maintained under section 36(1)(viii) of the Income Tax Act, 1961 and the same cannot be withdrawn. Accordingly, no deferred tax liability has been created on the said reserve.



(ii) Non recognition of income on Credit Impaired Loan Assets

As a matter of prudence, income on credit impaired loan assets is recognised as and when received or on accrual basis either on resolutions of stressed assets or when expected realization is higher than the loan amount outstanding.

(iii) Amortisation of transaction cost on Credit Impaired Loan Assets

Outstanding amount of unamortised transaction cost is credited to Consolidated Statement of Profit and Loss on classification of loan asset as credit impaired.

(iv) Classification of Investments

In order to classify an investment in a company as investment in subsidiary or joint venture (JV) or associate, judgement is required to assess the level of control depending upon the facts and circumstances of each case.

(a) Energy Efficiency Services Limited (EESL) was incorporated in 2009 as a Joint Venture (JV) of NTPC Ltd., Power Grid Corporation of India Ltd. (PGCIL), RECL and PFC. During the financial year 2022-23, amendments in the JV agreement were made vide Supplementary Agreement dated 01.09.2021, where by the substantive participative rights and privileges previously enjoyed by all the joint venture partners, through their right to affirmative vote on certain reserved matters stands withdrawn. Therefore, in absence of any joint control, EESL ceases to be a Joint Venture Company for the purpose of consolidation of financial statements.

The Company along with its subsidiary RECL is holding 21.49 % stake in equity share capital of Energy Efficiency Services Limited (EESL). However, in the absence of any practical ability to direct the relevant activities as per the requirements of Ind AS 28 'Investment in Associates and Joint Ventures', the Group does not have any significant influence, accordingly EESL has not been considered as an associate company for the purpose of consolidation of financial statements.

(b) Ultra-Mega Power Projects (UMPPs), RECL's transmission projects (SPV) and PFCCL's ITPs are managed as per the mandate from Government of India (GoI) and the Group does not have the practical ability to direct their relevant activities unilaterally. The Group therefore, considers its investment in respective UMPPs, ITPs and SPVs as associates having significant influence despite the respective Companies holding 100% of their paid- up equity share capital.

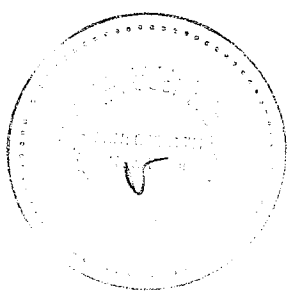
(c) By virtue of holding Board position or equity stake in borrower companies, the rights exercised by PFC in such companies are protective in nature. Thus, the borrower companies are not considered as associates.

(v) Low value leases

An assessment is required, if lessee opts not to apply the recognition and measurement requirements of Ind AS 116 'Leases' to leases where the underlying asset is of low value. For the purpose of determining low value, the Group has considered nature of assets and concept of materiality as defined in Ind AS 1 'Presentation of Financial Statements' and the conceptual framework of Ind AS which involve significant judgement.

(vi) Sundry Liabilities- Interest Capitalisation

Unrealised income on credit impaired loans, represented by Funded Interest Term Loan (FITL) / debt / equity instruments acquired under resolution, is transferred to a separate account titled 'Sundry Liabilities Account (Interest Capitalisation)' and is recognised in Consolidated Statement of Profit and Loss on repayment of FITL or sale / redemption of debt / equity instruments.



(vii) Evaluation of indicators for impairment loss allowance of financial assets

The evaluation of the applicability of indicators for computation of impairment loss allowance of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets. The Group makes significant judgement in identifying the default, and significant increase in credit risk (SICR) as well as grouping of similar financial assets based on available information.

(viii) Deferred tax liability / deferred tax asset in respect of undistributed profits/losses of subsidiaries, branches, investments in associates and joint ventures

Judgement is required in accounting for deferred tax liability / deferred tax asset in respect of Group's investments in respect of undistributed profits/losses of subsidiaries, investments in associates and joint ventures. In respect of undistributed profits/losses of subsidiaries, investments in joint ventures, the Company is able to control the timing of the reversal of the temporary differences and the temporary differences will not be reversed in the foreseeable future. Accordingly, the Group does not recognise a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries, and interests in joint ventures.

7.2 Assumptions and Key Sources of Estimation Uncertainty

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below:

(i) Defined Benefit Obligation (DBO)

The Group's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses as detailed at Note 50.2.

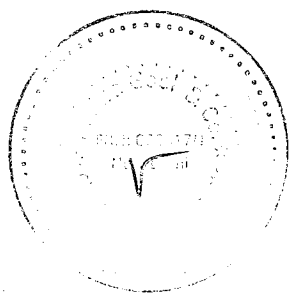
(ii) Impairment test of Financial Assets (Expected Credit Loss)

The measurement of impairment loss allowance for financial assets which includes loan, LoCs, LoUs and guarantees measured at amortised cost requires use of statistical models, expected future economic conditions, estimated cash flows and credit behaviour (e.g., inputs and weights used for credit risk scoring, likelihood of borrowers defaulting and resulting losses). The cash flows expected to be recovered from credit impaired loans are assessed based on the borrower's financial situation, current status of the project, bid-value, resolution plan amount, OTS amount as available.

As these estimates are based on various assumptions, actual results may vary. Refer Note 46.1 for further details.

(iii) Fair value measurement

Fair value of financial instruments is required to be estimated for financial reporting purposes. The Group applies appropriate valuation techniques and inputs for fair value measurements. In estimating the fair value of an asset or a liability, the Group uses quoted prices and market-observable data to the extent it is available. In case of non-availability of the same, unobservable inputs are used for calculation of fair value of the assets/ liabilities. The information about the valuation techniques, inputs used in determination of fair value of various assets & liabilities and other details are disclosed a t Note 48.



(iv) Income Taxes

Estimates are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset. Refer Note 43 and 16 for details.

(v) Useful life of Property, Plant & Equipment (PPE) and Intangible Assets

The Group reviews its estimate of the useful lives of depreciable/amortisable assets at the end of each financial year, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets. Refer Note 18 for details on useful lives and carrying values of PPE and Intangible assets.

8 Cash and Cash Equivalents

(₹ in crore)

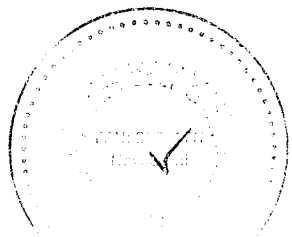
13.3 At initial recognition, companies in the Group made an irrevocable election to present subsequent changes in the fair value of certain equity instruments in other comprehensive income. The Group's main operation is to extend financial assistance to power, logistics and infrastructure sector. Thus, in order to insulate the Consolidated Statement of Profit and Loss from price fluctuations of these instruments, the Management of the respective companies believes that FVTOCI classification provides a more meaningful presentation, rather than classifying them at FVTPL.

Details of FVTOCI instruments derecognised during the year:

(₹ in crore)



Details of investment	No. of shares/units derecognised	Fair Value as on date of de-recognition	Cumulative gain/ (loss) on de-recognition
FY 2024-25 [(1)]			
NHPC Limited	1,49,99,717	161.01	114.38
HUDCO Limited	-	-	-
Total			**114.38**
FY 2023-24 [(1)]			
NHPC Limited	4,35,27,003	307.70	212.90
HUDCO Limited	3,47,429	6.45	4.37
Total			**217.27**

[(1)] These equity shares were sold in tranches during the year considering the market scenario. The fair value and gain has been computed based on the price as on the respective date of de-recognition and has been presented above on aggregate basis.

Subsequent to de-recognition of such investments, the Group has transferred the cumulative gain/(loss) on such shares within Equity (from Reserve for Equity instruments through OCI to Retained Earnings) during the year. Refer Consolidated Statement of Changes in Equity for further details.

13.4 Refer Note 48 for details of fair valuation of investments.

14 Other Financial Assets

The Group has categorised other financial assets at amortised cost in accordance with the requirements of Ind AS 109 'Financial Instruments'.

(₹ in crore)

	Total	**17.97**	**27.92**

* During the FY 2024-25, PFC Consulting Limited has incurred Rs. 0.51 crore (previous year Rs. 0.01 crore) on behalf of the wholly owned subsidiaries (ITPs) which are under the process of incorporation. These ITP companies have been/will be incorporated after balance sheet date of 31 March and the amount receivable have been/ will be transferred to respective ITP.

20.3 In respect of PFC's subsidiaries, REC Ltd. and PFC Consulting Ltd., their management had incorporated these entities with a view to sell them off as per the guidelines of Ministry of Power, through the bid process prescribed by Ministry of Power. There is no possibility that management will have benefits from these entities other than selling them off, hence all these investments (along with the related assets and liabilities) have been classified as 'held for sale'.

PFC had issued Perpetual Debt Instruments (PDI) of Rs 100 crore having face value of Rs 1 crore each, with no maturity and callable only at the option of the Company after minimum 10 years with prior approval of RBI. The claims of the holders of the PDI are:
(a) Superior to the claims of the holders of the equity shares issued by the Company and perpetual non-cumulative preference shares, if any, of the Company; and
(b) Subordinated to the claims of all other creditors of the Company (but pari-passu inter se the holders of the PDIs). The Company may defer the payment of Coupon, if:
(i) The capital to risk assets ratio ("CRAR") of the Company is below the minimum regulatory requirement prescribed by RBI; or
(ii) the impact of such payment results in CRAR of the Company falling below or remaining below the minimum regulatory requirement prescribed by RBI. Further, it also has certain unique features which, inter-alia, grant PFC, in consultation with RBI a discretion in terms of writing down the principal / interest, to skip interest payments, to make an early recall etc. without commensurate right for investors to legal recourse, even if such actions might result in potential loss to investors. As these securities are perpetual in nature and claim of PDI holders is subordinate to claim of all other creditors and further as the Company does not have an unconditional right not to pay the coupon, these have been classified under subordinated liabilities.

24.2 Details of Subordinated Debt (Unsecured) are as under :

(ii)	Others	14.30	38.84
	Balance at the end of the period - towards Equity Share Holders	**36,858.48**	**32,583.37**
	Towards Instruments Entirely Equity in Nature (Refer note 30.2)	558.40	558.40
	Total Non - Controlling Interest	**37,416.88**	**33,141.77**

30.1 PFC's subsidiary REC Ltd. had issued Perpetual Debt Instruments of face value of ₹ 10 lakhs each, with no maturity and callable only at the option of the Company after 10 years. The claims of the holders of the securities shall be (a) Superior to the claims of the holders of the equity shares issued by the Issuer; and (b) Subordinated to the claims of all other creditors of the Issuer. The instruments carry a step up provision if not called after 10 years. The payment of Coupons may be cancelled or suspended at the discretion of REC Ltd. The coupon of the securities is not cumulative except where the Issuer shall not be liable to pay coupon and may defer the payment of coupon, if (i) The capital to risk assets ratio ("CRAR") of the Issuer is below the minimum regulatory requirement prescribed by RBI; or (ii) the impact of such payment results in CRAR of the Issuer falling below or remaining below the minimum regulatory requirement prescribed by RBI.

As these securities are perpetual in nature and the Group does not have any redemption obligation and discretion on payment of coupon, these have been classified as Equity. Further as such Equity is not attributable , directly or indirectly to the parent viz PFC Limited, the same has been included under Non-Controlling interest. The periodic coupon payments are accordingly adjusted with retained earnings.

30.2 In case of PFC's Subsidiary REC Ltd. details of Instruments Entirely Equity in Nature (Perpetual Debt instruments) are as follows:

(₹ in Crore)

Particulars	Number of Bonds	As at 31.03.2025	Number of Bonds	As at 31.03.2024
Fully paid up Perpetual Debts Instrument entirely equity in nature of ₹ 10 lakhs each	5,584	558	5,584	558.40

30.3 Reconciliation of the number of perpetual securities outstanding at the beginning and at the end of the year

Particulars	As at 31.03.2025		As at 31.03.2024

	(ii) for discontinued operations	-	-
	(iii) for continuing and discontinued operations	69.67	59.88

45. Capital Management

The Group maintains a capital base that is adequate to support the Group's risk profile, regulatory and business needs. The Group sources funds from domestic and international financial markets, inter-alia leading to diverse investor base and optimised cost of capital. Refer Note 22, 23 & 24 for details w.r.t. sources of funds and refer Consolidated Statement of Changes in Equity for details w.r.t Equity.

As contained in Master Direction- Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023, as amended from time to time (hereinafter referred to as "RBI Master Directions"), NBFCs are required to maintain a capital ratio consisting of Tier I and Tier II capital not less than 15% of its aggregate risk weighted assets on-balance sheet and of risk adjusted value of off- balance sheet items. Out of this, Tier I capital shall not be less than 10%. Both the companies regularly monitor the maintenance of prescribed levels of Capital to Risk Weighted Assets Ratio (CRAR). Further, with regard to capital restructuring, the Company and its subsidiary RECL is also guided, inter alia, by guidelines on "Capital Restructuring of Central Public Sector Enterprises" issued by Department of Investment and Public Asset Management (DIPAM), Ministry of Finance, Department of Public Enterprises in respect of issue of bonus shares, dividend distribution, buy back of equity shares etc.

Capital to Risk Weighted Assets Ratio (CRAR) is as under:

In respect of PFC

Sr.No.	Ratios	Numerator	Denominator	As at 31.03.2025	As at 31.03.2024
(i)*	Total Capital to risk- weighted assets ratio (CRAR)	Tier I Capital + Tier II Capital	Risk Weighted assets	22.08%	25.41%
	CRAR – Tier I Capital**	Tier I Capital	Risk Weighted assets	20.29%	23.18%
	CRAR – Tier II Capital	Tier II Capital	Risk Weighted assets	1.79%	2.23%
(ii)*	Liquidity Coverage Ratio(LCR) (Refer Note 54.6)	Total High Quality Liquid Assets	Total Net Cash Outflows	100.00%	85.00%
(iii)	Debt- Equity Ratio (times)	Total Debt (principal outstanding)	Net Worth	5.12	5.14

* Computed as per applicable RBI guidelines.

**The amount of perpetual debt instruments of the Tier-I Capital is 0.13% (previous year 0.16%).

Details of Subordinated and Perpetual Debt Instruments raised during the year are as under:

(₹ in crore)

Particulars	Year ended 31.03.2025	Year ended 31.03.2024

Amount raised by issue of Perpetual Debt Instruments	-	100.00

In respect of RECL

Sr.No.	Ratios	Numerator	Denominator	As at 31.03.2025	As at 31.03.2024
(i)*	Total Capital to risk- weighted assets ratio (CRAR)	Tier I Capital + Tier II Capital	Risk Weighted assets	25.99%	25.82%
	CRAR – Tier I Capital**	Tier I Capital	Risk Weighted assets	23.76%	23.32%
	CRAR – Tier II Capital	Tier II Capital	Risk Weighted assets	2.23%	2.50%
(ii)	Debt- Equity Ratio (times)	Total Debt (principal outstanding) less cash & cash equivalents	Net Worth	6.23	6.31

* Computed as per applicable RBI guidelines.

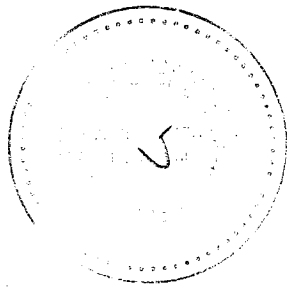
**The amount of perpetual debt instruments of the Tier-I Capital is 7.10% (previous year 5.47%).

Details of Subordinated and Perpetual Debt Instruments raised during the year are as under:

(₹ in crore)

Particulars	Year ended 31.03.2025	Year ended 31.03.2024
Amount of Subordinated Debt raised as Tier-II capital	-	-
Amount raised by issue of Perpetual Debt Instruments	1,995.00	3,090.00

Dividend Distribution Policy



The Group has a well-defined dividend distribution policy. Dividend distribution policy focuses on various factors including but not limited to GoI guidelines, RBI circulars / guidelines, future capital expenditure plans, profits earned during the financial year, cost of raising funds from alternate sources, cash flow position and applicable taxes if any, subject to the guidelines as applicable from time to time.

Being a Central Public Sector Enterprise, the Group is required to comply with the guidelines on "Capital Restructuring of Central Public Sector Enterprises" issued by DIPAM, Govt. of India. As per DIPAM Guidelines, every CPSE would pay minimum annual dividend of 30% of PAT or 4% of the net-worth, whichever is higher subject to the limit, if any, under any extant legal provision. Financial sector CPSEs like NBFCs (applicable to PFC and REC) may pay minimum annual dividend of 30% of PAT subject to the limit, if any, under any extant legal provisions.

Further, DIPAM advised that CPSEs may consider paying interim dividend every quarter after quarterly results, or at least twice a year. Further, all listed CPSEs should consider paying at least 90% of projected annual dividend, in one or more instalments, as interim dividend.

However, the Group may also consider various internal factors which inter-alia includes net-worth and capacity to borrow, CAPEX/business expansion needs; additional investments in subsidiaries / associates of the Company, other regulatory requirements, etc. The detailed Dividend Distribution Policy is available on the respective company's website. For details of dividend paid/recommended during the year, refer Note 29.2(i) and 29.2.(ii).

46. Financial Risk Management

The Group is exposed to several risks which are inherent to the environment that it operates in. The Group is primarily into the business of extending financial assistance to power, logistics and infrastructure sector. The principal risks which are inherent with the Group's business model and from its use of financial instruments include credit risk, liquidity risk and market risk (currency risk, interest rate risk and price risk).

The following table broadly explains the sources of risks which the Group is exposed to and how it manages the same and related impact in the consolidated financial statements:

Note	Risk	Exposure arising from	Measurement	Risk Management
46.1	Credit Risk	Loans, financial assets, investments (other than G-Sec), trade receivables, cash and cash equivalents	Ageing analysis	Detailed appraisal process, credit concentration limits, diversification of asset base and collateral including government guarantee
46.2	Liquidity Risk	Debt securities, Borrowings (other than debt securities), subordinated liabilities and other financial liabilities	Cash flow forecasts	Availability of committed credit lines and borrowing facilities
46.3	Market Risk – Foreign Currency Risk	Recognised financial liabilities not denominated in Indian Rupee (INR)	Sensitivity Analysis, cash flow forecasting	Derivative contracts for hedging currency risk
46.4	Market Risk – Interest Rate Risk	Debt securities, Borrowings (other than debt securities), subordinated liabilities and loans at variable interest rates	Sensitivity Analysis	Mix of loan arrangements with varied interest rate terms, derivative contract like interest rate swaps etc.
46.5	Market Risk – Price Risk	Investments in quoted equity instruments	Sensitivity Analysis	Diversification of portfolio, with focus on strategic investments

For managing these risks, the companies in the Group have put in place an integrated enterprise-wide risk management mechanism to ensure that these risks are monitored carefully and managed efficiently. In accordance with the RBI Master Direction in order to augment risk management practices in the respective Company, PFC and its subsidiary RECL has respective Chief Risk Officers (CRO) who are involved in the process of identification, measurement and mitigation of risks. The risk management approach i.e. objectives, polices and processes for identifying, measuring and managing each of above risk is set out in the subsequent paragraphs.

46.1 Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Group by failing to discharge its obligation. Details of financial assets that expose the Group to credit risk (gross carrying amount) are:

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Low Credit Risk		
Cash and cash equivalents[a]	319.22	339.34
Bank balances other than included in cash and cash equivalents[a]	9,265.73	3,049.22
Loans (Principal Outstanding)[c]	10,15,247.28	9,10,756.18
Trade and other receivables[b]	218.39	147.79
Investments (Excluding equity investments)[a]	9,198.67	7,236.77
Other financial assets[b]	30,064.25	29,855.31
Moderate Credit Risk		
Loans (Principal Outstanding)[c]	76,579.11	50,183.94
Trade receivables[b]	70.07	58.90
High Credit Risk		
Investments (Excluding equity investments)[a]	101.67	101.67
Loans (Principal Outstanding)[c]	18,169.50	29,883.55
Other financial assets[b]	178.80	89.25
Trade and other receivables[b]	89.10	58.55

[a] Credit risk on cash and cash equivalents and other bank balances is limited as these are held with scheduled commercial public sector banks, high rated private sector banks and mutual fund houses, across the country with diversified deposit base. The Companies in the Group diversify the deposit base by deploying funds in various types of instruments with respective banks/ mutual fund houses.

Exposure to credit risk on investments is managed by diversifying the investment portfolio, periodically monitoring such investments, and applying the appropriate valuation techniques to arrive at the carrying value. The Group carries an impairment loss allowance of ₹ 104.93 crore on its investments as at 31.03.2025 (as at 31.03.2024 ₹ 101.67 crore).

[b] Credit risk on trade receivables and other financial assets is mitigated by assessing the credit worthiness of debtors and is managed by monitoring the recoverability of such amounts. The Group carries requisite impairment loss allowance on such trade receivables and other financial assets.

[c] The Group is exposed to credit risk primarily through its lending operations. The same is explained in the paragraphs below (Note 46.1.1 – Note 46.1.13).

46.1.1 Credit Risk Management Approach for lending operations

A. In respect of PFC

PFC has put in place key policies and processes for managing credit risk, which include formulating credit policies, guiding the PFC's appetite for credit risk exposures, undertaking reviews & objective assessment of credit risk, and monitoring performance and management of portfolios. All the procedures and processes of the Company are ISO 9001:2015 certified.

The credit risk management covers two key areas, i.e., project appraisal & project monitoring. PFC selects the borrowers in accordance with the PFC's approved credit policy, which inter alia, defines factors to be considered for rating of the borrower/ project. PFC's customer selection procedure assesses viability of project along with that of its promoting entity. Rate of interest and maximum admissible exposure is, inter alia, based on internal rating awarded by PFC.

(i) Appraisal of Projects

PFC follows a systematic, institutional project appraisal process to assess the credit risk before financing any project.

(a) Appraisal for Private Sector Projects

For private sector projects, a two-stage appraisal process is followed. Initially a preliminary appraisal is carried out in order to decide the prima facie preparedness of the project to be taken up for detailed appraisal. Detailed appraisal is carried out for those projects shortlisted on the basis of preliminary appraisal.
PFC along with evaluation of project viability also assesses the ability of its promoter(s) to contribute equity and complete the project. PFC follows an integrated rating methodology whereby Integrated Rating (IR) is calculated using the weighted average of the scores of the project grading and promoter grading. Based on the IR of the project, terms and conditions (including security package, interest rate and debt-equity ratio) are stipulated.

(b) Appraisal for State Sector Projects

State sector projects are taken up for detailed appraisal to determine, inter-alia, if they are techno economically/financially sound and compatible with integrated power development & expansion plans of the State.
PFC classifies state power generation utilities into various risk rating grades based on the evaluation of utility's performance against specific parameters covering operational and financial performance. With regards to transmission utilities, PFC adopts the categorisation of its subsidiary RECL as per its policy. With regard to State Power Distribution utilities including integrated utilities, PFC's categorisation policy provides for adoption of Ministry of Power's (MoP's) Integrated Ratings by aligning such ratings/ grading with that of PFC's rating structure. The categorization of Borrowers in the Logistics and Non-Power Infrastructure sector is carried out on the basis of recommendations of the Internal Committee considering the strengths and weaknesses of the project.

Such categories/ ratings are used to determine security requirements and pricing of loans given to the State Sector Borrowers. PFC also has a mechanism in place for monitoring the exposure to borrowers.

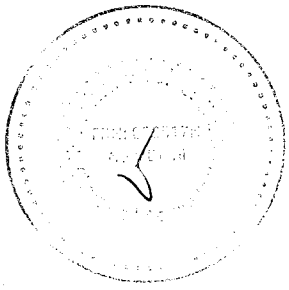
The detailed project appraisal involves technical and financial appraisal covering various aspects such as project inputs, statutory and non-statutory clearances, contracts, implementation plan, project linkages, financial modelling/ projections, calculation of returns, sensitivity analysis etc.

After detailed analysis indicated above, the overall viability of the project and entity is assessed and various conditions in the form of pre-commitment, pre-disbursement and other conditions are stipulated so as to ensure tying up of funds (debt and equity both), all physical inputs, appropriateness of all the contracts, compliance of conditions precedent in agreements/ contracts/ statutory and non- statutory clearances related to the project etc. and in general to ensure bankability of the project & protection of the interest of PFC as a lender for timely servicing of debt. PFC has an authorisation/ delegation structure for the approval of credit facilities commensurating with the size of the loan.

(ii) Security and Covenants

PFC stipulates a package of security measures/covenants to mitigate risks during the construction and post COD (commercial operation date) stage of the project. Based on the risk appetite and appraisal of the project, PFC adopts a combination of the following measures:

(a) Primary Security -Charge on Project Assets and / or State Government Guarantees
(b) Collateral Securities - Corporate guarantee, Personal guarantee of promoters, Pledge of shares, Charge on assets / revenues of group/other companies
(c) Payment Security Mechanism - Escrow Account / Letter of Credit, Trust and Retention Account (TRA)
(d) Other covenants - Assignment of all project contracts, documents, insurance policies in favour of the Company, Upfront equity requirement, Debt Service Reserve Account (DSRA), Debt Equity ratio, shareholders' agreements, financial closure, etc.



(iii) Project Monitoring

PFC has comprehensive project/loan monitoring guidelines that captures aspects relating to monitoring, tracking of project construction, implementation, identifies risks where intervention is required to minimize the time /cost overruns/ consequent slippages in disbursements and including progress of commissioned projects.

For State sector projects, monitoring is being carried out on the basis of project progress details obtained regularly from borrowers, site visits, discussions with the borrowers, information/reports available on Central Electricity Authority's (CEA) website etc.

For private sector, where PFC is Lead Financial Institution (FI), the Company engages Lenders' Engineers (LEs)/ Project Management Agency (PMA) (a single entity, thereby facilitating better coordination of project monitoring activities)/ Lenders' Financial Advisors (LFAs), which are independent agencies to act on behalf of various lenders / consortium members. The PMA / LEs conduct periodic site visits, review relevant documents, discusses with the borrowers and submit its reports on progress of the project. LFAs submit the statements of fund flow and utilization of funds in the project periodically. In cases PFC is not the lead FI, the tasks related to PMA/ LEs and LFAs services are coordinated with the concerned lead lender.

Also, the consolidated periodic progress report of certain projects is prepared comprising important observations/ issues viz. areas of concern, reasons for delay, issues affecting project construction/implementation etc. and is reviewed by PFC on a regular basis.

PFC continuously monitors delays and/or default of borrowers and their recoverability. On occurrence of default in the borrower's account, PFC initiates necessary steps which may involve action(s) including, but not limited to, Special Mention Account (SMA) reporting to RBI, credit information reporting to Central Repository of Information on Large Credits (CRILC) etc., regularization of the account by recovering all over dues, invocation of guarantees/ securities to recover the dues, conversion of loan into equity as per loan agreement, restructuring of loan account, formulating resolution plan with the borrower, change in ownership, Corporate Insolvency Resolution Process (CIRP) under IBC -2016, sale of the exposures to other entities/investors, other recovery mechanisms like referring the case for legal action before Debt Recovery Tribunal (DRT), SARFAESI, etc. and other actions as specified under regulatory/legal framework.

B. In respect of RECL

The credit risk is managed at different levels including at appraisal, disbursements and post disbursement monitoring. RECL has "Integrated Rating Guidelines" and "Comprehensive Risk Management Policy". To mitigate credit risk, RECL follows systematic institutional and project appraisal process to assess the credit risk. These processes include a detailed appraisal methodology, identification of risks and suitable structuring and credit risk mitigation measures. Further, on periodic basis, the loan assets are reviewed and categorized as High/Moderate/Low based on ECL Methodology. The process for Credit Risk Management is as under:

(i) RECL has "Integrated Rating Guidelines" covering credit assessment, risk grading, collateral requirements, reporting, monitoring of end utilisation of funds etc. Further, independent Lender legal counsels are appointed to ensure effective documentation and mitigation of legal risk.

(ii) For all existing private sector projects, where RECL is Lead Financial Institution, RECL engages Lender's Independent Engineers (LIE), Lender's Financial Advisors (LFA) and Lender's Insurance Advisors (LIA), which are independent agencies who act on behalf of various lenders and consortium members. LIE conducts periodic site visits and submits reports on progress status of the project, after discussion with borrower and inspection/ review of relevant documents. LFA submit the statements of fund flow and utilization of funds in the project periodically. In cases where RECL is not the lead Financial Institution, the tasks related to LIE and LFA services are being coordinated with the lead lender.

RECL also endeavours to appoint a separate Project Management Agency (PMA) for new projects being financed, which subsumes the entire works of LIE /Project Management Consultant (PMC), LFA and LIA for better coordination among the agencies. PMA is stationed at project site to closely monitor various day to day project execution activities including monitoring of project progress, review of EPC/non-EPC contracts & invoices, fund utilization and insurance for the project. PMA also verifies the bills of original equipment manufacturer/ supplier, composite works contractor and give its recommendation for disbursement. Initial due diligence is also be performed by PMA taking the sanctity of technical and financial parameters including original project cost & COD.
Concurrent Auditors/Agencies for Specialized monitoring/Cash Flow monitoring agencies are being appointed by REC/Lenders on case to case basis for effective monitoring of Trust & Retention Account (TRA) for stressed projects.

(iii) RECL has an authorisation structure for the approval and renewal of credit facilities. Authorisation limits have been established commensurating with the size of business proposal at CMD/Executive Committee/Loan Committee/Board of Directors based on the recommendation of Screening Committee, as appropriate.

(iv) RECL has developed risk grading structure to categorise its exposures according to the degree of risk of default by charging appropriate interest rates and security package.

(v) Regular reports on the credit quality of loan portfolios are provided to Risk Management Committee and Board, which may require appropriate corrective action to be taken.

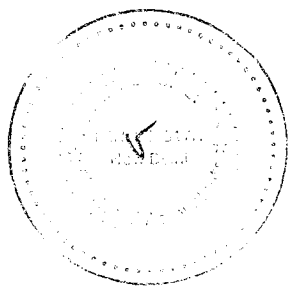
(vi) External agencies are appointed from time to time to review the guidelines, policy and existing practices being followed by business units along with providing the specialist skills to promote best practice throughout RECL for management of credit risk.

(vii) Individual and Group Credit Exposures are assessed against designated limits, before facilities are committed to borrowers by the business unit concerned. Sanction of additional facilities is also subject to the same review process.

(viii) RECL continuously monitors delays and/ or default of borrowers & other counterparties and their recoverability. On occurrence of default in the borrower's account, RECL initiates necessary steps to cure the default which may involve action(s) including, but not limited to, Special Mention Account (SMA) reporting to RBI, credit information reporting to Central Repository of Information on Large Credits (CRILC), etc., monitoring of the TRA account, conversion of loan into equity as per loan agreement, restructuring of loan account, formulating resolution plan with the borrower, change in ownership, Corporate Insolvency Resolution Process (CIRP), sale of the exposures to other entities/ investors and other recovery mechanisms including invocation of guarantees/ securities to recover the dues.

46.1.2 Credit Risk Measurement - Impairment Assessment for Lending Operations

Ind-AS 109 outlines a three staged model for measurement of impairment based on changes in credit risk since initial recognition. For classification of its borrowers into various stages, the Company uses the following basis:



- A financial asset that is not credit impaired on initial recognition is classified in 'Stage 1'.
- If a significant increase in credit risk (SICR) is identified, the financial asset is moved to 'Stage 2'.
- If the financial asset is credit-impaired, it is moved to 'Stage 3' category.

A In respect of PFC

PFC recognises impairment loss allowance in accordance using the expected credit loss (ECL) model for the financial assets which are not categorised at fair value through profit or loss.

I. Default: In accordance with Ind AS 109, PFC considers the rebuttable presumption to define a financial asset as in default, i.e. when the loan account is more than 90 days past due on its contractual payments. Credit impaired financial assets are aligned with the definition of default.

II. SICR - An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting date by considering the change in the risk of default occurring over the remaining life of the financial instrument. In accordance with Ind AS 109, PFC has applied rebuttable presumption that considers more than 30 days past due as a parameter for determining significant increase in credit risk. Further, in case of private sector borrowers, other factors like downgradation in external credit rating to 'C-', restructuring resulting in asset downgradation as per IRAC norms, delay in commissioning of project for more than 4 years are also considered.

In case of Stage 3 financial assets, after implementation of the resolution plan (except for change of ownership and/or resolution through NCLT), the financial asset is upgraded and classified as Stage 2 for four quarters from the date of implementation of resolution plan.

III. Measurement of Expected Credit Loss (ECL)

PFC recognises impairment loss allowance for the financial assets in accordance with a board-approved expected credit loss (ECL) policy. ECL is measured on either a 12 month or lifetime basis depending on whether there is significant increase in credit risk since initial recognition. ECL is the product of Probability of default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). PFC has appointed an independent agency, CRISIL Ltd., during the financial year for assessment of ECL in accordance with Ind AS 109. The brief methodology of computation of ECL is as follows:

(i) Probability of default (PD)

PD is an estimate of the likelihood of default over a given time horizon. It is estimated as at a point in time. For assessing 12-month PD, probability of a loan defaulting in next 12 months is ascertained and similarly for assessing lifetime PD, probability of a loan defaulting in its remaining lifetime is ascertained.
For Stage 1 accounts, 12 months PD is used.
For Stage 2 (significantly increased credit risk accounts), Lifetime PD is used.
For Stage 3 (credit impaired accounts), 100% PD is taken.

12-month PD: In case of State Sector borrowers, for the purpose of PD calculation, the risk rating grades of the utilities are considered. For Gencos/Transcos/Others, PFC's internal rating grades have been considered. For Discoms / Power Department borrowers, PFC has adopted the MoP ratings. The ratings as above has been be mapped with the standard external rating benchmarks. The PD factor associated with the mapped external rating as given in the PD transition matrix published by various CRAs have been used for PD calculation.

In case of Private sector borrowers, the latest external rating as published by various Credit Rating Agencies have been referred to compute PD using the PD transition matrix published by various CRAs . If external rating is not available, the PD has been computed through Proxy Risk Scoring Model on a 10-point scale with 1 suggesting minimum risk and 10 suggesting the highest risk. The said model uses the Quantitative financial ratios like Gearing (Debt/Equity), Return on Capital Employed, Interest Coverage ratio, Debt to EBITDA ratio and qualitative factors like PLF, ACS/ ARR ratio or LAF to arrive at the final Risk score. The financial risk score obtained have been mapped to external rating benchmarks. This mapped rating has been referred to compute PD associated with the rating using the PD transition matrix published by various CRAs.
For Lifetime PD: Markov Chain Model has been used to compute Lifetime PDs of the rating grade.

(ii) Loss Given Default (LGD)

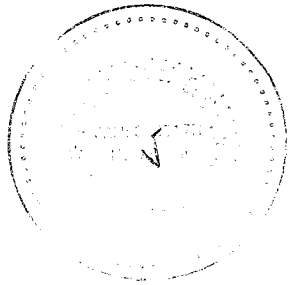
LGD is the loss factor which PFC may experience in case the default occurs.

For State sector borrowers, the exposure is bifurcated into guaranteed and non guaranteed portion. Flat LGD has been applied to the exposure amount which is guaranteed by the State. For non guaranteed portion, PFC considers the credit worthiness of the states on various parameters while estimating the LGD. For estimating the credit worthiness of the state, parameters like State GDP per capita, Fiscal deficit/GDP ratio, Proportion of infra and developmental expenditure and Proportion on Revenue Expenditure on Energy Sector, etc. are used as key inputs. The state utilities are bifurcated into Low, Medium and High-risk category based on the state category. Moreover, for non-guaranteed portfolio of State Sector borrowers, additional stress factors have been considered in the estimation of LGD based on their respective rating groups to account for the likelihood of default owing to borrower's adverse financial conditions or inability to repay.Thus, PFC derives the realizable value of the assets by considering stress factor(s) based on financial health of the state and rating of the borrower. In case of Private sector borrowers, LGD has been assessed considering various factors related to the project to arrive at realisable value of the plant such as generation capacity, project cost per MW, percentage completion of the plant, and book value of the assets, cost incurred and other relevant information. A stress factor was also applied as a haircut to arrive at the realisable value.

For Stage 3 borrowers, LGD has been assessed project wise based on Bid value/resolution plan amount/OTS amount/any other value/ discounted cash flows etc. as applicable.

(iii) Exposure at Default (EAD)

Exposure at Default is the outstanding exposure on which ECL is computed. EAD includes outstanding principal and interest accrued and interest overdues on financial assets that PFC expects to be owed in the event of default in respect of the loan. As per Note 7.1.(ii) , income on credit impaired assets is recognised as and when received or on accrual basis when expected realisation is higher than the loan amount outstanding, therefore, the same is not used in computation of Exposure at default.



(iv) Key assumptions used in measurement of ECL

- The Company considers the date of initial recognition as the base date from which significant increase in credit risk is determined.

- Since the Company has a right to cancel any sanctioned but undrawn limits to any of its borrowers, EAD is assumed to be outstanding balance and interest of the loan as on the reporting date.

(v) The calculation of ECL incorporates forward-looking information. Further, the independent agency appointed to assist the Company in ECL assessment also consider the forward-looking information in the determination of the impairment allowance to be assigned to the borrower, by taking into consideration various project operational parameters, project financial ratios, extension of the project completion and also possibility of stressed and favourable economic conditions. Further, the independent agency has also added some additional macroeconomic parameters such as IIP (index of industrial production) electricity y-o-y growth rate, Money supply y-o-y growth rate to arrive at a weighted shock factor to the base PD term structure for ECL computation so as to reflect the right risk assessment of the utilities.

B. In respect of RECL

The impairment loss allowance on loan assets is provided as per Ind AS 109 in accordance with a board- approved policy, which measures the credit risk on the basis of key financial and operational parameters to assess improvement/ deterioration in credit quality. Management overlays to the model output, if any, are duly documented and approved by the Audit Committee. The evaluation of Expected Credit Loss (ECL) is undertaken by an independent agency, ICRA Analytics Limited (formerly ICRA Online Limited).

I. RECL has an internal system of grading for State Governments, Public Sector Undertakings and State Power Utilities. However, for State Distribution Companies (DISCOMs), RECL adopts the ratings by the Ministry of Power as and when they are updated. These ratings are mapped with external rating grades published by various credit rating agencies as part of rating transition matrix. For private borrowers, RECL uses the external rating as published by various credit rating agencies or proxy risk scores in case such rating is not available. The proxy risk score model considers following parameters:

>> Quantitative factors

- Debt/ EBITDA (30% weightage)
- Return on Capital Employed (15% weightage)
- Interest Coverage (25% weightage)
- Gearing (Debt/Equity) (30% weightage)

>> Qualitative Factors

- Quarter wise Operational Parameters like PPA, PLF, ACS – ARR Gap, LAF, LUF, etc
- Actual Default dates
- Status of the Project

II. Significant Increase in Credit Risk (SICR)

RECL considers a financial instrument to have experienced a significant increase in credit risk in following cases: -
i. When on any financial instrument if the payment is more than 30 days past due on its contractual payments ,
ii. Stage 1 loan asset is undergoing restructuring, untill one year of regular payments as per restructuring plan ,
iii. Downgrade in the credit rating of borrower to "C" ,
iv. Delay in the date of commencement of commercial operation of project by more than 4 years.

III. Definition of default and credit-impaired assets

RECL defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when the loan account is more than 90 days past due on its contractual payments or any such period allowed by RECL in line with circular issued by the Reserve Bank of India.

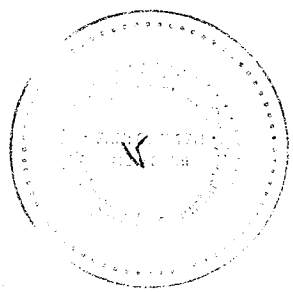
IV. Measuring ECL - explanation of inputs, assumptions and estimation techniques

Expected credit losses are the product of the probability of default (PD), exposure at default (EAD) and loss given default (LGD), defined as follows:

- PD represents the likelihood of the borrower defaulting on its obligation either over next 12 months or over the remaining lifetime of the instrument.
- EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that RECL expects to be owed at the time of default.
- LGD represents RECL's expectation of loss given that a default occurs. LGD is expressed in percentage and it shows the proportion of the amount that will actually be lost post recoveries in case of a default.

V. Determination of Probability of Default (PD)

RECL has analysed the available annual rating transition matrix published by credit rating agencies to arrive at annual transition matrix based PD. This annual transition matrix PD was extrapolated to arrive at the lifetime probability of default of various rating grades by loan tenure / maturity profile i.e. lifetime PD. However, for State Distribution Companies (DISCOMs), the Company adopts the ratings by the Ministry of Power as and when they are updated.



VI. Loss Given Default (LGD) computation model

Based on the historical trend, research and industry benchmarking, RECL has constructed a LGD model. Factors reviewed in the LGD model include Project cost per unit, PPA status, FSA status etc. Based on internal research RECL has benchmarked these factors for Thermal, Renewable in Private Sector. In case of Private sector borrowers, the realizable value of the assets were arrived at using suitable assumptions, including valuation reports carried out by RECL, outcome of the resolution process etc., to arrive at LGD. For State Government and Public sector projects, RECL has factored in the state support and assumed that the State/Central governments would step in to repay debt obligations of the state utilities as witnessed in the past.

VII. Key assumptions used in measurement of ECL

a) RECL considers the date of initial recognition as the base date from which significant increase in credit risk is determined.
b) EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that RECL expects to be owed at the time of default.

VIII. Collateral and other credit enhancements

RECL employs a range of policies and practices to mitigate credit risk. The most common of these is accepting collateral for funds disbursed. RECL has internal policies on the acceptability of specific classes of collateral or credit risk mitigation. The principal collateral types for loans and advances are:

- Mortgage of Immovable properties
- Hypothecation of Moveable property
- Assignment of project contract documents
- Pledge of instruments through which promoters' contribution is infused in the project
- Pledge of Promoter Shareholding
- Corporate and personal Guarantee of Promoters

46.1.3 Credit risk analysis for Lending operations exposure to credit risk

For loans recognized in the balance sheet, the gross exposure to credit risk equals their carrying amount. Refer Note 12 'Loans' for Group's exposure to credit risk arising from loans.

For financial guarantee issued, the maximum exposure to credit risk is the maximum amount that the Group would have to pay if the guarantees are called upon. For irrevocable loan commitments, the maximum exposure to credit risk is the full amount of the commitment facilities. Refer Note 52 for exposure of Guarantee and Outstanding Disbursement Commitments.

A. In respect of PFC

The credit quality and maximum exposure (principal outstanding) to credit risk based on days past due and year end stage classification of loans is tabulated below:

(₹ in crore)

Days Past Due (DPD)	As at 31.03.2025				As at 31.03.2024			
	Stage 1	Stage 2	Stage 3	Total	Stage 1	Stage 2	Stage 3	Total
No overdue	5,01,495.96	-	307.07	**5,01,803.03**	4,34,204.39	441.45*	-	**4,34,645.84**
1-30 days	-	-	-	-	-	-	-	-
31-60 days	-	29,650.31	-	**29,650.31**	-	30,742.84	-	**30,742.84**
61-90 days	-	1,457.29	-	**1,457.29**	-	-	-	-
More than 90 days	-	-	10,209.78	**10,209.78**	-	-	16,073.22	**16,073.22**
Total	**5,01,495.96**	**31,107.60**	**10,516.85**	**5,43,120.41**	**4,34,204.39**	**31,184.29**	**16,073.22**	**4,81,461.90**
Impairment loss allowance	**5,381.05**	**560.76**	**8,424.25**	**14,366.06**	**3,732.95**	**175.83**	**11,962.53**	**15,871.31**

*classified in Stage-II pursuant to resolution plan implemented without change in ownership.

B. In respect of RECL

Credit Risk Exposure in respect of the borrowers with different credit ratings is as under:

(₹ in crore)

Credit Risk Category (Internal/ Mapped Ratings)	As at 31.03.2025				As at 31.03.2024			
	Stage 1	Stage 2	Stage 3	Total	Stage 1	Stage 2	Stage 3	Total
Performing								
Very Good (AAA | AA | A | Government Loan)	2,27,156.98	41,032.49	-	**2,68,189.47**	2,03,407.58	18,161.39	-	**2,21,568.97**
Good (BBB | BB |B)	1,78,400.70	4,088.70	-	**1,82,489.40**	2,22,710.25	445.30	-	**2,23,155.55**
Average (C)	1,16,210.15	-	-	**1,16,210.15**	56,025.85	-	-	**56,025.85**
Fair (D)	-	350.32	-	**350.32**	410.44	-	-	**410.44**
Non- Performing (D)	-	-	7,652.65	**7,652.65**	-	392.96	13,810.33	**14,203.29**
Gross Exposure	**5,21,767.83**	**45,471.51**	**7,652.65**	**5,74,892.00**	**4,82,554.12**	**18,999.65**	**13,810.33**	**5,15,364.10**
Less: Loss allowance (including LoC)	4,822.81	501.95	5,489.48	10,814.24	2,767.04	191.70	9,453.80	12,412.54
Net Exposure	**5,16,945.02**	**44,969.56**	**2,163.17**	**5,64,077.76**	**4,79,787.08**	**18,807.95**	**4,356.53**	**5,02,951.56**

46.1.4 Concentration of credit risk

Credit concentration risk refers to risk associated with large credit/investment exposure to a single company or a group of companies based on its ownership, sector, region etc. that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions, with the potential to adversely affect lender's core operations.

The following table sets out an analysis of risk concentration of overall loan portfolio of PFC and its subsidiary, RECL on the basis of similar risk characteristics:

(₹ in crore)

Particulars	As at 31.03.2025		As at 31.03.2024	
	Principal Outstanding	Impairment Loss Allowance*	Principal Outstanding	Impairment Loss Allowance*
Concentration by ownership				
Loans to state sector (i.e., entities under the control of state and /or central government)	9,15,119.35	9,587.15	8,44,163.65	5,657.78
Loans to private sector	1,94,876.54	15,643.82	1,46,660.02	22,626.03
Total	**11,09,995.89**	**25,230.97**	**9,90,823.67**	**28,283.81**

*including impairment loss allowance on Letter of Comfort & Letter of Undertaking of ₹ 69.19 crore (as at 31.03.2024 ₹ 80.65 crore).

Loans to state sector are well diversified as these are extended to multiple entities under the control of various State Governments and Central Government. The Companies considers that these loans have a low credit risk in comparison to lending to private sector mainly due to low default / loss history in state sector and availability of government guarantee in certain loans. Presence of Government interest in these projects also lowers the risk of non-recoverability of dues.

Further, the Companies have a lending portfolio comprising of loans to generation, renewable, transmission and distribution power projects spread across diverse geographical areas.

(₹ in crore)

Particulars	As at 31.03.2025		As at 31.03.2024	
	Principal Outstanding	Impairment Loss Allowance*	Principal Outstanding	Impairment Loss Allowance*
Concentration by schemes				
Generation	3,22,256.96	14,305.70	3,17,213.88	21,202.09
Renewable	1,44,697.20	3,665.12	99,178.38	3,040.71
Transmission	85,525.29	330.36	83,845.58	318.45
Distribution	4,56,463.53	6,416.69	4,14,955.99	3,407.25

46.1.7 Movement of Credit Impaired Accounts (Stage 3 accounts):

The following tables explain the changes in credit impaired accounts (stage 3 accounts) and the corresponding impairment loss allowance in respect of PFC & RECL between the beginning and the end of the reporting period.

(₹ in crore)

Sr.No.	Description	As at 31.03.2025	As at 31.03.2024
(i)	Net Credit Impaired accounts to Gross Loans (%)	0.38	0.85
(ii)	Net Credit Impaired accounts to Net Loans (%)	0.39	0.87
		FY 2024-25	**FY 2023-24**
(iii)	Movement of Gross Credit Impaired accounts		
	(a) Opening balance	**29,883.55**	**31,393.73**
	(b) Additions during the year	452.63	0.32
	(c) Reductions/ (write off) during the year	(12,166.68)	(1,510.50)
	(d) Closing balance	**18,169.50**	**29,883.55**
(iv)	Movement of Net Credit Impaired accounts		
	(a) Opening balance	**8,467.22**	**8,874.84**
	(b) Additions during the year	57.33	448.16
	(c) Reductions/ (write off) during the year	(4,268.79)	(855.78)
	(d) Closing balance	**4,255.76**	**8,467.22**
(v)	Movement of impairment loss allowance on Credit Impaired accounts		
	(a) Opening balance	**21,416.33**	**22,518.89**
	(b) Additions during the year	395.30	(341.43)
	(c) Reductions/ (write off) during the year	(7,897.89)	(761.13)
	(d) Closing balance	**13,913.74**	**21,416.33**

46.1.8 Write off of Loan Assets

PFC and RECL writes off financial assets, in whole or in part in line with the write off policy of the respective companies, when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include ceasure of enforcement activity or where the Company's recovery method is foreclosing on collateral and the value of collateral is such that there is no reasonable expectation of recovery in full. The waiver/write off is done in whole or in part as per the restructuring/settlement/resolution process.

46.1.9 Policy for sale out of amortised cost business

PFC & RECL does not resort to the sale of financial assets, in ordinary course of business. However, the respective companies have approved policies that they may proceed for resolution of stressed assets by either restructuring, change of ownership, settlement or otherwise. The assets are then assessed for derecognition as per Ind AS 109 'Financial Instruments'

46.1.10 There are no accounts with overdues beyond 90 days but not treated as credit impaired (previous year Nil).

46.1.11 In accordance with Master Direction- Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 as amended from time to time, NPA ratios duly considering the loans which would have been otherwise required to be classified as NPA as per RBI norms is as under:

NPA ratios duly considering the loans which would have been otherwise required to be classified as NPA as per RBI norms is as under:

Particulars	PFC		RECL*	
	As at 31.03.2025	As at 31.03.2024	As at 31.03.2025	As at 31.03.2024

46.1.13 Expected Credit Loss for Trade Receivables

A. In respect of RECL

RECL provides for lifetime credit losses in respect of trade receivables of RECPDCL, one of the subsidiaries of RECL using simplified approach under ECL method:

(₹ in crore)

Particulars	Total
As at 31.03.2025	
Gross carrying value	323.48
Expected credit loss (provision)	(88.35)
Carrying amount (net of impairment)	**235.13**
As at 31.03.2024	
Gross carrying value	213.49
Expected credit loss (provision)	(59.67)
Carrying amount (net of impairment)	**153.82**

B. In respect of PFCCL

The trade receivables of PFCCL comprises mainly amount recoverable from the State Government entities. PFCCL considers that the exposure to state sector have a low credit risk mainly due to low default/ loss history. Further, the presence of Government interest lowers the risk of non-recoverability.

Subsequent to initial recognition, PFCCL recognises expected credit loss (ECL) on financial assets especially on trade receivables other than related parties. ECL is recognised at 100% on the trade receivables due for more than 2 years and 50% on the trade receivables due for more than one year and less than 2 years.

Ageing analysis of Trade receivables is as follows:

(₹ in crore)

Particulars	Less than 1 year	1 year- 2 year	More than 2 year	Total
Gross carrying amount as at 31.03.2025	25.47	5.45	20.08	51.00
Gross carrying amount as at 31.03.2024	22.39	10.78	20.96	54.13

Movement in the expected credit loss allowance

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Opening Balance	**12.89**	**9.25**
Impairment allowance reversal	(4.29)	(1.57)
Impairment losses recognized	3.48	5.21
Closing Balance	**12.08**	**12.89**

C. In respect of PFC

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Opening Balance	**0.81**	**0.81**
Impairment allowance reversal	-	-
Impairment losses recognized	-	-
Closing Balance	**0.81**	**0.81**

46.2 Liquidity Risk

Liquidity risk is the risk that the Group doesn't have sufficient financial resources to meet its obligations as and when they fall due. The risk arises from the mismatches in the timing of the cash flows which are inherent in all financing operations and can be affected by a range of company specific and market wide events.

46.2.1 The following table analyses the maturity pattern of items of financial liabilities (debt securities, borrowings and subordinated liabilities) by remaining maturity of contractual principal and interest on an undiscounted basis:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2025				
Domestic borrowings				
Principal	1,05,203.10	3,39,937.08	2,53,664.73	**6,98,804.91**
Interest	49,598.62	1,34,338.20	87,969.48	**2,71,906.30**
Foreign Currency borrowings				
Principal	54,299.84	1,82,585.90	18,285.49	**2,55,171.23**
Interest	8,361.75	20,136.72	879.94	**29,378.41**
Total	**2,17,463.31**	**6,76,997.90**	**3,60,799.65**	**12,55,260.85**
As at 31.03.2024				
Domestic borrowings				
Principal	1,05,831.49	3,13,592.88	2,27,809.23	**6,47,233.60**
Interest	47,426.15	1,31,031.84	74,792.73	**2,53,250.72**
Foreign Currency borrowings				
Principal	50,529.16	1,19,877.21	27,738.15	**1,98,144.52**
Interest	6,780.13	16,949.13	1,196.47	**24,925.73**
Total	**2,10,566.93**	**5,81,451.06**	**3,31,536.58**	**11,23,554.57**

* In the above table, bonds with put & call option have been shown considering the earliest exercise date. Further, the commercial papers and zero-coupon bonds have been shown at the maturity value.

T.V.A. & CO. New Delhi Chartered Accountants

46.2.2 The following table analyses the maturity pattern of Derivative financial liabilities:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2025				
Forward	-	-	-	-
Option/Swaps	911.03	1,458.31	73.89	**2,443.23**
Total	**911.03**	**1,458.31**	**73.89**	**2,443.23**
As at 31.03.2024				
Forward	-	-	-	-
Option/Swaps	385.91	584.69	142.83	**1,113.43**
Total	**385.91**	**584.69**	**142.83**	**1,113.43**

* The above table details the Company's liquidity analysis for its derivative financial liabilities based on MTMs received from counterparty banks. Maturity buckets are as per the remaining tenor of the respective derivative instrument.

46.2.3 Significant cash flows required for meeting the financial liabilities shall be funded through cash flows (principal and interest repayments) generated from loan assets. The following table analyses the maturity pattern of loans by remaining maturity of contractual principal and interest on an undiscounted basis:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2025				
Loan Assets				
Principal	1,90,970.57	3,98,410.12	5,06,701.45	**10,96,082.15**
Interest	98,547.29	2,79,677.74	2,52,453.36	**6,30,678.39**
Total	**2,89,517.86**	**6,78,087.86**	**7,59,154.81**	**17,26,760.54**
As at 31.03.2024				
Loan Assets				
Principal	1,55,763.97	3,55,093.36	4,58,550.01	**9,69,407.34**
Interest	89,602.19	2,53,990.58	2,08,779.64	**5,52,372.41**
Total	**2,45,366.16**	**6,09,083.94**	**6,67,329.65**	**15,21,779.75**

* The principal cash flows net of impairment loss allowance relating to Stage 3 assets have been considered in over 5 years bucket irrespective of the maturity date.

46.2.4 Liquidity Risk Management

In order to effectively manage liquidity risk, the Group endeavours to maintain sufficient cash flows to cover maturing liabilities and projected disbursements without incurring unacceptable losses or risking damage to its reputation and also endeavours to maintain a diversified fund base by raising resources through different funding instruments. The adequacy of the Group's liquidity position is determined keeping in view the current liquidity position; anticipated future funding needs; present and future earning capacity; and available sources of funds.

The Companies in the Group manages its day to day liquidity to ensure that they have sufficient liquidity to meet their financial obligation as & when due.

Further, for overall liquidity monitoring and supervision, PFC and RECL has their respective Asset Liability Committee (ALCO). The ALCO tracks the liquidity risk by analysing the maturity or cash flow mis-matches of its financial assets and liabilities.

46.2.5 Financing arrangements

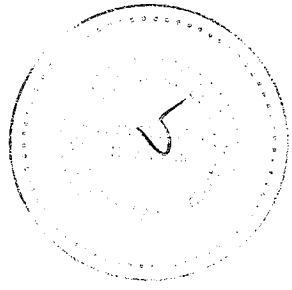
A. In respect of PFC

PFC has access to cash credit, overdraft, line of credits and working capital demand loans from banks to meet unanticipated liquidity need. Further, PFC has the highest Domestic Credit Rating of AAA, thereby enabling it to mobilize funds from the domestic market within a short span of time. PFC has access to the following undrawn borrowing facilities:

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
CC/ OD/ LoC / WCDL limits	14,768.00	11,888.52

B. In respect of RECL



RECL had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Expiring within one year - Floating Rate	14,291.72	11,813.99
Expiring beyond one year -Floating Rate	1,222.19	386.44

46.2.6 RBI vide its Master Directions applicable for NBFCs prescribe Liquidity Coverage Ratio (LCR) framework for all non-deposit taking NBFCs with asset size of more than ₹10,000 crore. The guidelines aim to maintain a liquidity buffer in terms of LCR by ensuring that they have sufficient High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for next 30 days. PFC and its subsidiary, RECL maintains sufficient liquidity buffer in the form of High-Quality Liquid Assets (HQLA) as prescribed.

46.3 Market Risk – Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument, denominated in currency other than functional currency, will fluctuate because of changes in foreign exchange rates.

46.3.1 The Company and its subsidiary, RECL is exposed to foreign currency risk mainly on its borrowings denominated in foreign currency. The carrying amount of the foreign currency denominated borrowings of these companies is as follows:

Description	As at 31.03.2025		As at 31.03.2024	
	Crore in respective currency	₹ in crore	Crore in respective currency	₹ in crore
USD Loans	**15,628.83**	**1,89,506.55**	**1,889.00**	**1,57,493.03**
- Hedged	15,555.74	1,88,854.54	1,816.20	1,51,423.68
- Unhedged	73.09	652.00	72.80	6,069.35
Euro Loans	**706.28**	**15,017.85**	**99.12**	**8,942.57**
- Hedged	676.55	12,273.18	60.40	5,449.37
- Unhedged	29.73	2,744.67	38.72	3,493.20
JPY Loans	**5,84,502.64**	**47,796.73**	**54,361.58**	**29,947.79**
- Hedged	5,81,710.15	46,211.99	53,997.23	29,747.07
- Unhedged	2,792.49	1,584.74	364.35	200.72
GBP Loans	**13.47**	**1,491.75**	-	-
- Hedged	13.47	1,491.75	-	-
- Unhedged	-	-	-	-
SGD Loans	**213.21**	**1,358.36**	**28.53**	**1,761.13**
- Hedged	213.21	1,358.36	28.53	1,761.13
- Unhedged	-	-	-	-
Total		**2,55,171.23**		**1,98,144.52**
- Hedged		**2,50,189.82**		**1,88,381.25**
- Unhedged		**4,981.41**		**9,763.27**

46.3.2 Foreign currency risk monitoring and management

PFC & RECL have their respective Board approved risk management policies to manage risks associated with foreign currency borrowings. These policies prescribe appropriate systems and controls to identify, measure and monitor the foreign currency risks through committees comprising of senior level officials. Derivative transactions are done to cover exchange/interest rate risks through various instruments like foreign currency forwards contracts, currency options, principal only swaps, and IRS and forward rate agreements. These derivative transactions are done for hedging purpose and not for trading or speculative purpose.

46.3.3 Foreign Currency Sensitivity Analysis

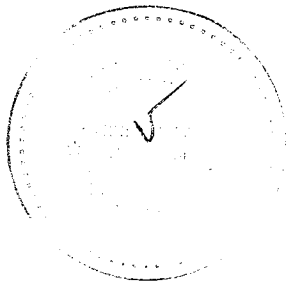
The table below represents the impact on Group's total equity ((Gain / (Loss)) for 5% change in foreign currency exchange rate against INR on unhedged portfolio of outstanding foreign currency borrowings:

(₹ in crore)

Foreign Currency Liabilities	As at 31.03.2025		As at 31.03.2024	
	Decrease	Increase	Decrease	Increase
USD	24.77	(24.77)	290.55	(252.13)
EURO	137.23	(137.23)	174.06	(172.28)
JPY	79.24	(79.24)	10.04	(10.04)
GBP	-	-	-	-
SGD	-	-	-	-
Total	**241.24**	**(241.24)**	**474.65**	**(434.45)**

46.4 Market Risk – Interest Rate Risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in interest rates. Interest rates are dynamic and dependent on various internal and external factors including but not limited to RBI policy changes, liquidity in the market, movement of external benchmarks such as AAA bond / G-Sec yields / LIBOR etc. The impact may be beneficial or adverse depending on the direction of change in interest rates and whether assets or liabilities re-price faster.



A. In respect of PFC

(i) Interest rate risk is managed with the objective to control market risk exposure while optimizing the return.

The Asset Liability Committee (ALCO) tracks the interest rate risk through the gap analysis i.e. by analysing the mismatches between Rate Sensitive Assets and Rate Sensitive Liabilities. For gap analysis, the interest rate sensitivity statement prescribed by RBI is used, wherein the gap is measured between the Rate Sensitive Assets and Rate Sensitive Liabilities which are distributed based on the maturity date or the re-pricing date whichever is earlier.

Further, for managing the interest rate risk, the Company reviews its interest rates periodically based on prevailing market conditions, borrowing cost, yield, spread, competitors' rates, etc. The asset mix is managed by the Company through its interest rate & credit policies which inter-alia covers aspects like reset periods; repayment periods, prepayment premium etc. The liabilities are managed keeping in view factors like cost, market appetite, timing, market scenario, ALM gap position etc. The Company also enters into various derivatives transactions like interest rate swaps, cross-currency interest rate swaps to hedge its interest rate risk.

The exposure of the PFC's borrowing to interest rate changes at the end of the reporting period are:

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Fixed Rate Borrowings	3,02,058.41	3,02,902.78
Floating Rate Borrowings	1,63,704.67	1,04,480.54
Total Borrowings	**4,65,763.08**	**4,07,383.32**

(ii) Interest Rate Sensitivity Analysis

As per RBI Guidelines, Earning at Risk (EaR) is an important focal point for interest risk management. For interest rate sensitivity analysis, the impact of movement of interest rates has been measured on the Earning at Risk derived from the gap statements. The impact has been worked out considering 25 basis upward/downward shock to interest rates over a one-year period, assuming a constant balance sheet. The analysis shows that if rates are increased/decreased by 25 bps, the impact on EaR will be (+/-) ₹ 213.56 crore. (As at 31.03.2024 (+/-) ₹ 315.68 crore).

The analysis assumes that the Rate Sensitive Assets and Rate Sensitive Liabilities are being re-priced at the same time. Further, the analysis considers the earliest/first re-pricing date of the Rate Sensitive Assets and Rate Sensitive Liabilities.

Note: A 25 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

(iii) Disclosures in respect of Interest Rate Benchmark Reform

The Company has successfully completed its transition from LIBOR to alternative risk-free rates (RFRs), such as the Secured Overnight Financing Rate (SOFR) and the Tokyo Overnight Average Rate (TONA), in line with applicable transitional provisions.
Accordingly, the loan agreements and derivatives are now referenced to these alternative benchmarks.

B. In respect of RECL

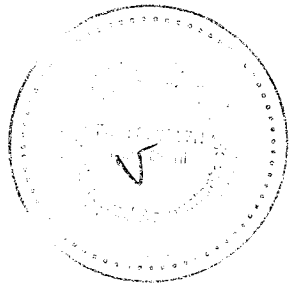
(i) RECL's borrowings are exposed to interest rate risk with floating interest rates linked to external benchmarks such as EURIBOR, Overnight SOFR, Term SOFR, SORA, TONA, T-Bills, Repo Rate etc. RECL manages its interest rate risk through various derivative contracts like interest rate swap contracts, forward interest rate contracts to minimize the risk of fluctuation in interest rates. RECL also uses cross-currency interest rate swaps as a cost-reduction strategy to benefit from the interest differentials in different currencies.

The table below shows the overall exposure of RECL to the liabilities linked with floating interest rates as at 31.03.2025 is as under:

(Foreign Currency & INR Equivalent in ₹ crore)

Currency	As at 31.03.2025			As at 31.03.2024		
	Floating Interest Rate Exposure	Hedged through Derivatives	Unhedged Exposure	Floating Interest Rate Exposure	Hedged through Derivatives	Unhedged Exposure
INR Borrowings	**44,379.47**	-	44,379.47	**61,162.28**	-	61,162.28
USD $	**8,166.15**	7,533.40	632.75	**561.11**	521.80	39.32
INR Equivalent	**69,887.05**	64,471.86	5,415.19	**46,782.38**	43,504.51	3,277.87
JPY ¥	**4,85,390.31**	4,51,161.24	34,229.07	**27,320.68**	-	27,320.68
INR Equivalent	**27,545.90**	25,603.40	1,942.50	**15,050.96**	-	15,050.96
EURO €	**604.02**	-	604.02	**60.40**	-	60.40
INR Equivalent	**5,576.63**	-	5,576.63	**5,449.37**	-	5,449.37
SGD $	**213.21**	-	213.21	**28.53**	7.21	21.32
INR Equivalent	**1,358.36**	-	1,358.36	**1,761.13**	444.93	1,316.20
Total INR Equivalent	**1,48,747.41**	**90,075.26**	**58,672.15**	**1,30,206.12**	**43,949.44**	**86,256.68**

RECL also uses Interest Rate Swaps to manage fair value risk on interest rate borrowings to mitigate the interest rate sensitivity mismatch. Through such swaps, the fixed rate borrowings amounting to ₹ 13,955.70 crore as on 31st March 2025 (Previous year ₹ 15,950.70 crores) have been converted into floating rate borrowings through the use of MIBOR-linked Overnight Indexed Swaps.



RECL's lending portfolio carries interest at semi-fixed rate i.e. fixed rate of interest with 1/3/6/12/36/30/120 months reset option with the borrower. RECL reviews its lending rates periodically based on prevailing market conditions, borrowing cost, yield, spread, competitors' rates, sanctions and disbursements etc. In order to manage pre-payment risks, RECL charges pre-payment premium from borrowers in case of pre- payment of loan. The interest rate risk is managed by the analysis of interest rate sensitivity gap statements and by evaluating the creation of assets and liabilities with a mix of fixed and floating interest rates.

RECL is exposed to interest rate risk on following loan assets which are at semi-fixed rates:

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Rupee Loans	5,48,015.73	4,96,192.74

(ii) Sensitivity Analysis

The table below represents the impact on P&L (Gain / (Loss)) for 50 basis points increase or decrease in interest rate on RECL's floating rate assets and liabilities on the unhedged exposures:

(₹ in crore)

Particulars	As at 31.03.2025		As at 31.03.2024	
	Decrease	Increase	Decrease	Increase
Floating Rate Loan Liabilities	(219.53)	219.53	(322.74)	322.74
Interest Rate Swaps	(52.37)	52.37	(59.68)	59.68
Floating/ semi-fixed Rate Loan Assets	2,050.46	(2,050.46)	1,856.55	(1,856.55)

*Holding all other variables constant

The above sensitivity analysis has been prepared assuming that the amount outstanding at the end of the reporting period remains outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

(iii) Disclosures in respect of Interest Rate Benchmark Reform (IBOR)

RECL has variable interest rate borrowings with interest rates linked with different benchmarks. Such interest rate benchmarks for foreign currency borrowings include 3/6 Months' EURIBOR (Euro Inter Bank Offered Rate), Overnight SOFR (Secured Overnight Financing Rate), 3/6 Months' Term SOFR, Overnight SORA (Singapore Overnight Rate Average), Overnight TONAR (Tokyo Overnight Average Rate) etc. The summary of such borrowings as on March 31, 2025 as per the contracted interest rate benchmark is as below:

Benchmark	As at 31.03.2025		As at 31.03.2024	
	Amount (₹ in crore)	Amount (USD Mn equivalent)	Amount (₹ in crore)	Amount (USD Mn equivalent)
3M Term SOFR	4,365.53	510.10	3,084.83	370.00
6M Term SOFR	8,611.65	1,006.25	2,427.46	291.15
Overnight SOFR	56,909.87	6,649.79	41,270.08	4,950.00
3M EURIBOR	2,346.84	274.22	2,293.28	275.06
6M EURIBOR	3,229.79	377.39	3,156.10	378.55
Overnight TONA	27,545.90	3,218.68	15,050.96	1,805.24
Overnight SORA	1,358.36	158.72	1,761.12	211.23
Total	**1,04,367.94**	**12,195.15**	**69,043.83**	**8,281.23**

46.5 Market Risk - Price risk

(a) The Group is exposed to price risks arising from investments in listed equity shares. Refer Note 13A 'Investments' for Group's exposure to the same.

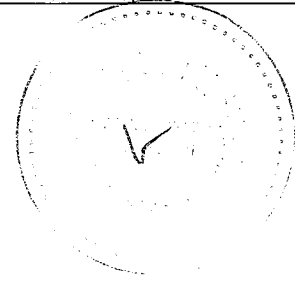
(b) Sensitivity Analysis

The table below represents the impact on Consolidated Statement of Profit and Loss for 5% increase or decrease in the respective prices on Group's equity investments, outside the Group:

(₹ in crore)

Particulars	As at 31.03.2025		As at 31.03.2024	
	Decrease	Increase	Decrease	Increase
Impact on P&L	15.81	(15.81)	13.52	(13.52)
Impact on OCI	122.06	(122.06)	125.83	(125.83)

47. Hedge Accounting



The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Consolidated Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Consolidated Statement of Profit and Loss on a systematic basis.

The table below provides Movement in Effective Portion of Cash Flow Hedges and Cost of Hedging Reserve for PFC and subsidiary RECL:

(₹ in crore)

Sr. No.	Particulars	As at 31.03.2025	As at 31.03.2024
	Effective Portion of Cash flow Hedges		
(a)	**Opening balance of Reserves (net of tax)**	**(1,510.82)**	**1,092.25**
(b)	Changes in intrinsic value of options contracts	8,361.34	(2,621.09)
(c)	Changes in intrinsic value of PoS/IRS/Cross currency contracts	579.42	1,253.85
(d)	Amount reclassified from OCI to P&L	(7,914.51)	(2,111.32)
(e)	**Net amount recognised in OCI during the year (b + c + d)**	**1,026.25**	**(3,478.56)**
(f)	Deferred Tax on (e) above	(258.29)	875.49

A. In respect of PFC

(i) Hedge Effectiveness

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. The Company applies the following effectiveness testing strategies:

a) For derivatives other than options that exactly match the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method (where principal terms of the hedging instrument and the hedged item are same).

b) For option structures, the Company analyses the relationship of changes in value of the hedging instrument and hedged item using regression analysis.

(ii) The effects of hedging instruments designated as Cash-flow hedge on Consolidated Balance Sheet:

2.	Interest Rate Derivatives	103.66	-	(306.54)	Finance Costs

(v) Fair Value Hedge

At 31st March 2025, Company has outstanding interest rate swap agreements of ₹ 30,036.90 crores (Previous year -Nil) wherein the Company receives a fixed rate of interest and pays interest at a variable rate on the notional amount. Such agreements are being used to hedge the exposure to the changes in fair value of fixed rate borrowings.

There is an economic relationship between the hedged item and the hedging instrument as the terms of the interest rate swap match the terms of the fixed rate loan (i.e., notional amount, maturity, payment and reset dates). As such, a hedge ratio of 1:1 for the hedging relationships has been established as the underlying risk of the interest rate swap is identical to the hedged risk component.

The impact of the hedging instrument on the balance sheet is as follows:

(₹ in crore)

Particulars	Fair value hedge	Notional amount	Carrying amount *	Line item in balance sheet where hedging instrument is disclosed	Changes in fair value for calculating hedge ineffectiveness
As at 31-03-2025	- Interest rate swap	30,036.90	435.57	Derivative financial instruments	435.57
As at 31-03-2024	- Interest rate swap	-	-	Derivative financial instruments	-

*Carrying amount here is exclusive of the interest receivable under such derivative contract as on reporting date.

The impact of the hedged item on the balance sheet is as follows:

(₹ in crore)

Particulars	Fair value hedge	Principal Amount	Accumulated fair value adjustments	Line item in balance sheet where hedging instrument is disclosed	Changes in fair value for calculating hedge ineffectiveness
As at 31-03-2025	- Subordinated Liabilities	3,411.00	47.75	Subordinated Liabilities	47.75
	-Debt Securities-Bonds	26,625.90	387.82	Debt Securities-Bonds	387.82
As at 31-03-2024	- Subordinated Liabilities	-	-	Subordinated Liabilities	-
	-Debt Securities-Bonds	-	-	Debt Securities-Bonds	-

The increase in fair value of the interest rate swap of ₹ 435.57 crores (Previous year- Nil) has been offset with a similar loss on the respective subordinated liabilities and debt securities-bonds.

B. In respect of RECL

Hedge ineffectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. RECL applies the following effectiveness testing strategies:

(i) For cross currency swaps, principal only swaps and interest rate swaps that exactly match the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method.

(ii) For other interest rate swaps (in cases of late designation), the Company uses dollar offset method using a hypothetical derivatives, dollar offset method is a quantitative method that consists of comparing the change in fair value or cash flows of the hedging instrument with the change in fair value or cash flows of the hedged item attributable to the hedged risk.

(iii) For option structures, RECL analyses the behaviour of the hedging instrument and hedged item using regression analysis based dollar offset method.

RECL has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk and notional amount of the hedging instruments are identical to the hedged items.

(i) Effects of hedge accounting

Type of hedge and risks	Notional Amt (in Mln)		Carrying amount of hedging instruments		Maturity Dates	Hedge ratio	Weighted average strike price/ rate	Change in fair value of hedging instruments	Change in value of hedged item used as the basis for recognising hedge effectiveness

				(1,166.31)	Finance Costs

(iii) Fair Value Hedges

At 31st March 2025, Company has outstanding interest rate swap agreements of ₹ 13,995.70 crores (Previous year ₹ 15,950.70 crores) wherein the Company receives a fixed rate of interest and pays interest at a variable rate on the notional amount. Such agreements are being used to hedge the exposure to the changes in fair value of fixed rate borrowings. There is an economic relationship between the hedged item and the hedging instrument as the terms of the interest rate swap match the terms of the fixed rate loan (i.e., notional amount, maturity, payment and reset dates). As such, a hedge ratio of 1:1 for the hedging relationships has been established as the underlying risk of the interest rate swap is identical to the hedged risk component.

The impact of the hedging instrument on the balance sheet is as follows:

(₹ in crore)

Particulars	Fair value hedge	Notional amount	Carrying amount *	Line item in balance sheet where hedging instrument is disclosed	Changes in fair value for calculating hedge ineffectiveness
As at 31-03-2025	- Interest rate swap	13,995.70	(8.92)	Derivative financial instruments	212.41
As at 31-03-2024	- Interest rate swap	15,950.70	(221.33)	Derivative financial instruments	57.69

* Carrying amount here is exclusive of the interest receivable under such derivative contract as on reporting date

T.V.A. & CO. New Delhi Chartered Accountants

The impact of the hedged item on the balance sheet is as follows:

(₹ in crore)

Particulars	Fair value hedge	Carrying amount *	Accumulated fair value adjustments	Line item in balance sheet where hedging instrument is disclosed	Changes in fair value for calculating hedge ineffectiveness
As at 31-03-2025	- Subordinated Liabilities	4,230.16	(47.37)	Subordinated Liabilities	96.40
	- Institutional bonds	10,012.46	38.45	Debt Securities- Institutional Bonds	116.01
As at 31-03-2024	- Subordinated Liabilities	2,091.95	(143.77)	Subordinated Liabilities	34.39
	- Institutional bonds	11,960.91	(77.56)	Debt Securities- Institutional Bonds	23.30

The decrease in fair value of the interest rate swap of ₹ 212.41 crores (Previous year ₹ 57.69 crores) has been offset with a similar gain on the respective subordinated liabilities and debt securities.

48. Fair Value Measurements

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

(₹ in crore)

Sr.No.	Financial asset/ Financial Liability - Recurring fair value	Fair Value as at		Fair value hierarchy (Refer Note 6.1)	Valuation technique(s) & Key input(s)
		31.03.2025	31.03.2024

[(1)] Forms part of line item 'Interest Income' in the Consolidated Statement of Profit and Loss.

[(2)] Fair value gain/ (loss) on Investments at FVTOCI forms part of line item 'Net Gain/(Loss) on Fair Value of Equity Instruments' in the Other Comprehensive section of Consolidated Statement of Profit & Loss.

[(3)] Fair value gain/ (loss) on Investments at FVTPL forms part of line item 'Net Loss/(Gain) on Fair Value changes' in the Consolidated Statement of Profit and Loss.

48.4 Fair Value of financial assets/ liabilities measured at amortised cost:

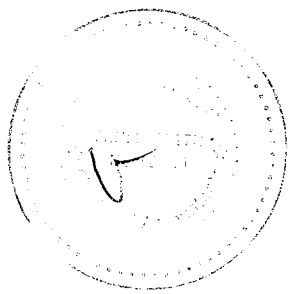
(₹ in crore)

Asset/Liability	Fair value hierarchy	As at 31.03.2025		As at 31.03.2024	
		Amortized Cost	Fair value	Amortized Cost	Fair value
Loans	Level 3	10,91,898.40	11,02,215.05	9,69,111.15	9,75,201.63
Investments[(a)]	Level 1/3	8,227.23	8,553.04	6,124.96	6,120.93
Other financial assets	Level 2	30,064.25	30,552.84	29,885.31	29,880.12
Debt securities[(a)]	Level 1 / 2	6,12,176.04	6,02,078.87	5,60,331.04	5,52,152.40
Borrowings other than debt securities[(b)]	Level 2	3,46,503.49	3,45,353.36	2,88,698.09	2,85,876.75
Subordinated liabilities	Level 2	13,078.51	13,328.66	12,931.93	13,213.58

[(a)] Includes listed instruments with Level 1 fair value hierarchy

Investment in G-Sec and SDL being fair valued using market price as at reporting date.

Foreign currency Notes (GMTN issuances) being fair valued as per closing prices as per Reuters.



[(b)] Includes foreign currency loans linked to Floating rate of interest and multilateral agencies loans being valued at par.

In accordance with the interest rate benchmark reform, the fair value as at 31st March, 2025 has been arrived at using the alternative benchmark i.e. SOFR (Secured Overnight Financing rate).

(i) The fair value of the above financial assets and financial liabilities have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant input being the discount rate that reflects the credit risk of counterparties except for the cases where quoted market prices are available. These fair values were calculated for disclosure purposes only.

(ii) The carrying amounts of financial assets and financial liabilities other than those shown in the above table are considered to be a reasonable approximation of their fair values.

49.5 Major terms and conditions of transactions with related parties

(i) Transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions.

(ii) The remuneration to Key Managerial Personnel are in line with the HR Policies of the respective Companies.

(iii) Loans and advances given to Directors/KMPs have specified terms / period of repayment and are in line with the HR Policies of the respective Companies in the group.

(iv) The Companies in the Group makes advances to its associate companies which are incorporated as SPVs to meet the preliminary expenditure. Such advances carry interest rates at the rate applicable to Term Loans as per the respective Company's policy.

(v) The interest and/or dividend paid to the Trusts and Key Managerial Personnel are on account of their investments in the debt securities and/or equity shares of the Company and the interest and/or dividend paid on such securities is uniformly applicable to all the holders.

(vi) Outstanding balances of Group companies at the year-end are unsecured.

50. Employee Benefits

50.1 Defined contribution plans:

(a) Pension

The Companies in the Group pays fixed contribution to National Pension Scheme (NPS) for its pension obligation towards employees at pre-determined rates into the Tier-I NPS Accounts (Pension Accounts) of the employees.

An amount of ₹18.46 crore (previous year ₹20.45 crore) for the year is recognized as expense in the Consolidated Statement of Profit and Loss on account of the Group's contribution to the defined contribution plans.

50.2 Defined benefit plans:

50.2.1 Provident Fund

In respect of RECL

The Company pays fixed contribution of Provident Fund at pre-determined rates to a separate registered trust which invests the funds in permitted securities. The trust declares the rate of interest on contribution to the members based upon the returns earned on its investments during the year, subject to minimum interest rate specified by Employees' Provident Fund Organisation. Any shortfall in the specified interest rate and returns earned on investments of the trust, for payment of interest to members, is to be compensated by the Company. The Company started from the FY 2023-24, treating the contribution to the recognised provident fund trust for its employees, as a Defined Benefit Plan instead of Defined Contribution Plan being followed hitherto. As such, there is no financial impact of it on the profit of the Company. The Company's obligation towards provident fund is determined and provided for on the basis of actuarial valuation as per IND AS 19 on Employee Benefits. The details of the fair value of plan assets and obligations are as under :

50.2.2 Gratuity

The Companies in the Group have a defined gratuity scheme which is managed by a separate trust. Every employee who has rendered continuous service of five years or more is entitled to gratuity at 15 days salary for each completed year of service subject to a maximum of ₹ 0.20 crore on superannuation, resignation, termination, disablement or on death, considering the provisions of the Payment of Gratuity Act, 1972, as amended. The liability for the same is recognised on the basis of actuarial valuation.

50.2.3 Post-Retirement Medical Scheme (PRMS)

The Companies in the Group have Post-Retirement Medical Schemes (PRMS) to provide medical facilities to superannuated employees, dependent family members of superannuated and deceased employees. The liability for PRMS is recognised on the basis of actuarial valuation.

This scheme is managed by a separate trust. The trust has to ensure adequate corpus for meeting the medical expenditure incurred by the eligible employees/family members. However, any short fall has to be compensated by the Companies in the Group. Based on acturial valuation, it is estimated that no liability will arise in this regard in the near future and hence, no further provision is considered necessary.

50.2.5 Risk exposure

Through its defined benefit plans, the Companies in the Group are exposed to a number of risks, the most significant of which are detailed below:

i) Investment risk/ Asset Volatility Risk

Most of the plan asset investments are in government securities, other fixed income securities with high rating grades and mutual funds. The fair value of these assets is subject to volatility due to change in interest rates and other market & macro-economic factors. There is also a risk of asset liability mismatch i.e. the cashflow for plan assets does not match with cashflow for plan liabilities.

T.V.A. & CO. Chartered Accountants

ii) Changes in discount rate

The present value of defined benefit plan liabilities is calculated using a discount rate which is determined by reference to government bonds' yields at the end of the reporting period. A decrease (increase) in discount rate will increase (decrease) present values of plan liabilities, although this will be partially offset by an increase in the value of the plans' investments.

iii) Mortality rate risk /Longevity Risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

iv) Salary escalation risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

v) Employee Turnover Rate /Withdrawal Rate

If the actual employee withdrawal rate in the future turns out to be more or less than expected then it may result in increase/decrease in the liability.

50.2.6 Plan Assets

The value of plan assets for each category is as follows:

(₹ in crore)

Particulars	As at 31.03.2025			As at 31.03.2024		
	Provident Fund	Gratuity	PRMS	Provident Fund	Gratuity	PRMS
Cash & Cash Equivalents	8.57	0.44	4.51	2.08	0.17	5.01
State/ Central Government Debt Securities	409.30	27.18	87.98	397.34	27.03	82.43
Corporate Bonds/ Debentures	277.83	21.54	195.05	268.23	21.43	173.97
Others	44.47	6.55	1.18	37.54	8.51	-
Total	**740.17**	**55.72**	**288.72**	**705.19**	**57.14**	**261.41**

Actual return on plan assets is ₹ 83.36 crore (previous year ₹ 79.40 crore).

50.2.7 Significant actuarial assumptions

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at 31.03.2025 by TransValue Consultants for Companies in the Group. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

The principal assumptions used for actuarial valuation are:-

A. In respect of PFC

Particulars	Provident Fund		Gratuity		PRMS		ERS	
	As at 31.03.2025	As at 31.03.2024	As at 31.03.2025	As at 31.03.2024	As at 31.03.2025	As at 31.03.2024	As at 31.03.2025	As at 31.03.2024

50.2.8 Sensitivity Analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation of PFC & RECL by the amounts shown below:

(₹ in crore)

Particulars	As at 31.03.2025		As at 31.03.2024	
	Increase	Decrease	Increase	Decrease
Discount rate (0.50% movement)				
- Gratuity	(2.52)	2.73	(2.17)	2.35
- PRMS	(15.87)	17.74	(15.24)	16.71
- ERS	(0.72)	0.78	(0.56)	0.61
Salary Escalation/ Medical inflation Rate (0.50% movement)				
- Gratuity	0.41	(0.32)	0.31	(0.34)
- PRMS	7.14	(6.22)	14.49	(13.41)
- ERS	0.52	(0.49)	0.46	(0.42)
Medical Cost (10% movement)				
- PRMS	26.15	(25.92)	24.67	(24.18)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

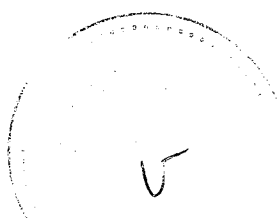
The Group actively monitors how the duration and expected yield of investments are matching the expected cash outflows arising from employee benefit obligations. Investments are well diversified, such that the failure of any single investment would not have a material impact on overall level of assets. There has been no change in the process used by the Group to manage its risks from prior periods.

50.2.9 Expected maturity analysis of the defined benefit plans in future years

(₹ in crore)

Particulars	Gratuity		PRMS		ERS	
	31.03.2025	31.03.2024	31.03.2025	31.03.2024	31.03.2025	31.03.2024
Upto 1 year	9.14	7.42	19.02	17.68	2.22	2.08
1 to 5 years	24.12	24.58	110.85	102.81	6.34	5.91
Over 5 years	101.24	91.38	537.10	430.54	15.20	14.26
Total	**134.50**	**123.38**	**666.97**	**551.03**	**23.76**	**22.25**

The table above is drawn on the basis of expected cash flows.



50.2.10 Expected contributions to post-employment benefit plans

(₹ in crore)

Particulars	Provident Fund		Gratuity		PRMS	
	As at 31.03.2025	As at 31.03.2024	As at 31.03.2025	As at 31.03.2024	As at 31.03.2025	As at 31.03.2024
Expected contribution	-	-	9.43	4.15	12.46	11.52

50.2.11 The weighted average duration of the defined benefit plan obligation at the end of the reporting period is 13.25 years (as at 31.03.2024: 13.13 years) for PFC and 12.51 years (as at 31.03.2024: 11.78 years) for subsidiary, RECL.

50.3 Other long term employee benefits

50.3.1 Leave

The companies in the Group provides for earned leave benefit and half-pay leave benefit to the credit of the employees, which accrues on half-yearly basis at 15 days and 10 days respectively. A maximum of 300 days of earned leave can be accumulated at any point of time during the service. There is no limit for accumulation of half pay leave. On separation after 10 years of service or on superannuation, earned leave plus half pay leave taken together can be encashed subject to a maximum of 300 days. However, there is no restriction on the number of years of service for encashment of earned leave on separation from the service. Provision based on actuarial valuation amounting to ₹24.15 crore (previous year ₹14.66 crore) for the year has been made at the year end in the Consolidated Statement of Profit and Loss.

50.3.2 Other employee benefits

Provision for settlement allowance and long service awards amounting to ₹ 18.93 crore for the year (previous year ₹ 3.66 crore) has been made on the basis of actuarial valuation and debited to the Consolidated Statement of Profit and Loss.

50.4 Employee benefits (viz. Gratuity, PRMS, Terminal Benefits, Leave encashment and other employee benefits) in respect of PFC's/RECL's employees working in its wholly-owned subsidiaries PFCCL /RECPDCL on deputation / secondment basis, are being allocated based on a fixed percentage of employee cost.

51. Leases

The Group has recognised a Right of Use Asset and Lease Liability with respect to leasehold land:

51.1 The table below shows the movement of lease liabilities during the year:

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Opening balance	**14.74**	**17.01**
Additions during the year	-	-
Finance cost accrued during the period	1.22	1.45
Payment of lease liabilities	(3.91)	(3.72)
Reassessment of lease liabilities	-	-
Closing balance	**12.05**	**14.74**

51.2 The table below provides details regarding the contractual maturities of lease liabilities on an undiscounted basis:

(₹ in crore)

Particulars	As at 31.03.2025	As at 31.03.2024
Upto 1 year	3.93	3.91
Over 1 year and upto 5 years	3.35	6.51
More than 5 years	53.20	53.97

51.3 During the year 2024-25, the expenses relating to short-term/low value leases amounting to ₹ 32.00 crore (Previous year ₹ 25.53 crore) has been charged to Consolidated Statement of Profit and Loss. Included in the amount above are leases pertaining to residential accommodation of employees, space for official use, hiring of EDP equipment & other office equipment etc. These leases are usually renewable on mutually agreed terms and are cancellable.

51.4 The total cash outflow towards all leases, including Right-of-Use Assets is ₹ 31.95 crore. (Previous year ₹ 26.77 crore)

52. Contingent Liabilities and Commitments

(₹ in crore)

Sr.No.	Description	As at 31.03.2025	As at 31.03.2024

56. The Government of India (GoI) schemes being implemented in the Group

A. In respect of PFC

56.1 Revamped Distribution Sector Scheme (RDSS)

PFC has been designated Nodal Agency for operationalization and implementation of RDSS Scheme. The role of Nodal Agency inter-alia includes transfer onward the GoI funds received from Minsitry of Power to project implementing agencies i.e. State Power Distribution Utilities/ Power Departments as per the Scheme guidelines issued by Ministry of Power. The release of the funds under GoI Scheme is being done through Treasury Single Account (TSA) maintained with RBI, as per the office memorandum issued by Ministry of Finance, GoI dated 09th March 2022.This ensures that funds of these schemes are released to project implementing agencies 'Just in time' from the Consolidated Fund of India (CFI).

This Scheme was launched by GoI in July, 2021 to improve the operational efficiencies and financial sustainability of DISCOMs, by providing reform linked financial assistance to DISCOMs. It is a Reform based and result linked Distribution sector scheme. PFC along with REC is the nodal agency for operationalization of the scheme. The implementation period of the Scheme is 5 Years (FY 2021-22 to FY 2025-26). The key objectives of the scheme is to:

i) Improve the quality, reliability and affordability of power supply to consumers through a financially sustainable and operationally efficient distribution sector.
ii) Reduce AT&C losses to pan-India levels of 12-15%.
iii) Reduce ACS-ARR gap to zero.

The Scheme has an outlay of ₹ 3,03,758 crore with an estimated gross budgetary support of ₹ 97,631 crore from the GoI. The amount of GoI grant administered by PFC to the eligible entities (net of funds lapsed/surrendered by power utilities) during FY 2024-25 is ₹ 4,897.09 crore (previous year ₹ 2,834.87 crore) and the cumulative grant administered (net of funds lapsed/surrendered by power utilities) till 31.03.2025 is ₹ 8,205.32 crore (till 31.03.2024 is ₹ 3,308.23crore).

The Company is eligible for nodal agency fee at the rate of 0.50% of the sum total of the gross budgetary component of the various projects approved by Monitoring Committee. The total amount of nodal agency fee income from this scheme for FY 2024-25 stands at ₹ 51.19 crore. (Previous year ₹ 45.73 crore)

Further, no amount of GoI grant remained undisbursed in the TSA A/c of PFC as on 31.03.2025 and 31.03.2024.

B. In respect of RECL

56.2 Pradhan Mantri Sahaj Bijli Har Ghar Yojana (SAUBHAGYA)

Government of India launched a scheme "Pradhan Mantri Sahaj Bijli Har Ghar Yojana" - Saubhagya to achieve universal household electrification in the country during Oct 2017. The scheme envisaged to provide last mile connectivity and electricity connections to all remaining un-electrified households in rural areas and poor households in urban areas. The capital outlay of Saubhagya Scheme was ₹ 16,320 Crore including Gross Budgetary Support of ₹ 12,320 Crore during the entire implementation period. Ministry of Power designated REC as the Nodal agency for operationalization of Saubhagya Scheme. The scheme has been successfully completed and closed in its sunset year FY 2021-22 i.e. 31.03.2022.

56.3 Deen Dayal Upadhyaya Gram Jyoti Yojana (DDUGJY)

Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY), the flagship scheme of Government of India covering all aspects of rural power distribution was launched in Nov 2014. Under the scheme 60% of the project cost (85% for special States) is provided as grant by Government of India and additional grant up to 15% (5% for special States) on achievement of prescribed milestones. DDUGJY facilitates towards achievement of '24x7 Power for All' in the country through the following project components:

(i) Separation of agriculture and non-agriculture feeders facilitating adequate power supply to agriculture & continuous power supply to non-agricultural consumers in the rural areas;

(ii) Strengthening and augmentation of sub-transmission & distribution infrastructure in rural areas, including metering of distribution transformers/ feeders/ consumers;

(iii) Micro-grid and Off-grid distribution network;

(iv) Rural Electrification component under the RGGVY 12th and 13th plans, subsumed to DDUGJY.

The scheme had estimated outlay of ₹ 75,893 Crore including budgetary support of ₹ 63,027 Crore from Government of India during the entire implementation period. Additional Infra under DDUGJY was sanctioned with a total outlay of ₹ 7,069 Crore including budgetary support of ₹ 5,302 Crore. The scheme has been successfully completed and closed in its sunset year FY 2021-22 i.e. 31.03.2022.

56.4 National Electricity Fund (NEF)

The National Electricity Fund (NEF), an interest subsidy scheme, has become operational since FY 2012-13. The scheme has been introduced by the Government of India to promote capital investment in the distribution sector. The scheme provides interest subsidy linked with reform measures, on the loans taken by public and private distribution power utilities for various capital works in the Distribution sector. NEF would provide interest subsidy aggregating up to ₹ 8,466 Crore (including interest subsidy to the borrowers, Service Charges to the Nodal Agency, payments to Independent Evaluators and other incidental expenses) spread over 14 years for loan disbursement against projects approved during 2012-13 and 2013-14. RECL has been nominated as the Nodal Agency for operationalization of NEF scheme across the country.

56.5 Revamped Distribution Sector Scheme (RDSS)

Government of India has approved the Revamped Distribution Sector Scheme (RDSS) to help DISCOMs improve their operational efficiencies and financial sustainability by providing result-linked financial assistance to them so as to strengthen supply infrastructure based on meeting pre-qualifying criteria and achieving basic minimum benchmarks. The scheme has an outlay of ₹ 3,03,758 Crore over 5 years i.e. FY 2021-22 to FY 2025-26 including an estimated Government Budgetary Support (GBS) of ₹ 97,631 Crore.

(i) Reduction of AT&C losses to pan-India levels of 12-15% .

(ii) Reduction of ACS-ARR gap to zero.

(iii) Improvement in the quality, reliability and affordability of power supply to consumers through a financially sustainable and operationally efficient distribution sector.

Components of the scheme are:
Part A – Financial support for Prepaid Smart Metering & System Metering and up-gradation of the Distribution Infrastructure.
Part B – Training & Capacity Building and other Enabling & Supporting Activities.

56.6 Prime Minister's Development Plan (PMDP)

Government of UT of Jammu & Kashmir and Government of UT of Ladakh, through their respective company / department have appointed RECPDCL as a Project Implementing Agency (PIA) for design, engineering, procurement, supply, erection, testing and commsioning of all the material and services works to be taken-up for execution of transmission projects under PMDP in J&K state and Ladakh on nomination basis, as per actual cost to be discovered through competitive biddings.

56.7 11 kV Feeder Monitoring

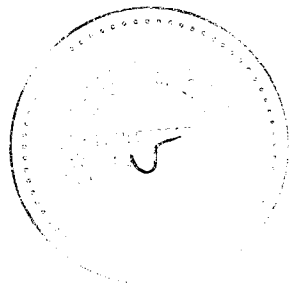
Ministry of Power has appointed RECPDCL to implement 11 kV Feeder Monitoring Scheme. The scheme is to develop a Self-sustained independent web based system for automated 11 kV Rural Feeder Monitoring System through Data Logging of various essential parameters of all the Outgoing 11kV rural feeders from 66, 33/11 kV sub stations and make the information available online for various stake holders including public portal, on real time basis for power supply monitoring, alerts, meter data analysis, information dissemination and energy audit..

56.8 Rooftop Solar Program (RTS)

PM-Surya Ghar: Muft Bijli Yojana was launched by Government of India on 29.02.2024 for installation of Rooftop Solar (RTS) in one crore households with the financial outlay of ₹ 75,021 crore (including central financial assistance of Rs 65,700 crore) and is to be implemented till FY 2026-27. The scheme aims to install rooftop solar systems in 1 crore residential households, providing free or low-cost electricity of up to 300 units per month. It targets the generation of 1,000 billion units of renewable electricity from the installed capacity, which is expected to reduce carbon dioxide equivalent emissions by 720 million tons over the 25-year lifespan of these rooftop solar projects. This initiative supports India's commitment to its Nationally Determined Contributions (NDCs) under the UNFCCC by aiming to achieve 30 GW of rooftop solar capacity in the residential sector by FY 2026-27.

C. In respect of PFCCL

56.9 The Company has been selected as nodal agency for facilitating short term power requirements through competitive bidding as per MoP guidelines dated 30th March 2016. As per the guidelines (as amended), all the bidders would be able to participate in the e-bidding events on making payment of the requisite fees of Rs.500 per MW (plus applicable taxes) per requisition for the total capacity sought by the utility for that particular requisition, for which the bidder is willing to bid.
In addition to above, MoP has also authorised PFCCL for bidding under Shakti Policy B(v) for which deposit towards bid security and fees are received and included in above amount.
Only successful Bidder(s) will have to pay the fees to the Company for the quantum allocated to each bidder after completion of activity and the balance amount will be refunded to the bidder. Further, the bid security will be refunded as per guidelines of Shakti Policy.



56.10 In connection with Aatma Nirbhar Bharat Abhiyan of Govt of India, Power Departments/ Utilities in Union Territories has to be corporatised/privatised. MoP through PFC has conveyed to provide hand-holding support and the services of a transaction advisor to the UTs and to fund the expenditure incurred in this regard which will be recoverable from the successful bidder/MoP alongwith interest.

57. Status of documentation subsequent to unbundling of SEBs

57.1 Status of documentation subsequent to reorganization of the State of Jammu & Kashmir

After the bifurcation of the State of Jammu & Kashmir into two Union territories- Jammu & Kashmir UT and Ladakh UT , the existing entities pertaining to the erstwhile state of Jammu & Kashmir have been restructured vide unbundling order dated 23.10.19. The addendums to the agreements with new restructured departments are yet to be executed. Pending the execution of such documents, the existing loans are being serviced/repaid in line with the existing loan agreement.

57.2 Status of documentation subsequent to reorganization of the State of Andhra Pradesh

A. In respect of PFC

Subsequent to the reorganization of erstwhile Andhra Pradesh, the State of Telangana has been formed on 02.06.2014. However, the assets and liabilities are yet to be transferred to the respective power utilities through a formal gazette notification except for assets and liabilities of TSSPDCL which have been transferred to APSPDCL for R-APDRP loans only amounting to ₹ 8.95 crore.

Once the final transfer scheme is notified through Gazette Notification by Govt. duly indicating the transfer of assets and liabilities among the power utilities, action for execution of documentation formalities will be taken up in respect of all the outstanding loans (except for above R-APDRP loans) with the new / name changed utilities. Till that time, the demand for payment of interest / principal is being segregated by the utilities and the respective portions are being paid by utilities in Telangana and Andhra Pradesh.

B. In respect of RECL

Subsequent to the reorganization of erstwhile Andhra Pradesh, the State of Telangana has been formed on 02.06.2014. However, the assets and liabilities are yet to be transferred to the respective power utilities through a formal gazette notification.

Status of documentation is as under:

(i) Where ever the loans have been sanctioned to erstwhile APCPDCL, APNPDCL and APGENCO prior to bifurcation and documentation has not been done, these schemes have been re-sanctioned in the name of newly formed utilities and documentation formalities completed and accordingly the charge has been registered with the Ministry of Corporate Affairs (MCA).

(ii) Where ever the loans sanctioned in the name of erstwhile APCPDCL, APNPDCL prior to bifurcation and documentation formalities completed and drawls have been made, in these schemes an undertaking has been obtained from the name changed / newly formed utility and disbursements have been made to the newly formed utility by changing the name of the borrower in the name of new / name changed utility.

(iii) Where ever the Loan is sanctioned in the name of erstwhile APCPDCL, APNPDCL prior to bifurcation and documentation formalities completed with Govemment Guarantee and drawls have been made, further documentation for these schemes shall be done on Gazette Notification.

(iv) Once the final transfer scheme is notified through Gazette Notification by Government, duly indicating the transfer of assets and liabilities among the power utilities, action for execution of documentation formalities will be taken up in respect of all the outstanding loans with the new / name changed utilities. Till that time, the demand for payment of interest / principal is being segregated by the Utilities and the respective portions are being paid by Utilities in Telangana and Andhra Pradesh.

Government of Tamil Nadu vide G.O.No.6 & G.O.No 7 dated 24 January, 2024 ordered the trifurcation of TANGEDCO into 3 entities i.e. (i) the existing company TANGEDCO would be renamed as Tamil Nadu Power Distribution Corporation Limited (TNPDCL) and continue to carry on distribution business (ii) Formation of Tamil Nadu Power Generation Company Limited (TNPGCL) for carrying out thermal & gas power generation business and (iii) Tamil Nadu Green Energy Corporation Limited (TNGECL) to carry out the green power generation business. Pursuant thereto, the two new entities viz. TNPGCL and TNGECL were formed on 09.02.2024 and 10.02.2024 respectively.

Thereupon, Government of Tamil Nadu vide G.O.No.32 dt.06th March, 2024 ordered provisional transfer of assets and liabilities among three companies namely TNPGCL, TNGECL and TNPDCL. As per the order, the transfer of Assets and Liabilities are provisional in nature for one year and final transfer of assets and liabilities would be notified subsequently.

In terms of the aforesaid notifications, tripartite agreements dated 29th May 2024 were executed between (i) REC, TANGEDCO and TNGECL (in respect of green energy loans of erstwhile TANGEDCO) and (ii) REC, TANGEDCO and TNPGCL (in respect of thermal and gas power business of erstwhile TANGEDCO) wherein TNGECL and TNPGCL have agreed to repay the respective portion of their loan amounts as per the loan documents executed by REC with erstwhile TANGEDCO. Final documentation with the new entities would be executed with the respective entities based upon the final notification issued by Govt. of Tamil Nadu.

58. In the context of reporting business / geographical segment as required by Ind AS 108 - 'Operating Segments'

The Group's operations majorly comprise of only one business segment - lending to power, logistics and infrastructure sector. Hence, there is no other reportable business / geographical segment as per Ind AS 108 "Operating Segments".

58.1 The Group does not have any geographical segments as its operations are mainly carried out within the country.

58.2 Revenue from major services

The following is an analysis of Group's revenue from operations from its major products/services:

(₹ in crore)

Particulars	FY 2024-25	FY 2023-24
Interest income		
- on loans	1,03,159.20	89,115.50
- others	1,841.81	969.90
Dividend income	90.51	68.53
Fee and commission income	625.96	341.35
Other operating income	784.14	601.44
Total Revenue from Operations	**1,06,501.62**	**91,096.72**

58.3 Information about major borrowers:

No single borrower contributed 10% or more to respective companies' revenue for both FY 2024-25 and FY 2023-24.

59. Amount expected to be recovered/ settled within 12 months and beyond for each line item under asset and liabilities:

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF POWER FINANCE CORPORATION LIMITED

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

1. OPINION

We have audited the accompanying Standalone Financial Statements of Power Finance Corporation Limited ('the Company'), which comprise the Balance Sheet as at 31.03.2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and Notes to the Standalone Financial Statements, including a summary of Significant Accounting Policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31.03.2024, and its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

2. BASIS FOR OPINION

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

PREM GUPTA & CO. FRN No. 00042SN New Delhi Chartered Accountants

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

3. KEY AUDIT MATTERS

Key audit matters ("KAM") are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditors' Response
(i)	**Credit impairment of financial instruments- Loan Assets** The Company follows a Board approved methodology wherein assessment for allowance is carried out by an external agency for impairment based on certain guidelines and procedures in respect of criterion/framework classifying the assets into various stages depending upon credit risk and level of evidence of impairment. Impairment loss measurement requires use of statistical models to estimate the Probabilities of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). These models are key driver to measure Impairment loss. The key indicators underlying for assessment of impairment allowance are periodically appraised by the management. The most significant areas where we identified greater levels of management judgement are: Significant Increase in Credit Risk (SICR) – Company has classified SICR based on the indicator defined in Ind AS, estimate the Probabilities of Default (PD), Loss Given Default (LGD) and Individually assessed Stage 3 carrying value. The carrying value of loans and advances to borrowers may be materially misstated if	**Our audit procedures included:** • The Company has availed services of an independent expert for assessment of ECL, whose report has been provided to us.. We verified the criterion/ framework with applicable regulatory requirement along with Company's internal guidelines and procedures in respect of the impairment allowance. • Verified loan assets by applying the standard audit procedures with respect to the credit appraisal, sanctioning, documentation, review and monitoring process of the Company. Also, loan balances were verified basis external confirmation from the borrowers and assessed quality of the borrower based on recovery and other criteria as per the credit policy of the Company. • We have reviewed the underlying assumptions and broad methodology of ECL assessment. • Components and calculations in the study for impairment allowance carried out by the independent expert have been test checked, discussed with the management and relied upon by us. Also, our audit procedure in this regard is limited since certain parameters of

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

CHOKSHI & CHOKSHI LLP FRN 101872W/ W100045

Sr. No.	Key Audit Matter	Auditors' Response
	individual impairments are not appropriately estimated based upon certain estimates, future cash flow and asset valuations. The effect of these matters is that, as part of our risk assessment, we determined that the value of ECL has a high degree of estimation & uncertainty. In view of the significance of the amount of loan assets out of total assets in the Standalone Financial Statements, impairment of loan assets has been considered as Key Audit Matter in our audit. [Refer Note No.40.1.2 and 40.1.3 to the Standalone Financial Statements read with Accounting Policy No.5.4.1 (iii)]	study being considered confidential have not been shared by the aforesaid expert. We considered the credit impairment charge and provision recognized in the books of account and assessed that the related disclosures are given in the financial statements.
(ii)	**Fair Valuation of Derivative financial instruments** The Company enters into derivative contracts in accordance with RBI guidelines to mitigate its currency and interest rate risk in accordance with Company's board approved currency risk management policy. Derivative contracts are either categorized at Fair Value through P&L (FVTPL) or under cash flow hedge (Hedge Accounting). Mark to market gain/loss on derivatives categorized at FVTPL is recognized in Statement of Profit and Loss and that of Hedge Accounting is recognized in the other comprehensive income. We consider the valuation of the derivative financial instruments and hedge accounting as a key audit matter due to material exposure and the fact that the inappropriate application of these requirements/assumptions/estimate by contracting bank could lead to a material effect on the income statement.	**Our audit procedures included:** The Company has availed services of an independent expert for preparation of a model for derivative accounting as per Ind AS 109. Discussed with management to have an understanding of its perception and also reviewed policy of the company for risk management. Evaluated key internal controls over classification of derivative instruments. The Company obtains fair value of derivatives from the counterparty banks as on the reporting date, which are relied upon by us. Our procedure included evaluation of details of various financial derivative contracts outstanding as on 31.03.2024 and fair value thereof. Additionally, we verified the accounting of gain or loss on mark to market basis of derivative contracts in Statement of Profit

Sr. No.	Key Audit Matter	Auditors' Response
	(Refer Note No.40.4 and 41 to the Standalone Financial Statements read with Accounting Policy No.5.3)	& Loss and other comprehensive income in case of derivatives contracts under cash flow hedge. Based on the aforesaid procedure, we have reviewed accounting of derivatives in the books of account and assessed that the related disclosures are given in the financial statements.

4. INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Director's Report including Annexures to Director's Report, Management Discussion and Analysis, Business Responsibility and Sustainability Report and Report on Corporate Governance but does not include the Standalone Financial Statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this Auditor's report.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions, if required.

5. RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making

judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

6. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If

PREM GUPTA & CO. Chartered Accountants FRN No. 000425N New Delhi

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work: and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. OTHER MATTERS

(a) As per past practice, in respect of loan assets and undisbursed letter of comfort, the Company has provided expected credit loss (ECL) as required under Ind AS 109 based on the ECL report submitted by an independent expert appointed by the Company, which inter-alia includes assumptions based on technical parameters/certain aspects.

PREM GUPTA & CO. Chartered Accountants FRN No. 00[illegible]25N New Delhi

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

(b) The Standalone Financial Information of the Company for the year ended 31.03.2023 included in the Standalone Financial Statements, were audited by the then Joint Statutory Auditors of the Company, one of whom was predecessor audit firm, and they had expressed an unmodified opinion on Standalone Financial Statements vide their audit report dated 27.05.2023.

Our opinion is not modified in respect of the above matters.

8. REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

I As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013 and on the basis of such examination of the books and records of the Company as we considered appropriate and according to information and explanation given to us, we give in "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable. The Comptroller and Auditor General of India has issued the directions indicating the areas to be examined in terms of Sub-section 5 of Section 143 of the Act, the compliance of which is set out in "**Annexure B**".

II As required by Section 143(3) of the Act, we report that:

a. We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;

b. In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

c. The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and Standalone Statement of Cash Flows, dealt with by this Report are in agreement with the books of account;

d. In our opinion and to the best of our information and explanation given to us, the aforesaid Standalone Financial Statements comply with the Ind AS specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended;

e. As per notification number G.S.R. 463(E) dated 05.06.2015 issued by Ministry of Corporate Affairs, section 164(2) of the Act regarding the disqualifications of Directors is not applicable to the Company, since it is a Government Company;

f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "**Annexure C**";

g. As per notification number G.S.R. 463 (E) dated 05.06.2015 issued by Ministry of Corporate Affairs, section 197 of the Act regarding remuneration to Director is not applicable to the Company, since it is a Government Company;

PREM GUPTA & CO. FRN No. 000423N New Delhi Chartered Accountants

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

h. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements – Refer Note No. 46 to the Standalone Financial Statements;

ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented (refer Note No. 10.3) that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The Management has represented, that (refer Note No. 18.15), to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above contain any material misstatement.

v. As stated in Note No. 24.2 to the Standalone Financial Statements:

(a) The final dividend proposed for the previous year, declared and paid by the Company during the year declared is in compliance with section 123 of the Companies Act, 2013, as applicable.

(b) The interim dividend declared and paid by the Company during the year and until the date of this report is in compliance with section 123 of the Companies Act, 2013.

PREM GUPTA & CO. FRN. 000425N New Delhi Chartered Accountants

CHOKSHI & CHOKSHI LLP FRN 101872W/ W100045

(c) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software, except that audit trail was not enabled at the database level for accounting software Oracle ERP to log any direct data changes upto 11.03.2024, which has since been enabled with effect from 12.03.2024. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rule 2014 is applicable from 01.04.2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules 2014 on preservation of audit trail as per statutory requirements for record retention is not applicable for the financial year ended 31.03.2024.

Annexure A
to Independent Auditors' Report on the Audit of the Standalone Financial Statements

(Referred to in Para 8 (I) under the heading 'Report on other Legal and Regulatory Requirements' of our report of even date to The Members of Power Finance Corporation Limited on the Standalone Financial Statements for the year ended 31.03.2024)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

(i) In respect of the Company's Property, Plant and Equipment and Intangible Assets:

(a)

(A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.

(B) The Company has maintained proper records showing full particulars, of intangible assets.

(b) Based on the information and explanation given to us, the Company's management carries out the physical verification of Property, Plant and Equipment once in a year. In our opinion, the frequency of physical verification is reasonable having regard to the size of the Company and nature of its assets. As explained to us, no material discrepancies were noticed by the management on such physical verification.

(c) Based on our examination of the records of the Company we report that, the title deeds, comprising all immovable properties of land and buildings which are free hold, are held in the name of the Company as at the balance sheet date. Further, in respect of immovable properties of land and building that have been taken on lease, the lease agreements are in the name of the Company.

(d) The Company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) and intangible assets during the year.

(e) As informed to us, no proceedings have been initiated or are pending against the Company as at the date of Balance Sheet for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

(ii)

(a) The Company is a Non-Banking Financial Company and does not have any inventory. Thus, clause 3(ii)(a) of the Companies (Auditor's Report) Order, 2020 is not applicable.

(b) The Company has been sanctioned working capital limits in excess of five crore rupees, during the year, in aggregate, from banks or financial institutions which are unsecured and do not require any filing of quarterly returns or statements with the banks by the Company.

PREM GUPTA & CO. Chartered Accountants New Delhi FRN No. 000[illegible]N

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

(iii) During the year, the Company has made investments in, provided guarantees and granted loans/advances in the nature of loans, secured/unsecured to companies, firms, limited liability partnerships, and other parties. In this regard, we report hereunder:

(a) The Company is a registered NBFC with Reserve Bank of India with principal business of giving loans hence clause 3(iii)(a) of the Order is not applicable.

(b) In our opinion, the investments made, guarantees provided, if any and the terms and conditions of the grant of all loans and advances in the nature of loans, during the year are, prima facie, not prejudicial to the Company's interest.

(c) Being a registered Non-Banking Financial Company (NBFC), the Company grants its loans on stipulated terms and conditions for repayment of principal and interest. In respect of Loan assets except credit impaired assets, the repayments of principal amounts and receipts of interest are generally regular as per stipulation.

(d) In respect of loans and advances in the nature of loans, the total amount overdue for more than ninety days are as under. The Company takes steps for recovery of the principal and interest as per its defined procedures, which in our opinion are reasonable.

No. of borrowers	Principal amount overdue (₹ in crore)	Interest overdue* (₹ in crore)	Total overdue (₹ in crore)
21	10,564.14	14,139.01	24,703.15

* The same has not been recognised as income as a matter of prudence as per practices of the Company.

(e) Reporting under clause 3(iii)(e) of the Order is not applicable, since the principal business of the Company is to give loans.

(f) To the best of our knowledge and according to information and explanation given to us, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment. Hence, reporting under clause 3(iii)(f) is not applicable.

(iv) In our opinion and according to information and explanation given to us the Company has not given any loan or given any guarantee or provided any security in contravention of Section 185 of the Companies Act 2013 to the extent applicable to the Company.

Further in our opinion and according to information and explanation given to us, the Company being a Non-Banking Financial Company (NBFC), the company is exempt from section 186 of the Companies Act, 2013 and relevant rules in respect of loans & guarantees. In respect of investments the Company has complied with the provisions of section 186(1) of the Companies Act, 2013.

PREM GUPTA & CO. Chartered Accountants FRN No. 000425N New Delhi

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

(v) According to information and explanations given to us, the Company has not accepted any deposit from public to which directives issued by Reserve Bank of India and the provisions of section 73 to 76 or any other relevant provisions of Companies Act, 2013 and rules made thereunder are applicable.

(vi) The Central Government has not prescribed the maintenance of cost records under Sub-section (1) of Section 148 of the Companies Act 2013, for any of the services rendered by the Company. Accordingly, clause 3(vi) of the Companies (Auditor's Report) Order 2020 is not applicable to the Company.

(vii) In respect of statutory dues, on the basis of information and explanations given to us and on the basis of our examination of the records of the company, we report that:

(a) The Company is regular in depositing with appropriate Authorities, undisputed statutory dues including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income Tax, Service Tax, and other statutory dues as applicable to it and there is no undisputed amount payable in respect of aforesaid dues outstanding for a period of more than six months from the date they become payable as on 31.03.2024, as per the accounts of the Company.

(b) According to the information and explanations given to us and as certified by the management on which we have relied upon, the disputed statutory dues aggregating to Rs.108.66 crore have been deposited/ on account of disputes/deposited under protest and the matters are pending before appropriate authorities as detailed below:

Name of the Statute	Nature of the Dues	Total Disputed Amount (₹ in crore)	Amount Paid under protest /adjusted by IT Authorities (₹ in crore)	Pending Amount (₹ in crore)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	71.91	71.91	-	AY 2016-17	CIT(Appeals), Delhi
		20.30	20.30	-	AY 2018-19	
		16.45	16.45	-	AY 2020-21	
Chapter V of Finance Act 1994	Interest	0.09	-	-	January 2016 to November 2016	Commissioner, CE&ST, LTU, New Delhi
Chapter V of Finance Act 1994	Interest	0.07	-	-	December 2016 to June 2017	Commissioner, CE&ST, LTU, New Delhi

(viii) As per information and explanation given to us there were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

(ix)

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

(a) According to information and explanations given to us, the Company has not defaulted in repayment of loans or other borrowing or on the payment of interest thereon to any lender.

(b) According to the information and explanations given to us the Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) As per the information and explanations given to us, the term loans were applied for the purpose for which the loans were obtained.

(d) According to the information and explanations given to us, and the procedures performed by us, no funds raised on short-term basis have been used for long-term purposes by the Company other than temporary usage pending receipts from long term sources.

(e) According to the information and explanations given to us and on an overall examination of the Financial Statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

(f) According to the information and explanations given to us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.

(x)

(a) The Company has raised Rs.2,824.48 crore through Public issue of non–convertible debentures during FY 2023-24 and fully utilized the proceeds towards the purposes for which it was raised.

(b) According to information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or convertible debentures during the year.

(xi)

(a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or any fraud on the Company has been noticed or reported during the year.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed by the auditors in Form ADT - 4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government during the year and upto the date of this report.

(c) We have been informed by the management that no whistle blower complaints have been received by the Company during the year.

(xii) According to information and explanation given to us the Company is not a Nidhi Company. Hence, the Nidhi Rules, 2014 are not applicable to the Company. Accordingly, clause 3(xii) of the Companies (Auditor's Report) Order 2020 is not applicable to the Company.

(xiii) According to information and explanations given to us and on the basis of our examination of the records of the Company, all transactions with the related parties are in compliance with Section 177 and 188 of the Companies Act, 2013 where applicable. The details have been disclosed in the Financial Statements as per the requirement of the applicable accounting standards.

(xiv)

(a) In our opinion and based on our examination, the company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.

(xv) According to the information and explanations given to us, in our opinion during the year the company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable.

(xvi)

(a) The Company is a Non- Banking Financial Company and has obtained registration under section 45-IA of the Reserve Bank of India Act 1934. The registration number issued to the Company is B- 14.00004 dated 28-07-2010.

(b) According to the information and explanations given to us, the Company has not conducted any non-banking financial or housing finance activities without a valid certificate of registration from the Reserve Bank of India as per Reserve Bank of India Act, 1934.

(c) According to the information and explanations given to us, the company is not a core investment company (CIC) as defined in the regulations made by the Reserve Bank of India, hence reporting under clause 3 (xvi) (c) of the order is not applicable.

(d) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3 (xvi) (d) of the order is not applicable.

(xvii) On the basis of our examination of the records of the Company, the Company has not incurred any cash losses in the financial year and in the immediately preceding financial year.

PREM GUPTA & CO. Chartered Accountants FRN No. 00042N New Delhi

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

(xviii) There has been no resignation of statutory auditors of the Company during the year.

(xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the Financial Statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx)

(a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable for the year.

(b) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount as at the Balance Sheet date to a special account, within a period of thirty days from the end of the financial year in compliance with section 135(6) of the Companies Act.

(xxi) The clause 3 (xxi) of the order is not applicable to the Standalone Financial Statements, hence no comment is given.

Annexure C

to the Independent Auditors' Report on the Audit of the Standalone Financial Statements

(Referred to in Para 8 (II)(f) under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date to the Members of Power Finance Corporation Limited on the Standalone Financial Statements for the year ended 31.03.2024)

Report on the Internal Financial Controls with reference to Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act 2013 ("the Act")

We have audited the internal financial controls with reference to the Standalone financial statements of Power Finance Corporation Limited ("the Company") as of 31.03.2024 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

1. MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

2. AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under sub-section 10 of Section 143 of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

3. MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of the Management of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statements.

4. INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

5. OPINION

In our opinion, the Company has, in all material respects, an internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31.03.2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to the Standalone Financial Statements for the year ended March 31, 2024

1. Company Information

Power Finance Corporation Limited ("PFC" or "the Company") was incorporated in India in the year 1986. The Company is domiciled in India and is limited by shares, having its registered office at 'Urjanidhi', 1, Barakhamba Lane, Connaught Place, New Delhi – 110001 and conferred with 'Maharatna' Status by the Govt. of India.

The Company is a Government Company engaged in extending financial assistance to power, logistics and infrastructure sector and is registered with Reserve Bank of India (RBI) as an Infrastructure Finance Company (IFC). The Company being a Government owned NBFC-IFC is placed in Middle layer under Master Direction (NBFC-Scale Based Regulation), 2023 issued by RBI.

Equity shares of the Company are listed on National Stock Exchange of India Limited (NSE) and BSE Limited. Further, various debt securities of the Company are also listed on the stock exchanges.

2. Statement of Compliance

The Standalone Financial Statements of the Company comply with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms / guidelines. The Standalone Balance Sheet, Statement of Profit and Loss and Statement of Changes in Equity are prepared and presented as per the requirements of Division III of Schedule III to the Companies Act, 2013 applicable for Non-Banking Financial Companies (NBFCs). The Standalone Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 'Statement of Cash Flows'.

3. These Standalone Financial Statements have been approved for issue by Board of Directors (BoD) of the Company on 15.05.2024.

4. Standards/ Amendments issued but not yet effective

During the FY 2023-24, the Ministry of Corporate Affairs (MCA) has not notified any new Indian Accounting Standards (Ind AS) or made amendments thereto.

5. Material Accounting Policy Information

The material accounting policy information in regard to preparation of the Standalone Financial Statements is given below:

5.1 Basis of Preparation and Measurement

These Standalone Financial Statements have been prepared on going concern basis following accrual system of accounting. The assets and liabilities have been measured at historical cost or at amortised cost or at fair value as applicable at the end of each reporting period. The functional currency of the Company is Indian Rupees.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements are categorised into Level 1, 2 or 3 as per Ind AS requirement, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

5.2 Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits. The Company considers cash equivalents as all short term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments

that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

5.3 Derivative Financial Instruments

(i) The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks.

(ii) Under hedge accounting, an entity can designate derivative contracts either as cash flow hedge or fair value hedge. The Company designates certain derivative contracts as cash flow hedges.

(iii) To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- There is an economic relationship between the hedged item and the hedging instrument.
- The effect of credit risk does not dominate the value changes that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Company actually hedges and the quantity of the hedging instrument that the Company actually uses to hedge that quantity of hedged item.

(iv) Cash flow hedge

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Statement of Profit and Loss on a systematic basis. The gain or loss relating to ineffective portion is recognized immediately in Statement of Profit and Loss.

(v) Hedge accounting is discontinued when the hedging instrument expires, or terminated, or exercised, or when it no longer qualifies for hedge accounting.

(vi) Derivatives, other than those designated under hedge relationship, are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in Statement of Profit and Loss.

5.4 Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instruments.

On initial recognition, financial assets and financial liabilities are recognised at fair value plus/ minus transaction cost that is attributable to the acquisition or issue of financial assets and financial liabilities. In case of financial assets and financial liabilities which are recognised at fair value through profit and loss (FVTPL), its transaction costs are recognised in Statement of Profit and Loss.

5.4.1 Financial Assets

All regular way purchases or sales of financial assets are recognised and derecognised on a settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

After initial recognition, financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

(i) Classification and Measurement of Financial Assets (other than Equity instruments)

a) Financial Assets at Amortised Cost:

Financial assets that meet the following conditions are subsequently measured at amortised cost using Effective Interest Rate method (EIR):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- The contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Effective Interest Rate (EIR) method

The effective interest rate method is a method of calculating the amortised cost of financial asset and of allocating interest income over the expected life. The company while applying EIR method, generally amortises any fees, transaction costs and other premiums or discount that are integral part of the effective interest rate of a financial instrument.

Income is recognised in the Statement of Profit and Loss on an effective interest rate basis for financial assets other than those classified as at FVTPL.

EIR is determined at the initial recognition of the financial asset. EIR is subsequently updated at every reset, in accordance with the terms of the respective contract.

Once the terms of financial assets are renegotiated, other than market driven interest rate movement, any gain / loss measured using the previous EIR as calculated before the modification, is recognised in the Statement of Profit and Loss in period during which such renegotiations occur.

b) Financial Assets at Fair Value Through Other Comprehensive Income (FVTOCI)

A financial asset is measured at FVTOCI if both the following conditions are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial asset; and
- The contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

All fair value changes are recognised in Other Comprehensive Income (OCI) and accumulated in Reserve.

c) Financial Assets at Fair Value Through Profit or Loss (FVTPL)

A financial asset is measured at FVTPL unless it is measured at amortised cost or FVTOCI, with all changes in fair value recognised in Statement of Profit and Loss.

Business Model

An assessment of business model for managing financial assets is fundamental to the classification of a financial asset. The Company determines the business model at a level that reflects how financial assets are managed together to achieve a particular business objective of generating cash flows. The Company's business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

The Company is in the business of lending loans across power sector value chain and such loans are managed to realize the contractual cash flows over the tenure of the loan. Further, other financial assets may also be held by the Company to collect the contractual cash flows.

(ii) Classification, Measurement and Derecognition of Equity Instruments

All equity investments other than in subsidiaries, joint ventures and associates are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company at initial recognition makes an irrevocable election to classify it as either FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis.

An equity investment classified as FVTOCI is initially measured at fair value plus transaction costs. Subsequently, it is measured at fair value and, all fair value changes are recognised in Other Comprehensive Income (OCI) and accumulated in Reserve. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company transfers the cumulative gain/loss within equity.

PREM GUPTA & CO.

"URJANIDHI"
1, Barakhamba Lane,
Connaught Place
New Delhi-110 001
CHOKSHI & CHOKSHI LLP
FRN 101872W/W100045

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

(iii) Impairment of Financial Assets

Subsequent to initial recognition, the Company recognises expected credit loss (ECL) on financial assets measured at amortised cost as required under Ind AS 109 'Financial Instruments'. The Company presents the ECL charge or reversal (where the net amount is a negative balance for a particular period) in the Statement of Profit and Loss as "Impairment on financial instruments" and as a cumulative deduction from gross carrying amount in the Balance Sheet, wherever applicable.

The impairment requirements for the recognition and measurement of ECL are equally applied to financial asset measured at FVTOCI except that ECL is recognised in Other Comprehensive Income and is not reduced from the carrying amount in the Balance Sheet.

a) Impairment of Loan Assets and commitments under Letter of Comfort (LoC):

The Company measures ECL on loan assets at an amount equal to the lifetime ECL if there is credit impairment or there has been significant increase in credit risk (SICR) since initial recognition. If there is no SICR as compared to initial recognition, the Company measures ECL at an amount equal to 12-month ECL. When making the assessment of whether there has been a SICR since initial recognition, the Company considers reasonable and supportable information, that is available without undue cost or effort. If the Company measured loss allowance as lifetime ECL in the previous period, but determines in a subsequent period that there has been no SICR since initial recognition due to improvement in credit quality, the Company again measures the loss allowance based on 12-month ECL.

ECL is measured on individual basis for credit impaired loan assets, and on other loan assets it is generally measured on collective basis using homogenous groups.

The Company measures impairment on commitments under LoC on similar basis as in case of Loan assets.

b) Impairment of financial assets, other than loan assets:

ECL on financial assets, other than loan assets, is measured at an amount equal to life time expected losses.

(iv) De-recognition of Financial Assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset along with all the substantial risks and rewards of ownership of the asset to another party. The renegotiation or modification of the contractual cash flows of a financial asset can also lead to derecognition of the existing financial asset.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received & receivable, and the cumulative gain or loss that had been recognised in Other Comprehensive Income and accumulated in Equity, is recognised in Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Statement of Profit and Loss on disposal of that financial asset.

5.4.2 Financial Liabilities

(i) All financial liabilities other than derivatives and financial guarantee contracts are subsequently measured at amortised cost using the effective interest rate (EIR) method.

EIR is determined at the initial recognition of the financial liability. EIR is subsequently updated for financial liabilities having floating interest rate, at the respective reset date, in accordance with the terms of the respective contract.

(ii) Financial guarantee

A financial guarantee issued by the Company is initially measured at fair value and, if not designated as at FVTPL, is subsequently measured at the higher of:

- the best estimate of expenditure required to settle any financial obligation arising as a result of the guarantee; and

- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in the Statement of Profit and Loss.

(iii) De-recognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid & payable is recognised in Statement of Profit and Loss.

5.5 Investment in Subsidiaries, Joint Ventures and Associates

Investment in equity shares of subsidiaries, joint ventures and associates are accounted at cost, less impairment if any.

5.6 Property, Plant and Equipment (PPE) and Depreciation

(i) Items of PPE are initially recognised at cost. Subsequent measurement is done at cost less accumulated depreciation and accumulated impairment losses, if any, except for freehold land which is not depreciated. An item of PPE retired from active use and held for disposal is stated at lower of its book value or net realizable value.

(ii) In case of assets put to use, capitalisation is done on the basis of bills approved or estimated value of work done as per contracts where final bill(s) is/are yet to be received / approved, subject to necessary adjustment in the year of final settlement.

(iii) Cost of replacing part of an item of PPE is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. Maintenance or servicing costs of PPE are recognized in Statement of Profit and Loss as incurred.

(iv) Under-construction PPE is carried at cost, less any recognised impairment loss. Such PPE items are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as of other assets, commences when the assets are ready for their intended use.

(v) Depreciation is recognised so as to write-off the cost of assets less their residual values as per written down value method, over the estimated useful lives that are similar to as prescribed in Schedule II to the Companies Act, 2013, except for cell phones where useful life has been estimated by the Company as 2 years. Residual value is estimated as 5% of the original cost of PPE.

(vi) Depreciation on additions to/deductions from PPE during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

(vii) An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

(viii) Items of PPE costing up to ₹ 5000/- each are fully depreciated, in the year of purchase.

5.7 Intangible Assets and Amortisation

(i) Intangible assets with finite useful lives that are acquired separately are recognised at cost. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use. Subsequent measurement is done at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives.

(ii) Expenditure incurred which are eligible for capitalisation under intangible assets is carried as Intangible Assets under Development till they are ready for their intended use.

(iii) Estimated useful life of intangible assets with finite useful lives has been estimated by the Company as 5 years.

(iv) An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognised in the Statement of Profit and Loss when the asset is derecognised.

5.8 Provisions, Contingent Liabilities and Contingent Assets

(i) Provisions are recognised when the Company has a present legal or constructive obligation as a result of a past event, if it is probable that the Company will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(ii) The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

(iii) When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(iv) Where it is not probable that an outflow of economic benefits will be required or the amount cannot be estimated reliably, the obligation is disclosed as contingent liability in notes to accounts, unless the probability of outflow of economic benefits is remote.

(v) Contingent assets are not recognised in the financial statements. However, contingent assets are disclosed in the financial statements when inflow of economic benefits is probable.

5.9 Offsetting of Financial Assets and Financial Liabilities

Financial Assets and Financial Liabilities are offset and the net amount is presented in the balance sheet when currently there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

5.10 Recognition of Income and Expenditure

(i) Interest income, on financial assets subsequently measured at amortised cost, is recognized using the Effective Interest Rate (EIR) method. The Effective Interest Rate (EIR) is the rate that exactly discounts estimated future cash receipts through expected life of the financial asset to that asset's net carrying amount on initial recognition.

(ii) Interest on financial assets subsequently measured at fair value through profit and loss(FVTPL), is recognized on accrual basis in accordance with the terms of the respective contract and disclosed separately under the head 'Interest Income'

(iii) Rebate on account of timely payment of dues by borrowers is recognized on receipt of entire dues in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

(iv) Income from services rendered is recognized based on the terms of agreements / arrangements with reference to the stage of completion of contract at the reporting date.

(v) Dividend income from investments including those measured at FVTPL, is recognized in Statement of Profit and Loss under the head 'Dividend Income' when the Company's right to receive dividend is established and the amount of dividend can be measured reliably.

(vi) Interest expense on financial liabilities subsequently measured at amortised cost is recognized using Effective Interest Rate (EIR) method.

(vii) Other income and expenses are accounted on accrual basis, in accordance with terms of the respective contract.

(viii) A Prepaid expense up to ₹ 1,00,000/- is recognized as expense upon initial recognition in the Statement of Profit and Loss.

5.11 Expenditure on issue of shares

Expenditure on issue of shares is charged to the securities premium account.

5.12 Employee Benefits

(i) Defined Contribution Plan

Company's contribution paid / payable during the reporting period towards provident fund and pension are charged in the Statement of Profit and Loss when employees have rendered service entitling them to the contributions.

(ii) Defined Benefit Plan

The Company's obligation towards gratuity to employees and post-retirement benefits such as medical benefit, economic rehabilitation benefit, and settlement allowance after retirement are determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Actuarial gain / loss on re-measurement of gratuity and other post-employment defined benefit plans are recognized in Other Comprehensive Income (OCI). Past service cost is recognized in the Statement of Profit and Loss in the period of a plan amendment.

(iii) Other long term employee benefits

The Company's obligation towards leave encashment, service award scheme is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These obligations are recognised in the Statement of Profit and Loss.

(iv) Short term employee benefits

Short term employee benefits such as salaries and wages are recognised in the Statement of Profit and Loss, in the period in which the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

(v) Loan to employees at concessional rate

Loans given to employees at concessional rate are initially recognized at fair value and subsequently measured at amortised cost. The difference between the initial fair value of such loans and transaction value is recognised as deferred employee cost upon issuance of Loan, which is amortised on a straight-line basis over the expected remaining period of the loan. In case of change in expected remaining period of the loan, the unamortised deferred employee cost on the date of change is amortised over the updated expected remaining period of the Loan on a prospective basis.

5.13 Income Taxes

Income Tax expense comprises of current and deferred tax. It is recognised in Statement of Profit and Loss, except when it relates to an item that is recognised in OCI or directly in equity, in which case, tax is also recognised in OCI or directly in equity.

(i) Current Tax

Current tax is the expected tax payable on taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of earlier years.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and liability on a net basis.

(ii) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable income. Deferred tax is measured at the tax rates based on the laws that have been enacted or substantively enacted by the reporting date, based on the expected manner of realisation or settlement of the carrying amount of assets / liabilities. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against liabilities, and they relate to income taxes levied by the same tax authority.

A deferred tax liability is recognised for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

5.14 Leases

For recognition, measurement and presentation of lease contracts, the Company applies the principles of Ind AS 116 'Leases'.

(i) The Company as a lessee

The Company at inception of a contract assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether (a) the Company has substantially all of the economic benefits from use of the asset through the period of the lease, and (b) the Company has the right to direct the use of the identified asset.

The Company at inception of a lease contract recognizes a Right-of-Use (RoU) asset at cost and a corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets which are recognised as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. RoU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use (RoU) assets are initially recognized at cost, which comprise the initial amount of the lease liability adjusted for any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. They are subsequently measured at cost less any accumulated depreciation and accumulated impairment losses. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

The lease liability is initially measured at amortised cost at the present value of future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the company's incremental borrowing rates in the country of domicile of the leases.

Lease liabilities are re-measured with a corresponding adjustment to the related right-of-use (RoU) asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and RoU asset is separately presented in the Balance Sheet. Interest expense on lease liability is presented separately from depreciation on right of use asset as a component of finance cost in the Statement of Profit and Loss. Lease payments for the principal portion are classified as Cash flow used in financing activities and lease payments for the interest portion are classified as Cash flow used in operating activities.

(ii) The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Contracts in which all the risks and rewards of the lease are substantially transferred to the lessee are classified as a finance lease. All other leases are classified as operating leases. For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

Amount due from lessee under finance leases is recognised as receivable at an amount equal to the net investment of the Company in the lease. Finance income on the lease is allocated to accounting periods so as to reflect a constant periodic rate of return on the Company's net investment outstanding in respect of lease at the reporting date.

5.15 Foreign Currency Transactions and Translations

Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction.

At the end of each reporting period, monetary items denominated in foreign currency are translated using exchange rates prevailing on the last day of the reporting period. Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise. However, for the long-term monetary items

recognised in the financial statements before 1 April 2018, such exchange differences are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortised over the balance period of such long term monetary item.

5.16 Business Combination under Common Control

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and that control is not transitory.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize material accounting policy information.
- The financial information in the financial statements in respect of prior periods is restated as if the business combination has occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination.

The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee. The identity of the reserves is preserved and the reserves of the transferor become the reserves of the transferee.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

5.17 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

5.18 Dividends

Final dividends are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Board of Directors of the Company.

5.19 Earnings Per Share

Basic earnings per equity share is calculated by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

To calculate diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

6. Use of Estimates and Management Judgement

In preparation of the Standalone Financial Statements, the Management is required to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and the related disclosures. The estimates and underlying assumptions are based on historical experience & other relevant factors and are reviewed on an ongoing basis. Actual results may differ from these estimates.

Changes in accounting estimates, if any, are recognized prospectively in the period in which the estimate is revised if the revision affects only that period or in the period of the revision & future periods if it affects both current & future periods.

6.1 Significant Management Judgements

In order to enhance understanding of the Standalone Financial Statements, information about significant areas of critical judgments, apart from those involving estimation (Note 6.2), in applying accounting policies that have the most significant effect on the amounts recognised in the Standalone Financial Statements, are as under:

(i) Deferred tax Liability on Special Reserve

The Company had passed a Board resolution that it has no intention to withdraw any amount from the Special Reserve created and maintained under section 36(1)(viii) of the Income Tax Act, 1961. Accordingly, the Special Reserve created and maintained cannot be withdrawn and as there is no future tax incidence, the Company does not create deferred tax liability on the said reserve.

(ii) Non recognition of income on Credit Impaired loan assets

As a matter of prudence, income on credit impaired loan assets is recognised as and when received or on accrual basis when expected realization is higher than the loan amount outstanding.

(iii) Amortisation of transaction cost on credit impaired loan assets

Outstanding amount of unamortised transaction cost is credited to Statement of Profit and Loss on classification of loan asset as credit impaired.

(iv) Classification of Investments

In order to classify an investment in a company as investment in subsidiary or joint venture (JV) or associate, judgement is required to assess the level of control depending upon the facts and circumstances of each case.

a) The Company along with its subsidiary RECL is holding 21.49 % stake in equity share capital of Energy Efficiency Services Limited (EESL). However, in the absence of any practical ability to direct the relevant activities as per the requirements of Ind AS 28'Investment in Associates and Joint Ventures', the Company does not have any significant influence , accordingly EESL has not been considered as an associate company.

b) Ultra-Mega Power Projects (UMPPs) are managed as per the mandate from Government of India (GoI) and the Company does not have the practical ability to direct the relevant activities of these UMPPs unilaterally. The Company therefore, considers its investment in respective UMPPs as associates having significant influence despite the Company holding 100% of their paid-up equity share capital.

c) By virtue of holding Board position or equity stake in borrower companies, the rights exercised by PFC in such companies are protective in nature. Thus, the borrower companies are not considered as Associates for the purpose of financial statements.

(v) Low value leases

An assessment is required, if lessee opts not to apply the recognition and measurement requirements of Ind AS 116 'Leases' to leases where the underlying asset is of low value. For the purpose of determining low value, the Company has considered nature of assets and concept of materiality as defined in Ind AS 1 'Presentation of Financial Statements' and the conceptual framework of Ind AS which involve significant judgement.

(vi) Sundry Liabilities- Interest Capitalisation

Unrealised income on credit impaired loans, represented by Funded Interest Term Loan (FITL) / debt / equity instruments acquired under resolution, is transferred to a separate account titled 'Sundry Liabilities Account (Interest Capitalisation)' and is recognised in Statement of Profit and Loss on repayment of FITL or sale / redemption of debt / equity instruments.

(vii) Evaluation of indicators for impairment loss allowance of financial assets

The evaluation of the applicability of indicators for computation of impairment loss allowance of assets requires assessment of several external and internal factors which could result in change in recoverable amount of the assets. The Company makes significant judgement in identifying the default and significant increase in credit risk (SICR) based on available information.

CHOKSHI & CHOKSHI LLP FRN 101872W/ W100045

6.2 Assumptions and Key Sources of Estimation Uncertainty

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below:

(i) Defined Benefit Obligation (DBO)

The Company's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses as detailed at Note 44.2

(ii) Impairment test of Financial Assets (Expected Credit Loss)

The measurement of impairment loss allowance for financial assets which includes loan, LoCs and guarantees measured at amortised cost requires use of statistical models, expected future economic conditions, estimated cash flows and credit behaviour (e.g., inputs and weights used for credit risk scoring, likelihood of borrowers defaulting and resulting losses). In estimating the cash flows expected to be recovered from credit impaired loans, the borrower's financial situation, current status of the project, net realisable value of securities/ collateral etc. are assessed.

As these estimates are based on various assumptions, actual results may vary. Refer Note 40.1 for further details.

(iii) Fair value measurement

Fair value of financial instruments is required to be estimated for financial reporting purposes. The Company applies appropriate valuation techniques and inputs for fair value measurements. In estimating the fair value of an asset or a liability, the Company uses quoted prices and market-observable data to the extent it is available. In case of non-availability of the same, unobservable inputs are used for calculation of fair value of the assets/ liabilities. The information about the valuation techniques, inputs used in determination of fair value of various assets & liabilities and other details are disclosed at Note 42.

(iv) Income Taxes

Estimates are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset. Refer Note 37 for details.

(v) Useful life of Property, Plant & Equipment (PPE) and Intangible Assets

The Company reviews its estimate of the useful lives of depreciable/amortisable assets at the end of each financial year, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets. Refer Note 14 for details on useful lives and carrying values of PPE and Intangible assets.

(x)	Bihar Mega Power Limited	India	100%	100%
(xi)	Jharkhand Infrapower Limited	India	100%	100%

*Investment in each associate is ₹ 0.05 crore as at 31.03.2024 and 31.03.2023. These associates are companies incorporated as SPVs under mandate from GoI for development of Ultra Mega Power Projects (UMPPs) with the intention to hand over the same to successful bidders on completion of the bidding process.

11.4 The Company has received NoC from RBI on 09.01.2024 for setting up wholly owned subsidiary financial company at IFSC Gift City, Gujarat, India. Accordingly, a wholly owned subsidiary namely "PFC Infra Finance IFSC Limited "has been incorporated on 11.02.2024. Equity shares subscribed but not paid has been remitted by PFC to PIFIL on 10.04.2024 and accordingly shown as Other Financial Liabilities as on 31.03.2024.

11.5 At initial recognition, the Company made an irrevocable election to present subsequent changes in the fair value of certain equity instruments in other comprehensive income. The Company's main operation is to extend financial assistance to power, logistics and infrastructure sector. Thus, in order to insulate Standalone Statement of Profit and Loss from price fluctuations of these instruments, the Management believes that FVTOCI classification provides a more meaningful presentation, rather than classifying them at FVTPL.

Details of FVTOCI instruments derecognised during the year:

(₹ in crore)

Details of investment	No. of shares/units derecognised	Fair Value as on date of de-recognition	Cumulative gain/ (loss) on de-recognition
FY 2023-24			
NHPC Limited[(a)]	3,76,44,978	246.76	164.76
FY 2022-23			
NHPC Limited[(a)]	3,09,62,813	113.57	46.13

(a) These equity shares were sold in tranches during the year considering the market scenario. The fair value and gain have been computed based on the price as on the respective date of de-recognition and has been presented above on aggregate basis.
Subsequent to de-recognition of such investments, the Company has transferred the cumulative gain/loss on such shares within Equity (from Reserve for Equity Instruments through OCI to Retained Earnings) during the year. Refer Standalone Statement of Changes in Equity for further details.

11.6 Refer Note 42 for details of fair valuation of investments.

CHOKSHI & CHOKSHI LLP FRN/ 101872W/ W100045

19.1 Details of Perpetual Debt Instruments (Unsecured) are as under :

Sr. No.	Subordinated Bond Series	Coupon Rate (p.a.)	Principal Amount (₹ in crore) outstanding as at		Date of Redemption	Redemption details
			31.03.2024	31.03.2023		
1	7.88 PERPETUAL TX UNS BND SRS 236 with 10 yr call option	7.88%	100.00	-	NA	Perpetual bonds callable only at the option of the Company after minimum 10 years with prior approval of RBI.
Total Perpetual Debt			**100.00**	-		

During the year the Company had issued Perpetual Debt Instruments (PDI) of Rs 100 crore having face value of Rs 1 crore each, with no maturity and callable only at the option of the Company after minimum 10 years with prior approval of RBI. The claims of the holders of the PDI are:
(a) Superior to the claims of the holders of the equity shares issued by the Company and perpetual non-cumulative preference shares, if any, of the Company; and
(b) Subordinated to the claims of all other creditors of the Company (but pari-passu inter se the holders of the PDIs). The Company may defer the payment of Coupon, if:
(i) The capital to risk assets ratio ("CRAR") of the Company is below the minimum regulatory requirement prescribed by RBI; or
(ii) the impact of such payment results in CRAR of the Company falling below or remaining below the minimum regulatory requirement prescribed by RBI.
Further, it also has certain unique features which, inter-alia, grant PFC, in consultation with RBI a discretion in terms of writing down the principal / interest, to skip interest payments, to make an early recall etc. without commensurate right for investors to legal recourse, even if such actions might result in potential loss to investors. As these securities are perpetual in nature and claim of PDI holders is subordinate to claim of all other creditors and further as the Company does not have an unconditional right not to pay the coupon, these have been classified under subordinated liabilities.

19.2 Details of Subordinated Debt (Unsecured) are as under :

Sr. No.	Subordinated Bond Series	Coupon Rate (p.a.)	Principal Amount (₹ in crore) outstanding as at		Date of Redemption	Redemption details

(x) Reserve for Equity Instruments through Other Comprehensive Income :

The Company elected to recognise changes in the fair value of certain investment in equity instruments through other comprehensive income. It represents cumulative gains and losses arising on the revaluation of equity instruments measured at fair value through other comprehensive income. When the asset is derecognized, amounts in the reserve are subsequently transferred to retained earnings and not to standalone statement of profit and loss. Dividends on such investments are recognized in statement of profit & loss unless the dividend clearly represents a recovery of part of the cost of the investment.

Details of Movement during the year:

(₹ in crore)

35. Corporate Social Responsibility

In accordance with the Companies (Corporate Social Responsibility Policy) Amendment Rules, 2021 notified w.e.f. 22.01.2021, any unspent amount pursuant to any ongoing project shall be transferred to unspent CSR Account in any scheduled bank within a period of thirty days from the end of the financial year, to be utilised within a period of three financial years from the date of such transfer. Any unspent CSR amount, other than for any ongoing project, shall be transferred to a Fund specified in Schedule VII, within a period of six months of the expiry of the financial year. Further, if the company spends an amount in excess of the requirement under statute, the excess amount may be carried forward and set off in three succeeding financial years against the amount to be spent.

As the notification was made effective during FY 2020-21, the Company complied with the amended provisions of Section 135 of the Companies Act, 2013 with effect from the FY 2020-21. Accordingly, the unspent CSR amount upto 31.03.2020 would continue to be dealt with in accordance with the pre-amendment framework.

35.1 Details of amount required to be spent by the Company on CSR activities during the year:

(₹ in crore)

Sr. no.	Particulars	FY 2023-24			FY 2022-23		
		For FY 2023-24	For period up to 31.03.2020	Total	For FY 2022-23	For period up to 31.03.2020	Total
(i)	Opening unspent / (Excess) amount	106.34	52.43*	158.77	54.87	99.15*	154.02
(ii)	Amount transferred to unspent CSR bank account out of opening unspent amount	106.34	-	106.34	54.87	-	54.87
(iii)	Balance Opening unspent / (Excess) amount (i-ii)	-	52.43	52.43	-	99.15	99.15
(iv)	Amount required to be spent as per Section 135 (5) of Companies Act, 2013	215.39	-	215.39	178.58	-	178.58
(v)	Amount approved by the Board out of (iv) above to be spent during the year	215.39	-	215.39	178.58	-	178.58
(vi)	Surplus arising out of the CSR projects	-	-	-	-	-	-
(vii)	**Sub-Total (v + vi)**	**215.39**	-	**215.39**	**178.58**	-	**178.58**
(viii)	Amount required to be spent after set off excess spent of earlier years (iii+vii)	215.39	52.43	267.82	178.58	99.15	277.73
(ix)	Amount spent during the year	99.37[$]	2.11	101.48	72.24[$]	46.72	118.96
(x)	**Closing Unspent / (Excess) amount(viii – ix)**	**116.02@**	**50.32**	**166.34**	**106.34@**	**52.43**	**158.77**

*Sanctioned to various projects where disbursement is being made as per agreed terms.

[$] includes ₹ 10.84 crore (Previous year ₹ 6.52 crore) disbursed where utilisation is pending.

@ Since amount pertains to ongoing projects, it has been transferred to unspent CSR Account on 30.04.2024 (previous year on 28.04.2023).

35.2 Unspent CSR amount of ₹ 116.02 crore (Previous year ₹ 106.34 crore) pertains to multi-year (ongoing) projects where payment is made in tranches upon achievement of milestone. Accordingly, the said amount has been deposited in unspent CSR Account with scheduled bank as per requirements of Section 135(6) of Companies Act, 2013.

35.3 Activity wise detail of amount spent during the year on CSR activities:

(₹ in crore)

** During the year, the Company has issued 66,00,20,352 equity shares of ₹10 each as fully paid-up bonus shares in the ratio of 1 (One) equity share for every 4 (Four) equity shares outstanding on the record date i.e.21.09.2023. Accordingly, as required by Ind AS-33, Earnings per share of current and previous year have been restated.*

39. Capital Management

The Company maintains a capital base that is adequate to support the Company's risk profile, regulatory and business needs. The Company sources funds from domestic and international financial markets, inter-alia leading to diverse investor base and optimised cost of capital. Refer Note 17, 18 and 19 for details w.r.t. sources of funds and refer Standalone Statement of Changes in Equity for details w.r.t Equity.

As contained in Master Direction- Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023, as amended from time to time (hereinafter referred to as "RBI Master Directions"), the Company is required to maintain a capital ratio consisting of Tier I and Tier II capital which shall not be less than 15% of its aggregate risk weighted assets on-balance sheet and of risk adjusted value of off-balance sheet items. Out of this, Tier I capital shall not be less than 10%. The Company regularly monitors the maintenance of prescribed levels of Capital to Risk Weighted Assets Ratio (CRAR). Further, with regard to capital restructuring, the Company is also guided, inter alia, by guidelines on "Capital Restructuring of Central Public Sector Enterprises" issued by Department of Investment and Public Asset Management (DIPAM), Ministry of Finance, Department of Public Enterprises in respect of issue of bonus shares, dividend distribution, buy back of equity shares etc.

39.1 Certain key financial parameters of the Company are as under:

Ratios	Numerator*	Denominator*	As at 31.03.2024	As at 31.03.2023	% variance
Total Capital to risk-weighted assets ratio (CRAR)	Tier I Capital + Tier II Capital	Risk Weighted assets	25.41%	24.37%	4.27%
CRAR – Tier I Capital**	Tier I Capital	Risk Weighted assets	23.18%	21.61%	
CRAR – Tier II Capital	Tier II Capital	Risk Weighted assets	2.23%	2.76%	
Liquidity Coverage Ratio(LCR) (Refer Note 54.6)	Total High Quality Liquid Assets	Total Net Cash Outflows	85.00%	70.00%	NA

** Computed as per applicable RBI guidelines.*
***The amount of perpetual debt instruments of the Tier-I Capital is 0.16 % (previous year Nil).*

39.2 Details of Tier II capital and perpetual debt instruments raised during the year are as under:

(₹ in crore)

Particulars	Year ended 31.03.2024	Year ended 31.03.2023
Amount of Subordinated Debt raised as Tier-II capital	-	-
Amount raised by issue of Perpetual Debt Instruments	100.00	-

39.3 Dividend Distribution Policy

The Company has a well-defined dividend distribution policy. Dividend distribution policy focuses on various factors including but not limited to GoI guidelines, RBI circulars / guidelines, future capital expenditure plans, profits earned during the financial year, cost of raising funds from alternate sources, cash flow position and applicable taxes if any, subject to the guidelines as applicable from time to time.

As per the extant guidelines issued by Department of Investment and Public Asset Management (DIPAM), Government of India, the Company is required to pay a minimum annual dividend of 30% of Profit after Tax or 5% of the net-worth, whichever is higher subject to the maximum dividend permitted under extant legal provisions. Though, the Company endeavours to declare dividend as per these guidelines, it may propose to MoP, a lower dividend after analysis of various financial parameters like net-worth, CAPEX/business expansion needs; additional investments in subsidiaries / associates of the Company; other regulatory requirements etc. For details of dividend paid/recommended during the year, refer Note 24.2.

40. Financial Risk Management

The Company is exposed to several risks which are inherent to the environment that it operates in. The Company is into business of extending financial assistance to power, logistics and infrastructure sector. The principal risks which are inherent with the Company's business model and from its use of financial instruments include credit risk, liquidity risk and market risk (currency risk, interest rate risk and price risk).

The following table broadly explains sources of risks which the Company is exposed to and how it manages the same and related impact in the financial statements:

Note	Risk	Exposure arising from	Measurement	Risk Management
40.1	Credit Risk	Loans, investments, cash and cash equivalents, other financial assets	Ageing analysis	Detailed appraisal process, credit concentration limits and collateral including government guarantee
40.2	Liquidity Risk	Debt securities, Borrowings (other than debt securities), subordinated liabilities and other financial liabilities	Cash flow forecasts	Availability of committed credit lines and borrowing facilities
40.3	Market Risk – Foreign Currency Risk	Recognised financial liabilities not denominated in Indian Rupee (INR)	Sensitivity Analysis	Derivative contracts for hedging currency risk
40.4	Market Risk – Interest Rate Risk	Debt securities, Borrowings (other than debt securities), subordinated liabilities and loans at variable interest rates	Interest rate sensitivity analysis	Mix of loan arrangements with varied interest rate terms, derivative contract like interest rate swaps etc.
40.5	Market Risk – Price Risk	Investments in quoted equity instruments	Sensitivity Analysis	Diversification of portfolio, with focus on strategic investments

For managing these risks, the Company has put in place an integrated enterprise-wide risk management mechanism to ensure that these risks are monitored carefully and managed efficiently. In accordance with the RBI Master Direction in order to augment risk management practices in the Company, the Company has a Chief Risk Officer (CRO) who is involved in the process of identification, measurement and mitigation of risks. The Company also has a Board level Risk Management Committee (BLRMC), whose main function is to monitor and review the risk management plan of the Company and to make recommendations to the Board of Directors for taking up various risk management activities. The Chief Risk Officer (CRO) is a permanent invitee to all the meetings of Risk Management Committee. The risk management approach i.e., Company's objectives, policies and processes for identifying, measuring and managing each of above risk is set out in the subsequent paragraphs.

40.1 Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Company by failing to discharge its obligation. Details of financial assets that expose the Company to credit risk are:

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
Low Credit Risk		
Cash and cash equivalents[a]	21.76	22.14
Bank balances other than included in cash and cash equivalents[a]	200.05	1,595.96
Loans (Principal Outstanding) [c]	4,34,204.39	3,89,559.35
Investments (Excluding equity investments) [a]	2,371.46	1011.32
Other financial assets[b]	6,052.91	5,388.74
Trade receivables[b]	-	0.29
Moderate Credit Risk		
Loans (Principal Outstanding) [c]	31,184.29	16,436.73
High Credit Risk		
Loans (Principal Outstanding) [c]	16,073.22	16,501.65
Investments (Excluding equity investments) [a]	72.95	72.95
Other financial assets [b]	21.46	17.57
Trade receivables[b]	0.81	0.81

[a]Credit risk on cash and cash equivalents and other bank balances is limited as these are held with scheduled commercial public sector banks, high rated private sector banks and mutual fund houses, which meets the empanelment criteria as set out in the Company's policy. The Company has also set exposure limits for deployment of funds in various types of instruments with respective banks/ mutual fund houses.

For its investments, the Company manages its exposure to credit risk by periodically monitoring such investments, and applying the appropriate valuation techniques to arrive at the carrying value. The Company carries an impairment loss allowance of ₹ -72.95 crore on its investments as at 31.03.2024 (as at 31.03.2023 ₹ 72.95 crore).

[b]Credit risk on other financial assets and trade receivables is evaluated based on Company's knowledge of the credit worthiness of those parties and managed by monitoring the recoverability of such amounts. The Company carries an impairment loss allowance of ₹ 22.27 crore on its other financial assets and trade receivables as at 31.03.2024 (as at 31.03.2023 ₹ 18.38 crore).

[c]The Company is exposed to credit risk primarily through its lending operations. The same is explained in the paragraphs below.

40.1.1 Credit Risk Management for Lending Operations

The Company has put in place key policies and processes for managing credit risk, which include formulating credit policies, guiding the Company's appetite for credit risk exposures, undertaking reviews & objective assessment of credit risk, and monitoring performance and management of portfolios. All the procedures and processes of the Company are ISO 9001:2015 certified.

The credit risk management covers two key areas, i.e., project appraisal & project monitoring. The Company selects the borrowers in accordance with the Company's approved credit policy, which inter alia, defines factors to be considered for rating of the borrower/ project. The Company's customer selection procedure assesses viability of project along with that of its promoting entity. Rate of interest and maximum admissible exposure is, inter alia, based on internal rating awarded by the Company.

(i) Appraisal of Projects

The Company follows a systematic, institutional project appraisal process to assess the credit risk before financing any project.

(a) Appraisal for Private Sector Projects

For private sector projects, a two-stage appraisal process is followed. Initially a preliminary appraisal is carried out in order to decide the prima facie preparedness of the project to be taken up for detailed appraisal. Detailed appraisal is carried out for those projects shortlisted on the basis of preliminary appraisal.

The Company along with evaluation of project viability also assesses the ability of its promoter(s) to contribute equity and complete the project. The Company follows an integrated rating methodology whereby Integrated Rating (IR) is calculated using the weighted average of the scores of the project grading and promoter grading. Based on the IR of the project, terms and conditions (including security package, interest rate and debt-equity ratio) are stipulated.

(b) Appraisal for State Sector Projects

State sector projects are taken up for detailed appraisal to determine, inter-alia, if they are techno economically sound and compatible with integrated power development & expansion plans of the State.

The Company classifies state power generation utilities into various risk rating grades based on the evaluation of utility's performance against specific parameters covering operational and financial performance. With regards to transmission utilities, the Company adopts the categorisation of its subsidiary RECL as per its policy. With regard to State Power Distribution utilities including integrated utilities, the Company's categorisation policy provides for adoption of Ministry of Power's (MoP's) Integrated Ratings by aligning such ratings/ grading with that of Company's rating structure. The categorization of Borrowers in the Logistics and Non-Power Infrastructure sector is carried out on the basis of recommendations of the Internal Committee considering the strengths and weaknesses of the project.

Such categories/ ratings are used to determine credit exposure limits, security requirements and pricing of loans given to the State Sector Borrowers. The Company also has a mechanism in place for monitoring the exposure to single borrower and exposure within a State.

The detailed project appraisal involves technical and financial appraisal covering various aspects such as project inputs, statutory and non-statutory clearances, contracts, project linkages, financial modelling/ projections, calculation of returns, sensitivity analysis etc.

After detailed analysis indicated above, the overall viability of the project and entity is assessed and various conditions in the form of pre-commitment, pre-disbursement and other conditions are stipulated so as to ensure tying up of funds (debt and equity both), all physical inputs, appropriateness of all the contracts, compliance of conditions precedent in agreements/ contracts/ statutory and non- statutory clearances related to the project etc. and in general to ensure bankability of the project & protection of the interest of the Company as a lender for timely servicing of debt. The Company has an authorisation/ delegation structure for the approval of credit facilities commensurating with the size of the loan.

(ii) Security and Covenants

The Company stipulates a package of security measures/covenants to mitigate risks during the construction and post COD (commercial operation date) stage of the project. Based on the risk appetite and appraisal of the project, the Company adopts a combination of the following measures:

(a) Primary Security -Charge on Project Assets or State Government Guarantees
(b) Collateral Securities - Corporate guarantee, Personal guarantee of promoters, Pledge of shares, Charge on assets / revenues of group/other companies
(c) Payment Security Mechanism - Escrow Account / Letter of Credit, Trust and Retention Account (TRA)
(d) Other covenants - Assignment of all project contracts, documents, insurance policies in favour of the Company, Upfront equity requirement, Debt Service Reserve Account (DSRA), Debt Equity ratio, shareholders' agreements, financial closure, etc.

(iii) Project Monitoring

The Company has comprehensive project/loan monitoring guidelines that captures aspects relating to monitoring, tracking of project construction, implementation, identifies risks where intervention is required to minimize the time /cost overruns/ consequent slippages in disbursements and including progress of commissioned projects.

For State sector projects, monitoring is carried out based on project progress details obtained regularly from borrowers through progress monitoring reports, site visits, discussions with the borrowers, information/reports available on Central Electricity Authority's (CEA) website etc.

For private sector, where the Company is Lead Financial Institution (FI), the Company engages Lenders' Engineers (LEs) and Lenders' Financial Advisors (LFAs), which are independent agencies to act on behalf of various lenders /

पावर फाइनेंस कॉर्पोरेशन लिमिटेड Power Finance Corporation Limited "ऊर्जानिधि" 1, बाराखंबा लेन, कनॉट प्लेस, "URJANIDHI" 1, Barakhamba Lane, Connaught Place New Delhi-110 001 नई दिल्ली-110 001

CHOKSHI & CHOKSHI LLP FRN 101872W/ W100045

consortium members. The LEs conduct periodic site visits, review relevant documents, discusses with the borrowers and submit its reports on progress of the project. LFAs submit the statements of fund flow and utilization of funds in the project periodically. In cases the Company is not the lead FI, the tasks related to LEs and LFAs services are coordinated with the concerned lead lender. From FY 2022-23 onwards the Company has started empanelling Project Management Agency (PMA), as a single entity, for private sector projects, thereby facilitating better coordination of project monitoring activities.

Also, the consolidated periodic progress report of certain projects is prepared comprising important observations/ issues viz. areas of concern, reasons for delay, issues affecting project construction/implementation etc. and is reviewed by the Company on a regular basis.

The Company continuously monitors delays and/or default of borrowers and their recoverability. On occurrence of default in the borrower's account, the Company initiates necessary steps which may involve action(s) including, but not limited to, Special Mention Account (SMA) reporting to RBI, credit information reporting to Central Repository of Information on Large Credits (CRILC) etc., regularization of the account by recovering all over dues, invocation of guarantees/ securities to recover the dues, conversion of loan into equity as per loan agreement, restructuring of loan account, formulating resolution plan with the borrower, change in ownership, Corporate Insolvency Resolution Process (CIRP) under IBC -2016, sale of the exposures to other entities/investors, other recovery mechanisms like referring the case for legal action before Debt Recovery Tribunal (DRT), SARFAESI, etc. and other actions as specified under regulatory/legal framework.

40.1.2 Credit Risk Measurement - Impairment Assessment for Lending Operations

(i) Staging of loans

Ind-AS 109 outlines a three staged model for measurement of impairment based on changes in credit risk since initial recognition. For classification of its borrowers into various stages, the Company uses the following basis:

- A financial asset that is not credit impaired on initial recognition is classified in 'Stage 1'.

- If a significant increase in credit risk (SICR) is identified, the financial asset is moved to 'Stage 2'.

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting date by considering the change in the risk of default occurring over the remaining life of the financial assets. In accordance with Ind AS 109 'Financial Instruments', the Company has applied rebuttable presumption that considers more than 30 days past due as a parameter for determining significant increase in credit risk.

- If the financial asset is credit-impaired, it is moved to 'Stage 3' category.

In case of Stage 3 financial assets, after implementation of the resolution plan (except for change of ownership and/or resolution through NCLT), the financial asset is upgraded and classified as Stage 2 for two quarters from the date of implementation of resolution plan.

(ii) Default

In accordance with Ind AS 109 'Financial Instruments', the Company considers the rebuttable presumption to define a financial asset as in default, i.e. when the loan account is more than 90 days past due on its contractual payments. Credit impaired financial assets are aligned with the definition of default.

(iii) Measurement of Expected Credit Loss (ECL)

The Company recognises impairment loss allowance for the financial assets in accordance with a Board-approved expected credit loss (ECL) policy. ECL is measured on either a 12 month or lifetime basis depending on whether there is significant increase in credit risk since initial recognition. ECL is the product of Probability of default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). The Company has appointed an independent agency, CRISIL Ltd., during the financial year for assessment of ECL in accordance with Ind AS 109 'Financial Instruments'. The brief methodology of computation of ECL is as follows:

(a) Probability of default (PD)

PD is an estimate of the likelihood of default over a given time horizon. It is estimated as at a point in time. For assessing 12-month PD, probability of a loan defaulting in next 12 months is ascertained and similarly for assessing lifetime PD, probability of a loan defaulting in its remaining lifetime is ascertained.

For Stage 1 accounts, 12 months PD is used.
For Stage 2 (significantly increased credit risk accounts), Lifetime PD is used.
For Stage 3 (credit impaired accounts), 100% PD is taken.

12-month PD: In case of State Sector borrowers, for the purpose of PD calculation, the risk rating grades of the utilities are considered. For Gencos/Transcos/Others, PFC's internal rating grades have been considered. For Discoms / Power Department borrowers, PFC has adopted the MoP ratings. The ratings as above has been be mapped with the standard external rating benchmarks. The PD factor associated with the mapped external rating as given in the PD transition matrix published by various CRAs have been used for PD calculation.

In case of Private sector borrowers, the latest external rating as published by various Credit Rating Agencies have been referred to compute PD using the PD transition matrix published by various CRAs . If external rating is not available, the PD has been computed through Proxy Risk Scoring Model on a 10-point scale with 1 suggesting minimum risk and 10 suggesting the highest risk. The said model uses the Quantitative financial ratios like Gearing (Debt/Equity), Return on Capital Employed, Interest Coverage ratio, Debt to EBITDA ratio and qualitative factors like PLF, ACS/ ARR ratio or LAF to arrive at the final Risk score. The financial risk score obtained have been mapped to external rating benchmarks. This mapped rating has been referred to compute PD associated with the rating using the PD transition matrix published by various CRAs.

For Lifetime PD: Markov Chain Model has been used to compute Lifetime PDs of the rating grade.

(b) Loss Given Default (LGD)

LGD is the loss factor which the Company may experience in case the default occurs.

For State sector borrowers, the company considers the credit worthiness of the states on various parameters while estimating the LGD for state utilities. For estimating the credit worthiness of the state, parameters like State GDP per capita, Fiscal deficit/GDP ratio and Proportion on Revenue Expenditure on Energy Sector, etc. are used as key inputs. The state utilities are bifurcated into Low, Medium and High-risk category based on the state category. In case of Private sector borrowers, LGD has been assessed considering factors related to the project to arrive at realisable value of the plant such as generation capacity, project cost per MW, percentage completion of the plant, and book value of the assets etc. A stress factor was also applied as a haircut to arrive at the realisable value.

For Stage 3 borrowers, LGD has been assessed project wise based on Bid value/resolution plan amount/OTS amount/any other value/ discounted cash flows etc. as applicable.

(c) Exposure at Default (EAD)

Exposure at Default is the outstanding exposure on which ECL is computed. EAD includes outstanding principal and interest accrued (including delayed charges) in respect of the loan. As per Note no.6.1.(ii) , income on credit impaired assets is recognised as and when received or on accrual basis when expected realisation is higher than the loan amount outstanding, therefore, the same is not used in computation of Exposure at default.

(d) Key assumptions used in measurement of ECL

- The Company considers the date of initial recognition as the base date from which significant increase in credit risk is determined.

- Since the Company has a right to cancel any sanctioned but undrawn limits to any of its borrowers, EAD is assumed to be outstanding balance and interest of the loan as on the reporting date.

(e) The calculation of ECL incorporates forward-looking information. Further, the independent agency appointed to assist the Company in ECL assessment also consider the forward-looking information in the determination of the impairment allowance to be assigned to the borrower, by taking into consideration various project operational parameters, project financial ratios, extension of the project completion and also possibility of stressed and favourable economic conditions. Further, the independent agency has also added some additional macroeconomic parameters such as Power demand, GDP growth, monthly weighted average prices of traded power and current account to arrive at a weighted shock factor to the base PD term structure for ECL computation so as to reflect the right risk assessment of the utilities.

40.1.3 Credit risk analysis for Lending Operations

(i) Exposure to credit risk

For loans recognized in the balance sheet, the gross exposure to credit risk equals their carrying amount. Refer Note 10 'Loans' for Company's exposure to credit risk arising from loans.

For financial guarantee issued, the maximum exposure to credit risk is the maximum amount that the Company would have to pay if the guarantees are called upon. For irrevocable loan commitments, the maximum exposure to credit risk is the full amount of the commitment facilities. Refer Note 46 for exposure of Guarantee and Outstanding Disbursement Commitments.

The credit quality and maximum exposure (Principal outstanding) to credit risk based on days past due and year end stage classification of loans is tabulated below:

(₹ in crore)

Days past Due (DPD)	As at 31.03.2024				As at 31.03.2023			
	Stage 1	Stage 2	Stage 3	Total	Stage 1	Stage 2	Stage 3	Total
No overdue	4,34,204.39	441.45*	-	4,34,645.84	3,89,559.28	674.51#	-	3,90,233.79
1-30 days	-	-	-	-	0.07	-	-	0.07
31-60 days	-	30,742.84	-	30,742.84	-	-	-	-
61-90 days	-	-	-	-	-	15,111.71	-	15,111.71
More than 90 days	-	-	16,073.22	16,073.22	-	650.51@	16501.65	17152.16
Total	**4,34,204.39**	**31,184.29**	**16,073.22**	**4,81,461.90**	**3,89,559.35**	**16,436.73**	**16,501.65**	**4,22,497.73**
Impairment loss allowance	**3,732.95**	**175.83**	**11,962.53**	**15,871.31**	**2,893.68**	**1,182.54**	**11,999.38**	**16,075.60**

Pending transfer of ownership, the account has been classified as Stage 2.
* classified in Stage-II pursuant to resolution plan implemented without change in ownership.
@Refer Note 40.1.6.

(ii) Concentration of credit risk

Credit concentration risk refers to risk associated with large credit/investment exposure to a single company or a group of companies based on its ownership, sector, region etc. that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions, with the potential to adversely affect lender's core operations.

The following table sets out an analysis of risk concentration of overall loan portfolio on the basis of similar risk characteristics:

(₹ in crore)

Particulars	As at 31.03.2024		As at 31.03.2023	
	Principal outstanding	Impairment loss allowance*	Principal outstanding	Impairment loss allowance*
Concentration by ownership				
Loans to state sector (i.e., entities under the control of state and /or central government)	3,89,525.42	3,059.63	3,49,765.78	2,551.42
Loans to private sector	91,936.48	12,811.68	72,731.95	13,524.18
Total	**481,461.90**	**15,871.31**	**4,22,497.73**	**16,075.60**

*including impairment loss allowance on Letter of Comfort of ₹ 48.63 crore (as at 31.03.2023 ₹ 50.93 crore).

Loans to state sector are well diversified as these are extended to multiple entities under the control of various State Governments and Central Government. The Company considers that these loans have a low credit risk in comparison to lending to private sector mainly due to low default / loss history in state sector and availability of government guarantee in certain loans. Presence of Government interest in these projects also lowers the risk of non-recoverability of dues.

Further, the Company has a lending portfolio comprising of loans to generation, renewable, transmission, distribution, power projects & other infrastructure projects spread across diverse geographical areas.

(₹ in crore)

Particulars	As at 31.03.2024		As at 31.03.2023	
	Principal outstanding	Impairment loss allowance*	Principal outstanding	Impairment loss allowance*
Concentration by schemes				
Generation	1,71,922.56	11,330.74	1,74,660.92	11,219.39
Renewable	60,208.17	2,473.14	48,197.75	3,120.12
Transmission	35,144.18	270.68	30,841.01	152.35
Distribution	1,95,001.74	1,674.62	1,55,871.68	1,484.10
Others	19,185.25	122.13	12,926.37	99.64
Total	**481,461.90**	**15,871.31**	**4,22,497.73**	**16,075.60**

*including impairment loss allowance on Letter of Comfort of ₹ 48.63 crore (as at 31.03.2023 ₹ 50.93 crore).

The Company's exposure to various projects and borrowers is constantly monitored in line with the applicable Credit Concentration Norms.

(iii) Details regarding Concentration of Loans

(a) Concentration of Loans :

Particulars	As at 31.03.2024	As at 31.03.2023
Total Loans (Principal Outstanding) to twenty largest borrowers (₹ in crore)	2,75,865.69	2,57,648.80
Percentage of Loans to twenty largest borrowers to Total Loans of the Company	57.30%	60.98%

(b) Concentration of Credit impaired accounts (Stage 3 accounts):

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
Principal outstanding of top four Stage 3 accounts	10,296.14	10,296.14

(iv) Details of Stage wise Principal outstanding and Impairment loss Allowance:

(₹ in crore)

Particulars	As at 31.03.2024			As at 31.03.2023		
	Principal Outstanding	Impairment loss allowance*	Impairment loss allowance Coverage (%)	Principal Outstanding	Impairment loss allowance*	Impairment loss allowance Coverage (%)
Stage 1	434,204.39	3,732.95	0.86	3,89,559.35	2,893.68	0.74
Stage 2	31,184.29	175.83	0.56	16,436.73	1,182.54	7.19
Stage 3	16,073.22	11,962.53	74.43	16,501.65	11,999.38	72.72
Total	**4,81,461.90**	**15,871.31**	**3.30**	**4,22,497.73**	**16,075.60**	**3.80**

*including impairment loss allowance on Letter of Comfort of ₹ 48.63 crore (as at 31.03.2023 ₹ 50.93 crore).

(v) The following tables explain the changes in the loans and the corresponding impairment loss allowance (including impairment loss allowance on Letter of Comfort and Guarantees) between the beginning and the end of the reporting period:

(₹ in crore)

FY 2023-24	Stage 1		Stage 2		Stage 3		Total	
Particulars	Principal Outstanding	Impairment loss allowance	Principal Outstanding	Impairment loss allowance	Principal Outstanding	Impairment loss allowance	Principal Outstanding	Impairment loss allowance
Opening Balance	**3,89,559.35**	**2,893.68**	**16,436.73**	**1,182.54**	**16,501.65**	**11,999.38**	**4,22,497.73**	**16,075.60**
Transfer to Stage 1	16,436.73	1,182.54	(16,436.73)	(1,182.54)	-	-	-	-
Transfer to Stage 2	(32,887.08)	(132.80)	33,300.07	260.62	(412.99)	(127.82)	-	-
Transfer to Stage 3	-	-	-	-	-	-	-	-
Net change in Principal/ECL during the year within the same stage	3,436.06	276.48	-	-	(15.44)	90.97	3,420.62	367.45
New financial assets originated	67,267.52	565.76	-	-	-	-	67,267.52	565.76
Financial assets derecognised (includes loans repaid/pre-payment with stage movement)	(9,608.19)	(1,052.71)	(2,145.03)	(84.79)	-	-	(11,753.22)	(1,137.50)
Financial Assets derecognised (Write Off)	-	-	29.25	-	-	-	29.25	-
Financial Assets derecognised during the period (Investment Received)	-	-	-	-	-	-	-	-
Closing Balance	**4,34,204.39**	**3,732.95**	**31,184.29**	**175.83**	**16,073.22**	**11,962.53**	**4,81,461.90**	**15,871.31**

(₹ in crore)

(vi) Movement of Credit Impaired Accounts (Stage 3 accounts):

(₹ in crore)

Sr. No.	Description		As at 31.03.2024	As at 31.03.2023
(i)	Net Credit Impaired accounts to Gross Loans (%)		0.85	1.07
(ii)	Net Credit Impaired accounts to Net Loans (%)		0.88	1.10
			FY 2023-24	**FY 2022-23**
(iii)	Movement of Gross Credit Impaired accounts			
	(a)	Opening balance	16,501.65	20,915.28
	(b)	Additions during the year	0.32	45.78
	(c)	Reductions during the year	(428.75)	(4,459.42)
	(d)	Closing balance	16,073.22	16,501.65
(iv)	Movement of Net Credit Impaired accounts			
	(a)	Opening balance	4,502.27	6,570.90
	(b)	Additions during the year	-	28.13
	(c)	Reductions during the year	(391.58)	(2096.76)
	(d)	Closing balance	4110.69	4,502.27
(v)	Movement of impairment loss allowance on Credit Impaired accounts			

	(a)	Opening balance	11,999.38	14,344.38
	(b)	Provisions made during the year	106.73	425.99
	(c)	Write-off / write-back of excess provisions	(143.58)	(2770.99)
	(d)	Closing balance	11,962.53	11,999.38

(vii) Percentage of Gross Credit Impaired Assets (Stage 3) to Gross Loans – sector wise

Description	As at 31.03.2024	As at 31.03.2023
Financing to power, logistics and infrastructure sector	3.34%	3.91%

40.1.4 Write off of Loan Assets

The company writes off Loan assets in whole or in part in line with its write off policy, when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include ceasure of enforcement activity or where the Company's recovery method is foreclosing on collateral and the value of collateral is such that there is no reasonable expectation of recovery in full. The waiver/write off is done in whole or in part as per the restructuring/settlement/resolution process.

40.1.5 Policy on sales out of amortised cost business model portfolio

The Company does not resort to the sale of financial assets, in ordinary course of business. However, the Company has an approved policy that it may proceed for resolution of stressed assets by either restructuring, change of ownership, settlement or otherwise. The assets are then assessed for derecognition as per Ind AS 109 'Financial Instruments'.

40.1.6 Disclosure in respect of accounts that are beyond 90 days overdue but not treated as credit impaired

Particulars	As at 31.03.2024	As at 31.03.2023
Number of Borrowers	-	1
Amount of loan outstanding(₹ in crore)	-	650.51
Amount overdue*(₹ in crore)	-	160.91
Amount of Impairment Loss allowance (₹ in crore)	-	422.68

*excluding overdue interest of ₹ Nil as at 31.03.2024 (As at 31.03.2023 ₹ 186.06 crore).

As at 31.03.2023, Pursuant to Ad-interim order from Hon'ble High Court(s) one borrower account had not been classified as Credit impaired. During FY 2023-24, the borrower account was upgraded to Stage 1 on implementation of resolution plan. As at 31.03.2024, there is no borrower account beyond 90 days overdue which has not been treated as credit impaired.

40.1.7 Details of provision required as per Income Recognition, Asset Classification & Provisioning Norms (IRACP) of RBI and impairment allowance as per Ind AS 109 'Financial Instruments'

40.1.8 In accordance with Master Direction- Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 as amended from time to time, NPA ratios duly considering the loans which would have been otherwise required to be classified as NPA as per RBI norms is as under:

Particulars	As at 31.03.2024	As at 31.03.2023
Gross NPA to Gross Loans	4.17%	4.72%
Net NPA to Net Loans	1.66%	1.87%

40.2 Liquidity Risk

Liquidity risk is the risk that the Company doesn't have sufficient financial resources to meet its obligations as and when they fall due. The risk arises from the mismatches in the timing of the cash flows which are inherent in all financing operations and can be affected by a range of company specific and market wide events.

In order to effectively manage liquidity risk, the Company endeavours to maintain sufficient cash flows to cover maturing liabilities without incurring unacceptable losses or risking damage to the Company's reputation and also endeavours to maintain a diversified fund base by raising resources through different funding instruments. The adequacy of the Company's liquidity position is determined keeping in view the current liquidity position , anticipated future funding needs, present and future earning capacity and available sources of funds.

The Company manages its day to day liquidity to ensure that the company has sufficient liquidity to meet its financial obligation as & when due. The long term liquidity is managed keeping in view the long term fund position and the market factors. This is in line with the Board approved framework and breaches, if any, are to be reported as per approved framework. The Company has never defaulted in servicing of its borrowings.

Further, for overall liquidity monitoring and supervision, the Company has an Asset Liability Committee (ALCO) headed by Director (Finance). The ALCO tracks the liquidity risk by analysing the maturity or cash flow mismatches of its financial assets and liabilities. The mismatches are analysed by way of liquidity statements prescribed by RBI, wherein the cumulative surplus or deficit of funds is arrived at by distributing the cash flows against outstanding financial assets and financial liabilities according to the maturity ladder.

(i) The following table analyses the maturity pattern of items of financial liabilities(debt securities, borrowings and subordinated liabilities) by remaining maturity of contractual principal and interest on an undiscounted basis:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2024				
Domestic borrowings				
Principal	61,852.33	1,50,460.84	1,22,330.34	**3,34,643.51**
Interest	25,114.13	66,583.42	45,537.36	**1,37,234.91**
Foreign Currency borrowings				
Principal	12,191.90	37,897.81	22,746.75	**72,836.46**
Interest	2,883.60	8,806.88	896.07	**12,586.55**
Total	**1,02,041.96**	**2,63,748.95**	**1,91,510.52**	**5,57,301.43**
As at 31.03.2023				
Domestic borrowings				
Principal	46,280.00	1,35,581.86	1,16,221.48	**2,98,083.34**
Interest	21,838.37	59,803.45	37,412.88	**1,19,054.71**
Foreign Currency borrowings				
Principal	9,101.96	19,834.55	35,617.98	**64,554.49**
Interest	2,361.78	6,508.92	2,026.65	**10,897.35**
Total	**79,582.11**	**2,21,728.78**	**1,91,278.99**	**4,92,589.89**

* In the above table, bonds with put & call option have been shown considering the earliest exercise date. Further, the commercial papers and zero-coupon bonds have been shown at the maturity value.

(ii) The following table analyses the maturity pattern of Derivative financial liabilities*:

(₹ in crore)

Particulars	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2024				
Forward	-	-	-	-
Option/ swaps	47.82	305.91	-	353.73
Total	**47.82**	**305.91**	-	**353.73**
As at 31.03.2023				
Forward	21.06	-	-	21.06
Option/ swaps	3.26			3.26
Total	**24.32**	-	-	**24.32**

* The above table details the Company's liquidity analysis for its derivative financial liabilities based on MTMs received from counterparty banks. Maturity buckets are as per the remaining tenor of the respective derivative instrument.

(iii) Significant cash flows required for meeting the financial liabilities shall be funded through cash flows (principal and interest repayments) generated from loan assets. The following table analyses the maturity pattern of loans by remaining maturity of contractual principal and interest on an undiscounted basis:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2024				
Loan assets				
Principal	73,417.94	1,57,731.78	2,38,349.65	**4,69,499.37**
Interest	43,540.93	1,26,940.80	1,16,636.46	**2,87,118.19**
Total	**1,16,958.87**	**2,84,672.58**	**3,54,986.11**	**7,56,617.56**
As at 31.03.2023				
Loan assets				
Principal	52,942.67	1,41,277.13	2,16,278.54	**4,10,498.35**
Interest	37,705.85	1,11,246.88	97,226.08	**2,46,178.81**
Total	**90,648.52**	**2,52,524.01**	**3,13,504.62**	**6,56,677.16**

* The principal cash flows net of impairment loss allowance relating to Stage 3 assets have been considered in over 5 years bucket irrespective of the maturity date.

(iv) The Company has access to cash credit, overdraft, line of credits and working capital demand loans from banks to meet unanticipated liquidity need. Further, the Company has the highest domestic Credit Rating of AAA, thereby enabling it to mobilize funds from the domestic market within a short span of time. The Company has access to the following undrawn short term borrowing facilities :

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
CC/ OD/ LoC / WCDL limits	11,888.52	8,116.17

(v) The Company also maintains sufficient liquidity buffer in the form of High-Quality Liquid Assets (HQLA) as prescribed by RBI for NBFCs. Refer note 54.6 for disclosure in this regard.

40.3 Market Risk – Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument, denominated in currency other than functional currency, will fluctuate because of changes in foreign exchange rates.

(i) The Company is exposed to foreign currency risk mainly on its borrowings denominated in foreign currency. The carrying amount of the Company's foreign currency denominated borrowings is as follows:

Description	As at 31.03.2024		As at 31.03.2023	
	Crore in respective currency	₹ in Crore	Crore in respective currency	₹ in Crore
USD Loans	**693.98**	**57,859.94**	**584.12**	**48,024.91**
- Hedged	633.50	52,817.37	403.50	33,174.52
- Unhedged	60.48	5,042.57	180.62	14,850.39
Euro Loans	**38.19**	**3,445.69**	**93.17**	**8,348.44**
- Hedged	-	-	56.61	5,072.98
- Unhedged	38.19	3,445.69	36.56	3,275.46
JPY Loans	**20,930.90**	**11,530.83**	**13,238.08**	**8,181.14**
- Hedged	20,566.55	11,330.11	4,090.53	2,527.96
- Unhedged[#]	364.35	200.72	9,147.55	5,653.18
Total		**72,836.46**		**64,554.49**
- Hedged		**64,147.48**		**40,775.46**
- Unhedged		**8,688.98**		**23,779.03**

[#]includes JPY loan liability hedged for one leg (USD/JPY) Nil as at 31.03.2024 (As at 31.03.2023 ₹5,653.18 crore)

(ii) Foreign currency risk monitoring and management

The Company has put in place a Board approved "Policy for Management of Risks on Foreign Currency Borrowings" to manage and hedge risks associated with foreign currency borrowings which prescribes the structure and organization for management of associated risks.

The Company enters into various derivative transactions viz. principal only swaps, options and forward contracts for hedging the exchange rate risk. As per extant policy, a system for reporting and monitoring of risks is in place wherein Committee for Management of Risks on Foreign Currency Borrowings, consisting of senior executives of the Company, monitors the foreign currency exchange rate. These derivative transactions are done for hedging purpose and not for trading or speculative purpose. The policy lays down the appropriate systems and controls to identify, measure and monitors, the currency risk for reporting to the Management.

(iii) Foreign Currency Sensitivity Analysis

The following table presents the impact on total equity [Gain / (Loss)] for 5% change in foreign currency exchange rate against INR on unhedged portfolio of outstanding foreign currency borrowings:

(₹ in crore)

Foreign Currency Liabilities	As at 31.03.2024		As at 31.03.2023	
	Decrease	Increase	Decrease	Increase
	on account of change in foreign exchange rate			
USD	252.13	(252.13)	742.52	(742.52)
Euro	172.28	(172.28)	163.77	(163.77)
JPY	10.04	(10.04)	282.66	(282.66)
Total	**434.45**	**(434.45)**	**1,188.95**	**(1,188.95)**

(iv) Refer Note 41 for disclosures related to hedge accounting.

40.4 Market Risk – Interest Rate Risk

40.4.1 Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in interest rates. The impact may be beneficial or adverse depending on the direction of change in interest rates and whether assets or liabilities re-price faster.

(i) Interest rate risk is managed with the objective to control market risk exposure while optimizing the return.

The Asset Liability Committee (ALCO) tracks the interest rate risk through the gap analysis i.e. by analysing the mismatches between Rate Sensitive Assets and Rate Sensitive Liabilities. For gap analysis, the interest rate sensitivity statement prescribed by RBI is used, wherein the gap is measured between the Rate Sensitive Assets and Rate Sensitive Liabilities which are distributed based on the maturity date or the re-pricing date whichever is earlier.

Further, for managing the interest rate risk, the Company reviews its interest rates periodically based on prevailing market conditions, borrowing cost, yield, spread, competitors' rates, etc. The asset mix is managed by the Company through its interest rate & credit policies which inter-alia covers aspects like reset periods; repayment periods, prepayment premium etc. The liabilities are managed keeping in view factors like cost, market appetite, timing, market scenario, ALM gap position etc. The Company also enters into various derivatives transactions like interest rate swaps, cross-currency interest rate swaps to hedge its interest rate risk.

(ii) Interest Rate Sensitivity Analysis

As per RBI Guidelines, Earning at Risk (EaR) is an important focal point for interest risk management. For Interest Rate Sensitivity analysis, the impact of movement of interest rates has been measured on the Earning at Risk derived from the gap statements. The impact has been worked out considering 25 basis upward/downward shocks to interest rates over a one-year period, assuming a constant balance sheet. The analysis shows that if rates are increased/decreased by 25 bps, the impact on EaR will be (+/-) ₹ 315.68 crore. (As at 31.03.2023 (+/-) ₹ 194.52 crore).

The analysis assumes that the Rate Sensitive Assets and Rate Sensitive Liabilities are being re-priced at the same time. Further, the analysis considers the earliest/first re-pricing date of the Rate Sensitive Assets and Rate Sensitive Liabilities.

Note: A 25 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

40.4.2 Disclosures in respect of Interest Rate Benchmark Reform

The Company has variable interest rate borrowings whose interest rate is based on interest rate benchmarks. Also, to hedge the variability of cash flows on these borrowings, the Company has entered into multiple interest rate swaps with key terms (principal amount, payment dates, repricing dates, currency) that match those of the debt on which it pays a fixed rate and receives a variable rate. Pursuant to successful transition to alternative benchmark rate, significant interest rate benchmark used in the Company's borrowings is Overnight Compounded SOFR (Secured Overnight Financing rate).

(i) Exposure directly affected by the interest rate benchmark reform

The total amount of exposure that is directly affected by Interest Rate Benchmark Reform (IBOR) i.e. after June 2023 is USD 654.81 million (As at 31st March, 2023: USD 656.24 million).

Following is the detail of the foreign currency borrowings which has been impacted based on LIBOR transition from 6 month USD LIBOR as made effective after June 2023:-

Benchmark	As at 31.03.2024				As at 31.03.2023			
	Amount in respective currency (million)	Amount (₹in crores)	Of which, have yet to transition to an alternative benchmark rate		Amount in respective currency (million)	Amount (₹ in crores)	Of which, have yet to transition to an alternative benchmark rate	
			Amount in respective currency (million)	Amount (₹ in crores)			Amount in respective currency (million)	Amount (₹ in crores)
Non-derivative financial liabilities								
6 month USD LIBOR	-	-	-	-	656.24	5,395.44	650.00	5,344.10
Overnight Compounded SOFR	654.81	5,459.44	NA	NA	-	-	-	-
Derivatives								

6 month USD LIBOR	-	-	-	-	650.00	5,344.10	650.00	5,344.10
Overnight Compounded SOFR	650.00	5,419.30	NA	NA	-	-	-	-

(ii) Managing the process of transition to alternative benchmark rates

The Company has in place a Board approved Policy for undertaking Libor Transition namely "Framework for transition from London Inter Bank Offered Rate (LIBOR) to Alternative Reference Rate (ARR)'. The framework inter-alia covers aspects such as assessment of exposure linked to LIBOR, identification of risk arising out of LIBOR transition, contracts remediation, operational readiness, governing structure, regulatory compliance & reporting, etc. Further, the company undertook all the transition activities as per the process/ guidelines detailed in the policy. The process of transition from 6 month USD LIBOR to Alternative Reference Rate (i.e. SOFR) has been duly completed within available timelines.

(iii) Significant assumptions for exposure affected by the interest rate benchmark reform

Ind AS 109 provides temporary exceptions to all the hedging relationships directly impacted by the interest rate benchmark reform. The alternative reference rate / benchmarks for the LIBOR linked loans and their derivatives agreed with the lenders and the derivative bankers are similar. Further, as a result of such reform there has been no change in the relationship of the hedged items, hedged instruments and its corresponding hedge effectiveness.

40.5 Market Risk - Price risk

(i) The Company is exposed to price risks arising from investments in listed equity shares. Refer Note 11 'Investments' for Company's exposure to the same.

(ii) Sensitivity Analysis

The table below represents the impact on Statement of Profit and Loss for 5% increase or decrease in the respective prices on Company's equity investments, outside the group:

(₹ in crore)

Particulars	As at 31.03.2024		As at 31.03.2023	
	Increase	(Decrease)	Increase	(Decrease)
Impact on P&L	9.70	(9.70)	3.47	(3.47)
Impact on OCI	121.13	(121.13)	56.50	(56.50)

41. Hedge Accounting

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Statement of Profit and Loss on a systematic basis.

(i) Hedge Effectiveness

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. The Company applies the follow7ing effectiveness testing strategies:

a) For derivatives other than options that exactly match the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method (where principal terms of the hedging instrument and the hedged item are same).
b) For option structures, the Company analyses the relationship of changes in value of the hedging instrument and hedged item using regression analysis.

42. Fair Value Measurements

(i) Some of the Company's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

(₹ in crore)

Sr. No.	Financial asset/ Financial Liability - Recurring fair value	Fair Value as at		Fair value hierarchy (Refer Note 5.1)	Valuation technique(s) & Key input(s)
		31.03.2024	31.03.2023		
1)	**Quoted Equity investments***				
	- PTC India Limited	223.14	102.06	Level 1	Quoted market price
	- Coal India Limited	606.20	298.35		
	- NHPC Limited	1,055.58	624.40		
	- Suzlon Energy Limited	537.74	105.15		
	- RattanIndia Power Limited	193.98	69.36		
2)	**Un-Quoted Equity investments**				
	- RKM PowerGen Pvt. Ltd	0.00	0.00	Level 3	Allotted pursuant to restructuring, valued at ₹ 1 on prudent basis.
	- Power Exchange India Limited	4.78	3.59		Fair value has been determined using the Ind AS financials of the investee company.
	- Energy Efficiency Services Ltd (EESL)	181.06	158.08		
	-Jhabua Power Limited	440.04	429.40		
	-Ind Barath Energy Utkal Limited	4.73	1.18		
3)	**Investment in preference shares**				
	- RattanIndia Power Limited-OCCRPS	-	-	Level 3	Owing to default in redemption of RPS of RattanIndia Power Ltd., PFC estimates material amount to be realized from these investments is remote.
4)	**Investment in debentures**				
	- Essar Power Transmission Company Ltd. – Series A3 - OCD	33.34	35.64	Level 3	Fair valued using discounted future cash flow as per terms of agreement.
	- Essar Power Transmission Company Ltd. - Series B3- OCD	13.43	14.36		
	- Essar Power Transmission Company Ltd. - Series C - OCD	0.00	0.00		Fair valued a ₹ 1 due to the non-availability of structured repayment schedule. The debentures are unsustainable in nature and future cash flows are uncertain.
	- RKM Powergen Pvt. Ltd. - Series A - OCD	0.00	0.00		
	- RKM Powergen Pvt. Ltd. - Series B - OCD	0.00	0.00		
	- RKM Powergen Pvt. Ltd. - Series AI - OCD	0.00	0.00		
	- Mytrah Vayu Tungbhadra Pvt Ltd- Series A- OCD	0.00	-		
	- Mytrah Vayu Tungbhadra Pvt Ltd- Series B- OCD	0.00	-		
	-Dans Energy Private Limited-OCD	0.00	-		
5)	Derivative Financial Instruments				

	- Assets	4,462.03	4,803.40	Level 2	The fair value of these contracts is obtained from counterparty banks, who determines it using valuation models that use inputs which are observable for the contracts, such as interest rates and yield curves, implied volatilities etc.
	- Liability	353.73	24.32		

*Refer note 11.5

(ii) There were no transfers between Level 1 and Level 2 during the year.

(iii) Reconciliation of Financial Instruments fair valued through Level 3 inputs:

The following tables show the reconciliation of the opening and closing amounts of financial assets and liabilities measured at fair value using Level 3 inputs:

(₹ in crore)

Particulars	FY 2023-24		FY 2022-23	
	FVTOCI	FVTPL	FVTOCI	FVTPL
	Investment in Un-quoted Equity Shares	Investment in Debentures	Investment in Un-quoted Equity Shares	Investment in Debentures
Opening Balance	**592.25**	**50.00**	**241.73**	**155.72**
Investment made during the year	-	-	451.17	-
Settlement	-	(10.54)	-	-
Transfer in Level 3	-	-	-	-
Transfer from Level 3	-	-	-	-
Interest income[1]	-	3.27	-	9.07
Fair Value gain/ (loss)	38.36[2]	4.04	(100.65)[2]	(114.79)
Closing Balance	**630.61**	**46.77**	**592.25**	**50.00**
Unrealized gains/(loss) on assets held at the end of the year	38.36	4.04	(100.65)	4.24

(1) Forms part of line item 'Interest Income' in the Standalone Statement of Profit and Loss.

(2) Fair value gain/ (loss) on Investments at FVTOCI forms part of line item 'Net Gain/(Loss) on Fair Value of Equity Instruments' in the Other Comprehensive section of Standalone Statement of Profit and Loss.

(iv) Fair Value of financial assets/ liabilities measured at amortized cost:

The fair value of the following financial assets and liabilities have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant input being the discount rate that reflects the credit risk of counterparties except for the cases where quoted market prices are available. These fair values were calculated for disclosure purposes only.

(₹ in crore)

Asset/Liability	Fair value hierarchy	As at 31.03.2024		As at 31.03.2023	
		Amortized Cost	Fair Value	Amortized Cost	Fair Value
Loans	Level 3	4,69,928.41	4,75,901.80	4,10,829.15	4,19,054.16
Investments [a]	Level 1/3	2324.68	2,347.16	961.32	967.04
Other Financial Assets	Level 2	6,052.91	6,047.74	5,389.03	5,398.09
Debt Securities[a]	Level 1 / 2	2,94,267.80	2,89,991.47	2,59,827.05	2,55,207.19
Borrowings other than debt securities[b]	Level 2	1,16,606.04	1,13,858.90	1,01,228.89	96,575.09
Subordinated Liabilities	Level 2	5,519.72	5,738.23	9,311.84	9,625.45

(a) Includes listed instruments with Level 1 fair value hierarchy
Investment in G-Sec being fair valued using market price as at reporting date.
Foreign currency Notes (GMTN issuances) being fair valued as per closing prices as per Reuters.

(b) Includes foreign currency loans linked to Floating rate of interest and multilateral agencies loans being valued at par. In accordance with the interest rate benchmark reform, the fair value as at 31st March, 2024 has been arrived at using the alternative benchmark i.e. SOFR (Secured Overnight Financing rate).

The carrying amounts of financial assets and financial liabilities other than those shown in the above table are considered to be a reasonable approximation of their fair values.

43.5 Disclosure in respect of entities under the control of the same government (Government related entities)

The Company is a Central Public Sector Undertaking (CPSU) controlled by Central Government. During the year, the Company had transactions with the related entities under the control/ joint control of the same government including but not limited to

Neyveli UP Power Ltd.	Damodar Valley Corporation
Raichur Power Corporation Ltd.	Mumbai Metro Rail Corporation Limited
Power Foundation of India	Bihar Grid Company Ltd.
SJVN Thermal Pvt Ltd.	Coal India Ltd.
PTC India Limited	NHPC Ltd.
National High Power Test Laboratory Pvt Ltd.	Tehri Hydro Development Corporation
Neyveli lignite Corporation Limited	NLC Tamilnadu Private Limited
Meja Urja Nigam Private Limited	HPCL Rajasthan Refinery Limited

Significant transactions with entities under the control of same government:

(₹ in crore)

Nature of Transaction	**During FY 2023-24**	**During FY 2022-23**
Dividend Income	66.24	69.85
Disbursement of loans	7,313.86	5,362.77
Interest Income received	2,856.69	2,435.11
Repayment of principal received	2,973.17	2,213.85
Membership Fees	5.00	5.40

Refer Note 12B, 18.7,18.10, 20B.1, 24.2 and 51 in respect of material transactions with the Central Govt.

Above transactions with the Government related entities cover transactions that are significant individually and collectively. The Company has also entered into other transactions such as telephone expenses, lease rental and deposits etc. with other CPSUs. They are insignificant individually & collectively and hence not disclosed. All the transactions have been carried out on market terms.

43.6 Major terms and conditions of transactions with related parties

(i) Transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions.

(ii) The remuneration to Key Managerial Personnel is in line with the HR policies of the Company.

(iii) Loans and advances given to Directors/KMPs have specified terms / period of repayment and are in line with the HR Policies of the Company.

(iv) The Company makes advances to its associate companies which are incorporated as SPVs to meet the preliminary expenditure. Such advances carry interest rates at the rate applicable to Term Loans as per the Company's policy.

(v) The interest and/or dividend paid to the Trusts and Key Managerial Personnel are on account of their investments in the debt securities and/or equity shares of the Company and the interest and/or dividend paid on such securities is uniformly applicable to all the holders.

(vi) Outstanding balances of group companies at the year-end are unsecured except loan given to PFCCL amounting to ₹ 9.18 crore.

44. Employee Benefits

44.1 Defined contribution plans:

(a) Pension

The Company pays fixed contribution to National Pension Scheme (NPS) for its pension obligation towards employees at pre-determined rates into the Tier-I NPS Account (Pension Account) of the employees.

(b) Provident Fund

The Company pays fixed contribution on account of provident fund at prescribed rates to a separate trust, which invests the funds in permitted securities. The trust has to ensure, a minimum rate of return to the members as specified by GoI. However, any shortfall for payment of interest to members as per specified rate of return has to be compensated by the Company. The Company estimates that no liability will arise in this regard in the near future and hence, no further provision is considered necessary.

An amount of ₹ 22.60 crore (previous year ₹ 17.10 crore) for the year is recognized as expense in the Standalone Statement of Profit and Loss on account of the Company's contribution to the defined contribution plans.

44.2 Defined benefit plans:

(a) Gratuity

The Company has a defined gratuity scheme which is managed by a separate trust. Every employee who has rendered continuous service of five years or more is entitled to gratuity at 15 days salary for each completed year of service subject to a maximum of ₹ 0.20 crore on superannuation, resignation, termination, disablement or on death, considering the provisions of the Payment of Gratuity Act, 1972, as amended. The liability for the same is recognised on the basis of actuarial valuation.

(b) Post-Retirement Medical Scheme (PRMS)

The Company has a Post-Retirement Medical Scheme (PRMS) to provide medical facilities to superannuated employees, dependent family members of superannuated and deceased employees. The liability for PRMS is recognised on the basis of actuarial valuation.

This scheme is managed by a separate trust. The trust has to ensure adequate corpus for meeting the medical expenditure incurred by the eligible employees. However, any short fall has to be compensated by the Company. The Company estimates that no liability will arise in this regard in the near future and hence, no further provision is considered necessary.

VII. Closing Balance (I+II+III+IV+V+VI)	**7.86**	**7.82**

(d) Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

i) Investment risk

Most of the plan asset investments are in government securities, other fixed income securities with high rating grades and mutual funds. The fair value of these assets is subject to volatility due to change in interest rates and other market & macro-economic factors. There is also a risk of asset liability matching i.e. the cash flow for plan assets does not match with cash flow for plan liabilities.

ii) Changes in discount rate

The present value of defined benefit plan liabilities is calculated using a discount rate which is determined by reference to government bonds' yields at the end of the reporting period. A decrease (increase) in discount rate will increase (decrease) present values of plan liabilities, although this will be partially offset by an increase in the value of the plans' investments.

iii) Mortality rate risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

iv) Salary escalation risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

v) Turnover rate/Withdrawal rate of employee

If the actual employee withdrawal rate in the future turns out to be more or less than expected then it may result in increase/decrease in the liability.

(e) Plan Assets

The value of plan assets for each category is as follows:

(₹ in Crores)

Particulars	**As at 31.03.2024**		**As at 31.03.2023**	
	Gratuity	**PRMS**	**Gratuity**	**PRMS**
Cash & Cash Equivalents	0.10	1.07	0.21	0.96
State/ Central Government Debt Securities	16.81	40.80	15.43	35.60
Corporate Bonds/ Debentures	12.08	24.72	11.34	22.24
Others	0.97	-	1.44	-
Total	**29.96**	**66.59**	**28.42**	**58.80**

As at 31.03.2024 - Nil (as at 31.03.2023 - Nil) is included in the value of plan assets in respect of the Company's own financial instruments (corporate bonds).

Actual return on plan assets is ₹ 7.65 crore (previous year ₹ 6.32 crore).

(f) Significant actuarial assumptions

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at 31.03.2024 by TransValue Consultants. The present value of the defined benefit obligation, and the related current service cost, were measured using the projected unit credit method. The principal assumptions used for actuarial valuation are: -

Particulars	Gratuity		PRMS		ERS	
	As at 31.03.2024	As at 31.03.2023	As at 31.03.2024	As at 31.03.2023	As at 31.03.2024	As at 31.03.2023
Discount Rate & expected return on plan assets, if funded	7.09%	7.33%	7.09%	7.33%	7.09%	7. 33%
Salary Escalation Rate/Medical inflation rate	5.00%	6.00%	6.00%	6.00%	5.00%	6.00%
Mortality Rate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate
Withdrawal rate	0.01%	0.01%	0.01%	0.01%	0.01%	0.01%

(g) Sensitivity Analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

(₹ in crore)

Particulars	As at 31.03.2024		As at 31.03.2023	
	Increase	Decrease	Increase	Decrease
Discount rate (0.50% movement)				
- Gratuity	(1.28)	1.38	(1.21)	1.30
- PRMS	(6.01)	6.85	(4.62)	5.33
- ERS	(0.36)	0.39	(0.28)	0.31
Salary Escalation/ Medical inflation Rate (0.50% movement)				
- Gratuity	0.14	(0.17)	0.19	(0.14)
- PRMS	4.57	(4.35)	2.72	(2.51)
- ERS	0.28	(0.26)	0.29	(0.25)
Medical Cost (10% movement)				
- PRMS	7.43	(7.10)	5.79	(5.09)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The Company actively monitors how the duration and expected yield of investments are matching the expected cash outflows arising from employee benefit obligations. Investments are well diversified, such that the failure of any single investment would not have a material impact on overall level of assets. There has been no change in the process used by the Company to manage its risks from prior periods.

(h) Expected maturity analysis of the defined benefit plans in future years

(₹ in crore)

Particulars	Gratuity		PRMS		ERS	
	31.03.2024	31.03.2023	31.03.2024	31.03.2023	31.03.2024	31.03.2023

The table above is drawn on the basis of expected cash flows.

(i) Expected contributions to post-employment benefit plans

(₹ in crore)

Particulars	Gratuity		PRMS	
	As at 31.03.2024	As at 31.03.2023	As at 31.03.2024	As at 31.03.2023
Expected contribution	2.67	2.49	11.52	8.61

(j) The weighted average duration of the defined benefit plan obligation at the end of the reporting period is 13.13 years (as at 31.03.2023: 13.14 years).

44.3 Other long term employee benefits

(a) Leave

The Company provides for earned leave benefit and half-pay leave benefit to the credit of the employees, which accrues on half-yearly basis at 15 days and 10 days respectively. A maximum of 300 days of earned leave can be accumulated at any point of time during the service. There is no limit for accumulation of half pay leave. On separation after 10 years of service or on superannuation, earned leave plus half pay leave taken together can be encashed subject to a maximum of 300 days. However, there is no restriction on the number of years of service for encashment of earned leave on separation from the service. Provision based on actuarial valuation amounting to ₹ 5.70 crore (previous year ₹ 6.84 crore) for the year has been made at the year end and debited to the Standalone Statement of Profit and Loss.

(b) Other employee benefits

Provision for settlement allowance and long service awards amounting to ₹ 1.51 crore for the year (previous year ₹ 4.57 crore) has been made on the basis of actuarial valuation and debited to the Standalone Statement of Profit and Loss.

44.4 Employee benefits (including Gratuity, PRMS, Terminal Benefits, leave encashment and other employee benefits) in respect of Company's employees working in its wholly-owned subsidiary on deputation / secondment basis are being allocated based on a fixed percentage of employee cost.

45. Leases

The Company has recognised a Right of Use Asset and Lease Liability with respect to leasehold land being used as office premises.

45.1 The table below shows the movement of lease liabilities during the year:

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
Opening balance	8.81	8.81
Additions during the year	-	-
Finance cost accrued during the period	0.77	0.77
Payment of lease liabilities	(0.77)	(0.77)
Closing balance	8.81	8.81

45.2 The table below provides details regarding the contractual maturities of lease liabilities on an undiscounted basis:

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
Upto 1 year	0.77	0.77
1-5 years	3.09	3.09
More than 5 years	53.97	54.74

45.3 During the year 2023-24, the expenses relating to short-term/low value leases amounting to ₹ 17.12 crore (Previous year ₹ 9.81 crore) has been charged to Standalone statement of Profit and Loss. Included in the amount above are leases pertaining to residential accommodation of employees, space for official use, hiring of EDP equipment & other office equipment etc. These leases are usually renewable on mutually agreed terms and are cancellable.

45.4 The total cash outflow towards all leases, including Right-of-Use Assets is ₹ 15.41 crore. (Previous year ₹ 10.11 crore)

46. Contingent Liabilities and Commitments

51. Government of India(GoI) schemes being implemented by the Company

The Company is a designated Nodal Agency for operationalization and implementation of RDSS Scheme. The role of Nodal Agency *inter-alia* includes transfer onward the GoI funds received from MoP to project implementing agencies i.e. State Power Distribution Utilities/ Power Departments as per the Scheme guidelines issued by MoP. The release of the funds under GoI Scheme is being done through Treasury Single Account (TSA) maintained with RBI, as per the office memorandum issued by MoF, GoI dated 09th March 2022.This ensures that funds of these schemes are released to project implementing agencies 'Just in time' from the Consolidated Fund of India (CFI).

51.1 Revamped Distribution Sector Scheme (RDSS)

This Scheme was launched by GoI in July, 2021 to improve the operational efficiencies and financial sustainability of DISCOMs, by providing financial assistance to DISCOMs. It is a Reform based and result linked Distribution sector scheme. PFC along with REC is the nodal agency for operationalization of the scheme. The implementation period of the Scheme is 5 Years (FY 2021-22 to FY 2025-26) with the sunset date of 31.03.2026. The key objectives of the scheme is to:

i) Improve the quality, reliability and affordability of power supply to consumers through a financially sustainable and operationally efficient distribution sector.
ii) Reduce AT&C losses to pan-India levels of 12-15% by 2024-25.
iii) Reduce ACS-ARR gap to zero by 2024-25.

The Scheme has an outlay of ₹ 3,03,758 crore with an estimated gross budgetary support of ₹ 97,631 crore from the GoI. The amount of grant received and administered to the eligible entities (net of lapses/surrendered by power utilities) during FY 2023-24 is ₹ 2,834.87 crore (previous year ₹ 212.06 crore) and the cumulative grant administered (net of lapses/surrendered by power utilities) till 31.03.2024 is ₹ 3,308.23 crore (till 31.03.2023 is ₹ 473.37 crore).

The Company is eligible for nodal agency fee at the rate of 0.50% of the sum total of the gross budgetary component of the various projects approved by Monitoring Committee. The total amount of nodal agency fee income from this scheme for FY 2023-24 stands at ₹ 45.73 crore. (Previous year ₹ 71.58 crore)

Further, no amount of grant remained undisbursed as on 31.03.2024 and 31.03.2023.

52. (a) Status of documentation subsequent to reorganization of the State of Jammu & Kashmir

After the bifurcation of the State of Jammu & Kashmir into two Union territories- Jammu & Kashmir UT and Ladakh UT , the existing entities pertaining to the erstwhile state of Jammu & Kashmir have been restructured vide unbundling order dated 23.10.19. The addendums to the agreements with new restructured departments are yet to be executed. Pending the execution of such documents, the existing loans are being serviced/repaid in line with the existing loan agreement.

(b) Status of documentation subsequent to reorganization of the State of Andhra Pradesh

Subsequent to the reorganization of erstwhile Andhra Pradesh, the State of Telangana has been formed on 02.06.2014. However, the assets and liabilities are yet to be transferred to the respective power utilities through a formal gazette notification except for assets and liabilities of TSSPDCL which have been transferred to APSPDCL for R-APDRP loans only amounting to ₹ 8.95 crore.

Once the final transfer scheme is notified through Gazette Notification by Govt. duly indicating the transfer of assets and liabilities among the power utilities, action for execution of documentation formalities will be taken up in respect of all the outstanding loans (except for above R-APDRP loans) with the new / name changed utilities. Till that time, the demand for payment of interest / principal is being segregated by the utilities and the respective portions are being paid by utilities in Telangana and Andhra Pradesh.

53. Disclosures as required under Master Direction- Reserve Bank of India (Non-Banking Financial Company-Scale Based Regulation) Directions, 2023 as amended from time to time

Being a Government owned NBFC the Company is subject to guidelines as prescribed under RBI Master Directions (NBFC-Scale based Regulation) as applicable for the NBFC-ML (Middle Layer).

53.1 Asset Liability Management - Maturity pattern of items of Assets and Liabilities:

In the tables below, the principal cash flows net of impairment loss allowance relating to Stage 3 assets have been considered in over 5 years bucket irrespective of the maturity date. Further, Bonds with put & call option have been shown considering the earliest exercise date. Further, the commercial papers and zero-coupon bonds have been shown at the maturity value.

53.7 Disclosure of Penalties imposed by RBI and other regulators during the year :

53.7.1 Penalty imposed by stock exchanges

NSE and BSE have levied fine on the Company for non-compliance in regard to composition of the Board of Directors.

The Company in its reply to NSE and BSE has stated that being a Central Public Sector Undertaking and in terms of Article 86 of Articles of Association of the Company, the Directors on the Board of the Company are appointed by President of India through Ministry of Power, Government of India and had requested both the exchanges to waive the above said penalty. Revert on the matter is awaited.

The total penalty amount levied (net of waiver by exchanges) has been disclosed at Note 46.

The Company has also taken up the matter with Ministry of Power to expedite the process of appointment of balance number of Independent Directors.

53.7.2 Penalty imposed by RBI

The Company was maintaining the required Liquidity Coverage Ratio (LCR) in the form of High Quality Liquid Assets (HQLA) viz Govt. Securities, Corporate bonds, marketable securities including callable / demand fixed deposits (FD) with scheduled commercial banks. RBI vide its order dated February 6, 2024 has treated callable / demand fixed deposits (FD) with scheduled commercial banks as ineligible asset as HQLA for the computation of LCR. Thus, RBI has imposed penalty of ₹ 0.09 crore on the grounds of deficiencies in regulatory compliance considering that prescribed LCR has not been maintained as on 31.03.2022. The Company has deposited the penalty and is maintaining the HQLA as on 31.03.2024 strictly as per above said RBI order.

53.8 Credit Ratings

(b) The Company is having adequate HQLA. However, for the above disclosure, HQLA amount required to meet the LCR level of 70% has been considered.

54.6.1 RBI Master Direction- Reserve Bank of India (Non-Banking Financial Company- Scale Based Regulation) Directions as amended from time to time, has stipulated maintaining of Liquidity Coverage Ratio by non-deposit taking NBFCs with asset size of more than ₹ 5,000 crore. The guidelines aim to maintain a liquidity buffer in terms of LCR by ensuring that they have sufficient High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for next 30 days. As per the guideline, LCR is represented by Stock of High-Quality Liquid Assets (HQLA) divided by Total Net Cash Outflows (stressed outflow less stressed inflows) over the next 30 calendar days. HQLA are defined by RBI as the liquid assets that can be readily sold or immediately convertible into cash at little / no loss of value or can be used as collateral to obtain funds in stress situations.

The company has complied with LCR requirement w.e.f. 01.12.2020 against stipulated requirement of minimum LCR of 50%, progressively increasing up to the required level of 100% by December 1, 2024.The HQLA is being maintained by the company as balance with Banks in Current Account and eligible securities. The Company is maintaining LCR in INR only; hence there is no currency mismatch.

54.6.2 The position of HQLA holding is as follows

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF POWER FINANCE CORPORATION LIMITED

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

1. OPINION

We have audited the accompanying Consolidated Financial Statements of Power Finance Corporation Limited (hereinafter referred to as "Holding Company") and its subsidiaries (Holding company and its subsidiaries together referred to as "the Group"), and its associates, which comprise the Consolidated Balance Sheet as at 31.03.2024, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate Financial Statements and on the other financial information of the subsidiaries and associates, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group, and its associates as at 31.03.2024, of consolidated profit (including other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

2. BASIS FOR OPINION

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

PREM GUPTA & CO. Chartered Accountants New Delhi

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

3. KEY AUDIT MATTERS

Key audit matters ("KAM") are those matters that, in our professional judgement, were of most significance in our audit of the consolidated Financial Statements of the current year. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the Key Audit Matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditors' Response
(i)	**Credit impairment of financial instruments- Loan Assets** The Holding Company follows a Board approved methodology wherein assessment for allowance is carried out by an external agency for impairment based on certain guidelines and procedures in respect of criterion/framework classifying the assets into various stages depending upon credit risk and level of evidence of impairment. Impairment loss measurement requires use of statistical models to estimate the Probabilities of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). These models are key driver to measure Impairment loss. The key indicators underlying for assessment of impairment allowance are periodically appraised by the management. The most significant areas where we identified greater levels of management judgement are: Significant Increase in Credit Risk (SICR) – Company has classified SICR based on the indicator defined in Ind AS, estimate the Probabilities of Default (PD), Loss Given Default (LGD) and Individually assessed Stage 3 carrying	**Our audit procedures included:** • The Holding Company has availed services of an independent expert for assessment of ECL, whose report has been provided to us.. We verified the criterion/ framework with applicable regulatory requirement along with Company's internal guidelines and procedures in respect of the impairment allowance. • Verified loan assets by applying the standard audit procedures with respect to the credit appraisal, sanctioning, documentation, review and monitoring process of the Holding Company. Also, loan balances were verified basis external confirmation from the borrowers and assessed quality of the borrower based on recovery and other criteria as per the credit policy of the Holding Company. • We have reviewed the underlying assumptions and broad methodology of ECL assessment. • Components and calculations in the study for impairment allowance carried out by the independent expert have been test checked, discussed with the management

Sr. No.	Key Audit Matter	Auditors' Response
	value. The carrying value of loans and advances to borrowers may be materially misstated if individual impairments are not appropriately estimated based upon certain estimates, future cash flow and asset valuations. The effect of these matters is that, as part of our risk assessment, we determined that the value of ECL has a high degree of estimation & uncertainty. In view of the significance of the amount of loan assets out of total assets in the Consolidated Financial Statements, impairment of loan assets has been considered as Key Audit Matter in our audit. [Refer Note No.46.1.2 to 46.1.8 to the Consolidated Financial Statements read with Accounting Policy No.6.5.1 (iii)]	and relied upon by us. Also, our audit procedure in this regard is limited since certain parameters of study being considered confidential have not been shared by the aforesaid expert. We considered the credit impairment charge and provision recognized in the books of account and assessed that the related disclosures are given in the consolidated financial statements.
(ii)	**Fair Valuation of Derivative financial instruments** The Holding Company enters into derivative contracts in accordance with RBI guidelines to mitigate its currency and interest rate risk in accordance with Holding Company's board approved currency risk management policy. Derivative contracts are either categorized at Fair Value through P&L (FVTPL) or under cash flow hedge (Hedge Accounting). Mark to market gain/loss on derivatives categorized at FVTPL is recognized in Statement of Profit and Loss and that of Hedge Accounting is recognized in the other comprehensive income. We consider the valuation of the derivative financial instruments and hedge accounting as a key audit matter due to material exposure and the fact that the inappropriate application of these requirements/assumptions/estimate by	**Our audit procedures included:** The Holding Company has availed services of an independent expert for preparation of a model for derivative accounting as per Ind AS 109. Discussed with management to have an understanding of its perception and also reviewed policy of the Holding company for risk management. Evaluated key internal controls over classification of derivative instruments. The Holding Company obtains fair value of derivatives from the counterparty banks as on the reporting date, which are relied upon by us. Our procedure included evaluation of details of various financial derivative contracts outstanding as on 31.03.2024 and fair value

	contracting bank could lead to a material effect on the income statement. (Refer Note No.46.3 & 47 to the Consolidated Financial Statements read with Accounting Policy No.6.4)	thereof. Additionally, we verified the accounting of gain or loss on mark to market basis of derivative contracts in Statement of Profit & Loss and other comprehensive income in case of derivatives contracts under cash flow hedge. Based on the aforesaid procedure, we have reviewed accounting of derivatives in the books of account and assessed that the related disclosures are given in the consolidated financial statements.

The following key audit matters with respect to audit opinion on the financial statements of Company's subsidiary REC Limited has been reported by the component auditors vide their report dated 30.04.2024 on and has been reproduced by us as under:

Sr. No.	Key Audit Matter	Auditor's Response
1	**Impairment allowance of Loan Assets –** (Refer Note No. 47.1.3 to the Standalone Ind AS Financial Statements read with accounting policy No. 3.11) The Company follows a Board approved methodology wherein assessment for allowance is carried out by an external agency for impairment based on certain criterion/framework classifying the assets into various stages depending upon credit risk and level of evidence of impairment. Impairment allowance is measured as product of the Probability of Default, Exposure at Default and Loss Given Default being the key parameters for assessing the impairment allowance.	**We have applied following audit procedures in this regard** a) Evaluation and testing of the key internal control mechanisms with respect to the loan assets monitoring, assessment of the loan impairment including testing of relevant data quality, and review of the real data entered. b) We have obtained the report of the external agency and verified the criterion/framework with various regulatory updates along with Company's internal guidelines and procedures in respect of the impairment allowance. c) Verification of loan assets on test check basis covering substantial part of total loans with respect to monitoring thereof for recovery/performance aspects and assessment of the loan impairment considering management perception on the same. d) Recoveries are verified applying the standard audit procedures to ascertain level of stress. Loan balances

Sr. No.	Key Audit Matter	Auditor's Response
	The key indicators underlying for assessment of impairment allowance are appraised on an ongoing basis by the management. Further the management has adopted a methodology which in addition to the model adopted as above is further analyzed on case-to-case basis and wherever impairment impact needs to be changed the same is considered in the financial statements.	are confirmed and quality of the borrower is evaluated and tested with key control parameters. e) Assessment of impairment based upon performance of the loan assets is carried out on the basis of relevant evidence on record provided to us. f) We have discussed with the management wherever underlying weakness is observed and management assessment is carried out in detail in such cases.

4. INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Company's Director's Report including Annexures to Director's Report, Management Discussion and Analysis, Business Responsibility and Sustainability Report and Report on Corporate Governance but does not include the Consolidated Financial Statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this Auditor's report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions if required.

5. RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance (including other Comprehensive Income), consolidated statement of changes in equity and consolidated cash flows of the Group including its associates in accordance with the Ind AS and other accounting principles generally accepted in India. The respective board of directors of the companies included in the Group and its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates are also responsible for overseeing the financial reporting process of the Group and of its associates.

6. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Group and its associates have adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management of holding company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates to express an opinion on the Consolidated Financial statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. OTHER MATTERS

a. We did not audit the financial statements/ financial information of one subsidiary, whose financial statements/ financial information reflect total assets of Rs.5,48,191.09 crore as at 31.03.2024, total revenue Rs.47,096.75 crore, total net profit after tax of Rs.14,145.46 crore, total comprehensive income of Rs.15,189.73 crore for the year ended on that date and net cash inflow of Rs.34.21 crore for the year ended on that date, as considered in the consolidated financial statements. These financial statements/ financial information have been audited by other auditors, whose report has been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the said subsidiary, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the report of the other auditors.

b. We did not audit the financial statements/ financial information of three subsidiaries, whose financial statements/ financial information reflect total assets of Rs.449.37 crore as at 31.03.2024, total revenue of Rs.267.07 crore, total net profit after tax of Rs.155.92 crore, total comprehensive income of Rs.155.92 crore and net cash outflow of Rs.1.93 crore for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include Group's share of net loss of Rs.0.18 crore for the year ended 31.03.2024, as considered in the consolidated financial statements, in respect of eleven associates, whose financial statements/ financial information have not been audited by us. These financial statements/ financial information are unaudited and have furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associates, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associates, is based solely on such unaudited financial statements/ financial information.

In our opinion and according to the information and explanations given to us by the Management of the Holding Company, these financial statements/ financial information are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters as per (a) and (b) with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

c. As per past practice, in respect of loan assets and undisbursed letter of comfort, the Parent Company has provided expected credit loss (ECL) as required under Ind AS 109 based on the ECL report submitted by an independent expert appointed by the Company, which *inter-alia* includes assumptions based on technical parameters/certain aspects.

d. The consolidated financial information of the Company for the year ended 31.03.2023 included in the consolidated financial statements, were audited by the then Joint Statutory Auditors of the Company, one of whom was predecessor audit firm, and they had expressed an unmodified opinion on Consolidated Financial Statements vide their audit report dated 27.05.2023.

Our opinion is not modified in respect of the above matters as per (c) and (d).

8. REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

I As required by Section 143(3) of the Act, based on our audit and on consideration of reports of other auditors on separate Financial Statements and the other financial information of subsidiaries, associates as noted in the other matters paragraph, we report, to the extent applicable, that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.

(b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.

(c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of accounts maintained for the purpose of preparation of the Consolidated Financial Statements.

(d) In our opinion and to the best our information and explanation given to us, the aforesaid Consolidated Financial Statements comply with the Indian Accounting Standards (Ind AS specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended;

CHOKSHI & CHOKSHI LLP FRN 101872W/ W100045

(e) Being a Government Company, pursuant to the Notification No. GSR 463(E) dated 05.062015 issued by Ministry of Corporate Affairs, Government of India, provisions of sub-section (2) of Section 164 of the Act, are not applicable to the Holding company and its subsidiaries, & Associates.

(f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in **Annexure A.**

(g) As per Notification No. GSR 463(E) dated 05.06.2015 issued by the Ministry of Corporate Affairs, Government of India, Section 197 of the Act is not applicable to the Government Companies. Accordingly, reporting in accordance with requirement of provisions of section 197(16) of the Act is not applicable to the Holding company and its subsidiaries, & Associates.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. The Consolidated Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group, - Refer Note No. 52 to the Consolidated Financial Statements;

ii. The group has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiaries and associate companies, incorporated in India.

iv. (a) The Management of the Group has represented (Refer Note No.12.3), that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Group, to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Group, ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The Management of the Group, has represented (Refer Note No.23.12) that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Group from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Group, shall, directly or indirectly, lend or invest in other persons or entities identified in any manner

CHOKSHI & CHOKSHI LLP FRN 101872W/ W100045

whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement.

v. As stated in Note No. 29.2 to the Consolidated Financial Statements:

(a) The final dividend proposed in the previous year, declared and paid by the Company during the year declared is in compliance with section 123 of the Companies Act, 2013.

(b) The interim dividend declared and paid during the year and until the date of this report is in compliance with section 123 of the Companies Act, 2013.

(c) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

vi. Based on our examination which included test checks, the Holding Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software, except that audit trail was not enabled at the database level for accounting software Oracle ERP to log any direct data changes upto 11.03.2024, which has since been enabled with effect from 12.03.2024. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

In respect of one subsidiary which is company incorporated in India whose financial statements have been audited under the Act, its auditors have reported that subsidiary has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Also, the auditors of the above referred subsidiary did not come across any instance of audit trail feature being tampered with.

In respect of three subsidiaries and eleven associates, which are companies incorporated in India whose financial statements have been certified by the management of the respective companies, the management of the holding company has confirmed that the requirement of audit trail has been implemented in respect of one of the three subsidiaries and eleven associates and in respect of remaining two subsidiaries, since the books of accounts are not maintained in electronic mode, the requirement of audit trail is not applicable for the current year.

As proviso to Rule 3(1) of the Companies (Accounts) Rule 2014 is applicable from April 1, 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules 2014 on preservation of audit trail as per statutory requirements for record retention is not applicable for the financial year ended 31.03.2024.

II With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government in terms of sub-section (11) of section 143 of the Companies Act, 2013, to be included in the Auditor's report, on the basis of examination of the available CARO report of one of the four subsidiaries included in the Consolidated Financial Statements, the auditor has included adverse remarks as per the details given below:

Sr. No.	Name	CIN	Holding Company/ Subsidiary/ Associate	Clause no. of CARO report which is qualified or adverse
1	REC Limited	L40101DL1969GOI005095	Subsidiary	xi

Subsidiary auditors remarks: No fraud by the Company or on the Company has been noticed during the year. However, during the year under audit, the Company has reported one fraud on the Company by a borrower amounting to Rs.33.24 Crore to RBI on 26.10.2023. The said fraud was noticed in FY 2018-19, however due to stay on declaration of fraud by Hon'ble Court and subsequently the stay being vacated, the Company has reported the said fraud to RBI.

Annexure - A to the Independent Auditors' Report on the Audit of the Consolidated Financial Statements

(Referred to in Para I(f) under the heading 'Report on other Legal and Regulatory Requirements' of our report of even date to The Members of Power Finance Corporation Limited on the Consolidated Financial Statements for the year ended 31.03.2024)

Report on the Internal Financial Controls with reference to Consolidated Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Financial Statements of **Power Finance Corporation Limited** (hereinafter referred to as "the Holding Company") as of and for the year ended 31.03.2024, we have audited the internal financial controls with reference to Consolidated Financial Statements of the Holding Company, its subsidiary companies, and its associate companies, which are companies incorporated in India, as of that date.

1. MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company, its subsidiary companies, and its associate companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company, its subsidiary companies, its associate companies, which are companies incorporated in India, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

2. AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated Financial Statements of the Holding Company, its subsidiary companies, and its associate companies, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Sub-section 10 of Section 143 of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls with reference to Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the internal financial controls system with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of

internal financial control with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their reports referred to in the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Consolidated Financial Statements.

3. MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED IND AS FINANCIAL STATEMENTS

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated Financial Statements.

4. INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED IND AS FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

5. OPINION

In our opinion, the Holding Company, its subsidiaries, its associate companies, which are companies incorporated in India have, in all material respects, an internal financial controls system with reference to Financial Statements and such internal financial controls with reference to Financial Statements were operating effectively as at 31.03.2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

6. OTHER MATTERS

Our aforesaid reports under Sub-section 3 (i) of Section 143 of the Act, on the internal financial controls with reference to Consolidated Financial Statements in so far as applicable one subsidiary is based on the corresponding report of the auditors of such company incorporated in India and in respect of three subsidiaries and eleven associates, we have relied on the explanation provided by the management of the holding company in absence of report on Internal Financial Controls of such entities. In our opinion, the same is not considered material for the Consolidated Financial Statements of the Group and its associates.

Notes to the Consolidated Financial Statements for the year ended March 31, 2024

1. Group Information

Power Finance Corporation Limited ("PFC" or "the Company") was incorporated in India in the year 1986. PFC is domiciled in India and is limited by shares, having its registered office at 'Urjanidhi', 1, Barakhamba Lane, Connaught Place, New Delhi – 110001 and conferred with 'Maharatna' Status by the Govt. of India.

PFC is a Government Company engaged in extending financial assistance to power, logistics and infrastructure sector and is registered with Reserve Bank of India (RBI) as an Infrastructure Finance Company (IFC). The Company being a Government owned NBFC-IFC is placed in Middle layer under Master Direction (NBFC-Scale Based Regulation), 2023 issued by RBI.

Equity shares of PFC are listed on the National Stock Exchange of India Limited (NSE) and BSE Limited. Further, various debt securities of PFC are also listed on the Stock Exchanges.

These Consolidated Financial Statements comprise the financial statements of PFC & its subsidiaries (referred to collectively as the 'Group'), and its associates, as listed at Note 5. The Group is primarily engaged in extending financial assistance to power, logistics and infrastructure sector. Other businesses include providing consultancy services to power sector and facilitation of development of Ultra Mega Power Projects (UMPPs) and Independent Transmission Projects (ITPs) as per mandate from Government of India (GoI).

2. Statement of Compliance

These Consolidated Financial Statements comply with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms / guidelines. The Consolidated Balance Sheet, Statement of Profit and Loss and Statement of Changes in Equity are prepared and presented as per the requirements of Division III of Schedule III to the Companies Act, 2013 applicable for Non-Banking Financial Companies (NBFCs). The Consolidated Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 'Statement of Cash Flows'.

3. These Consolidated Financial Statements have been approved for issue by Board of Directors (BoD) of PFC on 15.05.2024.

4. Standards/ Amendments issued but not yet effective

During the FY 2023-24, the Ministry of Corporate Affairs (MCA) has not notified any new Indian Accounting Standards (Ind AS) or made amendments thereto.

5. The Consolidated Financial Statements represent consolidation of accounts of the Company, its Subsidiaries, and Associates as detailed below:

Sr. No.	Name of the company	Country of incorporation / Principal place of Business	Proportion of ownership interest as at		Status of Audit of financial statements for the year ended 31.03.2024
			31.03.2024	31.03.2023	
Subsidiaries:					
1	REC Limited (RECL) *	India	52.63%	52.63%	Audited

11	Jharkhand Infrapower Limited	India	100%	100%	Unaudited

*Consolidated Financial Statements of these subsidiaries (which incorporates financial statements of their subsidiaries, JVs and associates) have been used for preparation of Consolidated Financial Statements of PFC.

5.1 PFC has received NoC from RBI on 09.01.2024 for setting up wholly owned subsidiary financial company at IFSC Gift City, Gujarat, India. Accordingly, a wholly owned subsidiary namely "PFC Infra Finance IFSC Limited "has been incorporated on 11.02.2024. Equity shares subscribed but not paid has been remitted by PFC to PIFIL on 10.04.2024.

5.2 Wherever unaudited financial statements of subsidiaries, JV & associates are used for preparation of Consolidated Financial Statements, the audited financial statements of those companies are obtained subsequently and necessary adjustment is made in Consolidated Financial Statements of subsequent year and is presented under 'Other adjustments' line item in Statement of changes in equity.

6. Group's Material Accounting Policies

The Group's material accounting policy information in regard to preparation of the Consolidated Financial Statements are as given below:

6.1 Basis of Preparation and Measurement

These Consolidated Financial Statements have been prepared on going concern basis following accrual system of accounting. The assets and liabilities have been measured at historical cost or at amortised cost or at fair value as applicable at the end of each reporting period. The functional currency of the Company is Indian Rupees.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements are categorised into Level 1, 2 or 3 as per Ind AS requirement, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

6.2 Basis of Consolidation

The Consolidated Financial Statements incorporate the financial statements of the Company and its subsidiaries (collectively referred as the "Group"). The Group has investment in joint venture entity and associates which are accounted using equity method (except when the investment is classified as held for sale) in these Consolidated Financial Statements.

The financial statements of Subsidiaries, Joint Venture and Associates are drawn up to the same reporting date as of the Company for the purpose of Consolidation.

(i) Subsidiaries:

A subsidiary is an entity over which the Company has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which the Company obtains the control (except for Business Combinations under Common Control).

The Company combines the financial statements of its subsidiaries on a line by line basis, adding together like items of assets, liabilities, equity, income and expenses. The carrying amount of the Company's investment in each subsidiary and the Company's portion of equity of each subsidiary are eliminated. Intercompany transactions, balances, unrealised gains on transactions between the Company and subsidiaries are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Non-controlling interests (NCI) represent the proportion of income, other comprehensive income and net assets in subsidiaries that is not attributable to the Company's shareholders. Non-controlling interests are initially measured at the proportionate share of the recognised amounts of the acquiree's identifiable net assets. Subsequent to acquisition, the carrying amount of non- controlling interests is the amount of the interest at initial recognition plus the non-controlling interests' share of subsequent changes in equity.

The Consolidated Financial Statements are prepared using uniform accounting policies consistently for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's Standalone Financial Statements except as otherwise stated. When necessary, adjustments are made to the financial statements to bring their accounting policies in line with the Group's material Accounting Policies.

If the Company loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognized in Consolidated Statement of Profit and Loss.

(ii) Joint Venture and Associates:

A Joint Venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

An Associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of Joint Venture or Associates are incorporated in these Consolidated Financial Statements using the equity method of accounting, except when the investment or a portion thereof, is classified as held for sale, in which case it is measured at lower of their carrying amount and fair value less cost to sell. Under the equity method, an investment in a Joint Venture or Associate is initially recognised in the Consolidated Balance Sheet at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the Joint Venture or Associate. Distributions received from a joint venture/ associate reduce the carrying amount of the investment.

Upon loss of joint control over the Joint Venture or significant influence over the Associate, the Company measures and recognises any retained investment at its fair value. Any difference between a) the carrying amount of the Joint Venture or Associate upon loss of joint control or significant influence respectively and b) the fair value of the retained investment and proceeds from disposal is recognised in Consolidated Statement of Profit and Loss.

6.3 Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits. The Group considers cash equivalents as all short term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

6.4 Derivative Financial Instruments

(i) The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks.

(ii) Under hedge accounting, an entity can designate derivative contracts either as cashflow hedge or fair value hedge.

(iii) To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- there is an economic relationship between the hedged item and the hedging instrument.
- the effect of credit risk does not dominate the value changes that result from that economic relationship.
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Company actually hedges and the quantity of the hedging instrument that the Company actually uses to hedge that quantity of hedged item.

(iv) Cash flow hedge

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Consolidated Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Consolidated Statement of Profit and Loss on a systematic basis. The gain or loss relating to ineffective portion is recognized immediately in Consolidated Statement of Profit and Loss.

(v) Fair Value Hedge

In line with the recognition of change in the fair value of the hedging instruments in the Consolidated Statement of Profit & Loss, the change in the fair value of the hedged item attributable to the risk hedged is recognised in the Consolidated Statement of Profit and Loss. Such changes are made to the carrying amount of the hedged item and are adjusted in Effective Interest Rate in the period when the hedging instrument ceases to exist. If the hedged item is derecognised, the unamortised fair value is recognised immediately in Consolidated Statement of Profit and Loss.

(vi) Hedge accounting is discontinued when the hedging instrument expires, or terminated, or exercised, or when it no longer qualifies for hedge accounting.

(vii) Derivatives, other than those designated under hedge relationship, are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in Consolidated Statement of Profit and Loss.

6.5 Financial Instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instruments.

On initial recognition, financial assets and financial liabilities are recognised at fair value plus/ minus transaction cost that is attributable to the acquisition or issue of financial assets and financial liabilities. In case of financial assets and financial liabilities which are recognised at fair value through profit and loss (FVTPL), its transaction costs are recognised in Consolidated Statement of Profit and Loss.

6.5.1 Financial Assets

All regular way purchases or sales of financial assets are recognised and derecognised on a settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

After initial recognition, financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

(i) Classification and Measurement of Financial Assets (other than Equity instruments)

a. Financial Assets at Amortised Cost:

Financial assets that meet the following conditions are subsequently measured at amortised cost using Effective Interest Rate method (EIR):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash

flows; and

- the contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Effective Interest Rate (EIR) method

The effective interest rate method is a method of calculating the amortised cost of financial asset and of allocating interest income over the expected life. The Group while applying EIR method, generally amortises any fees, transaction costs and other premiums or discount that are integral part of the effective interest rate of a financial instrument.

Income is recognised in the Consolidated Statement of Profit and Loss on an effective interest rate basis for financial assets other than those classified as at FVTPL.

EIR is determined at the initial recognition of the financial asset. EIR is subsequently updated at every reset, in accordance with the terms of the respective contract.

Once the terms of financial assets are renegotiated, other than market driven interest rate movement, any gain / loss measured using the previous EIR as calculated before the modification, is recognised in the Consolidated Statement of Profit and Loss in period during which such renegotiations occur.

b. Financial Assets at Fair Value Through Other Comprehensive Income (FVTOCI)

A financial asset is measured at FVTOCI if both the following conditions are met:

- the objective of the business model is achieved both by collecting contractual cash flows and selling the financial asset; and
- the contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

All fair value changes are recognised in Other Comprehensive Income (OCI) and accumulated in Reserve.

c. Financial Assets at Fair Value Through Profit or Loss (FVTPL)

A financial asset is measured at FVTPL unless it is measured at amortised cost or FVTOCI, with all changes in fair value recognised in Consolidated Statement of Profit and Loss.

Business Model

An assessment of business model for managing financial assets is fundamental to the classification of a financial asset. The Group determines the business model at a level that reflects how financial assets are managed together to achieve a particular business objective of generating cash flows. The Group's business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

The Group is primarily in the business of lending loans across power sector value chain and such loans are managed to realize the contractual cash flows over the tenure of the loan. Further, other financial assets may also be held by the Group to collect the contractual cash flows.

(ii) Classification, Measurement and Derecognition of Equity Instruments

All equity investments other than in subsidiaries, joint ventures and associates are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group at initial recognition makes an irrevocable election to classify it as either FVTOCI or FVTPL. The Group makes such election on an instrument by instrument basis.

An equity investment classified as FVTOCI is initially measured at fair value plus transaction costs. Subsequently, it is measured at fair value and, all fair value changes are recognised in Consolidated Other Comprehensive Income (OCI) and accumulated in Consolidated Reserve. There is no recycling of the amounts from Consolidated OCI to Consolidated Statement of Profit and Loss, even on sale of investment. However, the Group transfers the cumulative gain/loss within consolidated equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Consolidated Statement of Profit and Loss.

(iii) Impairment of Financial Assets

Subsequent to initial recognition, the Group recognises expected credit loss (ECL) on financial assets measured at amortised cost as required under Ind AS 109 'Financial Instruments'. The Group presents the ECL charge or reversal (where the net amount is a negative balance for a particular period) in the Consolidated Statement of Profit and Loss as "Impairment on financial instruments" and as a cumulative deduction from gross carrying amount in the Consolidated Balance Sheet, wherever applicable.

The impairment requirements for the recognition and measurement of ECL are equally applied to financial asset measured at FVTOCI except that ECL is recognised in Other Comprehensive Income and is not reduced from the carrying amount in the Consolidated Balance Sheet.

a) Impairment of Loan Assets and commitments under Letter of Comfort (LoC):

The Group measures ECL on loan assets at an amount equal to the lifetime ECL if there is credit impairment or there has been significant increase in credit risk (SICR) since initial recognition. If there is no SICR as compared to initial recognition, the Group measures ECL at an amount equal to 12-month ECL. When making the assessment of whether there has been a SICR since initial recognition, the Group considers reasonable and supportable information, that is available without undue cost or effort. If the Group measured loss allowance as lifetime ECL in the previous period, but determines in a subsequent period that there has been no SICR since initial recognition due to improvement in credit quality, the Group again measures the loss allowance based on 12-month ECL.

ECL is measured on individual basis for credit impaired loan assets, and on other loan assets it is generally measured on collective basis using homogenous groups.

The Group measures impairment on commitments under LoC on similar basis as in case of Loan assets.

b) Impairment of financial assets, other than loan assets:

ECL on financial assets, other than loan assets, is measured at an amount equal to life time expected losses.

c) Financial assets are written off by RECL either partially or in their entirety only when it has stopped pursuing the recovery or as directed by the order of the Judicial Authority.

(iv) De-recognition of Financial Assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset along with all the substantial risks and rewards of ownership of the asset to another party. The renegotiation or modification of the contractual cash flows of a financial asset can also lead to derecognition of the existing financial asset.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received & receivable, and the cumulative gain or loss that had been recognised in Consolidated Other Comprehensive Income and accumulated in Consolidated Equity, is recognised in Consolidated Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Consolidated Statement of Profit and Loss on disposal of that financial asset.

6.5.2 Financial Liabilities

(i) All financial liabilities other than derivatives and financial guarantee contracts are subsequently measured at amortised cost using the effective interest rate (EIR) method.

EIR is determined at the initial recognition of the financial liability. EIR is subsequently updated for financial liabilities having floating interest rate, at the respective reset date, in accordance with the terms of the respective contract.

(ii) Financial Guarantee

A financial guarantee issued by the Group is initially measured at fair value and, if not designated as at FVTPL, is subsequently measured at the higher of:

- the best estimate of expenditure required to settle any financial obligation arising as a result of the guarantee; and

- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in the Consolidated Statement of Profit and Loss.

(iii) De-recognition of Financial Liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid & payable is recognised in Consolidated Statement of Profit and Loss.

6.5.3 Offsetting of Financial Assets and Financial Liabilities

Financial Assets and Financial Liabilities are offset and the net amount is reported in the Balance Sheet when currently there is legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

6.5.4 Embedded Derivatives

An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative cause some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, foreign exchange rate, or other variable, provided that, in the case of a non-financial variable, it is not specific to a party to the contract.

Derivatives embedded in all host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts or if the embedded derivative feature leverages the exposure and the host contracts are not held for trading or designated at fair value though profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

6.6 Property, Plant and Equipment (PPE) and Depreciation

(i) Items of PPE are initially recognised at cost. Subsequent measurement is done at cost less accumulated depreciation and accumulated impairment losses, if any, except for freehold land which is not depreciated. An item of PPE retired from active use and held for disposal is stated at lower of its book value or net realizable value.

(ii) The expenditure incurred on improvement of leasehold premises is recognised at cost and is shown as "Leasehold Improvements" under PPE.

(iii) In case of assets put to use, capitalisation is done on the basis of bills approved or estimated value of work done as per contracts where final bill(s) is/are yet to be received / approved subject to necessary adjustment in the year of final settlement.

(iv) Cost of replacing part of an item of PPE is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. Maintenance or servicing costs of PPE are recognized in Consolidated Statement of Profit and Loss as incurred.

(v) Under-construction PPE is carried at cost, less any recognised impairment loss. Such PPE items are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as of other assets, commences when the assets are ready for their intended use.

(vi) Depreciation is recognised so as to write-off the cost of assets less their residual values# as per written down value method*, over the estimated useful lives that are similar to as prescribed in Schedule II to the Companies Act, 2013, except following:

Nature of PPE	Life of PPE
Cell phones	2 years (in case of PFC & PFCCL)
Lease hold improvement[1]	Lease period or their useful lives whichever is shorter (in case of PFCCL)

Residual value is estimated as 5% of the original cost of PPE

* Depreciation is provided using Straight line method by PFCCL

[1] Leasehold improvements are amortised on straight line basis

(vii) Depreciation on additions to/deductions from PPE during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

(viii) An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the Consolidated Statement of Profit and Loss.

(ix) Capital expenditure directly attributable for Smart metering project are initially shown in 'Capital work-in-progress' (net of contribution from client) and capitalised as PPE when it is ready for use. Depreciation on items of PPE in smart metering project is recognised on pro-rata basis on Straight Line Method over the useful life of assets not exceeding project implementation period of 99 months.

(x) Items of PPE costing up to ₹ 5000/- each are fully depreciated, in the year of purchase.

(xi) The cost of PPE under construction at the reporting date is disclosed as 'Capital work-in-progress'. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Advances paid for the acquisition/ construction of PPE which are outstanding at the Balance Sheet date are classified under 'Capital Advances.'

6.7 Intangible Assets and Amortisation

(i) Intangible assets with finite useful lives that are acquired separately are recognised at cost. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use. Subsequent measurement is done at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives.

(ii) Expenditure incurred which are eligible for capitalisation under intangible assets is carried as Intangible Assets under Development till they are ready for their intended use. Advances paid for the acquisition/ development of intangible assets which are outstanding at the balance sheet date are classified under 'Capital Advances'.

(iii) Estimated useful life of intangible assets with finite useful lives has been estimated by the Group as 5 years. In case of PFCCL, life is estimated as 36 months.

(iv) An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Consolidated Statement of Profit and Loss when the asset is derecognised.

6.8 Assets/ Disposal Groups held for sale

Non-current Assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and the sale is highly probable. A sale is considered as highly probable when such assets have been decided to be sold by the Group; are available for immediate sale in their present condition; are being actively marketed for sale at a price and the sale has been agreed or is expected to be concluded within one year of the date of classification. Such non-current assets are measured at lower of carrying amount or fair value less cost to sell.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Non-current assets held for sale are presented separately from other assets in the Consolidated Balance Sheet.

Where the Group is committed to a sale plan involving loss of control of an entity, it classifies investment in the entity (i.e. all the assets and liabilities of that entity) as held for sale.

6.9 Provisions, Contingent Liabilities and Contingent Assets

(i) Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, if it is probable that the Group will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(ii) The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

(iii) When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(iv) Where it is not probable that an outflow of economic benefits will be required or the amount cannot be estimated reliably, the obligation is disclosed as contingent liability in notes to accounts, unless the probability of outflow of economic benefits is remote.

(v) Contingent assets are not recognised in the Consolidated Financial Statements. However, contingent assets are disclosed in the Consolidated Financial Statements when inflow of economic benefits is probable.

6.10 Recognition of Income and Expenditure

(i) Interest income on financial assets subsequently measured at amortized cost, is recognized using the Effective Interest Rate (EIR) method. The Effective Interest Rate (EIR) is the rate that exactly discounts estimated future cash receipts through expected life of the financial asset to that asset's net carrying amount on initial recognition.

(ii) Unless otherwise specified, the recoveries from the borrowers of RECL are appropriated in the order of (i) costs and expenses of RECL (ii) delayed and penal interest including interest tax, if any (iii) overdue interest including interest tax, if any and (iv) repayment of principal; the oldest being adjusted first, except for credit impaired loans and recalled loans, where principal amount is appropriated only after the complete recovery of other costs, expenses, delayed and penal interest and overdue interest including interest tax, if any. The recoveries under One Time Settlement (OTS)/ Insolvency and Bankruptcy Code (IBC) proceedings are appropriated first towards the principal outstanding and remaining recovery thereafter, towards interest and other charges, if any.

(iii) Interest on financial assets subsequently measured at fair value through profit and loss (FVTPL), is recognized on accrual basis in accordance with the terms of the respective contract and is disclosed separately under the head 'Interest Income'.

(iv) Rebate on account of timely payment of dues by borrowers is recognized on receipt of entire dues in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

(v) The Group uses the principles laid down by Ind AS 115 to determine that how much and when revenue is recognized, what is the nature, amount, timing and uncertainty of revenues etc. In accordance with the same, revenue is recognised through a five-step approach:

a. Identify the contract(s) with customer;
b. Identify separate performance obligations in the contract;
c. Determine the transaction price;
d. Allocate the transaction price to the performance obligations; and
e. Recognise revenue when a performance obligation is satisfied.

Revenues are measured at the fair value of the consideration received or receivable, net of discounts and other indirect taxes.

In Cost Plus Contracts - Revenue is recognised by including eligible contractual items of expenditures plus proportionate margin as per contract;

In Fixed Price Contracts – Revenue is recognised on the basis of stage of completion of the contract. The Group has assessed that the stage of completion is determined as the proportion of the total time expected to complete the performance obligation to that has lapsed at the end of the reporting period, which is an appropriate measure of progress towards complete satisfaction of these performance obligations under Ind AS 115.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

(vi) Revenue from consulting services, in connection with development of Independent Transmission Projects (ITP) and Ultra Mega Power Projects (UMPP) taken up as per the directions from the Ministry of Power, Government of India, is recognized on completed contract method basis i.e. when the ITP /UMPP created for the project is transferred to a successful bidder evidenced by share purchase agreement. The expenses incurred on development of these projects which are not recovered as direct costs are recovered through billing manpower charges at agreed charge out rates decided by the management.

(vii) Income from Smart Metering services of PFCCL are recognised when bills for meter rent is raised to the clients and right to receive such income is established. Income from project development management agency charges (PDMA) during project implementation period is recognized over the period of contract.

(viii) The sale proceeds from Request for qualification (Rfq) documents for Independent Transmission Projects (ITPs) and Ultra Mega Power Project (UMPPs) are accounted for when received.

(ix) Income from short /medium term bidding of power and Coal Flexibility Scheme is recognised when letter of award (LOA) is issued to the successful bidder.

(x) Dividend income from investments including those measured at FVTPL, is recognized in Consolidated Statement of Profit and Loss under the head 'Dividend Income' when the Group's right to receive dividend is established and the amount of dividend can be measured reliably.

(xi) Interest expense on financial liabilities subsequently measured at amortized cost is recognized using Effective Interest Rate (EIR) method.

(xii) Other income and expenses are accounted on accrual basis, in accordance with terms of the respective contract.

(xiii) A Prepaid expense up to ₹ 1,00,000/- is recognized as expense upon initial recognition in the Consolidated Statement of Profit and Loss.

6.11 Expenditure on issue of Shares

Expenditure on issue of shares is charged to the securities premium account.

6.12 Borrowing Costs

Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition and/ or construction of a qualifying asset, till the time such a qualifying asset becomes ready for its intended use, are capitalized. A qualifying asset is one that necessarily takes a substantial period to get ready for its intended use.

All other borrowing costs are charged to the Consolidated Statement of Profit and Loss on an accrual basis as per the effective interest rate method.

6.13 Employee Benefits

In respect of PFC

Defined Contribution Plan

Company's contribution paid / payable during the reporting period towards provident fund and pension are charged in the Consolidated Statement of Profit and Loss when employees have rendered service entitling them to the contributions.

Defined Benefit Plan

Company's obligation towards gratuity to employees and post-retirement benefits such as medical benefit, economic rehabilitation benefit and settlement allowance after retirement are determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Actuarial gain / loss on re-measurement of gratuity and other post-employment defined benefit plans is recognized in Other Comprehensive Income (OCI). Past service cost is recognized in the Consolidated Statement of Profit and Loss in the period of a plan amendment.

In respect of the Group:

Other long term employee benefits

The Group's obligation towards leave encashment, service award scheme is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These obligations are recognized in the Consolidated Statement of Profit and Loss.

Short term employee benefits

Short term employee benefits such as salaries and wages are recognised in the Consolidated Statement of Profit and Loss, in the period in which the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Loan to employees at concessional rate

Loans given to employees at concessional rate are initially recognized at fair value and subsequently measured at amortised cost. The difference between the initial fair value of such loans and transaction value is recognised as deferred employee cost upon issuance of Loan, which is amortised on a straight-line basis over the expected remaining period of the loan. In case of change in expected remaining period of the loan, the unamortised deferred employee cost on the date of change is amortised over the updated expected remaining period of the loan on a prospective basis.

In respect of RECL

(i) Defined contribution plan

A defined contribution plan is a plan under which the Company pays fixed contributions in respect of the employees into a separate fund. The Company has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution. The contributions made by the Company towards defined contribution plans are charged to the profit or loss in the period to which the contributions relate.

ii) Defined benefit plan

The Company has an obligation towards gratuity, Post Retirement Medical Facility (PRMF), Provident Fund (PF) and Other Defined Retirement Benefit (ODRB) which are being considered as defined benefit plans covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service, final salary, and other defined parameters. The legal obligation for any benefits remains with the Company, even if plan assets for funding the defined benefit plan have been set aside. The Company's obligation towards defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The liability recognized in the statement of financial position for defined benefit plans is the present value of the

Defined Benefit Obligation (DBO) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries.

Actuarial gains/losses resulting from re-measurements of the liability/asset are included in Other Comprehensive Income.

6.14 Income Taxes

Income Tax expense comprises of current and deferred tax. It is recognised in Consolidated Statement of Profit and Loss, except when it relates to an item that is recognised in Consolidated Other Comprehensive Income (OCI) or directly in equity, in which case, tax is also recognised in OCI or directly in equity.

(i) Current Tax

Current tax is the expected tax payable on taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of earlier years.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and liability on a net basis.

(ii) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Consolidated Financial Statements and the corresponding tax bases used in the computation of taxable income. Deferred tax is measured at the tax rates based on the laws that have been enacted or substantively enacted by the reporting date, based on the expected manner of realisation or settlement of the carrying amount of assets / liabilities. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against liabilities, and they relate to income taxes levied by the same tax authority.

A deferred tax liability is recognised for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

6.15 Leases

For recognition, measurement and presentation of lease contracts, the Group applies the principles of Ind AS 116 'Leases'.

(i) The Group as a lessee

The Group at inception of a contract assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether (a) the Group has substantially all of the economic benefits from use of the asset through the period of the lease, and (b) the Group has the right to direct the use of the identified asset.

The Group at inception of a lease contract recognizes a Right-of-Use (RoU) asset at cost and a corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets which are recognised as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. RoU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use (RoU) assets are initially recognized at cost, which comprise the initial amount of the lease liability adjusted for any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. They are subsequently measured at cost less any accumulated depreciation and accumulated impairment losses. The right-of-use assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

The lease liability is initially measured at amortised cost at the present value of future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the Group's incremental borrowing rates in the country of domicile of the leases.

Lease liabilities are re-measured with a corresponding adjustment to the related right-of-use (RoU) asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and RoU asset is separately presented in the Balance Sheet. Interest expense on lease liability is presented separately from depreciation on right of use asset as a component of finance cost in the Consolidated Statement of Profit and Loss. Lease payments for the principal portion are classified as Cash flow used in financing activities and lease payments for the interest portion are classified as Cash flow used in operating activities.

(ii) The Group as a lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Contracts in which all the risks and rewards of the lease are substantially transferred to the lessee are classified as a finance lease. All other leases are classified as operating leases. For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

Amount due from lessee under finance leases is recognised as receivable at an amount equal to the net investment of the Group in the lease. Finance income on the lease is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of lease at the reporting date.

6.16 Foreign Currency Transactions and Translations

Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction.

At the end of each reporting period, monetary items denominated in foreign currency are translated using exchange rates prevailing on the last day of the reporting period. Exchange differences on monetary items are recognised in the Consolidated Statement of Profit and Loss in the period in which they arise. However, for the long-term monetary items recognised in the consolidated financial statements before April 1 2018, such exchange differences are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortized over the balance period of such long term monetary item.

6.17 Business Combination under Common Control

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and that control is not transitory.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize material accounting policies.
- The financial information in the Consolidated Financial Statements in respect of prior periods is restated as if the business combination has occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination.

The balance of the retained earnings appearing in the Consolidated Financial Statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee. The identity of the reserves is preserved and the reserves of the transferor become the reserves of the transferee.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

6.18 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

6.19 Dividends and Other Payments to holders of Instruments classified as Equity

Final dividends are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Board of Directors of the respective company in the Group.

Liability for the payments to the holders of instruments classified as equity are recognized in the period when such payments are authorized for payment by the respective company in the Group.

6.20 Earnings per Share

Basic earnings per equity share are calculated by dividing the net profit or loss attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the financial year.

To calculate diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

7. Use of Estimates and Management Judgement

In preparation of the Consolidated Financial Statements, the Management is required to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and the related disclosures. The estimates and underlying assumptions are based on historical experience & other relevant factors and are reviewed on an ongoing basis. Actual results may differ from these estimates.

Changes in accounting estimates, if any, are recognized prospectively in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if it affects both current and future periods.

7.1 Significant Management Judgements

In order to enhance understanding of the Consolidated Financial Statements, information about significant areas of critical judgments, apart from those involving estimation (Note no. 7.2), in applying accounting policies that have the most significant effect on the amounts recognised in the Consolidated Financial Statements, are as under:

(i) Deferred Tax Liability on Special Reserve

The Company and its subsidiary RECL have obtained resolution from their respective Board of Directors that there is no intention to make withdrawal from the Special Reserve created and maintained under section 36(1)(viii) of the Income Tax Act, 1961 and the same cannot be withdrawn. Accordingly, no deferred tax liability has been created on the said reserve.

(ii) Non recognition of income on Credit Impaired Loan Assets

As a matter of prudence, income on credit impaired loan assets is recognised as and when received or on accrual basis either on resolutions of stressed assets or when expected realization is higher than the loan amount outstanding.

(iii) Amortisation of transaction cost on Credit Impaired Loans Assets

Outstanding amount of unamortised transaction cost is credited to Consolidated Statement of Profit and Loss on classification of loan asset as credit impaired.

(iv) Classification of Investments

In order to classify an investment in a company as investment in subsidiary or joint venture (JV) or associate, judgement is required to assess the level of control depending upon the facts and circumstances of each case.

a) Energy Efficiency Services Limited (EESL) was incorporated in 2009 as a Joint Venture (JV) of NTPC Ltd., Power Grid Corporation of India Ltd. (PGCIL), RECL and PFC. During the financial year 2022-23, amendments in the JV agreement were made vide Supplementary Agreement dated 01.09.2021, where by the substantive participative rights and privileges previously enjoyed by all the joint venture partners, through their right to affirmative vote on certain reserved matters stands withdrawn. Therefore, in absence of any joint control, EESL ceases to be a Joint Venture Company for the purpose of consolidation of financial statements.

The Company along with its subsidiary RECL is holding 21.49 % stake in equity share capital of Energy Efficiency Services Limited (EESL). However, in the absence of any practical ability to direct the relevant activities as per the requirements of Ind AS 28 'Investment in Associates and Joint Ventures', the Company does not have any significant influence, accordingly EESL has not been considered as an associate company for the purpose of consolidation of financial statements.

b) Ultra-Mega Power Projects (UMPPs), RECL's transmission projects (SPV) and PFCCL's ITPs are managed as per the mandate from Government of India (GoI) and the Group does not have the practical ability to direct their relevant activities unilaterally. The Group therefore, considers its investment in respective UMPPs, ITPs and SPVs as associates having significant influence despite the respective Companies holding 100% of their paid-up equity share capital.

c) By virtue of holding Board position or equity stake in borrower companies, the rights exercised by PFC in such companies are protective in nature. Thus, the borrower companies are not considered as associates.

(v) Low value leases

An assessment is required, if lessee opts not to apply the recognition and measurement requirements of Ind AS 116 'Leases' to leases where the underlying asset is of low value. For the purpose of determining low value, the Group has considered nature of assets and concept of materiality as defined in Ind AS 1 'Presentation of Financial Statements' and the conceptual framework of Ind AS which involve significant judgement.

(vi) Sundry Liabilities- Interest Capitalisation

Unrealised income on credit impaired loans, represented by Funded Interest Term Loan (FITL) / debt / equity instruments acquired under resolution, is transferred to a separate account titled 'Sundry Liabilities Account (Interest Capitalisation)' and is recognised in Consolidated Statement of Profit and Loss on repayment of FITL or sale / redemption of debt / equity instruments.

(vii) Evaluation of indicators for impairment loss allowance of financial assets

The evaluation of the applicability of indicators for computation of impairment loss allowance of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the Assets. The Group makes significant judgement in identifying the default, and significant increase in credit risk (SICR) as well as grouping of similar financial assets based on available information.

(viii) Deferred tax liability / deferred tax asset in respect of undistributed profits/losses of subsidiaries, branches, investments in associates and joint ventures

Judgement is required in accounting for deferred tax liability / deferred tax asset in respect of Group's investments in respect of undistributed profits/losses of subsidiaries, investments in associates and joint ventures. In respect of undistributed profits/losses of subsidiaries, investments in joint ventures, the Company is able to control the timing of the reversal of the temporary differences and the temporary differences will not be reversed in the foreseeable future. Accordingly, the Group does not recognise a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries, and interests in joint ventures.

7.2 Assumptions and Key Sources of Estimation Uncertainty

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below:

(i) Defined benefit obligation (DBO)

The Group's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses as detailed at Note –50.

(ii) Impairment test of Financial Assets (Expected Credit Loss)

The measurement of impairment loss allowance for financial assets which includes loan LoCs and guarantees measured at amortised cost requires use of statistical models, expected future economic conditions, estimated cash flows and credit behaviour (e.g., inputs and weights used for credit risk scoring, likelihood of borrowers defaulting and resulting losses). In estimating the cash flows expected to be recovered from credit impaired loans, the borrower's financial situation, current status of the project, net realisable value of securities/ collateral etc. are assessed.

As these estimates are based on various assumptions, actual results may vary. Refer Note 46.1 for further details.

(iii) Fair value measurement

Fair value of financial instruments is required to be estimated for financial reporting purposes. The Group applies appropriate valuation techniques and inputs for fair value measurements. In estimating the fair value of an asset or a liability, the Group uses quoted prices and market-observable data to the extent it is available. In case of non-availability of the same, unobservable inputs are used for calculation of fair value of the assets/ liabilities. The information about the valuation techniques, inputs used in determination of fair value of various assets & liabilities and other details are disclosed at Note 48.

(iv) Income Taxes

Estimates are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset. Refer Note 43 and 16 for details.

(v) Useful life of Property, Plant & Equipment (PPE) and Intangible Assets

The Group reviews its estimate of the useful lives of depreciable/amortisable assets at the end of each financial year, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets. Refer Note 17 for details on useful lives and carrying values of PPE and Intangible assets.

8 Cash and Cash Equivalents

(₹ in crore)

Sr. No.	Particulars	As at 31.03.2024	As at 31.03.2023

(1) Associates struck off during the year by the Registrar of Companies

13.3 At initial recognition, companies in the Group made an irrevocable election to present subsequent changes in the fair value of certain equity instruments in other comprehensive income. The Group's main operation is to extend financial assistance to power, logistics and infrastructure sector. Thus, in order to insulate the Consolidated Statement of Profit and Loss from price fluctuations of these instruments, the Management of the respective companies believes that FVTOCI classification provides a more meaningful presentation, rather than classifying them at FVTPL.

Details of FVTOCI instruments derecognised during the year:

(₹ in crore)

Details of investment	No. of shares/ units derecognised	Fair Value as on date of de-recognition	Cumulative gain/ (loss) on de-recognition
FY 2023-24[1]			
NHPC Limited	4,35,27,003	307.70	212.90
HUDCO Limited	3,47,429	6.45	4.37
Total			**217.27**
FY 2022-23			
NHPC Limited[1]	3,34,54,417	123.70	50.83
Total			**50.83**

(1) These equity shares were sold in tranches during the year considering the market scenario. The fair value and gain has been computed based on the price as on the respective date of de-recognition and has been presented above on aggregate basis.

20.5 In respect of PFC's subsidiaries, REC Ltd. and PFC Consulting Ltd., their management had incorporated these entities with a view to sell them off as per the guidelines of Ministry of Power, through the bid process prescribed by Ministry of Power. There is no possibility that management will have benefits from these entities other than selling them off, hence all these investments (along with the related assets and liabilities) have been classified as 'held for sale'.

20.6 With a view to monetise its idle assets, during the year the Company's subsidiary RECL has disposed certain residential building units through e-auction process, with carrying value ₹ 0.29 crores (previous year ₹ 0.52 crores), classified under "Assets classified as held for sale" as required under Ind-AS 105. Such sale has resulted in gain of ₹ 1.32 crores during the current year (previous year ₹ 4.08 crores) Further, residential building units with carrying value ₹ 0.05 crores (previous year ₹ 0.34 crores) classified under "Assets classified as held for sale" are pending for disposal as at 31st March 2024. The process for their disposal is expected to be completed during the year 2024-25 through e-auction process.

	Total Geography wise Subordinated Liabilities	**12,931.93**	**16,085.14**

24.1 Details of Perpetual Debt Instruments (Unsecured) are as under :

Sr. No.	Subordinated Bond Series	Coupon Rate (p.a.)	Principal Amount (₹ in		Date of Redemptio	Redemption details
			31.03.2024	31.03.2023		
1	7.88 PERPETUAL TX UNS BND SRS 236- PFC Ltd.	7.88%	100.00	-	NA	Perpetual bonds callable only at the option of the Company after minimum 10 years with prior approval of RBI.
2	222nd series - Perpetual Tier-I Bonds -REC Ltd.	7.98%	2,000.00	-	30.04.2033	With call option on 30.04.2033 and on annual anniversary date thereafter.
3	226th series - Perpetual Tier-I Bonds -REC Ltd.	8.03%	1,090.00	-	30.09.2033	With call option on 30.09.2033 and on annual anniversary date thereafter.
Total Perpetual Debt			**3,190.00**	-		

During the year the Company had issued Perpetual Debt Instruments (PDI) of Rs 100 crore having face value of Rs 1 crore each, with no maturity and callable only at the option of the Company after minimum 10 years with prior approval of RBI. The claims of the holders of the PDI are:
(a) Superior to the claims of the holders of the equity shares issued by the Company and perpetual non-cumulative preference shares, if any, of the Company; and
(b) Subordinated to the claims of all other creditors of the Company (but pari-passu inter se the holders of the PDIs). The Company may defer the payment of Coupon, if:
(i) The capital to risk assets ratio ("CRAR") of the Company is below the minimum regulatory requirement prescribed by RBI; or
(ii) the impact of such payment results in CRAR of the Company falling below or remaining below the minimum regulatory requirement prescribed by RBI. Further, it also has certain unique features which, inter-alia, grant PFC, in consultation with RBI a discretion in terms of writing down the principal / interest, to skip interest payments, to make an early recall etc. without commensurate right for investors to legal recourse, even if such actions might result in potential loss to investors. As these securities are perpetual in nature and claim of PDI holders is subordinate to claim of all other creditors and further as the Company does not have an unconditional right not to pay the coupon, these have been classified under subordinated liabilities.

24.2 Details of Subordinated Debt (Unsecured) are as under :

25.2 Unclaimed dividends, unclaimed bonds and interest thereon include the amounts which have either not been claimed by the investors / holders of the instruments or are on hold pending legal formalities etc. The amount eligible to be transferred to Investor Education and Protection Fund has been transferred within the prescribed time limit.

25.3 Amounts payable under GoI Schemes:

(i) RECL has been appointed by GOI as a nodal agency for implementation of Deen Dayal Upadhyaya Gram Jyoti Yojna (DDUGJY), Pradhan Mantri Sahaj Bijli Har Ghar Yojana (Saubhagya) and Revamped Distribution Sector Scheme (RDSS). The funds received for disbursement to various agencies under the scheme are kept in a separate bank accounts. The undisbursed funds for the scheme (including the funds received under erstwhile RGGVY Scheme) including interest earned thereto are classified under the line item 'Interest Subsidy Fund and Other GOI Funds for Disbursement' under 'Other Financial Liabilities' . For further details of GOI schemes, refer Note 56.

(ii) Subsidy Under Accelerated Generation & Supply Programme (AG&SP)

REC is maintaining an Interest Subsidy Fund Account and was given AG&SP subsidy (for disbursement to the eligible borrowers) by Govt. of India at net present value calculated at indicative rates and year in accordance with GOI's letter vide D.O.No. 32024/17/97-PFC dated 23.09.1997 and O.M.No.32024/23/2001-PFC dated 07.03.2003 irrespective of the actual repayment schedule, moratorium year and duration of repayment of the eligible schemes. The impact of difference between the indicative rate and year considered at the time of drawl and the actual can be ascertained only after the end of the respective schemes.

Net amount of ₹ 0.77 crores as at 31st March 2024 (₹ 0.75 crores as at 31st March 2023) represents the balance amount of interest subsidy fund, which is to be passed on to the borrowers against their interest liability arising in future, under Accelerated Generation & Supply Programme (AG&SP), which comprises of the following:-

(₹ in crores)

	Total Non - Controlling Interest	**33,141.77**	**27,822.79**

30.1 PFC's subsidiary REC Ltd. had issued Perpetual Debt Instruments of face value of ₹ 10 lakhs each, with no maturity and callable only at the option of the Company after 10 years. The claims of the holders of the securities shall be (a) Superior to the claims of the holders of the equity shares issued by the Issuer; and (b) Subordinated to the claims of all other creditors of the Issuer. The instruments carry a step up provision if not called after 10 years. The payment of Coupons may be cancelled or suspended at the discretion of REC Ltd. The coupon of the securities is not cumulative except where the Issuer shall not be liable to pay coupon and may defer the payment of coupon, if (i) The capital to risk assets ratio ("CRAR") of the Issuer is below the minimum regulatory requirement prescribed by RBI; or (ii) the impact of such payment results in CRAR of the Issuer falling below or remaining below the minimum regulatory requirement prescribed by RBI.

As these securities are perpetual in nature and the Group does not have any redemption obligation and discretion on payment of coupon, these have been classified as Equity. Further as such Equity is not attributable , directly or indirectly to the parent viz PFC Limited, the same has been included under Non-Controlling interest. The periodic coupon payments are accordingly adjusted with retained earnings.

Deduction u/s 36(1)(viii) of Income Tax act 1961	(1,468.36)	(1,268.07)
Others	9.27	32.93
Tax expense pertaining to earlier years	(11.74)	(198.44)
Impact of change in tax rate	-	-
Effect of eliminations	556.21	416.43
Total tax expenses in the Consolidated Statement of Profit and Loss	**7,126.94**	**5,317.48**

44. Disclosure as per Ind AS 33 "Earnings per Share"

Sr. No.	Description	FY 2023-24	FY 2022-23
(A)	Profit for the period used as numerator (basic & diluted) (₹ in crore):		
	(i) from continuing operations	19,761.16	15,889.33
	(ii) from discontinued operations	-	-
	(iii) from continuing and discontinued operations	19,761.16	15,889.33
(B)	Weighted average number of equity shares used as denominator (basic & diluted)*	330,01,01,760	330,01,01,760
(C)	Earning per equity share (basic & diluted), face value ₹ 10 each (₹):		
	(i) for continuing operations	59.88	48.15
	(ii) for discontinued operations	-	-
	(iii) for continuing and discontinued operations	59.88	48.15

** During the year, PFC has issued 66,00,20,352 equity shares of ₹10 each as fully paid-up bonus shares in the ratio of 1 (One) equity share for every 4 (Four) equity shares outstanding on the record date i.e.21.09.2023. Accordingly, as required by Ind AS-33, Earnings per share of current and previous year have been restated.*

45. Capital Management

The Group maintains a capital base that is adequate to support the Group's risk profile, regulatory and business needs. The Group sources funds from domestic and international financial markets, inter-alia leading to diverse investor base and optimised cost of capital. Refer Note 22, 23 & 24 for details w.r.t. sources of funds and refer Consolidated Statement of Changes in Equity for details w.r.t Equity.

As contained in Master Direction- Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023, as amended from time to time (hereinafter referred to as "RBI Master Directions"), NBFCs are required to maintain a capital ratio consisting of Tier I and Tier II capital not less than 15% of its aggregate risk weighted assets on-balance sheet and of risk adjusted value of off- balance sheet items. Out of this, Tier I capital shall not be less than 10%. Both the companies regularly monitor the maintenance of prescribed levels of Capital to Risk Weighted Assets Ratio (CRAR). Further, with regard to capital restructuring, the Company and its subsidiary RECL is also guided, inter alia, by guidelines on "Capital Restructuring of Central Public Sector Enterprises" issued by Department of Investment and Public Asset Management (DIPAM), Ministry of Finance, Department of Public Enterprises in respect of issue of bonus shares, dividend distribution, buy back of equity shares etc.

Capital to Risk Weighted Assets Ratio (CRAR) is as under:

In respect of PFC

Ratios	Numerator*	Denominator*	As at 31.03.2024	As at 31.03.2023
Total Capital to risk-weighted assets ratio (CRAR)	Tier I Capital + Tier II Capital	Risk Weighted assets	25.41%	24.37%
CRAR – Tier I Capital **	Tier I Capital	Risk Weighted assets	23.18%	21.61%
CRAR – Tier II Capital	Tier II Capital	Risk Weighted assets	2.23%	2.76%

* Computed as per applicable RBI guidelines.

***The amount of perpetual debt instruments of the Tier-I Capital is 0.16 % (previous year Nil).*

Details of Tier II capital and perpetual debt instruments raised during the year are as under:

(₹ in crore)

Particulars	Year ended 31.03.2024	Year ended 31.03.2023
Amount of Subordinated Debt raised as Tier-II capital	-	-
Amount raised by issue of Perpetual Debt Instruments	100.00	-

In respect of RECL

Ratios	Numerator*	Denominator*	As at 31.03.2024	As at 31.03.2023
Total Capital to risk-weighted assets ratio (CRAR)	Tier I Capital + Tier II Capital	Risk Weighted assets	25.82%	25.78%
CRAR – Tier I Capital	Tier I Capital	Risk Weighted assets	23.32%	22.84%
CRAR – Tier II Capital	Tier II Capital	Risk Weighted assets	2.50%	2.94%

* Computed as per applicable RBI guidelines.

***The amount of perpetual debt instruments of the Tier-I Capital is 0.84 % (previous year 1%).*

Details of Tier II capital and perpetual debt instruments raised during the year are as under:

(₹ in crore)

Particulars	Year ended 31.03.2024	Year ended 31.03.2023
Amount of Subordinated Debt raised as Tier-II capital	-	-
Amount raised by issue of Perpetual Debt Instruments	3,090.00	-

Dividend Distribution Policy

The companies in the Group have a well-defined dividend distribution policy. Dividend distribution policy focuses on various factors including but not limited to GoI guidelines, RBI circulars / guidelines, future capital expenditure plans, profits earned during the financial year, cost of raising funds from alternate sources, cash flow position and applicable taxes if any, subject to the guidelines as applicable from time to time.

As per the extant guidelines issued by Department of Investment and Public Asset Management (DIPAM), Government of India, an entity is required to pay a minimum annual dividend of 30% of Profit after Tax or 5% of the net-worth, whichever is higher subject to the maximum dividend permitted under extant legal provisions.

Though respective companies' endeavours to declare dividend as per these guidelines, they may propose a lower dividend after analysis of various financial parameters like net-worth, CAPEX/business expansion needs; additional investments in subsidiaries / associates of the respective company; other regulatory requirements etc. For details of dividend paid/proposed during the year, refer Note 29.2(i) and 29.2.(ii).

46. Financial Risk Management

The Group is exposed to several risks which are inherent to the environment that it operates in. The Group is primarily into the business of extending financial assistance to power, logistics and infrastructure sector. The principal risks which are inherent with the Group's business model and from its use of financial instruments include credit risk, liquidity risk and market risk (currency risk, interest rate risk and price risk).

The following table broadly explains the sources of risks which the Group is exposed to and how it manages the same and related impact in the consolidated financial statements:

Note	Risk	Exposure arising from	Measurement	Risk Management
46.1	Credit Risk	Loans, financial assets, investments, trade receivables, cash and cash equivalents	Ageing analysis	Detailed appraisal process, credit concentration limits, diversification of asset base and collateral including government guarantee
46.2	Liquidity Risk	Debt securities, borrowings, subordinated liabilities and other financial liabilities	Cash flow forecasts	Availability of committed credit lines and borrowing facilities
46.3	Market Risk – Foreign Currency Risk	Recognised financial liabilities not denominated in Indian Rupee (INR)	Sensitivity Analysis, cash flow forecasting	Derivative contracts for hedging currency risk

46.4	Market Risk – Interest Rate Risk	Debt securities, borrowings, subordinated liabilities and loans at variable interest rates	Sensitivity analysis	Mix of loan arrangements with varied interest rate terms, derivative contract like interest rate swaps etc.
46.5	Market Risk – Price Risk	Investments in quoted equity instruments	Sensitivity Analysis	Diversification of portfolio, with focus on strategic investments

For managing these risks, the companies in the Group have put in place an integrated enterprise-wide risk management mechanism to ensure that these risks are monitored carefully and managed efficiently. In accordance with the RBI Master Direction in order to augment risk management practices in the respective Company, PFC and its subsidiary RECL has respective Chief Risk Officers (CRO) who are involved in the process of identification, measurement and mitigation of risks. The risk management approach i.e. objectives, polices and processes for identifying, measuring and managing each of above risk is set out in the subsequent paragraphs.

46.1 Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Group by failing to discharge its obligation. Details of financial assets that expose the Group to credit risk (gross carrying amount) are:

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
Low Credit Risk		
Cash and cash equivalents[a]	339.34	127.59
Bank balances other than included in cash and cash equivalents[a]	3,049.22	3,973.43
Loans (Principal outstanding)[c]	9,10,756.18	7,98,755.96
Trade Receivables[b]	147.79	185.98
Investments (Excluding equity investments) [a]	7,236.77	3,772.30
Other financial assets[b]	29,885.31	29,831.79
Moderate Credit Risk		
Loans (Principal outstanding) [c]	50,183.94	27,350.31
Trade receivables[b]	58.90	37.62
High Credit Risk		
Investments (Excluding equity investments)[a]	101.67	101.67
Loans (Principal outstanding) [c]	29,883.55	31,393.73
Other financial assets [b]	89.25	112.78
Trade receivables[b]	58.55	67.62

[a]Credit risk on cash and cash equivalents and other bank balances is limited as these are held with scheduled commercial public sector banks, high rated private sector banks and mutual fund houses, across the country with diversified deposit base. The Companies in the Group diversify the deposit base by deploying funds in various types of instruments with respective banks/ mutual fund houses.

Exposure to credit risk on investments is managed by diversifying the investment portfolio, periodically monitoring such investments, and applying the appropriate valuation techniques to arrive at the carrying value. The Group carries an impairment loss allowance of ₹ 101.67 crore on its investments as at 31.03.2024 (as at 31.03.2023 ₹ 101.67 crore).

[b]Credit risk on trade receivables and other financial assets is mitigated by assessing the credit worthiness of debtors and is managed by monitoring the recoverability of such amounts. The Group carries requisite impairment loss allowance on such trade receivables and other financial assets.

[c]The Group is exposed to credit risk primarily through its lending operations. The same is explained in the paragraphs below (Note 46.1.1 – Note 46.1.13).

46.1.1 Credit Risk Management Approach for lending operations

A. In respect of PFC

PFC has put in place key policies and processes for managing credit risk, which include formulating credit policies, guiding the PFC's appetite for credit risk exposures, undertaking reviews & objective assessment of credit risk, and monitoring performance and management of portfolios. All the procedures and processes of the Company are ISO 9001:2015 certified.

The credit risk management covers two key areas, i.e., project appraisal & project monitoring. PFC selects the borrowers in accordance with the PFC's approved credit policy, which inter alia, defines factors to be considered for rating of the borrower/ project. PFC's customer selection procedure assesses viability of project along with that of its promoting entity. Rate of interest and maximum admissible exposure is, inter alia, based on internal rating awarded by PFC.

(i) Appraisal of Projects

PFC follows a systematic, institutional project appraisal process to assess the credit risk before financing any project.

(a) Appraisal for Private Sector Power Projects

For private sector projects, a two-stage appraisal process is followed. Initially a preliminary appraisal is carried out in order to decide the prima facie preparedness of the project to be taken up for detailed appraisal. Detailed appraisal is carried out for those projects shortlisted by the Competent Authority on the basis of preliminary appraisal.

PFC along with evaluation of project viability also assesses the ability of its promoter(s) to contribute equity and complete the project. PFC follows an integrated rating methodology whereby Integrated Rating (IR) is calculated using the weighted average of the scores of the project grading and promoter grading. Based on the IR of the project, terms and conditions (including security package, interest rate and debt equity ratio) are stipulated.

(b) Appraisal for State Sector Power Projects

State sector projects are taken up for detailed appraisal to determine, inter-alia, if it is techno economically sound and compatible with integrated power development & expansion plans of the State.

PFC classifies state power generation and transmission utilities into various risk rating grades based on the evaluation of utility's performance against specific parameters covering operational and financial performance. With regards to transmission utilities, PFC adopts the categorisation of its subsidiary RECL as per its policy. With regard to State Power Distribution utilities including integrated utilities, PFC's categorisation policy provides for adoption of Ministry of Power's (MoP's) Integrated Ratings by aligning such ratings/ grading with that of PFC's rating structure. The categorization of Borrowers in the Logistics and Non-Power Infrastructure sector is carried out on the basis of recommendations of the Internal Committee considering the strengths and weaknesses of the project.

Such categories/ ratings are used to determine credit exposure limits, security requirements and pricing of loans given to the State Sector Borrowers. PFC also has a mechanism in place for monitoring the exposure to single borrower and exposure within a State.

The detailed project appraisal involves technical and financial appraisal covering various aspects such as project inputs, statutory and non-statutory clearances, contracts, project linkages, financial modelling/ projections, calculation of returns, sensitivity analysis etc.

After detailed analysis indicated above, the overall viability of the project and entity is assessed and various conditions in the form of pre-commitment, pre-disbursement and other conditions are stipulated so as to ensure tying up of funds (debt and equity both), all physical inputs, appropriateness of all the contracts, compliance of conditions precedent in agreements/ contracts/ statutory and non- statutory clearances related to the project etc. and in general to ensure bankability of the project & protection of the interest of PFC as a lender for timely servicing of debt. PFC has an authorisation/ delegation structure for the approval of credit facilities commensurating with the size of the loan.

(ii) Security and Covenants

PFC stipulates a package of security measures/covenants to mitigate risks during the construction and post COD (commercial operation date) stage of the project. Based on the risk appetite and appraisal of the project, PFC adopts a combination of the following measures:

(a) Primary Security -Charge on Project Assets or State Government Guarantees
(b) Collateral Securities - Corporate guarantee, Personal guarantee of promoters, Pledge of shares, Charge on assets / revenues of group/other companies
(c) Payment Security Mechanism - Escrow Account / Letter of Credit, Trust and Retention Account (TRA)
(d) Other covenants - Assignment of all project contracts, documents, insurance policies in favour of the Company, Upfront equity requirement, Debt Service Reserve Account (DSRA), Debt Equity ratio, shareholders' agreements, financial closure, etc.

(iii) Project Monitoring

PFC has comprehensive project/loan monitoring guidelines that captures aspects relating to monitoring, tracking of project construction, implementation, identifies risks where intervention is required to minimize the time/ cost overruns/ consequent slippages in disbursements and including progress of commissioned projects.

For State sector projects, monitoring is carried out based on project progress details obtained regularly from borrowers through progress monitoring reports, site visits, discussions with the borrowers, information/reports available on Central Electricity Authority's (CEA) website etc.

For private sector, where PFC is Lead Financial Institution (FI), PFC engages Lenders' Engineers (LEs) and Lenders' Financial Advisors (LFAs), which are independent agencies to act on behalf of various lenders / consortium members. The LEs conduct periodic site visits, review relevant documents, discusses with the borrowers and submit its reports on progress of the project. LFAs submit the statements of fund flow and utilization of funds in the project periodically. In cases where PFC is not the lead FI, the tasks related to LEs and LFAs services are coordinated with the concerned lead lender. From FY 2022-23 onwards PFC has started empaneling Project Management Agency (PMA), as a single entity, for private sector projects, thereby facilitating better coordination of project monitoring activities.

Also, the consolidated periodic progress report of certain projects is prepared comprising important observations/ issues viz. areas of concern, reasons for delay, issues affecting project construction/implementation etc. and is reviewed by PFC on a regular basis.

PFC continuously monitors delays and/or default of borrowers and their recoverability. On occurrence of default in the borrower's account, PFC initiates necessary steps which may involve action(s) including, but not limited to, Special Mention Account (SMA) reporting to RBI, credit information reporting to Central Repository of Information on Large Credits (CRILC) etc., regularization of the account by recovering all overdues, invocation of guarantees/ securities to recover the dues, conversion of loan into equity as per loan agreement, restructuring of loan account, formulating resolution plan with the borrower, change in ownership, Corporate Insolvency Resolution Process (CIRP) under IBC -2016, sale of the exposures to other entities/investors, other recovery mechanisms like referring the case for legal action before Debt Recovery Tribunal (DRT), SARFAESI, etc. and other actions as specified under regulatory/legal framework.

B. In respect of RECL

The credit risk is managed at different levels including at appraisal, disbursements and post disbursement monitoring. RECL has "Integrated Rating Guidelines" and "Comprehensive Risk Management Policy". To mitigate credit risk, RECL follows systematic institutional and project appraisal process to assess the credit risk. These processes include a detailed appraisal methodology, identification of risks and suitable structuring and credit risk mitigation measures. Further, on periodic basis, the loan assets are reviewed and categorized as High/Moderate/Low based on ECL Methodology. The process for Credit Risk Management is as under:

PREM GUPTA & CO. Chartered Accountants Firm No. 0006-25N New Delhi

पावर फाइनेंस कॉर्पोरेशन लिमिटेड Power Finance Corporation Limited "ऊर्जानिधि" 1, बाराखंबा लेन, कनॉट प्लेस, "URJANIDHI" 1, Barakhamba Lane, Connaught Place New Delhi-110 001 नई दिल्ली-110 001

CHOKSHI & CHOKSHI LLP FRN 101872W W100045

(i) RECL has "Integrated Rating Guidelines" covering credit assessment, risk grading, collateral requirements, reporting, monitoring of end utilisation of funds etc. Further, independent Lender legal counsels are appointed to ensure effective documentation and mitigation of legal risk.

(ii) For all existing private sector projects, where RECL is Lead Financial Institution, RECL engages Lender's Independent Engineers (LIE), Lender's Financial Advisors (LFA) and Lender's Insurance Advisors (LIA), which are independent agencies who act on behalf of various lenders and consortium members. LIE conducts periodic site visits and submits reports on progress status of the project, after discussion with borrower and inspection/ review of relevant documents. LFA submit the statements of fund flow and utilization of funds in the project periodically. In cases where RECL is not the lead Financial Institution, the tasks related to LIE and LFA services are being coordinated with the lead lender.

RECL also endeavours to appoint a separate Project Management Agency (PMA) for new projects being financed, which subsumes the entire works of LIE /Project Management Consultant (PMC), LFA and LIA for better coordination among the agencies. PMA is stationed at project site to closely monitor various day to day project execution activities including monitoring of project progress, review of EPC/non-EPC contracts & invoices, fund utilization and insurance for the project. PMA also verifies the bills of original equipment manufacturer/ supplier, composite works contractor and give its recommendation for disbursement. Initial due diligence is also be performed by PMA taking the sanctity of technical and financial parameters including original project cost & COD.

Concurrent Auditors/Agencies for Specialized monitoring/Cash Flow monitoring agencies are being appointed by REC/Lenders on case to case basis for effective monitoring of Trust & Retention Account (TRA) for stressed projects.

(iii) RECL has an authorisation structure for the approval and renewal of credit facilities. Authorisation limits have been established commensurating with the size of business proposal at CMD/Executive Committee/Loan Committee/Board of Directors based on the recommendation of Screening Committee, as appropriate.

(iv) RECL has developed risk grading structure to categorise its exposures according to the degree of risk of default by charging appropriate interest rates and security package.

(v) Regular reports on the credit quality of loan portfolios are provided to Risk Management Committee and Board, which may require appropriate corrective action to be taken.

(vi) External agencies are appointed from time to time to review the guidelines, policy and existing practices being followed by business units along with providing the specialist skills to promote best practice throughout RECL for management of credit risk.

(vii) Individual and Group Credit Exposures are assessed against designated limits, before facilities are committed to borrowers by the business unit concerned. Sanction of additional facilities is also subject to the same review process.

(viii) RECL continuously monitors delays and/ or default of borrowers & other counterparties and their recoverability. On occurrence of default in the borrower's account, RECL initiates necessary steps to cure the default which may involve action(s) including, but not limited to, Special Mention Account (SMA) reporting to RBI, credit information reporting to Central Repository of Information on Large Credits (CRILC), etc., monitoring of the TRA account, conversion of loan into equity as per loan agreement, restructuring of loan account, formulating resolution plan with the borrower, change in ownership, Corporate Insolvency Resolution Process (CIRP), sale of the exposures to other entities/ investors and other recovery mechanisms including invocation of guarantees/ securities to recover the dues.

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

46.1.2 Credit Risk Measurement - Impairment Assessment for Lending Operations

Ind-AS 109 outlines a three staged model for measurement of impairment based on changes in credit risk since initial recognition. For classification of its borrowers into various stages, the Group uses the following basis:

- A financial asset that is not credit impaired on initial recognition is classified in 'Stage 1'.

- If a significant increase in credit risk (SICR) is identified, the financial asset is moved to 'Stage 2'.

- If the financial asset is credit-impaired, it is moved to 'Stage 3' category.

A. In respect of PFC

PFC recognises impairment loss allowance in accordance using the expected credit loss (ECL) model for the financial assets which are not categorised at fair value through profit or loss.

I. **Default:** In accordance with Ind AS 109, PFC considers the rebuttable presumption to define a financial asset as in default, i.e. when the loan account is more than 90 days past due on its contractual payments. Credit impaired financial assets are aligned with the definition of default.

II. **SICR** - An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting date by considering the change in the risk of default occurring over the remaining life of the financial instrument. In accordance with Ind AS 109, PFC has applied rebuttable presumption that considers more than 30 days past due as a parameter for determining significant increase in credit risk.

In case of Stage 3 financial assets, after implementation of the resolution plan (except for change of ownership and/or resolution through NCLT), the financial asset is upgraded and classified as Stage 2 for two quarters from the date of implementation of resolution plan.

III. **Measurement of Expected Credit Loss (ECL)**
PFC recognises impairment loss allowance for the financial assets in accordance with a board-approved expected credit loss (ECL) policy. ECL is measured on either a 12 month or lifetime basis depending on whether there is significant increase in credit risk since initial recognition. ECL is the product of Probability of default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). PFC has appointed an independent agency, CRISIL Ltd., during the financial year for assessment of ECL in accordance with Ind AS 109. The brief methodology of computation of ECL is as follows:

(i) Probability of default (PD)

PD is an estimate of the likelihood of default over a given time horizon. It is estimated as at a point in time. For assessing 12 month PD, probability of a loan defaulting in next 12 months is ascertained and similarly for assessing lifetime PD, probability of a loan defaulting in its remaining lifetime is ascertained.

For Stage 1 accounts, 12 months PD is used.
For Stage 2 (significantly increased credit risk accounts), Lifetime PD is used. For Stage 3 (credit impaired accounts), 100% PD is taken.

12-month PD: In case of State Sector borrowers, for the purpose of PD calculation, the risk rating grades of the utilities are considered. For Gencos/Transcos/Others, PFC's internal rating grades have been considered. For Discoms / Power Department borrowers, PFC has adopted the MoP ratings . The ratings as above has been be mapped with the standard external rating benchmarks. The PD factor associated with the mapped external rating as given in the PD transition matrix published by various Credit Rating Agencies(CRAs) have been used for PD calculation.

In case of Private sector borrowers, the latest external rating as published by various Credit Rating Agencies have been referred to compute PD using the PD transition matrix published by various CRAs . If external rating is not available, the PD has been computed through Proxy Risk Scoring Model on a 10-point scale with 1 suggesting minimum risk and 10 suggesting the highest risk. The said model uses the Quantitative financial ratios like Gearing (Debt/Equity), Return on Capital Employed, Interest Coverage ratio, Debt to EBITDA ratio and qualitative factors like PLF, ACS/ ARR ratio or LAF to arrive at the final Risk score. The financial risk score obtained have been mapped to external rating benchmarks. This mapped rating has been referred to compute PD associated with the rating using the PD transition matrix published by various CRAs.

For Lifetime PD: Markov Chain Model has been used to compute Lifetime PDs of the rating grade.

(ii) Loss Given Default (LGD)

LGD is the loss factor which the Company may experience in case the default occurs.

For State sector borrowers, the company considers the credit worthiness of the states on various parameters while estimating the LGD for state utilities. For estimating the credit worthiness of the state, parameters like State GDP per capita, Fiscal deficit/GDP ratio and Proportion on Revenue Expenditure on Energy Sector, etc. are used as key inputs. The state utilities are bifurcated into Low, Medium and High-risk category based on the state category.

In case of Private sector borrowers, LGD has been assessed considering factors related to the project to arrive at realisable value of the plant such as generation capacity, project cost per MW, percentage completion of the plant, and book value of the assets etc. A stress factor was also applied as a haircut to arrive at the realisable value.

For Stage 3 borrowers, LGD has been assessed project wise based on Bid value/resolution plan amount/OTS amount/any other value/ discounted cash flows etc. as applicable.

(iii) Exposure at Default (EAD)

Exposure at Default is the outstanding exposure on which ECL is computed. EAD includes outstanding principal and interest accrued (including delayed charges) in respect of the loan. As per Note no.7.1.(ii) , income on credit impaired assets is recognised as and when received or on accrual basis when expected realisation is higher than the loan amount outstanding, therefore, the same is not used in computation of Exposure at default..

(iv) Key assumptions used in measurement of ECL

- PFC considers the date of initial recognition as the base date from which significant increase in credit risk is determined.

- Since PFC has a right to cancel any sanctioned but undrawn limits to any of its borrowers, EAD is assumed to be outstanding balance and interest of the loan as on the reporting date.

(v) The calculation of ECL incorporates forward-looking information. Further, the independent agency appointed to assist the Company in ECL assessment also consider the forward-looking information in the determination of the impairment allowance to be assigned to the borrower, by taking into consideration various project operational parameters, project financial ratios, extension of the project completion and also possibility of stressed and favourable economic conditions. Further, the independent agency has also added some additional macroeconomic parameters such as IIP (index of industrial production) electricity y-o-y growth rate, Money supply y-o-y growth rate to arrive at a weighted shock factor to the base PD term structure for ECL computation so as to reflect the right risk assessment of the utilities.

B. In respect of RECL

The impairment loss allowance on loan assets is provided as per Ind AS 109 in accordance with a board-approved policy, which measures the credit risk on the basis of key financial and operational parameters to assess improvement/ deterioration in credit quality. Management overlays to the model output, if any, are duly documented and approved by the Audit Committee. The evaluation of Expected Credit Loss (ECL) is undertaken by an independent agency, ICRA Analytics Limited (formerly ICRA Online Limited).

I. RECL has an internal system of grading for State Governments, Public Sector Undertakings and State Power Utilities. However, for State Distribution Companies (DISCOMs), RECL adopts the ratings by the Ministry of Power as and when they are updated. These ratings are mapped with external rating grades published by various credit rating agencies as part of rating transition matrix. For private borrowers, RECL uses the external rating as published by various credit rating agencies or proxy risk scores in case such rating is not available. The proxy risk score model considers following parameters:

➢ Quantitative factors

- Debt/ EBITDA (30% weightage)
- Return on Capital Employed (15% weightage)
- Interest Coverage (25% weightage)
- Gearing (Debt/Equity) (30% weightage)

➢ Qualitative Factors

- Quarter wise Operational Parameters like PPA, PLF, ACS – ARR Gap, and LAF
- Actual Default dates
- Status of the Project

II. Significant Increase in Credit Risk (SICR)

RECL considers a financial instrument to have experienced a significant increase in credit risk when on any financial instrument if the payment is more than 30 days past due on its contractual payments.

III. Definition of default and credit-impaired assets

RECL defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when the loan account is more than 90 days past due on its contractual payments or any such period allowed by RECL in line with circular issued by the Reserve Bank of India.

IV. Measuring ECL - explanation of inputs, assumptions and estimation techniques

Expected credit losses are the product of the probability of default (PD), exposure at default (EAD) and loss given default (LGD), defined as follows:

- PD represents the likelihood of the borrower defaulting on its obligation either over next 12 months or over the remaining lifetime of the instrument.
- EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that RECL expects to be owed at the time of default.
- LGD represents RECL's expectation of loss given that a default occurs. LGD is expressed in percentage and it shows the proportion of the amount that will actually be lost post recoveries in case of a default.

V. Determination of Probability of Default (PD)

RECL has analysed the available annual rating transition matrix published by credit rating agencies to arrive at annual transition matrix based PD. This annual transition matrix was extrapolated to arrive at the lifetime probability of default of various rating grades by loan tenure / maturity profile i.e. lifetime PD. However, for State Distribution Companies (DISCOMs), the Company adopts the ratings by the Ministry of Power as and when they are updated.

VI. Loss Given Default (LGD) computation model

Based on the historical trend, research and industry benchmarking, RECL has constructed a LGD model. Factors reviewed in the LGD model include Project cost per unit, PPA status, FSA status etc. Based on internal research RECL has benchmarked these factors for Thermal, Renewable in Private Sector. In case of Private sector borrowers, the realizable value of the assets were arrived at using suitable assumptions, including valuation on outcome of the resolution process etc., to arrive at LGD. For State Government and Public sector projects, RECL has factored in the state support and assumed that the State/Central governments would step in to repay debt obligations of the state utilities as witnessed in the past.

VII. Key assumptions used in measurement of ECL

a) RECL considers the date of initial recognition as the base date from which significant increase in credit risk is determined.
b) EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that RECL expects to be owed at the time of default.

VIII. Collateral and other credit enhancements

RECL employs a range of policies and practices to mitigate credit risk. The most common of these is accepting collateral for funds disbursed. RECL has internal policies on the acceptability of specific classes of collateral or credit risk mitigation. The principal collateral types for loans and advances are:

- Mortgage of Immovable properties
- Hypothecation of Moveable property
- Assignment of project contract documents
- Pledge of instruments through which promoters' contribution is infused in the project
- Pledge of Promoter Shareholding
- Corporate and personal Guarantee of Promoters

46.1.3 Credit risk analysis for Lending

Operations Exposure to credit risk

For loans recognized in the balance sheet, the gross exposure to credit risk equals their carrying amount. Refer Note 12 'Loans' for Group's exposure to credit risk arising from loans.

For financial guarantee issued, the maximum exposure to credit risk is the maximum amount that the Group would have to pay if the guarantees are called upon. For irrevocable loan commitments, the maximum exposure to credit risk is the full amount of the commitment facilities. Refer Note 52 for exposure of Guarantee and Outstanding Disbursement Commitments.

A. In case of PFC

The credit quality and maximum exposure (principal outstanding) to credit risk based on days past due and year end stage classification of loans is tabulated below:

(₹ in crore)

Days past Due (DPD)	As at 31.03.2024				As at 31.03.2023			
	Stage 1	Stage 2	Stage 3	Total	Stage 1	Stage 2	Stage 3	Total
No overdue	4,34,204.39	441.45*	-	4,34,645.84	3,89,559.28	674.51#	-	3,90,233.79
1-30 days	-	-	-	-	0.07	-	-	0.07
31-60 days	-	30,742.84	-	30,742.84	-	-	-	-
61-90 days	-	-	-	-	-	15,111.70	-	15,111.70
More than 90 days	-	-	16,073.22	16,073.22	-	650.51@	16,501.65	17,152.16
Total	**4,34,204.39**	**31,184.29**	**16,073.22**	**4,81,461.90**	**3,89,559.35**	**16,436.72**	**16,501.65**	**4,22,497.73**
Impairment Loss Allowance	3,732.95	175.83	11,962.53	15,871.31	2,893.68	1,182.54	11,999.38	16,075.60

Pending transfer of ownership, the account has been classified as Stage III

* classified in Stage-II pursuant to resolution plan implemented without change in ownership.

@ Refer Note 46.1.10

B. In respect of RECL

Credit Risk Exposure in respect of the borrowers with different credit ratings is as under

(₹ in crore)

Credit Risk Category (Internal/ Mapped Ratings)	As at 31.03.2024				As at 31.03.2023			
	Stage 1	Stage 2	Stage 3	Total	Stage 1	Stage 2	Stage 3	Total

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

46.1.4 Concentration of credit risk

Credit concentration risk refers to risk associated with large credit/investment exposure to a single company or a group of companies based on its ownership, sector, region etc. that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions, with the potential to adversely affect lender's core operations.

The following table sets out an analysis of risk concentration of overall loan portfolio of PFC and its subsidiary, RECL on the basis of similar risk characteristics:

(₹ in crore)

Particulars	As at 31.03.2024		As at 31.03.2023	
	Principal outstanding	Impairment loss allowance*	Principal outstanding	Impairment loss allowance*
Concentration by ownership				
Loans to state sector (i.e. entities under the control of state and /or central government)	8,44,163.65	5657.78	7,42,981.50	5,828.25
Loans to private sector	1,46,660.02	22,626.03	1,14,518.50	24,526.97
Total	**9,90,823.67**	**28,283.81**	**8,57,500.00**	**30,355.22**

*including impairment loss allowance on Letter of Comfort (LoC) of ₹ 80.65 Crore. (As at 31.03.2023 ₹ 66.80 Crore.)

Loans to state sector are well diversified as these are extended to multiple entities under the control of various State Governments and Central Government. The Companies considers that these loans have a low credit risk in comparison to lending to private sector mainly due to low default / loss history in state sector and availability of government guarantee in certain loans. Presence of Government interest in these projects also lowers the risk of non-recoverability of dues.

Further, the Companies have a lending portfolio comprising of loans to generation, renewable, transmission and distribution power projects spread across diverse geographical areas.

(₹ in crore)

Particulars	As at 31.03.2024		As at 31.03.2023	
	Principal outstanding	Impairment loss allowance*	Principal outstanding	Impairment loss allowance*
Concentration by schemes–				
Generation	3,17,213.88	21,202.09	3,42,425.28	22,913.72
Renewable	99,178.38	3,040.71	77,270.92	3,426.45
Transmission	83,845.58	318.45	79,173.24	404.07
Distribution	4,14,955.99	3,407.25	3,40,947.29	3,492.22
Others	75,629.84	315.31	17,683.27	118.76
Total	**9,90,823.67**	**28,283.81**	**8,57,500.00**	**30,355.22**

*including impairment loss allowance on Letter of Comfort (LoC) and Guarantee of ₹ 80.65 Crore. (as at 31.03.2023 ₹ 66.80 Crore.)

The exposure to various projects and borrowers is constantly monitored in line with the Credit Concentration Norms applicable to the Companies in the Group.

46.1.5 Details of Stage wise Principal outstanding and Impairment loss Allowance in respect of PFC & RECL:

(₹ in crore)

Particulars	As at 31.03.2024			As at 31.03.2023		
	Principal Outstanding	Impairment loss allowance*	%	Principal Outstanding	Impairment loss allowance*	%
Stage 1	9,10,756.18	6,499.95	0.71	7,98,755.96	6,415.49	0.80
Stage 2	50,183.94	367.53	0.73	27,350.31	1,420.84	5.19
Stage 3	29,883.55	21,416.33	71.67	31,393.73	22,518.89	71.73
Total	**9,90,823.67**	**28,283.81**	**2.85**	**8,57,500.00**	**30,355.22**	**3.54**

*including impairment loss allowance on Letter of Comfort (LoC) and Guarantee of ₹ 80.65 Crore. (as at 31.03.2023 ₹ 66.80 Crore.)

46.1.6 Details of Stage wise movement of Principal outstanding and Impairment loss Allowance:

The following tables explain the changes in the loans and the corresponding impairment loss allowance (including impairment loss allowance on Letter of Comfort and Guarantees) in respect of PFC & RECL between the beginning and the end of the reporting period:

(₹ in crore)

FY 2023-24	Stage 1		Stage 2		Stage 3		Total

46.1.8 Write off of Loan Assets

PFC and RECL writes off financial assets, in whole or in part in line with the write off policy of the respective companies, when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include ceasure of enforcement activity or where the Company's recovery method is foreclosing on collateral and the value of collateral is such that there is no reasonable expectation of recovery in full. The waiver/write off is done in whole or in part as per the restructuring/settlement/resolution process.

46.1.9 Policy for sale out of amortised cost business

PFC & RECL does not resort to the sale of financial assets, in ordinary course of business. However, the respective companies have approved policies that they may proceed for resolution of stressed assets by either restructuring, change of ownership, settlement or otherwise. The assets are then assessed for derecognition as per Ind AS 109 'Financial Instruments'

46.1.10 Disclosure in respect of accounts that are beyond 90 days overdue but not treated as credit impaired:

Particulars	As at 31.03.2024	As at 31.03.2023
Number of Borrowers	-	1
Amount of loan outstanding (₹ in crore)	-	650.51
Amount overdue* (₹ in crore)	-	160.91
Amount of Impairment Loss allowance (₹ in crore)	-	422.68

*excluding overdue interest of Nil as at 31.03.2024 (As at 31.03.2023 ₹ 186.06 crore).

As at 31.03.2023, Pursuant to Ad-interim order from Hon'ble High Court(s) one borrower account had not been classified as Credit impaired. During FY 2023-24, the borrower account was upgraded to Stage 1 on implementation of resolution plan. As at 31.03.2024, there is no borrower account beyond 90 days overdue which has not been treated as credit impaired.

46.1.11 In accordance with Master Direction- Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 as amended from time to time, NPA ratios duly considering the loans which would have been otherwise required to be classified as NPA as per RBI norms is as under:

NPA ratios duly considering the loans which would have been otherwise required to be classified as NPA as per RBI norms is as under:

46.1.13 Expected Credit Loss for Trade Receivables

A. In respect of RECL

RECL provides for lifetime credit losses in respect of trade receivables of RECPDCL, one of the subsidiaries of RECL using simplified approach under ECL method:

(₹ in crore)

Particulars	Less than 1 year	1 year- 2 year	2 year- 3 year	More than 3 year	Total
As at 31.03.2024					
Gross carrying value	115.13	50.10	8.80	39.46	213.49
Expected loss rate	7.67%	24.84%	46.97%	86.82%	27.95%
Expected credit loss (provision)	8.83	12.45	4.13	34.26	59.67
Carrying amount (net of impairment)	106.30	37.65	4.67	5.20	153.82
As at 31.03.2023					
Gross carrying value	128.73	21.32	16.30	56.35	222.70
Expected loss rate	19.94%	62.85%	90.00%	99.31%	49.62%
Expected credit loss (provision)	25.67	13.40	14.67	55.96	109.70
Carrying amount (net of impairment)	103.06	7.92	1.63	0.39	113.00

B. In respect of PFCCL

The trade receivables of PFCCL comprises mainly amount recoverable from the State Government entities. PFCCL considers that the exposure to state sector have a low credit risk mainly due to low default/ loss history. Further, the presence of Government interest lowers the risk of non-recoverability.

Subsequent to initial recognition, PFCCL recognises expected credit loss (ECL) on financial assets especially on trade receivables other than related parties. ECL is recognised at 100% on the trade receivables due for more than 2 years and 50% on the trade receivables due for more than one year and less than 2 years.

Ageing analysis of Trade receivables is as follows:

(₹ in crore)

Particulars	0 to 1 year	1 to 2 year	More than 2 years	Total
Gross carrying amount as at 31.03.2024	22.39	10.78	20.96	54.13
Gross carrying amount as at 31.03.2023	43.50	2.87	21.06	67.43

Movement in the expected credit loss allowance

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
Opening Balance	9.25	8.96
Impairment allowance reversal	(1.57)	-
Impairment losses recognised	5.21	0.29
Closing Balance	**12.89**	**9.25**

C. In respect of PFC

Movement in the expected credit loss allowance

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
Opening Balance	0.81	0.81
Impairment allowance reversal	-	-
Impairment losses recognised	-	-
Closing Balance	**0.81**	**0.81**

46.2 Liquidity Risk

Liquidity risk is the risk that the Group doesn't have sufficient financial resources to meet its obligations as and when they fall due. The risk arises from the mismatches in the timing of the cash flows which are inherent in all financing operations and can be affected by a range of company specific and market wide events.

46.2.1 The following table analyses the maturity pattern of items of financial liabilities (debt securities, borrowings and subordinated liabilities) by remaining maturity of contractual principal and interest on an undiscounted basis:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2024

Interest	6,780.13	16,949.13	1,196.47	**24,925.73**
Total	**2,10,566.93**	**5,81,451.06**	**3,31,536.58**	**11,23,554.57**
As at 31.03.2023				
Domestic borrowings				
Principal	90,123.05	259,152.30	229,514.69	**578,790.04**
Interest	41,565.92	114,557.45	67,338.04	**223,461.42**
Foreign Currency borrowings				
Principal	40,666.15	78,286.85	39,465.75	**158,418.75**
Interest	5,948.78	13,717.92	2,684.65	**22,351.35**
Total	**178,303.90**	**465,714.52**	**339,003.13**	**983,021.56**

*In the above table, bonds with put & call option have been shown considering the earliest exercise date. Further, the commercial papers and zero-coupon bonds have been shown at the maturity value.

46.2.2 The following table analyses the maturity pattern of Derivative financial liabilities:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2024				
Forward	-	-	-	-
Option/ swaps	385.91	584.69	142.83	**1,113.43**
Total	**385.91**	**584.69**	**142.83**	**1,113.43**
As at 31.03.2023				
Forward	21.06	0.00	0.00	**21.06**
Option/ swaps	64.24	310.18	605.79	**980.21**
Total	**85.30**	**310.18**	**605.79**	**1,001.27**

* The above table details Group's liquidity analysis for its derivative financial liabilities based on MTMs received from counterparties. Maturity buckets are as per the remaining tenor of the respective derivative instrument.

46.2.3 Significant cash flows required for meeting the financial liabilities shall be funded through cash flows (principal and interest repayments) generated from loan assets. The following table analyses the maturity pattern of loans by remaining maturity of contractual principal and interest on an undiscounted basis:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2024				
Loan Assets				
Principal	1,55,763.97	3,55,093.36	4,58,550.01	**9,69,407.34**
Interest	89,602.19	2,53,990.58	2,08,779.64	**5,52,372.41**
Total	**2,45,366.16**	**6,09,083.94**	**6,67,329.65**	**15,21,779.75**
As at 31.03.2023				
Loan Assets				
Principal	1,16,979.37	3,08,341.85	4,09,659.87	8,34,981.09
Interest	76,654.89	2,22,171.89	1,73,464.65	4,72,291.43
Total	**1,93,634.26**	**5,30,513.74**	**5,83,124.52**	**13,07,272.52**

* The principal cash flows net of impairment loss allowance relating to Stage 3 assets have been considered in over 5 years bucket irrespective of the maturity date.

46.2.4 Liquidity Risk Management

In order to effectively manage liquidity risk, the Group endeavours to maintain sufficient cash flows to cover maturing liabilities and projected disbursements without incurring unacceptable losses or risking damage to its reputation and also endeavours to maintain a diversified fund base by raising resources through different funding instruments. The adequacy of the Group's liquidity position is determined keeping in view the current liquidity position; anticipated future funding needs; present and future earning capacity; and available sources of funds.

The Companies in the Group manages its day to day liquidity to ensure that they have sufficient liquidity to meet their financial obligation as & when due.

Further, for overall liquidity monitoring and supervision, PFC and RECL has their respective Asset Liability Committee (ALCO). The ALCO tracks the liquidity risk by analysing the maturity or cash flow mis-matches of its financial assets and liabilities.

46.2.5 Financing arrangements

A. In respect of PFC

PFC has access to cash credit, overdraft, line of credits and working capital demand loans from banks to meet unanticipated liquidity need. Further, PFC has the highest Domestic Credit Rating of AAA, thereby enabling it to mobilize funds from the domestic market within a short span of time. PFC has access to the following undrawn borrowing facilities:

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
CC/ OD/ LoC / WCDL limits	11,888.52	8,116.17

B. In respect of RECL

RECL had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
Expiring within one year - Floating Rate	11,813.99	13,364.88
Expiring beyond one year -Floating Rate	386.44	1,393.58

46.2.6 RBI vide its Master Directions applicable for NBFCs prescribe Liquidity Coverage Ratio (LCR) framework for all non-deposit taking NBFCs with asset size of more than ₹ 5,000 crore. The guidelines aim to maintain a liquidity buffer in terms of LCR by ensuring that they have sufficient High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for next 30 days. PFC and its subsidiary, RECL maintains sufficient liquidity buffer in the form of High-Quality Liquid Assets (HQLA) as prescribed.

46.3 Market Risk – Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument, denominated in currency other than functional currency, will fluctuate because of changes in foreign exchange rates.

46.3.1 The Company and its subsidiary, RECL is exposed to foreign currency risk mainly on its borrowings denominated in foreign currency. The carrying amount of the foreign currency denominated borrowings of these companies is as follows:

Description	As at 31.03.2024		As at 31.03.2023	
	Crore in respective currency	₹ in Crore	Crore in respective currency	₹ in Crore
USD Loans	**1,889.00**	**1,57,493.03**	**1,585.32**	**130,340.51**
- Hedged	1,816.20	1,51,423.68	1,304.70	107,268.39
- Unhedged	72.80	6,069.35	280.62	23,072.12
Euro Loans	**99.12**	**8,942.57**	**162.13**	**14,527.63**
- Hedged	60.40	5,449.37	123.99	11,110.66
- Unhedged	38.72	3,493.20	38.14	3,416.97
JPY Loans	**54,361.58**	**29,947.79**	**19,073.36**	**11,787.34**
- Hedged	53,997.23	29,747.07	9,925.81	6,134.16
- Unhedged#	364.35	200.72	9,147.55	5,653.18
SGD Loans	**28.53**	**1,761.13**	**28.53**	**1,763.27**
- Hedged	28.53	1,761.13	28.53	1,763.27
- Unhedged	-	-	-	-
Total		**1,98,144.52**		**158,418.75**
- Hedged		1,88,381.25		126,276.48
- Unhedged		9,763.27		32,142.27

#includes JPY loan liability hedged for one leg (USD/JPY) Nil as at 31.03.2024 (As at 31.03.2023 - ₹ 5,653.18 crore)

46.3.2 Foreign currency risk monitoring and management

PFC & RECL have their respective Board approved risk management policies to manage risks associated with foreign currency borrowings. These policies prescribe appropriate systems and controls to identify, measure and monitor the foreign currency risks through committees comprising of senior level officials. Derivative transactions are done to cover exchange/interest rate risks through various instruments like foreign currency forwards contracts, currency options, principal only swaps, and IRS and forward rate agreements. These derivative transactions are done for hedging purpose and not for trading or speculative purpose.

46.3.3 **Foreign Currency Sensitivity Analysis**

The table below represents the impact on Group's total equity ((Gain / (Loss)) for 5% change in foreign currency exchange rate against INR on unhedged portfolio of outstanding foreign currency borrowings:

(₹ in crore)

Foreign Currency	As at 31.03.2024		As at 31.03.2023	
Liabilities	Decrease	Increase	Decrease	Increase
USD	290.55	(290.55)	1,050.14	(1,050.14)
Euro	174.06	(174.06)	169.06	(169.06)
JPY	10.04	(10.04)	282.66	(282.66)
SGD	-	-	-	-
Total	**474.65**	**(474.65)**	**1,501.86**	**(1,501.86)**

46.4 Market Risk - Interest Rate Risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in interest rates. Interest rates are dynamic and dependent on various internal and external factors including but not limited to RBI policy changes, liquidity in the market, movement of external benchmarks such as AAA bond/ G-Sec yields/ LIBOR etc. The impact may be beneficial or adverse depending on the direction of change in interest rates and whether assets or liabilities re-price faster.

A. In respect of PFC

(i) Interest rate risk is managed with the objective to control market risk exposure while optimizing the return.

The Asset Liability Committee (ALCO) tracks the interest rate risk through the gap analysis i.e. by analysing the mismatches between Rate Sensitive Assets and Rate Sensitive Liabilities. For gap analysis, the interest rate sensitivity statement prescribed by RBI is used, wherein the gap is measured between the Rate Sensitive Assets and Rate Sensitive Liabilities which are distributed based on the maturity date or the re-pricing date whichever is earlier.

Further, for managing the interest rate risk, PFC reviews its interest rates periodically based on prevailing market conditions, borrowing cost, yield, spread, competitors' rates, etc. The asset mix is managed by PFC through its interest rate & credit policies which inter-alia covers aspects like reset periods; repayment periods, prepayment premium etc. The liabilities are managed keeping in view factors like cost, market appetite, timing, market scenario, ALM gap position etc. PFC also enters into various derivatives transactions like interest rate swaps, cross-currency interest rate swaps to hedge its interest rate risk.

(ii) Interest Rate Sensitivity Analysis

As per RBI Guidelines, Earning at Risk (EaR) is an important focal point for interest risk management. For interest rate sensitivity analysis, the impact of movement of interest rates has been measured on the Earning at Risk derived from the gap statements. The impact has been worked out considering 25 basis upward/downward shock to interest rates over a one-year period, assuming a constant balance sheet. The analysis shows that if rates are increased/decreased by 25 bps, the impact on EaR will be (+/-) ₹ 315.68 crore. (As at 31.03.2023 (+/-) ₹ 194.52 crore).

The analysis assumes that the Rate Sensitive Assets and Rate Sensitive Liabilities are being re-priced at the same time. Further, the analysis considers the earliest/first re-pricing date of the Rate Sensitive Assets and Rate Sensitive Liabilities.

Note: A 25 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

(iii) Disclosures in respect of Interest Rate Benchmark Reform

PFC has variable interest rate borrowings whose interest rate is based on interest rate benchmarks. Also, to hedge the variability of cash flows on these borrowings, PFC has entered into multiple interest rate swaps with key terms (principal amount, payment dates, repricing dates, currency) that match those of the debt on which it pays a fixed rate and receives a variable rate Pursuant to successful transition to alternative benchmark rate, significant interest rate benchmark used in the Company's borrowings is Overnight Compounded SOFR (Secured Overnight Financing rate).

a) Exposure directly affected by the interest rate benchmark reform

The total amount of exposure that is directly affected by Interest Rate Benchmark Reform (IBOR) i.e. after June 2023 is USD 654.81 million (As at 31st March, 2023: USD 656.24 million).

Following is the detail of the foreign currency borrowings which will be impacted based on LIBOR transition from 6 month USD LIBOR as made effective after June 2023:-

Benchmark	As at 31.03.2024				As at 31.03.2023			
	Amount in respective currency (million)	Amount (₹in crores)	Of which, have yet to transition to an alternative benchmark rate		Amount in respective currency (million)	Amount (₹ in crores)	Of which, have yet to transition to an alternative benchmark rate	
			Amount in respective currency (million)	Amount (₹ in crores)			Amount in respective currency (million)	Amount (₹ in crores)
Non-derivative financial liabilities								
6 month USD LIBOR	-	-	-	-	656.24	5,395.44	650.00	5,344.10
Overnight Compounded SOFR	654.81	5,459.44	NA	NA	-	-	-	-
Derivatives								
6 month USD LIBOR	-	-	-	-	650.00	5,344.10	650.00	5,344.10
Overnight Compounded SOFR	650.00	5,419.30	NA	NA	-	-	-	-

(ii) Managing the process of transition to alternative benchmark rates

PFC has in place a Board approved Policy for undertaking Libor Transition namely "Framework for transition from London Inter Bank Offered Rate (LIBOR) to Alternative Reference Rate (ARR)'. The framework inter-alia covers aspects such as assessment of exposure linked to LIBOR, identification of risk arising out of LIBOR transition, contracts remediation, operational readiness, governing structure, regulatory compliance & reporting, etc. Further, PFC undertook all the transition activities as per the process/ guidelines detailed in the policy. The process of transition from 6 month USD LIBOR to Alternative Reference Rate (i.e. SOFR) has been duly completed within available timelines.

(iii) Significant assumptions for exposure affected by the interest rate benchmark reform

Ind AS 109 provides temporary exceptions to all the hedging relationships directly impacted by the interest rate benchmark reform. The alternative reference rate / benchmarks for the LIBOR linked loans and their derivatives are yet to be agreed with the lenders and the derivative bankers. However, it has been assumed that as a result of such reform there shall be no change in the relationship of the hedged items, hedged instruments and its corresponding hedge effectiveness.

B. In respect of RECL

(i) RECL's borrowings are exposed to interest rate risk with floating interest rates linked to USD LIBOR (London Inter Bank Offered Rate), SORA (Singapore Overnight Rate Average), TONAR (Tokyo Overnight Average Rate), SOFR (Secured Overnight Financing Rate), T-Bills, Repo Rate etc. RECL manages its interest rate risk through various derivative contracts like interest rate swap contracts, forward interest rate contracts to minimize the risk of fluctuation in interest rates. RECL also uses cross-currency interest rate swaps as a cost-reduction strategy to benefit from the interest differentials in different currencies.

The table below shows the overall exposure of RECL to the liabilities linked with floating interest rates as at 31.03.2024 is as under:

(Foreign Currency & INR Equivalent in ₹ crore)

Currency	As at 31.03.2024			As at 31.03.2023		
	Floating Interest Rate Exposure	Hedged through Derivatives	Unhedged Exposure	Floating Interest Rate Exposure	Hedged through Derivatives	Unhedged Exposure
INR Borrowings	**61,162.28**	**-**	**61,162.28**	**62,798.20**	**-**	**62,798.20**
USD $	561.11	521.80	39.32	506.20	189.20	317.00
INR Equivalent	**46,782.38**	**43,504.51**	**3,277.87**	**41,618.19**	**15,555.43**	**26,062.76**
JPY ¥	27,320.68	-	27,320.68	5,835.28	1,032.72	4,802.56

EURO €	60.40	-	60.40	60.40	-	60.40
INR Equivalent	**5,449.37**	**-**	**5,449.37**	**5,412.51**	**-**	**5,412.51**
SGD $	28.53	7.21	21.32	28.53	7.21	21.32
INR Equivalent	**1,761.13**	**444.93**	**1,316.2**	**1,763.27**	**445.47**	**1,317.80**
Total INR Equivalent	**1,30,206.12**	**43,949.44**	**86,256.68**	**1,15,198.37**	**16,639.12**	**98,559.25**

RECL also uses Interest Rate Swaps to manage fair value risk on interest rate borrowings to mitigate the interest rate sensitivity mismatch. Through such swaps, the fixed rate borrowings amounting to ₹ 15,950.70 crore as on 31st March 2024 (Previous year ₹ 15,950.70 crores) have been converted into floating rate borrowings through the use of MIBOR- linked Overnight Indexed Swaps.

RECL's lending portfolio carries interest at semi-fixed rate i.e. fixed rate of interest with 1/3/6/12/36/30/120 months reset option with the borrower. RECL reviews its lending rates periodically based on prevailing market conditions, borrowing cost, yield, spread, competitors' rates, sanctions and disbursements etc. In order to manage pre-payment risks, RECL charges pre-payment premium from borrowers in case of pre- payment of loan. The interest rate risk is managed by the analysis of interest rate sensitivity gap statements and by evaluating the creation of assets and liabilities with a mix of fixed and floating interest rates.

PREM GUPTA & CO. Chartered Accountants New Delhi

पावर फाइनेंस कॉर्पोरेशन लिमिटेड Power Finance Corporation Limited "ऊर्जानिधि" 1, बाराखंबा लेन, कनॉट प्लेस, "URJANIDHI" 1, Barakhamba Lane, Connaught Place New Delhi-110 001 नई दिल्ली-110 001

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

RECL is exposed to interest rate risk on following loan assets which are at semi-fixed rates:

(₹ in crore)

Description	As at 31.03.2024	As at 31.03.2023
Rupee Loans	4,96,192.74	4,31,992.47

(ii) Sensitivity Analysis

The table below represents the impact on P&L (Gain / (Loss)) for 50 basis points increase or decrease in interest rate on RECL's floating rate assets and liabilities on the unhedged exposures:

(₹ in crore)

Particulars	As at 31.03.2024		As at 31.03.2023	
	Increase	(Decrease)	Increase	(Decrease)
Floating Rate Loan Liabilities	(322.74)	322.74	(368.77)	368.77
Interest Rate Swaps	(59.68)	59.68	(59.68)	59.68
Floating/ semi-fixed Rate Loan Assets	1,856.55	(1,856.55)	1,616.34	(1,616.34)

*Holding all other variables constant

The above sensitivity analysis has been prepared assuming that the amount outstanding at the end of the reporting period remains outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

(iii) Disclosures in respect of Interest Rate Benchmark Reform (IBOR)

RECL has variable interest rate borrowings with interest rates linked with different benchmarks. Such interest rate benchmarks for foreign currency borrowings include 3/6 Months' USD LIBOR (London Inter Bank Offered Rate), 3/6 Months' EURIBOR (Euro Inter Bank Offered Rate), Overnight SOFR (Secured Overnight Financing Rate), 3/6 Months' Term SOFR, SORA (Singapore Overnight Rate Average), TONAR (Tokyo Overnight Average Rate), SOFR (Secured Overnight Financing Rate) etc. The summary of such borrowings as on March 31, 2024 as per the contracted interest rate benchmark is as below:

Benchmark	As at 31-03-2024		As at 31-03-2023	
	Amount (₹ in Crore)	Amount (USD Mn Equivalent)	Amount (₹ in Crore)	Amount (USD Mn Equivalent)
3M USD LIBOR*	-	-	1,233.26	150.00
6M USD LIBOR*	-	-	29,080.13	3,537.00
3M Term SOFR	3,084.83	370.00	6,988.44	850.00
6M Term SOFR	2,427.46	291.15	822.17	100.00
Overnight SOFR	41,270.08	4,950.00	3,494.22	425.00
3M EURIBOR	2,293.28	275.06	3,595.53	437.32
6M EURIBOR	3,156.10	378.55	3,134.74	381.28
Overnight TONA	15,050.96	1,805.24	3,606.20	438.62
Overnight SORA	1,761.12	211.23	445.48	54.18
Total	**69,043.83**	**8,281.23**	**52,400.17**	**6,373.40**

* 3M USD LIBOR & 6M USD LIBOR have ceased to be published after 30th June 2023 as announced by the UK Financial Conduct Authority (FCA) on 5 March.

(a) Exposure directly affected by the Interest Rate Benchmark Reform (IBOR)

While some of the floating rate borrowings of the Company are already under the new benchmarks, some of the borrowings were linked with the LIBOR benchmark rates i.e. 3M USD LIBOR and 6M USD LIBOR which have ceased to be published during the current financial year. The total amount of exposure that was directly affected by the Interest Rate Benchmark Reform (IBOR) as on March 31, 2023 was ₹ 28,159.29 crores (USD 3.425 Billion) and the nominal amount of the derivative exposure linked with such liabilities and accounted for under hedge accounting was ₹ 4,110.85 crores (USD 0.500 Billion). As on the Reporting date, there are no borrowings linked with the LIBOR benchmark rates which have ceased to be published.

(b) Managing the process to transition to alternative benchmark rates

Pursuant to the Interest Rate Benchmark Reform, LIBOR has been replaced with alternative Risk-Free Rates (RFRs).SOFR (Secured Overnight Financing Rate) is the replacement for USD LIBOR, while TONA (Tokyo Overnight Average Rate) has replaced JPY LIBOR. ISDA (International Swaps and Derivatives Association), the globally recognized statutory body governing the global derivative deals, had come up with the ISDA 2020 IBOR Fallbacks Protocol (commonly referred to as Fallback Protocol) to move all the legacy contracts to new benchmarks. The Company had adhered to the Fallbacks Protocol under which the fallbacks for the various LIBOR benchmarks automatically became applicable to the existing derivative trades with all counterparties.

With respect to the term loans, REC has already transitioned to the new benchmark rates in discussion with the respective lenders and as on the Reporting date, there are no floating rate borrowings linked with the LIBOR benchmark rates which have ceased to be published.

(c) Significant Assumptions for exposures affected by the Interest Rate Benchmark Reform

Ind AS 109 provides temporary exceptions to all the hedging relationships directly impacted by the Interest Rate Benchmark Reform. While the benchmarks for the underlying loan are yet to be agreed with the lenders, it has been assumed that there will be no change in the alternative benchmark rates of the underlying loan and the derivative contracts and hedge effectiveness is not altered as a result of such reform.

46.5 Market Risk - Price risk

(a) The Group is exposed to price risks arising from investments in listed equity shares. Refer Note 13A 'Investments' for Group's exposure to the same.

(b) Sensitivity Analysis

The table below represents the impact on Consolidated Statement of Profit and Loss for 5% increase or decrease in the respective prices on Group's equity investments, outside the Group:

(₹ in crore)

Particulars	As at 31.03.2024		As at 31.03.2023	
	Increase	(Decrease)	Increase	(Decrease)
Impact on P&L	13.52	(13.52)	4.84	(4.84)
Impact on OCI	125.83	(125.83)	59.86	(59.86)

47 Hedge Accounting

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Consolidated Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Consolidated Statement of Profit and Loss on a systematic basis.

The table below provides Movement in Effective Portion of Cash Flow Hedges and Cost of Hedging Reserve for PFC and subsidiary RECL:

(₹ in crore)

Sr. No.	Particulars	FY 2023-24	FY 2022-23
	Effective Portion of Cash flow Hedges		
(a)	**Opening balance of Reserves (net of tax)**	**1,092.25**	**394.55**
(b)	Changes in intrinsic value of options contracts	(2,621.09)	7,502.40
(c)	Changes in fair value of PoS/Forwards/IRS contracts	1,253.85	674.18
(d)	Amount reclassified from OCI to P&L	(2,111.32)	(7,244.23)
(e)	**Net amount recognised in OCI during the year (b + c + d)**	**(3,478.56)**	**932.35**
(f)	Deferred Tax on (e) above	875.49	(234.65)
(g)	**Net amount recognised in OCI during the year (Net of Tax) (e + f)**	**(2,603.07)**	**697.70**
(h)	**Closing balance of Reserves (net of Tax) (a + g)**	**(1,510.82)**	**1,092.25**
	Cost of Hedging Reserve		
(a)	**Opening balance of Reserves (net of tax)**	**(2,609.37)**	**(690.70)**
(b)	Changes in deferred time value of options/PoS/IRS contracts/Forwards	917.19	(5,453.45)
(c)	Amortisation of time value	3,842.28	2,889.49
(d)	**Net amount recognised in OCI during the year (b + c)**	**4,759.47**	**(2,563.96)**
(e)	Deferred Tax on (d) above	(1,197.86)	645.29
(f)	**Net amount recognised in OCI during the year (Net of Tax) (d + e)**	**3,561.61**	**(1,918.67)**
(g)	**Closing balance of Reserves (net of Tax) (a + f)**	**952.24**	**(2,609.37)**

A. In respect of PFC

(i) Hedge Effectiveness

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. The Company applies the following effectiveness testing strategies:

a) For derivatives other than options that exactly match the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method (where principal terms of the hedging instrument and the hedged item are same).

b) For option structures, the Company analyses the relationship of changes in value of the hedging instrument and hedged item using regression analysis based dollar offset method.

(ii) The effects of hedging instruments designated as Cash-flow hedge on Consolidated Balance Sheet:

Sr. No.	Particulars		Nominal Amount (₹ in crore)	Carrying Amount[1]		Date of maturity	Weighted Average Rate / Strike Price

B. In respect of RECL

Hedge ineffectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. RECL applies the following effectiveness testing strategies:

(i) For cross currency swaps, principal only swaps and interest rate swaps that exactly match the terms of the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method.
(ii) For other interest rate swaps (in cases of late designation), the Company uses dollar offset method using a hypothetical derivatives, dollar offset method is a quantitative method that consists of comparing the change in fair value or cash flows of the hedging instrument with the change in fair value or cash flows of the hedged item attributable to the hedged risk.
(iii) For option structures, RECL analyses the behaviour of the hedging instrument and hedged item using regression analysis based dollar offset method.

RECL has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk and notional amount of the hedging instruments are identical to the hedged items.

(i) Effects of hedge accounting **(₹ in crore)**

(ii) Effects of Cash Flow hedge accounting on Consolidated Statement of Profit and Loss:

(₹ in Crore)

Sr. No.	Type of hedge	Change in value of hedging instrument recognised in other comprehensive income	Hedge ineffectiveness recognised	Amount reclassified from cash flow hedge reserve	Line item affected on reclassification
As at 31.03.2024					
1.	Currency risk and interest rate risk	385.09	-	(479.51)	Net Translation / Transaction Exchange Loss / (Gain)
				(1,166.31)	Finance Costs
As at 31.03.2023					
1.	Currency risk and interest rate risk	1,997.43	-	(4,995.73)	Net Translation / Transaction Exchange Loss / (Gain)
				(158.91)	Finance Costs

(iii) Fair Value Hedges

At 31st March 2024, Company has outstanding interest rate swap agreements of ₹ 15,970.50 crores (Previous year ₹ 15,950.70 crores) wherein the Company receives a fixed rate of interest and pays interest at a variable rate on the notional amount. Such agreements are being used to hedge the exposure to the changes in fair value of fixed rate borrowings.

There is an economic relationship between the hedged item and the hedging instrument as the terms of the interest rate swap match the terms of the fixed rate loan (i.e., notional amount, maturity, payment and reset dates). As such, a hedge ratio of 1:1 for the hedging relationships has been established as the underlying risk of the interest rate swap is identical to the hedged risk component.

The impact of the hedging instrument on the balance sheet is as follows:

(₹ in Crore)

Particulars	Fair value hedge	Notional amount	Carrying amount *	Line item in balance sheet where hedging instrument is disclosed	Changes in fair value for calculating hedge ineffectiveness
As at 31-03-2024	- Interest rate swap	15,950.70	(221.33)	Derivative financial instruments	57.69
As at 31-03-2023	- Interest rate swap	15,950.70	(279.02)	Derivative financial instruments	(167.10)

* Carrying amount here is exclusive of the interest receivable under such derivative contract as on reporting date

PREM GUPTA & CO. Chartered Accountants FRN No. 000125N New Delhi

पावर फाइनेंस कॉर्पोरेशन लिमिटेड Power Finance Corporation Limited "ऊर्जानिधि" 1, बाराखंबा लेन, कनॉट प्लेस, "URJANIDHI" 1, Barakhamba Lane, Connaught Place, New Delhi-110 001 नई दिल्ली-110 001

CHOKSHI & CHOKSHI LLP FRN 101872W/W100045

The impact of the hedged item on the balance sheet is as follows:

(₹ in Crore)

Particulars	Fair value hedge	Carrying amount	Accumulated fair value adjustments	Line item in the balance sheet in which the hedged item is included	Change in value used for calculating hedge ineffectiveness
As at 31-03-2024	- Subordinated Liabilities	2091.95	(143.77)	Subordinated Liabilities	34.39
	- Institutional bonds	11,960.91	(77.56)	Debt Securities-Institutional Bonds	23.30
As at 31-03-2023	- Subordinated Liabilities	4,748.24	(178.16)	Subordinated Liabilities	(49.83)
	- Institutional bonds	11,950.08	(100.86)	Debt Securities-Institutional Bonds	(117.27)

The decrease in fair value of the interest rate swap of ₹ 57.69 crores (Previous year ₹ 167.10 crores) has been offset with a similar gain on the respective subordinated liabilities and debt securities.

48 Fair Value Measurements

48.1 Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

(₹ in crore)

Sr. No.	Financial asset/ Financial Liability - Recurring fair value	Fair Value as at 31.03.2024	Fair Value as at 31.03.2023	Fair value hierarchy (Refer Note 6.1)	Valuation technique(s) & Key input(s)
1	**Quoted Equity investments** (Refer Note 13.3)				
	- PTC India Limited	223.14	102.06	Level 1	Quoted market price

Unrealized gains/(loss) on assets held at the end of the year	9.26	-	15.70	(199.27)

(1) Forms part of line item 'Interest Income' in the Consolidated Statement of Profit and Loss.

(2) Fair value gain/ (loss) on Investments at FVTOCI forms part of line item 'Net Gain/(Loss) on Fair Value of Equity Instruments' in the Other Comprehensive section of Consolidated Statement of Profit and Loss.

(3) Fair value gain/ (loss) on Investments at FVTPL forms part of line item 'Net Loss/(Gain) on Fair Value changes' in the Consolidated Statement of Profit and Loss.

48.4 Fair Value of financial assets/ liabilities measured at amortised cost:

(₹ in crore)

Asset/Liability	Fair value hierarchy	As at 31.03.2024		As at 31.03.2023	
		Amortized Cost	Fair Value	Amortized Cost	Fair Value
Loans	Level 3	9,69,111.15	9,75,201.63	832,903.36	840,976.30
Investments [a]	Level 1/3	6,124.96	6,120.93	3,159.96	3,176.94
Other financial assets	Level 2	29,885.31	29,880.12	29,834.86	29,841.51
Debt securities[a]	Level 1 / 2	5,60,331.04	552152.40	496,729.38	485,766.39
Borrowings other than debt securities[b]	Level 2	2,88,698.09	2,85,876.75	238,343.00	234,437.30
Subordinated liabilities	Level 2	12,931.93	13,213.58	16,085.14	16,589.24

[a] Includes listed instruments with Level 1 fair value hierarchy
Investment in G-Sec and SDL being fair valued using market price as at reporting date.
Foreign currency Notes (GMTN issuances) being fair valued as per closing prices as per Reuters.

[b] Includes foreign currency loans linked to Floating rate of interest and multilateral agencies loans being valued at par. In accordance with the interest rate benchmark reform, the fair value as at 31st March, 2024 has been arrived at using the alternative benchmark i.e. SOFR (Secured Overnight Financing rate).

(i) The fair value of the above financial assets and financial liabilities have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant input being the discount rate that reflects the credit risk of counterparties except for the cases where quoted market prices are available. These fair values were calculated for disclosure purposes only.

(ii) The carrying amounts of financial assets and financial liabilities other than those shown in the above table are considered to be a reasonable approximation of their fair values.

(v) The interest and/or dividend paid to the Trusts and Key Managerial Personnel are on account of their investments in the debt securities and/or equity shares of the respective Company and the interest and/or dividend paid on such securities is uniformly applicable to all the holders.

(vi) Outstanding balances of Group companies at the year-end are unsecured.

50 Employee Benefits

50.1 Defined contribution plans:

50.1.1 Pension

The Companies in the Group pays fixed contribution to National Pension Scheme (NPS) for its pension obligation towards employees at pre-determined rates into the Tier-I NPS Account (Pension Account) of the employees.

50.1.2 Provident Fund

In respect of PFC

The Company pays fixed contribution on account of provident fund at prescribed rates to a separate trusts, which invests the funds in permitted securities. The trusts have to ensure, a minimum rate of return to the members, as specified by GoI. However, any shortfall for payment of interest to members as per specified rate of return has to be compensated by the Company. The Company estimates that no liability will arise in this regard in the near future and hence, no further provision is considered necessary.

The Company has recognised an expense in the Consolidated Statement of Profit and Loss of ₹ 22.60 Crore (previous year ₹ 17.10 Crore) towards defined contribution plans.

50.2 Defined benefit plans:

50.2.1 Gratuity

The Companies in the Group have a defined gratuity scheme which is managed by a separate trust. Every employee who has rendered continuous service of five years or more is entitled to gratuity at 15 days salary for each completed year of service subject to a maximum of ₹ 0.20 crore on superannuation, resignation, termination, disablement or on death, considering the provisions of the Payment of Gratuity Act, 1972, as amended. The liability for the same is recognised on the basis of actuarial valuation.

50.2.4 Provident Fund

In respect of RECL

The Company pays fixed contribution of Provident Fund at pre-determined rates to a separate registered trust which invests the funds in permitted securities. The trust declares the rate of interest on contribution to the members based upon the returns earned on its investments during the year, subject to minimum interest rate specified by Employees' Provident Fund Organisation. Any shortfall in the specified interest rate and returns earned on investments of the trust, for payment of interest to members, is to be compensated by the Company. The Company started from the FY 2023-24, treating the contribution to the recognised provident fund trust for its employees, as a Defined Benefit Plan instead of Defined Contribution Plan being followed hitherto. As such, there is no financial impact of it on the profit of the Company. The Company's obligation towards provident fund is determined and provided for on the basis of actuarial valuation as per IND AS 19 on Employee Benefits. The details of the fair value of plan assets and obligations are as under :

Particulars	As at 31.03.2024	As at 31.03.2023
a) Present value of Defined benefit obligation	297.79	276.16
b) Fair Value of Plan Assets	298.03	280.99
c) Net Defined Benefit (Asset)/ Liability (a-b)	(0.24)	(4.83)

50.2.5 Risk exposure

Through its defined benefit plans, the Companies in the Group are exposed to a number of risks, the most significant of which are detailed below:

(i) Investment risk/ Asset Volatility Risk

Most of the plan asset investments are in government securities, other fixed income securities with high rating grades and mutual funds. The fair value of these assets is subject to volatility due to change in interest rates and other market & macro-economic factors. There is also a risk of asset liability matching i.e. the cashflow for plan assets does not match with cashflow for plan liabilities.

(ii) Changes in discount rate

The present value of defined benefit plan liabilities is calculated using a discount rate which is determined by reference to government bonds' yields at the end of the reporting period. A decrease (increase) in discount rate will increase (decrease) present values of plan liabilities, although this will be partially offset by an increase in the value of the plans' investments.

(iii) Mortality rate risk/ Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

(iv) Salary escalation risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

(v) Employee Turnover rate/Withdrawal rate

If the actual employee withdrawal rate in the future turns out to be more or less than expected then it may result in increase/decrease in the liability.

50.2.6 Plan Assets

The value of plan assets for each category, are as follows:

(₹ in crore)

Particulars	As at 31.03.2024		As at 31.03.2023	
	Gratuity	PRMS	Gratuity	PRMS
Cash & Cash Equivalents	0.17	5.01	0.27	1.16
State/ Central Government Debt Securities	27.03	82.43	25.71	76.40
Corporate Bonds/ Debentures	21.43	173.97	20.69	161.02
Others	8.51	-	8.30	-
Total	**57.14**	**261.41**	**54.97**	**238.58**

- Actual return on plan assets is ₹ 25.09 crore (previous year ₹ 22.44 crore).

50.2.7 Significant Actuarial Assumptions

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at 31.03.2024 by TransValue Consultants for Companies in the Group. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

The principal assumptions used for actuarial valuation are:-

A. In respect of PFC

Particulars	Gratuity		PRMS		ERS	
	As at 31.03.2024	As at 31.03.2023	As at 31.03.2024	As at 31.03.2023	As at 31.03.2024	As at 31.03.2023
Discount Rate & expected return on plan assets, if funded	7.09%	7.33%	7.09%	7.33%	7.09%	7. 33%
Salary Escalation Rate/ Medical inflation rate	5.00%	6.00%	6.00%	6.00%	5.00%	6.00%
Mortality Rate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate
Withdrawal rate	0.01%	0.01%	0.01%	0.01%	0.01%	0.01%

B. In respect of RECL

Particulars	Gratuity		PRMS		ERS	
	As at 31.03.2024	As at 31.03.2023	As at 31.03.2024	As at 31.03.2023	As at 31.03.2024	As at 31.03.2023
Method used	PUCM					
Discount rate & expected return on plan assets	7.09%	7.31%	7.09%	7.31%	7.09%	7.31%
Future salary escalation/ medical inflation	6.00%	6.00%	5.50%	6.00%	6.00%	6.00%
Expected average remaining working lives of employees (years)	20.07	17.72	20.07	17.72	20.07	17.72

50.2.8 Sensitivity Analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation of PFC & RECL by the amounts shown below:

(₹ in crore)

Particulars	As at 31.03.2024		As at 31.03.2023	
	Increase	Decrease	Increase	Decrease
Discount rate (0.50% movement)				
- Gratuity	(2.17)	2.35	(2.05)	2.21
- PRMS	(15.24)	16.71	(16.72)	17.93
- ERS	(0.56)	0.61	(0.43)	0.48
Salary Escalation/ Medical inflation rate (0.50% movement)				
- Gratuity	0.31	(0.34)	0.40	(0.32)
- PRMS	14.49	(13.41)	14.34	(13.03)
- ERS	0.46	(0.42)	0.44	(0.39)
Medical Cost (10% movement)				
- PRMS	24.67	(24.18)	22.68	(21.28)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The Group actively monitors how the duration and expected yield of investments are matching the expected cash outflows arising from employee benefit obligations. Investments are well diversified, such that the failure of any single investment would not have a material impact on overall level of assets. There has been no change in the process used by the Group to manage its risks from prior periods.

50.2.9 Expected maturity analysis of the defined benefit plans in future years

(₹ in crore)

Particulars	Gratuity		PRMS		ERS	
	As at 31.03.2024	As at 31.03.2023	As at 31.03.2024	As at 31.03.2023	As at 31.03.2024	As at 31.03.2023
Up to 1 year	7.42	8.28	17.68	16.24	2.08	2.11
1 to 5 years	24.58	26.89	102.81	93.89	5.91	5.50
Over 5 years	91.38	88.11	430.54	379.01	14.26	11.83
Total	**123.38**	**123.28**	**551.03**	**489.14**	**22.25**	**19.44**

The table above is drawn on the basis of expected cash flows.

50.2.10 Expected contributions to post-employment benefit plans

(₹ in crore)

Particulars	Gratuity		PRMS	
	As at 31.03.2024	As at 31.03.2023	As at 31.03.2024	As at 31.03.2023
Expected contribution	4.15	6.26	11.52	8.61

50.2.11 The weighted average duration of the defined benefit plan obligation at the end of the reporting period is 13.13 years (as at 31.03.2023: 13.14 years) for PFC and 11.78 years (as at 31.03.2023: 11.18 years) for subsidiary, RECL.

50.3 Other long term employee benefits

50.3.1 Leave

The companies in the Group provides for earned leave benefit and half-pay leave benefit to the credit of the employees, which accrues on half-yearly basis at 15 days and 10 days respectively. A maximum of 300 days of earned leave can be accumulated at any point of time during the service. There is no limit for accumulation of half pay leave. On separation after 10 years of service or on superannuation, earned leave plus half pay leave taken together can be encashed subject to a maximum of 300 days. However, there is no restriction on the number of years of service for encashment of earned leave on separation from the service. Provision based on actuarial valuation amounting to ₹ 14.66 crore (previous year ₹ 11.88 crore) for the year has been made at the year end and debited to the Consolidated Statement of Profit and Loss.

50.3.2 Other employee benefits

Provision for settlement allowance and long service awards amounting to ₹ 3.66 crore for the year (previous year ₹ 5.04 crore) has been made on the basis of actuarial valuation and debited to the Consolidated Statement of Profit and Loss.

50.3.3 In case of RECPDCL, the Loyalty incentive to the employees is payable after completion of three years of continuous service only, except in case of separation due to death. The payment of dues to outgoing employee is released at the time of separation. Expenses amounting to nil (previous year nil) have been debited to the Consolidated Statement of Profit and Loss on the basis of actuarial valuation.

50.4 Employee benefits (viz. Gratuity, PRMS, Terminal Benefits, Leave encashment and other employee benefits) in respect of PFC's/RECL's employees working in its wholly-owned subsidiaries PFCCL /RECPDCL on deputation / secondment basis, are being allocated based on a fixed percentage of employee cost.

51 Leases

The Group has recognised a Right of Use Asset and Lease Liability with respect to leasehold land:

51.1 The table below shows the movement of Lease Liabilities during the year

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
Opening balance	**17.01**	**19.07**
Additions during the year	-	-
Finance cost accrued during the period	1.45	1.65
Payment of lease liabilities	(3.72)	(3.71)
Reassessment of lease liabilities	-	-
Closing balance	**14.74**	**17.01**

51.2 The table below provides details regarding the contractual maturities of lease liabilities on an undiscounted basis

(₹ in crore)

Particulars	As at 31.03.2024	As at 31.03.2023
Upto 1 year	3.91	3.72
1-5 years	6.51	9.65
More than 5 years	53.97	54.74

51.3 During the year 2023-24, the expenses relating to short-term/low value leases amounting to ₹ 25.53 crore (Previous year ₹ 16.88 crore) has been charged to Consolidated statement of Profit and Loss. Included in the amount above are leases pertaining to residential accommodation of employees, space for official use, hiring of EDP equipment & other office equipment etc. These leases are usually renewable on mutually agreed terms and are cancellable.

51.4 The total cash outflow towards all leases, including Right-of-Use Assets is ₹ 26.77 crore. (Previous year ₹ 20.12 crore).

52 Contingent Liabilities and Commitments:

(₹ in crore)

56 The Government of India (GoI) schemes being implemented in the Group

A. In respect of PFC

PFC has been designated Nodal Agency for operationalization and implementation of RDSS Scheme. The role of Nodal Agency inter-alia includes transfer onward the GoI funds received from MoP to project implementing agencies i.e. State Power Distribution Utilities/ Power Departments as per the Scheme guidelines issued by MoP. The release of the funds under GoI Scheme is being done through Treasury Single Account (TSA) maintained with RBI, as per the office memorandum issued by MoF, GoI dated 09th March 2022.This ensures that funds of these schemes are released to project implementing agencies 'Just in time' from the Consolidated Fund of India (CFI).

56.1 Revamped Distribution Sector Scheme (RDSS)

This Scheme was launched by GoI in July, 2021 to improve the operational efficiencies and financial sustainability of DISCOMs, by providing financial assistance to DISCOMs. It is a Reform based and result linked Distribution sector scheme. PFC along with REC is the nodal agency for operationalization of the scheme. The implementation period of the Scheme is 5 Years (FY 2021-22 to FY 2025-26) with the sunset date of 31.03.2026. The key objectives of the scheme is to:

i) Improve the quality, reliability and affordability of power supply to consumers through a financially sustainable and operationally efficient distribution sector.
ii) Reduce AT&C losses to pan-India levels of 12-15% by 2024-25.
iii) Reduce ACS-ARR gap to zero by 2024-25.

The Scheme has an outlay of ₹ 3,03,758 crore with an estimated gross budgetary support of ₹ 97,631 crore from the GoI. The amount of grant received and administered to the eligible entities (net of lapses/surrendered by power utilities) during FY 2023-24 is ₹ 2,834.87 crore (previous year ₹ 212.06 crore) and the cumulative grant administered (net of lapses/surrendered by power utilities) till 31.03.2024 is ₹ 3,308.23 crore (till 31.03.2023 is ₹ 473.37 crore).

The Company is eligible for nodal agency fee at the rate of 0.50% of the sum total of the gross budgetary component of the various projects approved by Monitoring Committee. The total amount of nodal agency fee income from this scheme for FY 2023-24 stands at ₹ 45.73 crore. (Previous year ₹ 71.58 crore)

Further, no amount of grant remained undisbursed as on 31.03.2024 and 31.03.2023.

B. In respect of RECL

56.2 Pradhan Mantri Sahaj Bijli Har Ghar Yojana (SAUBHAGYA)

Government of India launched a scheme "Pradhan Mantri Sahaj Bijli Har Ghar Yojana" - Saubhagya to achieve universal household electrification in the country during Oct 2017. The scheme envisaged to provide last mile connectivity and electricity connections to all remaining un-electrified households in rural areas and poor households in urban areas. The capital outlay of Saubhagya Scheme was ₹ 16,320 Crore including Gross Budgetary Support of ₹ 12,320 Crore during the entire implementation period. Ministry of Power designated REC as the Nodal agency for operationalization of Saubhagya Scheme. The scheme has been successfully completed and closed in its sunset year FY 2021-22 i.e. 31.03.2022.

56.3 Deen Dayal Upadhyaya Gram Jyoti Yojana (DDUGJY)

Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY), the flagship scheme of Government of India covering all aspects of rural power distribution was launched in Nov 2014. Under the scheme 60% of the project cost (85% for special States) is provided as grant by Government of India and additional grant up to 15% (5% for special States) on achievement of prescribed milestones. DDUGJY facilitates towards achievement of '24x7 Power for All' in the country through the following project components:

56.3.1 Separation of agriculture and non-agriculture feeders facilitating adequate power supply to agriculture & continuous power supply to non-agricultural consumers in the rural areas;

56.3.2 Strengthening and augmentation of sub-transmission & distribution infrastructure in rural areas, including metering of distribution transformers/ feeders/ consumers;

56.3.3 Micro-grid and Off-grid distribution network;

56.3.4 Rural Electrification component under the RGGVY 12th and 13th plans, subsumed to DDUGJY.

The scheme had estimated outlay of ₹ 75,893 Crore including budgetary support of ₹ 63,027 Crore from Government of India during the entire implementation period. Additional Infra under DDUGJY was sanctioned with a total outlay of ₹ 7,069 Crore including budgetary support of ₹ 5,302 Crore. The scheme has been successfully completed and closed in its sunset year FY 2021-22 i.e. 31.03.2022.

56.4 National Electricity Fund (NEF)

The National Electricity Fund (NEF), an interest subsidy scheme, has become operational since FY 2012-13. The scheme has been introduced by the Government of India to promote capital investment in the distribution sector. The scheme provides interest subsidy linked with reform measures, on the loans taken by public and private distribution power utilities for various capital works in the Distribution sector. NEF would provide interest subsidy aggregating up to ₹ 8,466 Crore (including interest subsidy to the borrowers, Service Charges to the Nodal Agency, payments to Independent Evaluators and other incidental expenses) spread over 14 years for loan disbursement against projects approved during 2012-13 and 2013-14. RECL has been nominated as the Nodal Agency for operationalization of NEF scheme across the country.

56.5 Revamped Distribution Sector Scheme (RDSS)

Government of India has approved the Revamped Distribution Sector Scheme (RDSS) to help DISCOMs improve their operational efficiencies and financial sustainability by providing result-linked financial assistance to them so as to strengthen supply infrastructure based on meeting pre-qualifying criteria and achieving basic minimum benchmarks. The scheme has an outlay of ₹ 3,03,758 Crore over 5 years i.e. FY 2021-22 to FY 2025-26 including an estimated Government Budgetary Support (GBS) of ₹ 97,631 Crore.

(i) Reduction of AT&C losses to pan-India levels of 12-15% by 2024-25.

(ii) Reduction of ACS-ARR gap to zero by 2024-25.

(iii) Improvement in the quality, reliability and affordability of power supply to consumers through a financially sustainable and operationally efficient distribution sector.

Components of the scheme are:
Part A – Financial support for Prepaid Smart Metering & System Metering and up-gradation of the Distribution Infrastructure.
Part B – Training & Capacity Building and other Enabling & Supporting Activities.

56.6 J&K Prime Minister's Development Plan (PMDP)

Government of Jammu & Kashmir, Power Development Department has appointed RECPDCL as a Project Implementing Agency (PIA) for design, engineering, procurement, supply, erection, testing and commissioning of all the material and services works to be taken-up for execution of transmission projects under PMDP in J&K state and Ladakh on nomination basis, as per actual cost to be discovered through competitive biddings.

56.7 11 kV Feeder Monitoring

Ministry of Power has appointed RECPDCL to implement 11 kV Feeder Monitoring Scheme. The scheme is to develop a Self-sustained independent web based system for automated 11 kV Rural Feeder Monitoring System through Data Logging of various essential parameters of all the Outgoing 11kV rural feeders from 66, 33/11 kV sub stations and make the information available online for various stake holders including public portal, on real time basis for power supply monitoring, alerts, meter data analysis, information dissemination and energy audit.

56.8 Rooftop Solar Program (RTS)

PM-Surya Ghar: Muft Bijli Yojana was launched by Government of India on 13.02.2024 for installation of Rooftop Solar (RTS) in one crore households with the financial outlay of ₹ 75,021 crore and the phase-II of RTS will be subsumed under this scheme. The phase-II of Grid connected RTS programme is being implemented under Ministry of New and Renewable Energy (MNRE) for achieving cumulative capacity of 40GW from RTS projects by 2026.

C. In respect of subsidiary PFCCL

56.9 PFC's subsidiary PFCCL has been selected as nodal agency for facilitating short term power requirements through competitive bidding as per MoP guidelines dated 30.03.2016. As per the guidelines, every bidder is required to deposit with PFCCL the requisite fees of ₹ 500 per MW plus applicable taxes for the maximum capacity a bidder is willing to bid. Only successful bidder(s) will have to pay the fees to PFCCL for the quantum allocated to each bidder after completion of activity and the balance amount will be refunded to the bidder.

56.10 In connection with Aatma Nirbhar Bharat Abhiyan of Govt of India, Power Departments/ Utilities in Union Territories has to be corporatised/privatised. MoP through PFC has conveyed to provide hand-holding support and the services of a transaction advisor to the UTs and to fund the expenditure incurred in this regard which will be recoverable from the successful bidder/MoP alongwith interest. PFC has appointed PFCCL as the nodal agency for this work.

57 Status of documentation subsequent to unbundling of SEBs

Some of the erstwhile State Electricity Boards (SEBs) against whom loans were outstanding or on whose behalf guarantees were given, were restructured by the respective State Governments and new entities were formed in the past. Consequently, the liabilities of the erstwhile SEBs stand transferred to new entities.

57.1 Status of documentation subsequent to reorganisation of the State of Jammu & Kashmir

After the bifurcation of the State of Jammu & Kashmir into two Union territories- Jammu & Kashmir UT and Ladakh UT , the existing entities pertaining to the erstwhile state of Jammu & Kashmir have been restructured vide unbundling order dated 23.10.19. The addendums to the agreements with new restructured departments are yet to be executed. Pending the execution of such documents, the existing loans are being serviced/repaid in line with the existing loan agreement.

57.2 Status of documentation subsequent to reorganization of the State of Andhra Pradesh

Subsequent to the reorganization of erstwhile Andhra Pradesh, the State of Telangana has been formed on 02.06.2014. However, the assets and liabilities are yet to be transferred to the respective power utilities through a formal gazette notification except for assets and liabilities of TSSPDCL which have been transferred to APSPDCL for R-APDRP loans only amounting to ₹ 8.95 crore.

Once the final transfer scheme is notified through Gazette Notification by Govt. duly indicating the transfer of assets and liabilities among the power utilities, action for execution of documentation formalities will be taken up in respect of all the outstanding loans (except for above R-APDRP loans) with the new / name changed utilities. Till that time, the demand for payment of interest / principal is being segregated by the utilities and the respective portions are being paid by utilities in Telangana and Andhra Pradesh.

In respect of RECL,

57.2.1 Where ever the loans have been sanctioned to erstwhile APCPDCL, APNPDCL and APGENCO prior to bifurcation and documentation has not been done, these schemes have been re-sanctioned in the name of newly formed utilities and documentation formalities completed and accordingly the charge has been registered with the Ministry of Corporate Affairs (MCA).

57.2.2 Where ever the loans sanctioned in the name of erstwhile APCPDCL, APNPDCL prior to bifurcation and documentation formalities completed and drawls have been made, in these schemes an undertaking has been obtained from the name changed / newly formed utility and disbursements have been made to the newly formed utility by changing the name of the borrower in the name of new / name changed utility.

57.2.3 Where ever the Loan is sanctioned in the name of erstwhile APCPDCL, APNPDCL prior to bifurcation and documentation formalities completed with Government Guarantee and drawls have been made, further documentation for these schemes shall be done on Gazette Notification.

58 In the context of reporting business / geographical segment as required by Ind AS 108 - 'Operating Segments'

The Group's operations majorly comprise of one business segment i.e. lending to power , logistics and infrastructure sector entities. All activities revolve around the main business. Accordingly, there are no reportable segments as per Ind AS 108. Based on "management approach" as defined in Ind AS 108 'Operating Segments', the Chief Operating Decision Maker evaluates the Group's performance based on analysis of various factors of one business segment.

58.1 The Group does not have any geographical segments as its operations are mainly carried out within the country.

58.2 Revenue from major services

The following is an analysis of Group's revenue from operations from its major products/services:

(₹ in crore)

	FY 2023-24	FY 2022-23
Interest income		
- on loans	89,115.50	75,912.83
- others	969.90	583.10
Dividend income	68.53	103.00
Fees and commission income	341.35	548.79
Other operating income	601.44	420.58
Total Revenue from Operations	**91,096.72**	**77,568.30**

58.3 Information about major borrowers

No single borrower contributed 10% or more to respective companies' revenue for both FY 2023-24 and FY 2022-23.

59 Amounts expected to be recovered/ settled within 12 months and beyond for each line item under asset and liabilities

6 Associates classified under held for sale and valued at cost or fair market value (less cost to sales) whichever is less, hence profit not considered.

7 Khavda II-D Transmission Limited is under the process of striking off the name from the records of Registrar of Companies.

8 These associates companies were incorporated on or after 01.01.2024 and as per Sec 2(41) of the Companies Act, 2013, where a Company is incorporated on or after the 1st day of January of a year, the period ending on the 31st day of March of the following year shall be its first financial year. Therefore, the Balance sheet of these Companies have not been prepared.

9 SPVs are managed as per the mandate from Government of India (GoI) and the Company does not have the practical ability to direct the relevant activities of these SPVs unilaterally. Therefore, investment in these SPVs are considered as associates having significant influence despite the Company holding 100% of their paid-up equity share capital.

Independent Auditors' Report

TO THE MEMBERS OF POWER FINANCE CORPORATION LIMITED

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

1. OPINION

We have audited the accompanying Standalone Financial Statements of Power Finance Corporation Limited ('the Company'), which comprise the Balance Sheet as at 31st March 2023, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and Notes to the Standalone Financial Statements, including a summary of Significant Accounting Policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2023, and its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

2. BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

3. EMPHASIS OF MATTER

We draw attention to Note 40.1.2 (iii) of the Standalone Financial Statements regarding the provision of impairment allowance in respect of loan assets, undisbursed letter of comfort and guarantee. The Company has recognized expected credit loss in respect of loan assets, undisbursed letter of comfort and guarantee as required under Ind AS 109, on the basis of documents provided by independent expert agency appointed

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000426N New Delhi Chartered Accountants

by the Company. Since the calculation parameters require certain technical and professional expertise, we have relied upon the basis of determination of impairment allowance in so far as it relates to technical aspects/parameters considered by the said independent expert agency and management's judgment on the same.

Our opinion is not modified in respect of the above said matter.

4. KEY AUDIT MATTERS

Key audit matters ("KAM") are those matters that, in our professional judgment, were of most significance in our audit of these Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

Sr. No.	Key Audit Matter	Auditors' Response
(i)	**Credit impairment of financial instruments- Loan Assets** The Company follows a Board approved methodology wherein assessment for allowance is carried out by an external agency for impairment based on certain guidelines and procedures in respect of criterion/framework classifying the assets into various stages depending upon credit risk and level of evidence of impairment. Impairment loss measurement requires use of statistical models to estimate the Probabilities of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). These models are key driver to measure Impairment loss. The key indicators underlying for assessment of impairment allowance are appraised on the ongoing basis by the management. The most significant areas where we identified greater levels of management Judgement are: Significant Increase in Credit Risk (SICR) – Company has classified SICR based on the indicator defined in Ind AS, estimate the Probabilities of Default (PD), Loss Given Default (LGD) and Individually assessed Stage 3 carrying value. The carrying value of loans	**Our audit procedures included:** • Company has availed services of independent expert to estimate the carrying value of the loan assets. We verified the criterion/ framework with various regulatory updates along with Company's internal guidelines and procedures in respect of the impairment allowance as well as the completeness and accuracy of the data shared with the independent experts. • Recoveries are verified applying the standard audit procedures. Loan balances are confirmed and quality of the borrower is evaluated and tested with key control parameters. • We have reviewed the underlying assumptions and broad methodology of ECL assessment and shared our inputs. • Components and calculations in the study for impairment allowance carried out by the third party are test checked, discussed with management and relied upon by us. Our audit procedure in the same is limited in view of not

	and advances to borrowers may be materially misstated if individual impairments are not appropriately estimated based upon certain estimates, future cash flow and asset valuations. The effect of these matters is that, as part of our risk assessment, we determined that the value of ECL has a high degree of estimation & uncertainty. In view of the significance of the amount of loan assets in the Standalone Financial Statements, i.e. 94.98% of total assets, impairment of loan assets there on has been considered as Key Audit Matter in our audit.	sharing certain parameters of study being considered confidential by such third party. We considered the credit impairment charge and provision recognized and the related disclosures to be acceptable & satisfactory.
(ii)	**Fair Valuation of Derivative financial instruments** Company enters into derivative contracts in accordance with RBI guidelines to mitigate its currency and interest rate risk in accordance with Company's board approved currency risk management policy. Derivative contracts are either categorized at Fair Value through P&L (FVTPL) or under cash flow hedge (Hedge Accounting). Mark to market gain/loss on derivatives categorized at FVTPL is recognized in Statement of Profit and Loss and that of Hedge Accounting is recognized in the other comprehensive income. We consider the valuation of the derivative financial instruments and hedge accounting as a key audit matter due to material exposure and the fact that the inappropriate application of these requirements/assumptions/estimate by contracting bank could lead to a material effect on the income statement.	**Our audit procedures included:** Discussing and understanding management's perception and studying policy of the company for risk management. Verification of fair value of derivative in term of Ind AS 109. Evaluation of key internal control over classification of derivative instruments. Company obtains fair value of derivative from the counterparty banks. Our procedure includes evaluation of details of various financial derivative contracts outstanding as on 31st March, 2023 and fair value thereon. Additionally, we verified the accounting of gain or loss on mark to market basis of derivative contracts in Statement of profit & loss and other comprehensive income in case of derivatives contracts under cash flow hedge. We did not find any material misstatement in measuring derivative contracts at fair value obtained from counterparty banks.

5. INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Director's Report including Annexures to Director's Report, Management Discussion and Analysis, Business Responsibility Report and Report on Corporate

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

Governance but does not include the Standalone Financial Statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this Auditor's report.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions, if required.

6. RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance (including comprehensive income), changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management and Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

7. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonable knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work: and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

8. REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

I As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013 and on the basis of such examination of the books and records of the company as we considered appropriate and according to information and explanation given to us, we give in **"Annexure-A"** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

II The Comptroller and Auditor General of India has issued the directions indicating the areas to be examined in term of Sub-section 5 of Section 143 of the Act, the compliance of which is set out in **"Annexure B"**.

III As required by Section 143(3) of the Act, we report that:

a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

b. In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

c. The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and Standalone Statement of Cash flows, dealt with by this Report are in agreement with the books of account;

d. In our opinion and to the best of our information and explanation given to us, the aforesaid Standalone Financial Statements comply with the Ind AS specified under Section 133 of the Act read with relevant rules;

e. As per notification number G.S.R. 463(E) dated 5th June, 2015 issued by Ministry of Corporate Affairs, section 164(2) of the Act regarding the disqualifications of Directors is not applicable to the Company, since it is a Government Company;

f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in **"Annexure C"**;

g. As per notification number G.S.R. 463 (E) dated 5th June, 2015 issued by Ministry of Corporate Affairs, section 197 of the Act regarding remuneration to Director is not applicable to the Company, since it is a Government Company; and

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

h. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements – Refer Note 46 to the Standalone Financial Statements;

ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented (refer Note 10.3) that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The Management has represented, that (refer Note 18.16), to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above contain any material mis-statement.

v. As stated in Note 24.2(iii) to the Standalone Financial Statements:

(a) The final dividend proposed for the previous year, declared and paid by the Company during the year declared is in compliance with section 123 of the Companies Act, 2013, as applicable.

(b) The interim dividend declared and paid by the Company during the year and until the date of this report is in compliance with section 123 of the Companies Act, 2013.

(c) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

Annexure A to Independent Auditors' Report on the Audit of the Standalone Financial Statements

(Referred to in Para I under the heading 'Report on other Legal and Regulatory Requirements' of our report of even date to The Members of Power Finance Corporation Limited on the Standalone Financial Statements for the year ended 31st March, 2023)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

(i) In respect of the Company's Property, Plant and Equipment and Intangible Assets:

(a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets. .

(B) The Company has maintained proper records showing full particulars, of intangible assets.

(b) Based on the information and explanation given to us, the Company's management carries out the physical verification of Property, Plant and Equipment once in a year. In our opinion, the frequency of physical verification is reasonable having regard to the size of the Company and nature of its assets. As explained to us, no material discrepancies were noticed by the management on such physical verification.

(c) Based on our examination of the records of the Company we report that, the title deeds, comprising all immovable properties of land and buildings which are free hold, are held in the name of the Company as at the balance sheet date. Further, in respect of immovable properties of land and building that have been taken on lease, the lease agreements are in the name of the Company.

(d) The Company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) and intangible assets during the year.

(e) As informed to us, no proceedings have been initiated or are pending against the Company as at the date of Balance Sheet for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

(ii) (a) The Company is a Non-Banking Financial Company and does not have any inventory. Thus, clause 3(ii) (a) of the Companies (Auditor's Report) Order, 2020 is not applicable.

(b) The Company has been sanctioned working capital limits in excess of five crore rupees, during the year, in aggregate, from banks or financial institutions which are unsecured which do not require any filing of quarterly returns or statements with the banks by the Company.

(iii) During the year, the Company has made investments in, provided guarantees and granted loans/advances in the nature of loans, secured/unsecured to companies, firms, limited liability partnerships, and other parties. In this regard, we report hereunder:

(a) The Company is a registered NBFC with Reserve Bank of India with principal business of giving loans hence clause 3(iii)(a) of the Order is not applicable

(b) In our opinion, the investments made, guarantees provided, if any and the terms and conditions of the grant of all loans and advances in the nature of loans, during the year are, prima facie, not prejudicial to the Company's interest.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000625N New Delhi Chartered Accountants

(c) Being a registered Non-Banking Financial Company (NBFC), the Company grants its loans on stipulated terms and conditions for repayment of principal and interest. In respect of Loan assets except credit impaired assets, the repayments of principal amounts and receipts of interest are generally regular as per stipulation.

(d) In respect of loans and advances in the nature of loans, the total amount overdue for more than ninety days are as under. The Company takes steps for recovery of the principal and interest as per its defined procedures, which in our opinion are reasonable.

No. of borrowers	Principal amount overdue (₹ in crore)	Interest overdue* (₹ in crore)	Total overdue (₹ in crore)
22	9,977.63	12548.55	22,526.18

* The same has not been recognised as income as a matter of prudence as per practices of the Company.

(e) Reporting under clause 3(iii)(e) of the Order is not applicable, since the principal business of the Company is to give loans.

(f) To the best of our knowledge and according to information and explanation given to us, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment. Hence, reporting under clause 3(iii)(f) is not applicable.

(iv) In our opinion and according to information and explanation given to us the Company has not given any loan or given any guarantee or provided any security in contravention of Section 185 of the Companies Act 2013 to the extent applicable to the Company.

Further in our opinion and according to information and explanation given to us, the Company being a Non-Banking Financial Company (NBFC), the company is exempt from section 186 of the Companies Act, 2013 and relevant rules in respect of loans & guarantees. In respect of investments the Company has complied with the provisions of section 186(1) of the Companies Act, 2013.

(v) 12According to information and explanations given to us, the Company has not accepted any deposit from public to which directives issued by Reserve Bank of India and the provisions of section 73 to 76 or any other relevant provisions of Companies Act, 2013 and rules made thereunder are applicable.

(vi) The Central Government has not prescribed the maintenance of cost records under Sub-section (1) of Section 148 of the Companies Act, for any of the services rendered by the Company. Accordingly, clause 3(vi) of the Companies (Auditor's Report) Order 2020 is not applicable to the Company.

(vii) In respect of statutory dues, on the basis of information and explanations given to us and on the basis of our examination of the records of the company, we report that:

(a) The Company is regular in depositing with appropriate Authorities, undisputed statutory dues including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income Tax, Service Tax, and other statutory dues as applicable to it and there is no undisputed amount payable in respect of aforesaid dues outstanding for a period of more than six months from the date they become payable as on 31st March, 2023, as per the accounts of the Company.

(b) According to the information and explanations given to us and as certified by the management on which we have relied upon, the disputed statutory dues aggregating to ₹ 108.66 crore have been deposited/

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

on account of disputes/deposited under protest and the matters are pending before appropriate authorities as detailed below:

Name of the Statute	Nature of the Dues	Total Disputed Amount (₹ in crore)	Amount Paid under protest /adjusted by IT Authorities (₹ in crore)	Pending Amount (₹ in crore)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	71.91	71.91	-	AY 2016-17	CIT(Appeals) , Delhi
		20.30	20.30	-	AY 2018-19	
		16.45	16.45	-	AY 2020-21	

(viii) As per information and explanation given to us there were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

(ix) (a)According to information and explanations given to us, the Company has not defaulted in repayment of loans or other borrowing or on the payment of interest thereon to any lender.

(b) According to the information and explanations given to us the Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) As per the information and explanations given to us, the term loans were applied for the purpose for which the loans were obtained.

(d) According to the information and explanations given to us, and the procedures performed by us, no funds raised on short-term basis have been used for long-term purposes by the Company other than temporary usage pending receipts from long term sources.

(e) According to the information and explanations given to us and on an overall examination of the Financial Statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

(f) According to the information and explanations given to us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.

(x) (a) The Company has not raised money by way of initial public offer or further public offer (including debt instruments) during the year.
(b) According to information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or convertible debentures during the year.

(xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or any fraud on the Company has been noticed or reported during the year.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. CA FRN No. 000425N New Delhi Chartered Accountants

(b) As informed to us, no report under sub-section (12) of section 143 of the Companies Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government during the year and upto the date of this report.

(c)We have been informed by the management that no whistle blower complaints have been received by the Company during the year.

(xii) According to information and explanation given to us the Company is not a Nidhi Company. Hence the Nidhi Rules, 2014 are not applicable to the Company. Accordingly, clause 3(xii) of the Companies (Auditor's Report) Order 2020 is not applicable to the Company.

(xiii) According to information and explanations given to us and on the basis of our examination of the records of the Company, all transactions with the related parties are in compliance with Section 177 and 188 of the Companies Act, 2013 where applicable. The details have been disclosed in the Financial Statements as per the requirement of the applicable accounting standards.

(xiv) (a) In our opinion and based on our examination, the company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures. .

(xv) According to the information and explanations given to us, in our opinion during the year the company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable.

(xvi) (a) The Company is a Non- Banking Financial Company and has obtained registration under section 45-IA of the Reserve Bank of India Act 1934. The registration number issued to the Company is B- 14.00004 dated 28-07-2010.

(b) According to the information and explanations given to us, the Company has not conducted any non-banking financial or housing finance activities without a valid certificate of registration from the Reserve Bank of India as per Reserve Bank of India Act, 1934.

(c) According to the information and explanations given to us, the company is not a core investment company (CIC) as defined in the regulations made by the Reserve Bank Of India, hence reporting under clause 3 (xvi) (c) of the order is not applicable.

(d) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3 (xvi) (d) of the order is not applicable.

(xvii) On the basis of our examination of the records of the Company, the Company has not incurred any cash losses in the financial year and in the immediately preceding financial year.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. CA FRN No. 000425N New Delhi Chartered Accountants

(xviii) There has been no resignation of statutory auditors of the Company during the year.

(xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the Financial Statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable for the year.

(b) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount as at the Balance Sheet date to a special account, within a period of thirty days from the end of the financial year in compliance with section 135(6) of the Companies Act.

Annexure C to the Independent Auditors' Report on the Audit of the Standalone Financial Statements

(Referred to in Para III(f) under the heading 'Report on other Legal and Regulatory Requirements' of our report of even date to The Members of Power Finance Corporation Limited on the Standalone Financial Statements for the year ended 31st March 2023)

Report on the Internal Financial Controls with reference to Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act 2013 ("the Act")

We have audited the internal financial controls with reference to the Standalone financial statements of Power Finance Corporation Limited ("the Company") as of 31st March 2023 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

1. MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to Company's policies the safeguarding of its assets the prevention and detection of frauds and errors the accuracy and completeness of the accounting records and the timely preparation of reliable financial information as required under the Act.

2. AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Sub-section 10 of Section 143 of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000455N New Delhi Chartered Accountants

3. MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of the Management of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statements.

4. INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

5. OPINION

In our opinion, the Company has, in all material respects, an internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Standalone Financial Statements for the year ended March 31, 2023

1. Company Information

Power Finance Corporation Limited ("PFC" or "the Company") was incorporated in India in the year 1986 . The Company is domiciled in India and is limited by shares, having its registered office at 'Urjanidhi', 1, Barakhamba Lane, Connaught Place, New Delhi – 110001 and conferred with 'Maharatna' Status by the Govt. of India.

The Company is a Government Company engaged in extending financial assistance to power, logistics and infrastructure sector and is a Systemically Important Non-Deposit taking Non-Banking Financial Company (NBFC) registered with Reserve Bank of India (RBI) as an Infrastructure Finance Company (IFC) . The Company being a Government owned NBFC is placed in Middle layer under framework for Scale Based Regulation for NBFCs issued by RBI.

Equity shares of the Company are listed on the National Stock Exchange of India Limited (NSE) and BSE Limited. Further, various debt securities of the Company are also listed on the Stock Exchanges.

2. Statement of Compliance

The Standalone Financial Statements of the Company comply with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms /guidelines. The Standalone Balance Sheet, Statement of Profit and Loss and Statement of Changes in Equity are prepared and presented as per the requirements of Division III of Schedule III to the Companies Act, 2013 applicable for Non-Banking Financial Companies (NBFCs). The Standalone Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 'Statement of Cash Flows'.

3.
These Standalone Financial Statements have been approved for issue by Board of Directors (BoD) of the Company on 27.05.2023

4. Standards/ Amendments issued but not yet effective

The Ministry of Corporate Affairs (MCA) has notified the Companies (Indian Accounting Standards) Amendment Rules, 2023 on 31.03.2023, whereby amendments to various Indian Accounting Standards has been made applicable w.e.f from 01.04.2023.

The Company has evaluated the amendments made vide the aforesaid notification dated 31.03.2023 and there will be no impact of the same on the Financial Statements as and when these are made applicable.

5. Significant Accounting Policies

The significant accounting policies applied in preparation of the Standalone Financial Statements are as given below:

5.1 Basis of Preparation and Measurement

These Standalone Financial Statements have been prepared on going concern basis following accrual system of accounting. The assets and liabilities have been measured at historical cost or at amortised cost or at fair value as applicable at the end of each reporting period.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000125N New Delhi Chartered Accountants

Fair value measurements are categorised into Level 1, 2 or 3 as per Ind AS requirement, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

5.2 Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits. The Company considers cash equivalents as all short term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

5.3 Derivative Financial Instruments

(i) The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks.

(ii) Under hedge accounting, an entity can designate derivative contracts either as cash flow hedge or fair value hedge. The Company designates certain derivative contracts as cash flow hedges.

(iii) To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:
- There is an economic relationship between the hedged item and the hedging instrument.
- The effect of credit risk does not dominate the value changes that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Company actually hedges and the quantity of the hedging instrument that the Company actually uses to hedge that quantity of hedged item.

(iv) Cash flow hedge

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Statement of Profit and Loss on a systematic basis. The gain or loss relating to ineffective portion is recognized immediately in Statement of Profit and Loss.

(v) Hedge accounting is discontinued when the hedging instrument expires, or terminated, or exercised, or when it no longer qualifies for hedge accounting.

(vi) Derivatives, other than those designated under hedge relationship, are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in Statement of Profit and Loss.

5.4 Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instruments.

On initial recognition, financial assets and financial liabilities are recognised at fair value plus/ minus transaction cost that is attributable to the acquisition or issue of financial assets and financial liabilities. In case of financial assets and financial liabilities which are recognised at fair value through profit and loss (FVTPL), its transaction costs are recognised in Statement of Profit and Loss.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

5.4.1 Financial Assets

All regular way purchases or sales of financial assets are recognised and derecognised on a settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

After initial recognition, financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

(i) Classification and Measurement of Financial Assets (other than Equity instruments)

a) Financial Assets at Amortised Cost:

Financial assets that meet the following conditions are subsequently measured at amortised cost using Effective Interest Rate method (EIR):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- The contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Effective Interest Rate (EIR) method

The effective interest rate method is a method of calculating the amortised cost of financial asset and of allocating interest income over the expected life. The company while applying EIR method, generally amortises any fees, transaction costs and other premiums or discount that are integral part of the effective interest rate of a financial instrument.

Income is recognised in the Statement of Profit and Loss on an effective interest rate basis for financial assets other than those classified as at FVTPL.

EIR is determined at the initial recognition of the financial asset. EIR is subsequently updated at every reset, in accordance with the terms of the respective contract.

Once the terms of financial assets are renegotiated, other than market driven interest rate movement, any gain / loss measured using the previous EIR as calculated before the modification, is recognised in the Statement of Profit and Loss in period during which such renegotiations occur.

b) Financial Assets at Fair Value Through Other Comprehensive Income (FVTOCI)

A financial asset is measured at FVTOCI if both the following conditions are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial asset; and
- The contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

All fair value changes are recognised in Other Comprehensive Income (OCI) and accumulated in Reserve.

c) Financial Assets at Fair Value Through Profit or Loss (FVTPL)

A financial asset is measured at FVTPL unless it is measured at amortised cost or FVTOCI, with all changes in fair value recognised in Statement of Profit and Loss.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000428N New Delhi Chartered Accountants

Business Model

An assessment of business model for managing financial assets is fundamental to the classification of a financial asset. The Company determines the business model at a level that reflects how financial assets are managed together to achieve a particular business objective of generating cash flows. The Company's business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

The Company is in the business of lending loans across power sector value chain and such loans are managed to realize the contractual cash flows over the tenure of the loan. Further, other financial assets may also be held by the Company to collect the contractual cash flows.

(ii) Classification, Measurement and Derecognition of Equity Instruments

All equity investments other than in subsidiaries, joint ventures and associates are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company at initial recognition makes an irrevocable election to classify it as either FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis.

An equity investment classified as FVTOCI is initially measured at fair value plus transaction costs. Subsequently, it is measured at fair value and, all fair value changes are recognised in Other Comprehensive Income (OCI) and accumulated in Reserve. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company transfers the cumulative gain/loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

(iii) Impairment of Financial Assets

Subsequent to initial recognition, the Company recognises expected credit loss (ECL) on financial assets measured at amortised cost as required under Ind AS 109 'Financial Instruments'. The Company presents the ECL charge or reversal (where the net amount is a negative balance for a particular period) in the Statement of Profit and Loss as "Impairment on financial instruments" and as a cumulative deduction from gross carrying amount in the Balance Sheet, wherever applicable.

The impairment requirements for the recognition and measurement of ECL are equally applied to financial asset measured at FVTOCI except that ECL is recognised in Other Comprehensive Income and is not reduced from the carrying amount in the Balance Sheet.

a) Impairment of Loan Assets and commitments under Letter of Comfort (LoC):

The Company measures ECL on loan assets at an amount equal to the lifetime ECL if there is credit impairment or there has been significant increase in credit risk (SICR) since initial recognition. If there is no SICR as compared to initial recognition, the Company measures ECL at an amount equal to 12-month ECL. When making the assessment of whether there has been a SICR since initial recognition, the Company considers reasonable and supportable information, that is available without undue cost or effort. If the Company measured loss allowance as lifetime ECL in the previous period, but determines in a subsequent period that there has been no SICR since initial recognition due to improvement in credit quality, the Company again measures the loss allowance based on 12-month ECL.

ECL is measured on individual basis for credit impaired loan assets, and on other loan assets it is generally measured on collective basis using homogenous groups.

The Company measures impairment on commitments under LoC on similar basis as in case of Loan assets.

b) Impairment of financial assets, other than loan assets:

ECL on financial assets, other than loan assets, is measured at an amount equal to life time expected losses.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

(iv) De-recognition of Financial Assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset along with all the substantial risks and rewards of ownership of the asset to another party. The renegotiation or modification of the contractual cash flows of a financial asset can also lead to derecognition of the existing financial asset.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received & receivable, and the cumulative gain or loss that had been recognised in Other Comprehensive Income and accumulated in Equity, is recognised in Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Statement of Profit and Loss on disposal of that financial asset.

5.4.2 Financial Liabilities

(i) All financial liabilities other than derivatives and financial guarantee contracts are subsequently measured at amortised cost using the effective interest rate (EIR) method.

EIR is determined at the initial recognition of the financial liability. EIR is subsequently updated for financial liabilities having floating interest rate, at the respective reset date, in accordance with the terms of the respective contract.

(ii) Financial guarantee

A financial guarantee issued by the Company is initially measured at fair value and, if not designated as at FVTPL, is subsequently measured at the higher of:

- the best estimate of expenditure required to settle any financial obligation arising as a result of the guarantee; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in the Statement of Profit and Loss.

(iii) De-recognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid & payable is recognised in Statement of Profit and Loss.

5.5 Investment in Subsidiaries, Joint Ventures and Associates

Investment in equity shares of subsidiaries, joint ventures and associates are accounted at cost, less impairment if any.

5.6 Property, Plant and Equipment (PPE) and Depreciation

(i) Items of PPE are initially recognised at cost. Subsequent measurement is done at cost less accumulated depreciation and accumulated impairment losses, if any, except for freehold land which is not depreciated. An item of PPE retired from active use and held for disposal is stated at lower of its book value or net realizable value.

(ii) In case of assets put to use, capitalisation is done on the basis of bills approved or estimated value of work done as per contracts where final bill(s) is/are yet to be received / approved, subject to necessary adjustment in the year of final settlement.

(iii) Cost of replacing part of an item of PPE is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. Maintenance or servicing costs of PPE are recognized in Statement of Profit and Loss as incurred.

(iv) Under-construction PPE is carried at cost, less any recognised impairment loss. Such PPE items are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as of other assets, commences when the assets are ready for their intended use.

(v) Depreciation is recognised so as to write-off the cost of assets less their residual values as per written down value method, over the estimated useful lives that are similar to as prescribed in Schedule II to the Companies Act, 2013, except for cell phones where useful life has been estimated by the Company as 2 years. Residual value is estimated as 5% of the original cost of PPE.

(vi) Depreciation on additions to/deductions from PPE during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

(vii) An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

(viii) Items of PPE costing up to ₹ 5000/- each are fully depreciated, in the year of purchase.

5.7 Intangible Assets and Amortisation

(i) Intangible assets with finite useful lives that are acquired separately are recognised at cost. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use. Subsequent measurement is done at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives.

(ii) Expenditure incurred which are eligible for capitalisation under intangible assets is carried as Intangible Assets under Development till they are ready for their intended use.

(iii) Estimated useful life of intangible assets with finite useful lives has been estimated by the Company as 5 years.

(iv) An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognised in the Statement of Profit and Loss when the asset is derecognised.

5.8 Provisions, Contingent Liabilities and Contingent Assets

(i) Provisions are recognised when the Company has a present legal or constructive obligation as a result of a past event, if it is probable that the Company will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(ii) The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

(iii) When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(iv) Where it is not probable that an outflow of economic benefits will be required or the amount cannot be estimated reliably, the obligation is disclosed as contingent liability in notes to accounts, unless the probability of outflow of economic benefits is remote.

(v) Contingent assets are not recognised in the financial statements. However, contingent assets are disclosed in the financial statements when inflow of economic benefits is probable.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

5.9 Offsetting of Financial Assets and Financial Liabilities

Financial Assets and Financial Liabilities are offset and the net amount is presented in the balance sheet when currently there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

5.10 Recognition of Income and Expenditure

(i) Interest income, on financial assets subsequently measured at amortised cost, is recognized using the Effective Interest Rate (EIR) method. The Effective Interest Rate (EIR) is the rate that exactly discounts estimated future cash receipts through expected life of the financial asset to that asset's net carrying amount on initial recognition.

(ii) Interest on financial assets subsequently measured at fair value through profit and loss(FVTPL), is recognized on accrual basis in accordance with the terms of the respective contract and disclosed separately under the head 'Interest Income'

(iii) Rebate on account of timely payment of dues by borrowers is recognized on receipt of entire dues in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

(iv) Income from services rendered is recognized based on the terms of agreements / arrangements with reference to the stage of completion of contract at the reporting date.

(v) Dividend income from investments including those measured at FVTPL, is recognized in Statement of Profit and Loss under the head 'Dividend Income' when the Company's right to receive dividend is established and the amount of dividend can be measured reliably.

(vi) Interest expense on financial liabilities subsequently measured at amortised cost is recognized using Effective Interest Rate (EIR) method.

(vii) Other income and expenses are accounted on accrual basis, in accordance with terms of the respective contract.

(viii) A Prepaid expense up to ₹ 1,00,000/- is recognized as expense upon initial recognition in the Statement of Profit and Loss.

5.11 Expenditure on issue of shares

Expenditure on issue of shares is charged to the securities premium account.

5.12 Employee Benefits

(i) Defined Contribution Plan

Company's contribution paid / payable during the reporting period towards provident fund and pension are charged in the Statement of Profit and Loss when employees have rendered service entitling them to the contributions.

(ii) Defined Benefit Plan

The Company's obligation towards gratuity to employees and post-retirement benefits such as medical benefit, economic rehabilitation benefit, and settlement allowance after retirement are determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Actuarial gain / loss on re-measurement of gratuity and other post-employment defined benefit plans are recognized in Other Comprehensive Income (OCI). Past service cost is recognized in the Statement of Profit and Loss in the period of a plan amendment.

(iii) Other long term employee benefits

The Company's obligation towards leave encashment, service award scheme is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These obligations are recognised in the Statement of Profit and Loss.

(iv) Short term employee benefits

Short term employee benefits such as salaries and wages are recognised in the Statement of Profit and Loss, in the period in which the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

(v) Loan to employees at concessional rate

Loans given to employees at concessional rate are initially recognized at fair value and subsequently measured at amortised cost. The difference between the initial fair value of such loans and transaction value is recognised as deferred employee cost upon issuance of Loan, which is amortised on a straight-line basis over the expected remaining period of the loan. In case of change in expected remaining period of the loan, the unamortised deferred employee cost on the date of change is amortised over the updated expected remaining period of the Loan on a prospective basis.

5.13 Income Taxes

Income Tax expense comprises of current and deferred tax. It is recognised in Statement of Profit and Loss, except when it relates to an item that is recognised in OCI or directly in equity, in which case, tax is also recognised in OCI or directly in equity.

(i) Current Tax

Current tax is the expected tax payable on taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of earlier years.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and liability on a net basis.

(ii) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable income. Deferred tax is measured at the tax rates based on the laws that have been enacted or substantively enacted by the reporting date, based on the expected manner of realisation or settlement of the carrying amount of assets / liabilities. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against liabilities, and they relate to income taxes levied by the same tax authority.

A deferred tax liability is recognised for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

5.14 Leases

For recognition, measurement and presentation of lease contracts, the Company applies the principles of Ind AS 116 'Leases'.

(i) The Company as a lessee

The Company at inception of a contract assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset,

the Company assesses whether (a) the Company has substantially all of the economic benefits from use of the asset through the period of the lease, and (b) the Company has the right to direct the use of the identified asset.

The Company at inception of a lease contract recognizes a Right-of-Use (RoU) asset at cost and a corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets which are recognised as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. RoU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use (RoU) assets are initially recognized at cost, which comprise the initial amount of the lease liability adjusted for any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. They are subsequently measured at cost less any accumulated depreciation and accumulated impairment losses. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

The lease liability is initially measured at amortised cost at the present value of future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the company's incremental borrowing rates in the country of domicile of the leases.

Lease liabilities are re-measured with a corresponding adjustment to the related right-of-use (RoU) asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

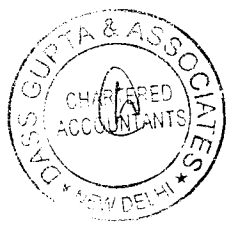
Lease liability and RoU asset is separately presented in the Balance Sheet. Interest expense on lease liability is presented separately from depreciation on right of use asset as a component of finance cost in the Statement of Profit and Loss. Lease payments for the principal portion are classified as Cash flow used in financing activities and lease payments for the interest portion are classified as Cash flow used in operating activities.

(ii) The Company as a lessor

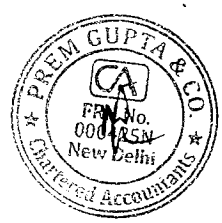
Leases for which the Company is a lessor is classified as a finance or operating lease. Contracts in which all the risks and rewards of the lease are substantially transferred to the lessee are classified as a finance lease. All other leases are classified as operating leases. For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

Amount due from lessee under finance leases is recognised as receivable at an amount equal to the net investment of the Company in the lease. Finance income on the lease is allocated to accounting periods so as to reflect a constant periodic rate of return on the Company's net investment outstanding in respect of lease at the reporting date.

5.15 Foreign Currency Transactions and Translations



The functional currency of the Company is Indian Rupees. Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction.



At the end of each reporting period, monetary items denominated in foreign currency are translated using exchange rates prevailing on the last day of the reporting period. Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise. However, for the long-term monetary items recognised in the financial statements before 1 April 2018, such exchange differences are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortised over the balance period of such long term monetary item.

5.16 Business Combination under Common Control

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and that control is not transitory.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize significant accounting policies.
- The financial information in the financial statements in respect of prior periods is restated as if the business combination has occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination.

The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee. The identity of the reserves is preserved and the reserves of the transferor become the reserves of the transferee.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

5.17 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

5.18 Dividends

Final dividends are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Board of Directors of the Company.

5.19 Earnings Per Share

Basic earnings per equity share is calculated by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

To calculate diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

6. Use of Estimates and Management Judgement

In preparation of the Standalone Financial Statements, the Management is required to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and the related disclosures. The estimates and underlying assumptions are based on historical experience & other relevant factors and are reviewed on an ongoing basis. Actual results may differ from these estimates.

Changes in accounting estimates, if any, are recognized prospectively in the period in which the estimate is revised if the revision affects only that period or in the period of the revision & future periods if it affects both current & future periods.

6.1 Significant Management Judgements

In order to enhance understanding of the Standalone Financial Statements, information about significant areas of critical judgments, apart from those involving estimation (Note 6.2), in applying accounting policies that have the most significant effect on the amounts recognised in the Standalone Financial Statements, are as under:

(i) Deferred tax Liability on Special Reserve

The Company had passed a Board resolution that it has no intention to withdraw any amount from the Special Reserve created and maintained under section 36(1)(viii) of the Income Tax Act, 1961. Accordingly, the Special Reserve created and maintained is not capable of being withdrawn. Hence, the Company does not create deferred tax liability on the said reserve.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000452N New Delhi Chartered Accountants

(ii) Non recognition of income on Credit Impaired loan assets

As a matter of prudence, income on credit impaired loan assets is recognised as and when received or on accrual basis when expected realization is higher than the loan amount outstanding.

(iii) Amortisation of transaction cost on credit impaired loan assets

Outstanding amount of unamortised transaction cost is credited to Statement of Profit and Loss on classification of loan asset as credit impaired.

(iv) Classification of Investments

In order to classify an investment in a company as investment in subsidiary or joint venture (JV) or associate, judgement is required to assess the level of control depending upon the facts and circumstances of each case.

a) The Company along with its subsidiary RECL is holding 33.33 % stake in equity share capital of Energy Efficiency Services Limited (EESL) . However, in the absence of any practical ability to direct the relevant activities as per the requirements of Ind AS 28'Investment in Associates and Joint Ventures', the Company does not have any significant influence , accordingly EESL has not been considered as an associate company.

b) Ultra-Mega Power Projects (UMPPs) are managed as per the mandate from Government of India (GoI) and the Company does not have the practical ability to direct the relevant activities of these UMPPs unilaterally. The Company therefore, considers its investment in respective UMPPs as associates having significant influence despite the Company holding 100% of their paid-up equity share capital.

c) By virtue of holding Board position or equity stake in borrower companies, the rights exercised by PFC in such companies are protective in nature. Thus, the borrower companies are not considered as Associates for the purpose of financial statements.

(v) Low value leases

An assessment is required, if lessee opts not to apply the recognition and measurement requirements of Ind AS 116 'Leases' to leases where the underlying asset is of low value. For the purpose of determining low value, the Company has considered nature of assets and concept of materiality as defined in Ind AS 1 'Presentation of Financial Statements' and the conceptual framework of Ind AS which involve significant judgement.

(vi) Sundry Liabilities- Interest Capitalisation

Unrealised income on credit impaired loans, represented by Funded Interest Term Loan (FITL) / debt / equity instruments acquired under resolution, is transferred to a separate account titled 'Sundry Liabilities Account (Interest Capitalisation)' and is recognised in Statement of Profit and Loss on repayment of FITL or sale / redemption of debt / equity instruments.

(vii) Evaluation of indicators for impairment loss allowance of financial assets

The evaluation of the applicability of indicators for computation of impairment loss allowance of assets requires assessment of several external and internal factors which could result in change in recoverable amount of the assets. The Company makes significant judgement in identifying the default and significant increase in credit risk (SICR) based on available information.

6.2 Assumptions and Key Sources of Estimation Uncertainty

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below:

(i) Defined Benefit Obligation (DBO)

The Company's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses as detailed at Note 44.2

(ii) Impairment test of Financial Assets (Expected Credit Loss)

The measurement of impairment loss allowance for financial assets which includes loan, LoCs and guarantees measured at amortised cost requires use of statistical models, expected future economic conditions, estimated cash flows and credit behaviour (e.g., inputs and weights used for credit risk scoring, likelihood of borrowers defaulting and resulting losses). In estimating the cash flows expected to be recovered from credit impaired loans, the borrower's financial situation, current status of the project, net realisable value of securities/ collateral etc. are assessed.

As these estimates are based on various assumptions, actual results may vary. Refer Note 40.1 for further details.

(iii) Fair value measurement

Fair value of financial instruments is required to be estimated for financial reporting purposes. The Company applies appropriate valuation techniques and inputs for fair value measurements. In estimating the fair value of an asset or a liability, the Company uses quoted prices and market-observable data to the extent it is available. In case of non-availability of the same, unobservable inputs are used for calculation of fair value of the assets/ liabilities. The information about the valuation techniques, inputs used in determination of fair value of various assets & liabilities and other details are disclosed at Note 42.

(iv) Income Taxes

Estimates are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset. Refer Note 37 for details.

(v) Useful life of Property, Plant & Equipment (PPE) and Intangible Assets

The Company reviews its estimate of the useful lives of depreciable/amortisable assets at the end of each financial year, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets. Refer Note 14 for details on useful lives and carrying values of PPE and Intangible assets.

7 Cash and Cash Equivalents

(₹ in crore)

Sr. No.	Particulars	As at 31.03.2023	As at 31.03.2022

(xv)	Jharkhand Infrapower Limited	India	100%	100%

*Investment in each associate is ₹ 0.05 crore as at 31.03.2023 and 31.03.2022. These associates are companies incorporated as SPVs under mandate from GoI for development of Ultra Mega Power Projects (UMPPs) with the intention to hand over the same to successful bidders on completion of the bidding process.

Associates struck off during the year by the Registrar of Companies

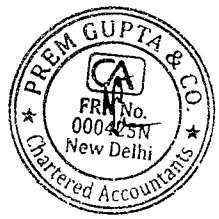
11.4 Coastal Karnataka Power Limited (CKPL), a wholly owned company of PFC Ltd was set up for managing the UMPPs as per the mandate from GoI and was considered as associate over which PFC had significant influence. During FY 2022-23, CKPL's MoA has been amended to be used for bidding lenders' backed resolution plan by PFC and it has been renamed as PFC Projects Limited (PPL). Accordingly, the ability to direct activities of said Company now vests with PFC Ltd and the same is now considered as a subsidiary.

11.5 At initial recognition, the Company made an irrevocable election to present subsequent changes in the fair value of certain equity instruments in other comprehensive income. The Company's main operation is to extend financial assistance to power, logistics and infrastructure sector. Thus, in order to insulate Standalone Statement of Profit and Loss from price fluctuations of these instruments, the Management believes that FVTOCI classification provides a more meaningful presentation, rather than classifying them at FVTPL.

Details of FVTOCI instruments derecognised during the year:

(₹ in crore)

Details of investment	No. of shares/units derecognised	Fair Value as on date of de-recognition	Cumulative gain/ (loss) on de-recognition
FY 2022-23			
NHPC Limited[(a)]	3,09,62,813	113.57	46.13
Total			
FY 2021-22			
NHPC Limited[(a)]	2,81,86,257	79.82	18.42
'Small is Beautiful' Fund[(b)]	61,52,200	0.95	(5.20)
Total			**13.22**



(a) These equity shares were sold in tranches during the year considering the market scenario. The fair value and gain have been computed based on the price as on the respective date of de-recognition and has been presented above on aggregate basis.

(b) Pursuant to the completion of liquidation proceedings of 'Small is Beautiful' Fund; 61, 52,200 units of the 'Small is Beautiful' Fund held by the Company have been derecognised from the books.

Subsequent to de-recognition of such investments, the Company has transferred the cumulative gain/loss on such shares within Equity (from Reserve for Equity instruments through OCI to Retained Earnings) during the year. Refer Standalone Statement of Changes in Equity for further details.

11.6 Refer Note 42 for details of fair valuation of investments.

35. Corporate Social Responsibility

In accordance with the Companies (Corporate Social Responsibility Policy) Amendment Rules, 2021 notified w.e.f 22.01.2021, any unspent amount pursuant to any ongoing project shall be transferred to unspent CSR Account in any scheduled bank within a period of thirty days from the end of the financial year, to be utilised within a period of three financial years from the date of such transfer. Any unspent CSR amount, other than for any ongoing project, shall be transferred to a Fund specified in Schedule VII, within a period of six months of the expiry of the financial year. Further, if the company spends an amount in excess of the requirement under statute, the excess amount may be carried forward and set off in three succeeding financial years against the amount to be spent.

As the notification was made effective during FY 2020-21, the Company complied with the amended provisions of Section 135 of the Companies Act, 2013 with effect from the FY 2020-21. Accordingly, the unspent CSR amount as at 31.03.2020 would continue to be dealt with in accordance with the pre-amendment framework.

35.1 Details of amount required to be spent by the Company on CSR activities during the year:

(₹ in crore)

Sr. no.	Particulars	FY 2022-23			FY 2021-22		
		For FY 2022-23	For period up to 31.03.2020	Total	For FY 2021-22	For period up to 31.03.2020	Total
(i)	Opening unspent / (Excess) amount	54.87	99.15*	154.02	(39.39)	143.43*	**104.04**
(ii)	Amount transferred to unspent CSR bank account out of opening unspent amount	54.87	-	54.87			
(iii)	Balance Opening unspent / (Excess) amount (i-ii)	-	99.15	99.15			
(iv)	Amount required to be spent as per Section 135 (5) of Companies Act, 2013	178.58	-	178.58	170.43	-	170.43

39. Capital Management

The Company maintains a capital base that is adequate to support the Company's risk profile, regulatory and business needs. The Company sources funds from domestic and international financial markets, inter-alia leading to diverse investor base and optimised cost of capital. Refer Note 17, 18 and 19 for details w.r.t. sources of funds and refer Standalone Statement of Changes in Equity for details w.r.t Equity.

As contained in RBI Master Directions - Non-Banking Financial Company - Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016, as amended from time to time (hereinafter referred to as "RBI Master Directions"), the Company is required to maintain a capital ratio consisting of Tier I and Tier II capital not less than 15% of its aggregate risk weighted assets on-balance sheet and of risk adjusted value of off-balance sheet items. Out of this, Tier I capital shall not be less than 10%. The Company regularly monitors the maintenance of prescribed levels of Capital to Risk Weighted Assets Ratio (CRAR). Further, with regard to capital restructuring, the Company is also guided, inter alia, by guidelines on "Capital Restructuring of Central Public Sector Enterprises" issued by Department of Investment and Public Asset Management (DIPAM), Ministry of Finance, Department of Public Enterprises in respect of issue of bonus shares, dividend distribution, buy back of equity shares etc.

39.1 Certain key financial parameters of the Company are as under:

Ratios	Numerator*	Denominator*	As at 31.03.2023	As at 31.03.2022	% variance
Total Capital to risk-weighted assets ratio (CRAR)	Tier I Capital + Tier II Capital	Risk Weighted assets	24.37%	23.48%	3.79 %
CRAR – Tier I Capital	Tier I Capital	Risk Weighted assets	21.61%	20.00%	
CRAR – Tier II Capital	Tier II Capital	Risk Weighted assets	2.76%	3.48%	
Liquidity Coverage Ratio(LCR) (Refer Note 55.6)	Total High Quality Liquid Assets	Total Net Cash Outflows	70.00%	60.00%	NA

* Computed as per applicable RBI guidelines.

39.2 During FY 2022-23 , the Company has not raised any subordinated debt as Tier-II capital and Perpetual Debt (Previous FY 2021-22 – Nil)

39.3 Dividend Distribution Policy

The Company has a well-defined dividend distribution policy. Dividend distribution policy focuses on various factors including but not limited to GoI guidelines, RBI circulars / guidelines, future capital expenditure plans, profits earned during the financial year, cost of raising funds from alternate sources, cash flow position and applicable taxes if any, subject to the guidelines as applicable from time to time.

As per the extant guidelines issued by Department of Investment and Public Asset Management (DIPAM), Government of India, the Company is required to pay a minimum annual dividend of 30% of Profit after Tax or 5% of the net-worth, whichever is higher subject to the maximum dividend permitted under extant legal provisions. Though, the Company endeavours to declare dividend as per these guidelines, it may propose to MoP, a lower dividend after analysis of various financial parameters like net-worth, CAPEX/business expansion needs; additional investments in subsidiaries / associates of the Company; other regulatory requirements etc. For details of dividend paid/recommended during the year, refer Note 24.2

40. Financial Risk Management

The Company is exposed to several risks which are inherent to the environment that it operates in. The Company is into business of extending financial assistance to power, logistics and infrastructure sector. The principal risks which are inherent with the Company's business model and from its use of financial instruments include credit risk, liquidity risk and market risk (currency risk, interest rate risk and price risk).

The following table broadly explains sources of risks which the Company is exposed to and how it manages the same and related impact in the financial statements:

Note	Risk	Exposure arising from	Measurement	Risk Management
40.1	Credit Risk	Loans, investments, cash and cash equivalents, other financial assets	Ageing analysis	Detailed appraisal process, credit concentration limits and collateral including government guarantee
40.2	Liquidity Risk	Debt securities, borrowings, subordinated liabilities and other financial liabilities	Cash flow forecasts	Availability of committed credit lines and borrowing facilities
40.3	Market Risk – Foreign Currency Risk	Recognised financial liabilities not denominated in Indian Rupee (INR)	Sensitivity Analysis	Derivative contracts for hedging currency risk
40.4	Market Risk – Interest Rate Risk	Debt securities, Borrowings, subordinated liabilities and loans at variable interest rates	Interest rate gap analysis	Mix of loan arrangements with varied interest rate terms, derivative contract like interest rate swaps etc.
40.5	Market Risk – Price Risk	Investments in quoted equity instruments	Sensitivity Analysis	Diversification of portfolio, with focus on strategic investments

For managing these risks, the Company has put in place an integrated enterprise-wide risk management mechanism to ensure that these risks are monitored carefully and managed efficiently. In accordance with the RBI Master Direction in order to augment risk management practices in the Company, the Company has a Chief Risk Officer (CRO) who is involved in the process of identification, measurement and mitigation of risks. The Company also has a Board level Risk Management Committee(RMC) headed by an Independent Director, whose main function is to monitor and review the risk management plan of the Company and to make recommendations to the Board of Directors for taking up various risk management activities. The Chief Risk Officer (CRO) is a permanent invitee to all the meetings of Risk Management

Committee. The risk management approach i.e., Company's objectives, policies and processes for identifying, measuring and managing each of above risk is set out in the subsequent paragraphs.

40.1 Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Company by failing to discharge its obligation. Details of financial assets that expose the Company to credit risk are:

(₹ in crore)

Particulars	As at 31.03.2023	As at 31.03.2022
Low Credit Risk		
Cash and cash equivalents[a]	22.14	720.91
Bank balances other than included in cash and cash equivalents[a]	1,595.96	3,240.31
Loans (Principal Outstanding) [c]	3,89,559.35	3,25,704.99
Investments (Excluding equity investments) [a]	1011.32	265.93
Other financial assets[b]	5,389.03	5,382.67
Moderate Credit Risk		
Loans (Principal Outstanding) [c]	16,436.73	26,514.34
High Credit Risk		
Investments (Excluding equity investments) [a]	72.95	72.95
Loans (Principal Outstanding) [c]	16501.65	20,915.28
Other financial assets [b]	18.38	24.79

(a) Credit risk on cash and cash equivalents and other bank balances is limited as these are held with scheduled commercial public sector banks, high rated private sector banks and mutual fund houses, which meets the empanelment criteria as set out in the Company's policy. The Company has also set exposure limits for deployment of funds in various types of instruments with respective banks/ mutual fund houses.

For its investments, the Company manages its exposure to credit risk by periodically monitoring such investments, and applying the appropriate valuation techniques to arrive at the carrying value.

(b) Credit risk on other financial assets is evaluated based on Company's knowledge of the credit worthiness of those parties and managed by monitoring the recoverability of such amounts. The Company carries an impairment loss allowance of ₹ 18.38 crore on its other financial assets as at 31.03.2023 (as at 31.03.2022 ₹ 24.79 crore).

(c) The Company is exposed to credit risk primarily through its lending operations. The same is explained in the paragraphs below.

40.1.1 Credit Risk Management for Lending Operations

The Company has put in place key policies and processes for managing credit risk, which include formulating credit policies, guiding the Company's appetite for credit risk exposures, undertaking reviews & objective assessment of credit risk, and monitoring performance and management of portfolios. All the procedures and processes of the Company are ISO 9001:2015 certified.

The credit risk management covers two key areas, i.e., project appraisal & project monitoring. The Company selects the borrowers in accordance with the Company's approved credit policy, which inter alia, defines factors to be considered for rating of the borrower/ project. The Company's customer selection procedure assesses viability of project along with that of its promoting entity. Rate of interest and maximum admissible exposure is, inter alia, based on internal rating awarded by the Company.

(i) Appraisal of Projects

The Company follows a systematic, institutional project appraisal process to assess the credit risk before financing any project.

(a) Appraisal for Private Sector Projects

For private sector projects, a two-stage appraisal process is followed. Initially a preliminary appraisal is carried out in order to decide the prima facie preparedness of the project to be taken up for detailed appraisal. Detailed appraisal is carried out for those projects shortlisted on the basis of preliminary appraisal.

The Company along with evaluation of project viability also assesses the ability of its promoter(s) to contribute equity and complete the project. The Company follows an integrated rating methodology whereby Integrated Rating (IR) is calculated using the weighted average of the scores of the project grading and promoter grading. Based on the IR of the project, terms and conditions (including security package, interest rate and debt-equity ratio) are stipulated.

(b) Appraisal for State Sector Projects

State sector projects are taken up for detailed appraisal to determine, inter-alia, if they are techno economically sound and compatible with integrated power development & expansion plans of the State.

The Company classifies state power generation utilities into various risk rating grades based on the evaluation of utility's performance against specific parameters covering operational and financial performance. With regards to transmission utilities, the Company adopts the categorisation of its subsidiary RECL as per its policy. With regard to State Power Distribution utilities including integrated utilities, the Company's categorisation policy provides for adoption of Ministry of Power's (MoP's) Integrated Ratings by aligning such ratings/ grading with that of Company's rating structure.

Such categories/ ratings are used to determine credit exposure limits, security requirements and pricing of loans given to the State Sector Borrowers. The Company also has a mechanism in place for monitoring the exposure to single borrower and exposure within a State.

The detailed project appraisal involves technical and financial appraisal covering various aspects such as project inputs, statutory and non-statutory clearances, contracts, project linkages, financial modelling/ projections, calculation of returns, sensitivity analysis etc.

After detailed analysis indicated above, the overall viability of the project and entity is assessed and various conditions in the form of pre-commitment, pre-disbursement and other conditions are stipulated so as to ensure tying up of funds (debt and equity both), all physical inputs, appropriateness of all the contracts, compliance of conditions precedent in agreements/ contracts/ statutory and non- statutory clearances related to the project etc. and in general to ensure bankability of the project & protection of the interest of the Company as a lender for timely servicing of debt. The Company has an authorisation/ delegation structure for the approval of credit facilities commensurating with the size of the loan.

(ii) Security and Covenants

The Company stipulates a package of security measures/covenants to mitigate risks during the construction and post COD (commercial operation date) stage of the project. Based on the risk appetite and appraisal of the project, the Company adopts a combination of the following measures:

(a) Primary Security -Charge on Project Assets or State Government Guarantees
(b) Collateral Securities - Corporate guarantee, Personal guarantee of promoters, Pledge of shares, Charge on assets / revenues of group/other companies
(c) Payment Security Mechanism - Escrow Account / Letter of Credit, Trust and Retention Account (TRA)
(d) Other covenants - Assignment of all project contracts, documents, insurance policies in favour of the Company, Upfront equity requirement, Debt Service Reserve Account (DSRA), Debt Equity ratio, shareholders' agreements, financial closure, etc.

(iii) Project Monitoring

The Company has comprehensive project/loan monitoring guidelines that captures aspects relating to monitoring, tracking of project construction, implementation, identifies risks where intervention is required to minimize the time /cost overruns/ consequent slippages in disbursements and including progress of commissioned projects.

For State sector projects, monitoring is carried out based on project progress details obtained regularly from borrowers through progress monitoring reports, site visits, discussions with the borrowers, information/reports available on Central Electricity Authority's (CEA) website etc.

For private sector, where the Company is Lead Financial Institution (FI), the Company engages Lenders' Engineers (LEs) and Lenders' Financial Advisors (LFAs), which are independent agencies to act on behalf of various lenders / consortium members. The LEs conduct periodic site visits, review relevant documents, discusses with the borrowers and submit its reports on progress of the project. LFAs submit the statements of fund flow and utilization of funds in the project periodically. In cases the Company is not the lead FI, the tasks related to LEs and LFAs services are coordinated with the concerned lead lender. From FY 2022-23 onwards the Company has started empanelling Project Management Agency (PMA), as a single entity, for private sector projects, thereby facilitating better coordination of project monitoring activities.

Also, the consolidated periodic progress report of certain projects is prepared comprising important observations/ issues viz. areas of concern, reasons for delay, issues affecting project construction/implementation etc. and is reviewed by the Company on a regular basis.

The Company continuously monitors delays and/or default of borrowers and their recoverability. On occurrence of default in the borrower's account, the Company initiates necessary steps which may involve action(s) including, but not limited to, Special Mention Account (SMA) reporting to RBI, credit information reporting to Central Repository of Information on Large Credits (CRILC) etc., regularization of the account by recovering all over dues, invocation of guarantees/ securities to recover the dues, conversion of loan into equity as per loan agreement, restructuring of loan account, formulating resolution plan with the borrower, change in ownership, Corporate Insolvency Resolution Process (CIRP) under IBC -2016, sale of the exposures to other entities/investors, other recovery mechanisms like referring the case for legal action before Debt Recovery Tribunal (DRT), SARFAESI, etc. and other actions as specified under regulatory/legal framework.

40.1.2 Credit Risk Measurement - Impairment Assessment for Lending Operations

(i) **Staging of loans**

Ind-AS 109 outlines a three staged model for measurement of impairment based on changes in credit risk since initial recognition. For classification of its borrowers into various stages, the Company uses the following basis:

- A financial asset that is not credit impaired on initial recognition is classified in 'Stage 1'.

- If a significant increase in credit risk (SICR) is identified, the financial asset is moved to 'Stage 2'.

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting date by considering the change in the risk of default occurring over the remaining life of the financial assets. In accordance with Ind AS 109 'Financial Instruments', the Company has applied rebuttable presumption that considers more than 30 days past due as a parameter for determining significant increase in credit risk.

- If the financial asset is credit-impaired, it is moved to 'Stage 3' category.

In case of Stage 3 financial assets, after implementation of the resolution plan (except for change of ownership and/or resolution through NCLT), the financial asset is upgraded and classified as Stage 2 for two quarters from the date of implementation of resolution plan.

(ii) **Default**

In accordance with Ind AS 109 'Financial Instruments', the Company considers the rebuttable presumption to define a financial asset as in default, i.e. when the loan account is more than 90 days past due on its contractual payments. Credit impaired financial assets are aligned with the definition of default.

(iii) **Measurement of Expected Credit Loss (ECL)**

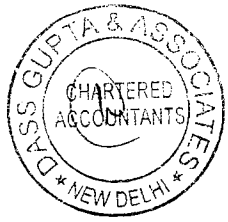
The Company recognises impairment loss allowance for the financial assets in accordance with a Board-approved expected credit loss (ECL) policy. ECL is measured on either a 12 month or lifetime basis depending on whether there is significant increase in credit risk since initial recognition. ECL is the product of Probability of default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). The Company has appointed an independent agency, CRISIL Ltd., during the financial year for assessment of ECL in accordance with Ind AS 109 'Financial Instruments'. The brief methodology of computation of ECL is as follows:

(a) Probability of default (PD)

PD is an estimate of the likelihood of default over a given time horizon. It is estimated as at a point in time. For assessing 12-month PD, probability of a loan defaulting in next 12 months is ascertained and similarly for assessing lifetime PD, probability of a loan defaulting in its remaining lifetime is ascertained.

For Stage 1 accounts, 12 months PD is used.
For Stage 2 (significantly increased credit risk accounts), Lifetime PD is used.
For Stage 3 (credit impaired accounts), 100% PD is taken.

12-month PD: In case of State Sector borrowers, for the purpose of PD calculation, the risk rating grades of the utilities are considered. For Gencos/Transcos/Others, PFC's internal rating grades have been considered. For Discoms / Power Department borrowers, PFC has adopted the MoP ratings . The ratings as above has been be mapped with the standard external rating benchmarks. The PD factor associated with the mapped external rating as given in the PD transition matrix published by various CRAs have been used for PD calculation.



In case of Private sector borrowers, the latest external rating as published by various Credit Rating Agencies have been referred to compute PD using the PD transition matrix published by various CRAs . If external rating is not available, the PD has been computed through Proxy Risk Scoring Model on a 10-point scale with 1 suggesting minimum risk and 10 suggesting the highest risk. The said model uses the Quantitative financial ratios like Gearing (Debt/Equity), Return on Capital Employed, Interest Coverage ratio, Debt to EBITDA ratio and qualitative factors like PLF, ACS/ ARR ratio or LAF to arrive at the final Risk score. The financial risk score obtained have been mapped to external rating benchmarks. This mapped rating has been referred to compute PD associated with the rating using the PD transition matrix published by various CRAs.

For Lifetime PD: Markov Chain Model has been used to compute Lifetime PDs of the rating grade.

(b) Loss Given Default (LGD)

LGD is the loss factor which the Company may experience in case the default occurs.

For State sector borrowers, the company considers the credit worthiness of the states on various parameters while estimating the LGD for state utilities. For estimating the credit worthiness of the state, parameters like State GDP per capita, Fiscal deficit/GDP ratio and Proportion on Revenue Expenditure on Energy Sector, etc. are used as key inputs. The state utilities are bifurcated into Low, Medium and High-risk category based on the state category. In case of Private sector borrowers, LGD has been assessed considering factors related to the project to arrive at realisable value of the plant such as generation capacity, project cost per MW, percentage completion of the plant, and book value of the assets etc. A stress factor was also applied as a haircut to arrive at the realisable value.

For Stage 3 borrowers, LGD has been assessed project wise based on Bid value/resolution plan amount/OTS amount/any other value/ discounted cash flows etc. as applicable.

(c) Exposure at Default (EAD)

Exposure at Default is the outstanding exposure on which ECL is computed. EAD includes outstanding principal and interest accrued (including delayed charges) in respect of the loan. As per Note no.6.1.(ii) , income on credit impaired assets is recognised as and when received or on accrual basis when expected realisation is higher than the loan amount outstanding, therefore, the same is not used in computation of Exposure at default.

(d) Key assumptions used in measurement of ECL

- The Company considers the date of initial recognition as the base date from which significant increase in credit risk is determined.

- Since the Company has a right to cancel any sanctioned but undrawn limits to any of its borrowers, EAD is assumed to be outstanding balance and interest of the loan as on the reporting date.

(e) The assessment of significant increase in risk and the calculation of ECL both incorporate forward-looking information. Further, the independent agency appointed to assist the Company in ECL assessment also consider the forward-looking information in the determination of the impairment allowance to be assigned to the borrower, by taking into consideration various project operational parameters, project financial ratios, extension of the project completion and also possibility of stressed and favourable economic conditions. Further, the independent agency has also added some additional macroeconomic parameters such as Power demand, GDP growth, monthly weighted average prices of traded power and current account to arrive at a weighted shock factor to the base PD term structure for ECL computation so as to reflect the right risk assessment of the utilities.

40.1.3 Credit risk analysis for Lending Operations

(i) Exposure to credit risk

For loans recognized in the balance sheet, the gross exposure to credit risk equals their carrying amount. Refer Note 10 'Loans' for Company's exposure to credit risk arising from loans.

For financial guarantee issued, the maximum exposure to credit risk is the maximum amount that the Company would have to pay if the guarantees are called upon. For irrevocable loan commitments, the maximum exposure to credit risk is the full amount of the commitment facilities. Refer Note 46 for exposure of Guarantee and Outstanding Disbursement Commitments.

The credit quality and maximum exposure (Principal outstanding) to credit risk based on days past due and year end stage classification of loans is tabulated below.

(₹ in crore)

Days past Due (DPD)	As at 31.03.2023				As at 31.03.2022			
	Stage 1	Stage 2	Stage 3	Total	Stage 1	Stage 2	Stage 3	Total
No overdue	3,89,559.28	674.51#	-	3,90,233.79	3,20,384.30	594.09 *	-	3,20,978.39
1-30 days	0.07		-	0.07	5,320.69	-	-	5,320.69
31-60 days	-	-	-	-	-	2,190.12	-	2,190.12

61-90 days	-	15,111.71	-	15,111.70	-	21,477.77	-	21,477.77
More than 90 days	-	650.51@	16501.65	17152.16	-	2252.36@	20,915.28	23,167.64
Total	**3,89,559.35**	**16,436.73**	**16,501.65**	**4,22,497.73**	**3,25,704.99**	**26,514.34**	**20,915.28**	**3,73,134.61**

Pending transfer of ownership, the account has been classified as Stage 2.
* Since the borrower is in stage 2 in other loans, these loans (which otherwise would have been categorised in stage 1) have also been categorised in stage 2.
@Refer Note 40.1.6.

(ii) Concentration of credit risk

Credit concentration risk refers to risk associated with large credit/investment exposure to a single company or a group of companies based on its ownership, sector, region etc. that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions, with the potential to adversely affect lender's core operations.

The following table sets out an analysis of risk concentration of overall loan portfolio on the basis of similar risk characteristics:

(₹ in crore)

Particulars	**As at 31.03.2023**		**As at 31.03.2022**	
	Principal outstanding	**Impairment loss allowance***	**Principal outstanding**	**Impairment loss allowance***
Concentration by ownership				
Loans to state sector (i.e., entities under the control of state and /or central government)	3,49,765.78	2,551.42	3,14,004.35	1,525.46
Loans to private sector	72,731.95	13,524.18	59,130.26	15,823.06
Total	**4,22,497.73**	**16,075.60**	**3,73,134.61**	**17,348.52**

*including impairment loss allowance on Letter of Comfort and Guarantee of ₹ 50.93 crore (as at 31.03.2022 ₹ 77.21 crore).

Loans to state sector are well diversified as these are extended to multiple entities under the control of various State Governments and Central Government. The Company considers that these loans have a low credit risk in comparison to lending to private sector mainly due to low default / loss history in state sector and availability of government guarantee in certain loans. Presence of Government interest in these projects also lowers the risk of non-recoverability of dues.

Further, the Company has a lending portfolio comprising of loans to generation, renewable, transmission, distribution, power projects & other infrastructure projects spread across diverse geographical areas.

(₹ in crore)

Particulars	**As at 31.03.2023**		**As at 31.03.2022**	
	Principal outstanding	**Impairment loss allowance***	**Principal outstanding**	**Impairment loss allowance***
Concentration by schemes				
Generation	1,74,660.92	11,219.39	1,75,434.21	12,318.35
Renewable	48,197.75	3,120.12	36,777.49	2,833.98
Transmission	30,841.01	152.35	30,499.70	1,298.11
Distribution	1,55,871.68	1,484.10	1,28,006.79	892.46
Others	12,926.37	99.64	2,416.42	5.62
Total	**4,22,497.73**	**16,075.60**	**3,73,134.61**	**17,348.52**

*including impairment loss allowance on Letter of Comfort and Guarantee of ₹ 50.93 crore (as at 31.03.2022 ₹ 77.21 crore).

(vi) Movement of Credit Impaired Accounts (Stage 3 accounts):

(₹ in crore)

Sr. No.	Description		As at 31.03.2023	As at 31.03.2022
(i)	Net Credit Impaired accounts to Gross Loans (%)		1.07	1.76
(ii)	Net Credit Impaired accounts to Net Loans (%)		1.10	1.83
			FY 2022-23	**FY 2021-22**
(iii)	Movement of Gross Credit Impaired accounts			
	(a)	Opening balance	20,915.28	21,150.16
	(b)	Additions during the year	45.78	1,486.68
	(c)	Reductions during the year	(4,459.42)	(1,721.56)
	(d)	Closing balance	16,501.65	20,915.28
(iv)	Movement of Net Credit Impaired accounts			
	(a)	Opening balance	6,570.90	7,733.80
	(b)	Additions during the year	28.13	809.71
	(c)	Reductions during the year	(2096.76)	(1,972.61)

	(d)	Closing balance	4,502.27	6,570.90
(v)	Movement of impairment loss allowance on Credit Impaired accounts			
	(a)	Opening balance	14,344.38	13,416.36
	(b)	Provisions made during the year	425.99	1,913.99
	(c)	Write-off / write-back of excess provisions	(2770.99)	(985.97)
	(d)	Closing balance	11,999.38	14,344.38

(vii) Percentage of Gross Credit Impaired Assets (Stage 3) to Gross Loans – sector wise

Description	As at 31.03.2023	As at 31.03.2022
Financing to power, logistics and infrastructure sector	3.91%	5.61%

40.1.4 Write off of Loan Assets

The company writes off Loan assets in whole or in part in line with its write off policy, when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include ceasure of enforcement activity or where the Company's recovery method is foreclosing on collateral and the value of collateral is such that there is no reasonable expectation of recovery in full. The waiver/write off is done in whole or in part as per the restructuring/settlement/resolution process.

40.1.5 Policy on sales out of amortised cost business model portfolio

The Company does not resort to the sale of financial assets, in ordinary course of business. However, the Company has an approved policy that it may proceed for resolution of stressed assets by either restructuring, change of ownership, settlement or otherwise. The assets are then assessed for derecognition as per Ind AS 109 'Financial Instruments'

40.1.6 Disclosure in respect of accounts that are beyond 90 days overdue but not treated as credit impaired

Particulars	As at 31.03.2023	As at 31.03.2022
Number of Borrowers	1	4
Amount of loan outstanding(₹ in crore)	650.51	2,252.36
Amount overdue *(₹ in crore)	160.91	188.18
Amount of Impairment Loss allowance (₹ in crore)	422.68	815.87

*excluding overdue interest of ₹ 186.06 crore as at 31.03.2023 (As at 31.03.2022 ₹ 242.87 crore).

Pursuant to Ad-interim order from Hon'ble High Court(s) these borrower(s) accounts have not been classified as Credit impaired. The Company holds adequate impairment loss allowance with respect to these loan accounts and has categorised them in Stage 2. The interest income is also not been recognized on these loan accounts on accrual basis since these loans are more than 90 days past due.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. CA FRN No. 000425N New Delhi Chartered Accountants

40.1.8 In accordance with RBI's Master Direction-Non-Banking Financial Company- Systemically Important Non-Deposit Taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 as amended from time to time, NPA ratios duly considering the loans which would have been otherwise required to be classified as NPA as per RBI norms is as under:

Particulars	As at 31.03.2023	As at 31.03.2022
Gross NPA to Gross Loans	4.72%	6.58%
Net NPA to Net Loans	1.87%	2.76%

40.2 Liquidity Risk

Liquidity risk is the risk that the Company doesn't have sufficient financial resources to meet its obligations as and when they fall due. The risk arises from the mismatches in the timing of the cash flows which are inherent in all financing operations and can be affected by a range of company specific and market wide events.

In order to effectively manage liquidity risk, the Company endeavours to maintain sufficient cash flows to cover maturing liabilities without incurring unacceptable losses or risking damage to the Company's reputation and also endeavours to maintain a diversified fund base by raising resources through different funding instruments. The adequacy of the Company's liquidity position is determined keeping in view the current liquidity position , anticipated future funding needs, present and future earning capacity and available sources of funds.

The Company manages its day to day liquidity to ensure that the company has sufficient liquidity to meet its financial obligation as & when due. The long term liquidity is managed keeping in view the long term fund position and the market factors. This is in line with the Board approved framework and breaches, if any, are to be reported as per approved framework. The Company has never defaulted in servicing of its borrowings.

Further, for overall liquidity monitoring and supervision, the Company has an Asset Liability Committee (ALCO) headed by Director (Finance). The ALCO tracks the liquidity risk by analysing the maturity or cash flow mismatches of its financial assets and liabilities. The mismatches are analysed by way of liquidity statements prescribed by RBI, wherein the cumulative surplus or deficit of funds is arrived at by distributing the cash flows against outstanding financial assets and financial liabilities according to the maturity ladder.

(i) The following table analyses the maturity pattern of items of financial liabilities(debt securities, borrowings and subordinated liabilities) by remaining maturity of contractual principal and interest on an undiscounted basis:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total

Loan assets				
Principal	28,263.46	1,28,615.86	2,01,918.38	**3,58,797.70**
Interest	34,703.91	1,06,907.01	1,00,935.58	**2,42,546.50**
Total	**62,967.37**	**2,35,522.87**	**3,02,853.96**	**6,01,344.20**

* The principal cash flows net of impairment loss allowance relating to Stage 3 assets have been considered in over 5 years bucket irrespective of the maturity date.

(iv) The Company has access to cash credit, overdraft, line of credits and working capital demand loans from banks to meet unanticipated liquidity need. Further, the Company has the highest domestic Credit Rating of AAA, thereby enabling it to mobilize funds from the domestic market within a short span of time. The Company has access to the following undrawn short term borrowing facilities :

(₹ in crore)

Particulars	As at 31.03.2023	As at 31.03.2022
CC/ OD/ LoC / WCDL limits	8116.17	5,398.00

(v) The Company also maintains sufficient liquidity buffer in the form of High-Quality Liquid Assets (HQLA) as prescribed by RBI for NBFCs. Refer note 55.6 for disclosure in this regard.

40.3 Market Risk – Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument, denominated in currency other than functional currency, will fluctuate because of changes in foreign exchange rates.

(i) The Company is exposed to foreign currency risk mainly on its borrowings denominated in foreign currency. The carrying amount of the Company's foreign currency denominated borrowings is as follows:

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. Firm No. 000425N New Delhi Chartered Accountants

(ii) **Foreign currency risk monitoring and management**

The Company has put in place a Board approved "Policy for Management of Risks on Foreign Currency Borrowings" to manage and hedge risks associated with foreign currency borrowings which prescribes the structure and organization for management of associated risks.

The Company enters into various derivative transactions viz. principal only swaps, options and forward contracts for hedging the exchange rate risk. As per extant policy, a system for reporting and monitoring of risks is in place wherein Committee for Management of Risks on Foreign Currency Borrowings, consisting of senior executives of the Company, monitors the foreign currency exchange rate. These derivative transactions are done for hedging purpose and not for trading or speculative purpose. The policy lays down the appropriate systems and controls to identify, measure and monitors, the currency risk for reporting to the Management.

(iii) **Foreign Currency Sensitivity Analysis**

The following table presents the impact on total equity [Gain / (Loss)] for 5% change in foreign currency exchange rate against INR on unhedged portfolio of outstanding foreign currency borrowings:

(₹ in crore)

Foreign Currency Liabilities	As at 31.03.2023		As at 31.03.2022	
	Decrease	Increase	Decrease	Increase
	on account of change in foreign exchange rate			
USD	742.52	(742.52)	1,026.31	(1,026.31)
Euro	163.77	(163.77)	130.48	(130.48)
JPY	282.66	(282.66)	113.06	(113.06)
Total	**1,188.95**	**(1,188.95)**	**1,269.85**	**(1,269.85)**

40.4 Market Risk – Interest Rate Risk

40.4.1 Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in interest rates. The impact may be beneficial or adverse depending on the direction of change in interest rates and whether assets or liabilities re-price faster.

(i) Interest rate risk is managed with the objective to control market risk exposure while optimizing the return.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 001425N New Delhi Chartered Accountants

The Asset Liability Committee (ALCO) tracks the interest rate risk through the gap analysis i.e. by analysing the mismatches between Rate Sensitive Assets and Rate Sensitive Liabilities. For gap analysis, the interest rate sensitivity statement prescribed by RBI is used, wherein the gap is measured between the Rate Sensitive Assets and Rate Sensitive Liabilities which are distributed based on the maturity date or the re-pricing date whichever is earlier.

Further, for managing the interest rate risk, the Company reviews its interest rates periodically based on prevailing market conditions, borrowing cost, yield, spread, competitors' rates, etc. The asset mix is managed by the Company through its interest rate & credit policies which inter-alia covers aspects like reset periods; repayment periods, prepayment premium etc. The liabilities are managed keeping in view factors like cost, market appetite, timing, market scenario, ALM gap position etc. The Company also enters into various derivatives transactions like interest rate swaps, cross-currency interest rate swaps to hedge its interest rate risk.

(ii) Interest Rate Sensitivity Analysis

As per RBI Guidelines, Earning at Risk (EaR) is an important focal point for interest risk management. For Interest Rate Sensitivity analysis, the impact of movement of interest rates has been measured on the Earning at Risk derived from the gap statements. The impact has been worked out considering 25 basis upward/downward shocks to interest rates over a one-year period, assuming a constant balance sheet. The analysis shows that if rates are increased/decreased by 25 bps, the impact on EaR will be (+/-) ₹ 194.52 crore. (As at 31.03.2022 (+/-) ₹ 118.77 crore).

The analysis assumes that the Rate Sensitive Assets and Rate Sensitive Liabilities are being re-priced at the same time. Further, the analysis considers the earliest/first re-pricing date of the Rate Sensitive Assets and Rate Sensitive Liabilities.

Note: A 25 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

40.4.2 Disclosures in respect of Interest Rate Benchmark Reform

The Company has variable interest rate borrowings whose interest rate is based on interest rate benchmarks. Also, to hedge the variability of cash flows on these borrowings, the Company has entered into multiple interest rate swaps with key terms (principal amount, payment dates, repricing dates, currency) that match those of the debt on which it pays a fixed rate and receives a variable rate. Significant interest rate benchmark used in the Company's borrowings is 6 month USD LIBOR (London Interbank offer rate).

(i) Exposure directly affected by the interest rate benchmark reform

The total amount of exposure that is directly affected by Interest Rate Benchmark Reform (IBOR) i.e. after June 2023 is USD 656.24 million (Amount in INR ₹ 5395.44 crores) as on 31.03.2023. Out of this, the amount of the derivative exposure linked with such liabilities and accounted for under hedge accounting is USD 650 million (Amount in INR ₹ 5344.10 Crores).

Following is the detail of the foreign currency borrowings which will be impacted based on LIBOR transition from 6 month USD LIBOR as planned after June 2023:-

Benchmark	As at 31.03.2023				As at 31.03.2022			
	Amount in respective currency (million)	Amount (₹in crores)	Of which, have yet to transition to an alternative benchmark rate		Amount in respective currency (million)	Amount (₹ in crores)	Of which, have yet to transition to an alternative benchmark rate	
			Amount in respective currency (million)	Amount (₹ in crores)			Amount in respective currency (million)	Amount (₹ in crores)
Non-derivative financial liabilities								
6 month USD LIBOR	656.24	5.395.44	650.00	5,344.10	657.67	4,985.66	650.00	4,927.46
Derivatives								
6 month USD LIBOR	650.00	5,344.10	650.00	5,344.10	650.00	4,927.46	650.00	4,927.46

(ii) Managing the process of transition to alternative benchmark rates

The Company has in place a Board approved Policy for undertaking Libor Transition namely "Framework for transition from London Inter Bank Offered Rate (LIBOR) to Alternative Reference Rate (ARR)'. The framework inter-alia covers aspects such as assessment of exposure linked to LIBOR, identification of risk arising out of LIBOR transition, contracts remediation, operational readiness, governing structure, regulatory compliance & reporting, etc. Further, the company shall undertake all transition activities as per the process/ guidelines detailed in the policy. The process of transition from 6 month USD LIBOR to Alternative Reference Rate has been initiated & shall be completed within available timelines.

(iii) Significant assumptions for exposure affected by the interest rate benchmark reform

Ind AS 109 provides temporary exceptions to all the hedging relationships directly impacted by the interest rate benchmark reform. The alternative reference rate / benchmarks for the LIBOR linked loans and their derivatives are yet to be agreed with the lenders and the derivative bankers. However, it has been assumed that as a result of such reform there shall be no change in the relationship of the hedged items, hedged instruments and its corresponding hedge effectiveness.

40.5 Market Risk - Price risk

(i) The Company is exposed to price risks arising from investments in listed equity shares. Refer Note 11 'Investments' for Company's exposure to the same.

(ii) Sensitivity Analysis

The table below represents the impact on Statement of Profit and Loss for 5% increase or decrease in the respective prices on Company's equity investments, outside the group:

(₹ in crore)

Particulars	As at 31.03.2023		As at 31.03.2022	
	Increase	(Decrease)	Increase	(Decrease)
Impact on P&L	3.47	(3.47)	6.29	(6.29)
Impact on OCI	56.50	(56.50)	47.48	(47.48)

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000625N New Delhi Chartered Accountants

41. Hedge Accounting

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Statement of Profit and Loss on a systematic basis.

(i) Hedge Effectiveness

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. The Company applies the following effectiveness testing strategies:

a) For derivatives other than options that exactly match the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method (where principal terms of the hedging instrument and the hedged item are same).

b) For option structures, the Company analyses the relationship of changes in value of the hedging instrument and hedged item using regression analysis based dollar offset method.

(ii) The effects of hedging instruments designated as Cash-flow hedge on the Standalone Balance Sheet:

42. Fair Value Measurements

(i) Some of the Company's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

(₹ in crore)

Sr. No.	Financial asset/ Financial Liability - Recurring fair value	Fair Value as at		Fair value hierarchy (Refer Note 5.1)	Valuation technique(s) & Key input(s)
		31.03.2023	31.03.2022		
1)	**Quoted Equity investments**				
	- PTC India Limited	102.06	98.70	Level 1	Quoted market price
	- Coal India Limited	298.35	255.62		
	- NHPC Limited	624.40	517.88		
	- Suzlon Energy Limited	105.15	77.42		
	- RattanIndia Power Limited	69.36	125.79		
2)	**Un-Quoted Equity investments**				
	- Power Exchange India Limited	3.59	0.00	Level 3	Fair value has been determined using the Ind AS financials of the investee company.
	- RKM PowerGen Pvt. Ltd	0.00	0.00		Allotted pursuant to restructuring, valued at ₹ 1 on prudent basis
	- Energy Efficiency Services Ltd (EESL)	158.08	241.73		Fair value has been determined using the Ind AS financials of the investee company.
	Jhabua Power Limited	429.40	-		
	Ind Barath Energy Utkal Limited	1.18	-		
3)	**Investment in preference shares**				
	- RattanIndia Power Limited-OCCRPS	0.00	0.00	Level 3	Owing to default in redemption of RPS of RattanIndia Power Ltd., PFC estimates no material amount may be realized from the investment.
	- Suzlon Global Services Limited -CCPS	-	0.00		Converted into equity shares pursuant to resolution.
4)	**Investment in debentures**				
	- Essar Power Transmission Company Ltd. - Series A3 - OCD	35.64	37.80		Fair valued using discounted future cash flow as per terms of agreement.
	- Essar Power Transmission Company Ltd. - Series B3 - OCD	14.36	15.23		

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

	- Suzlon Energy Limited - OCD	-	102.69		During FY 2022-23, OCD of the Company was converted into Equity Shares of the Company.
	- Essar Power Transmission Company Ltd. - Series C - OCD	0.00	0.00	Level 3	Fair valued a ₹ 1 due to the non-availability of structured repayment schedule. The debentures are unsustainable in nature and future cash flows are uncertain.
	- RKM Powergen Pvt. Ltd. - Series A - OCD	0.00	0.00		
	- RKM Powergen Pvt. Ltd. - Series B - OCD	0.00	0.00		
	- RKM Powergen Pvt. Ltd. - Series AI - OCD	0.00	0.00		
5)	Derivative Financial Instruments				
	- Assets	4,803.40	3,080.56	Level 2	The fair value of these contracts is obtained from counterparty banks, who determines it using valuation models that use inputs which are observable for the contracts, such as interest rates and yield curves, implied volatilities etc.
	- Liability	24.32	103.25		

(ii) There were no transfers between Level 1 and Level 2 during the year.

(iii) Reconciliation of Financial Instruments fair valued through Level 3 inputs:

The following tables show the reconciliation of the opening and closing amounts of financial assets and liabilities measured at fair value using Level 3 inputs:

(₹ in crore)

Fair Value gain/ (loss)	0.95[2]	(36.43)[2]	(96.19)[3]	
Closing Balance	-	**241.73**	-	**155.72**
Unrealized gains/(loss) on assets held at the end of the year	-	(36.43)	(96.19)	16.92

(1) Forms part of line item 'Interest Income' in the Standalone Statement of Profit and Loss.

(2) Fair value gain/ (loss) on Investments at FVTOCI forms part of line item 'Net Gain/(Loss) on Fair Value of Equity Instruments' in the Other Comprehensive section of Standalone Statement of Profit and Loss.

(3) Fair value gain/ (loss) on Investments at FVTPL forms part of line item 'Net Loss/(Gain) on Fair Value changes' in the Standalone Statement of Profit and Loss.

(iv) Fair Value of financial assets/ liabilities measured at amortized cost:

The fair value of the following financial assets and liabilities have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant input being the discount rate that reflects the credit risk of counterparties except for the cases where quoted market prices are available. These fair values were calculated for disclosure purposes only.

(₹ in crore)

Asset/Liability	Fair value hierarchy	As at 31.03.2023		As at 31.03.2022	
		Amortized Cost	Fair Value	Amortized Cost	Fair Value
Loans	Level 3	4,10,829.15	4,19,054.16	3,60,929.74	3,67,609.10
Investments [a]	Level 1/3	961.32	967.04	110.21	110.60
Other Financial Assets	Level 2	5,389.03	5,398.09	5,382.67	5,391.78
Debt Securities[a]	Level 1 / 2	2,59,827.05	2,55,207.19	2,30,156.95	2,36,861.56
Borrowings other than debt securities[b]	Level 2	1,01,228.89	96,575.09	87,965.42	84,205.44
Subordinated Liabilities	Level 2	9,311.84	9,625.45	9,311.27	9,960.39

(a) Includes listed instruments with Level 1 fair value hierarchy
Investment in G-Sec being fair valued using market price as at reporting date.
Foreign currency Notes (GMTN issuances) being fair valued as per closing prices as per Reuters.

(b) Includes foreign currency loans linked to LIBOR/Alternative reference rate and multilateral agencies loans being valued at par.

The carrying amounts of financial assets and financial liabilities other than those shown in the above table are considered to be a reasonable approximation of their fair values.

43.5 Disclosure in respect of entities under the control of the same government (Government related entities)

The Company is a Central Public Sector Undertaking (CPSU) controlled by Central Government. During the year, the Company had transactions with the related entities under the control/ joint control of the same government including but not limited to

Bhartiya Rail Bijlee Company Ltd.	Damodar Valley Corporation
Tehri Hydro Development Corporation	Mumbai Metro Rail Corporation Limited
Neyveli UP Power Ltd.	Bihar Grid Company Ltd.
Meja Urja Nigam Pvt Ltd.	Coal India Ltd.
Raichur Power Corporation Ltd.	NHPC Ltd.
NLC Tamil Nadu Power Ltd.	Sardar Sarovar Narmada Nigam Ltd.
National High Power Test Laboratory Pvt Ltd.	Neyveli Lignite Corporation Ltd.
Power Foundation of India	SJVN Thermal Pvt Ltd.

Significant transactions with entities under the control of same government:

(₹ in crore)

Nature of Transaction	During FY 2022-23	During FY 2021-22
Dividend Income	62.89	55.65
Disbursement of loans	5,362.77	772.59
Interest Income received	2,435.11	2,976.13
Repayment of principal received	2,213.85	5,875.14
Membership Fees Paid	5.40	-

Refer Note 12, 18, 20.1, 24.2 and 51 in respect of material transactions with the Central Govt.

Above transactions with the Government related entities cover transactions that are significant individually and collectively. The Company has also entered into other transactions such as telephone expenses and deposits etc. with other CPSUs. They are insignificant individually & collectively and hence not disclosed. All the transactions have been carried out on market terms.

43.6 Major terms and conditions of transactions with related parties

(i) Transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions.

(ii) The remuneration to Key Managerial Personnel are in line with the HR policies of the Company.

(iii) Loans and advances given to Directors/KMPs have specified terms / period of repayment and are in line with the HR Policies of the Company.

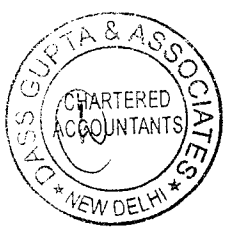
(iv) The Company makes advances to its associate companies which are incorporated as SPVs to meet the preliminary expenditure. Such advances carry interest rates at the rate applicable to Term Loans as per the Company's policy.

(v) The interest and/or dividend paid to the Trusts and Key Managerial Personnel are on account of their investments in the debt securities and/or equity shares of the Company and the interest and/or dividend paid on such securities is uniformly applicable to all the holders.

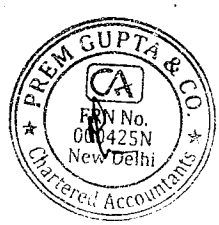
(vi) Outstanding balances of group companies at the year-end are unsecured except loan given to PFCCL amounting to ₹ 9.52 crore.

44. Employee Benefits

44.1 Defined contribution plans:



(a) Pension



The Company pays fixed contribution to National Pension Scheme (NPS) for its pension obligation towards employees at pre-determined rates into the Tier-I NPS Account (Pension Account) of the employees.

(b) Provident Fund

The Company pays fixed contribution on account of provident fund at prescribed rates to a separate trust, which invests the funds in permitted securities. The trust has to ensure, a minimum rate of return to the members as specified by GoI. However, any shortfall for payment of interest to members as per specified rate of return has to be compensated by the Company. The Company estimates that no liability will arise in this regard in the near future and hence, no further provision is considered necessary.

An amount of ₹ 17.10 crore (previous year ₹ 14.87 crore) for the year is recognized as expense in the Standalone Statement of Profit and Loss on account of the Company's contribution to the defined contribution plans.

44.2 Defined benefit plans:

(a) Gratuity

The Company has a defined gratuity scheme which is managed by a separate trust. Every employee who has rendered continuous service of five years or more is entitled to gratuity at 15 days salary for each completed year of service subject to a maximum of ₹ 0.20 crore on superannuation, resignation, termination, disablement or on death, considering the provisions of the Payment of Gratuity Act, 1972, as amended. The liability for the same is recognised on the basis of actuarial valuation.

(b) Post-Retirement Medical Scheme (PRMS)

The Company has a Post-Retirement Medical Scheme (PRMS) to provide medical facilities to superannuated employees, dependent family members of superannuated and deceased employees. The liability for PRMS is recognised on the basis of actuarial valuation.

This scheme is managed by a separate trust. The trust has to ensure adequate corpus for meeting the medical expenditure incurred by the eligible employees. However, any short fall has to be compensated by the Company. The Company estimates that no liability will arise in this regard in the near future and hence, no further provision is considered necessary.

VII. Closing Balance (I+II+III+IV+V+VI)	**7.82**	**6.76**

(d) Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

i) Investment risk

Most of the plan asset investments are in government securities, other fixed income securities with high rating grades and mutual funds. The fair value of these assets is subject to volatility due to change in interest rates and other market & macro-economic factors. There is also a risk of asset liability matching i.e. the cash flow for plan assets does not match with cash flow for plan liabilities.

ii) Changes in discount rate

The present value of defined benefit plan liabilities is calculated using a discount rate which is determined by reference to government bonds' yields at the end of the reporting period. A decrease (increase) in discount rate will increase (decrease) present values of plan liabilities, although this will be partially offset by an increase in the value of the plans' investments.

iii) Mortality rate risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 0[illegible]25N New Delhi Chartered Accountants

iv) Salary escalation risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

v) Turnover rate/Withdrawal rate of employee

If the actual employee withdrawal rate in the future turns out to be more or less than expected then it may result in increase/decrease in the liability.

(e) Plan Assets

The value of plan assets for each category is as follows:

(₹ in Crores)

Particulars	As at 31.03.2023		As at 31.03.2022	
	Gratuity	PRMS	Gratuity	PRMS
Cash & Cash Equivalents	0.21	0.96	0.02	0.09
State/ Central Government Debt Securities	15.43	35.60	14.15	30.10
Corporate Bonds/ Debentures	11.34	22.24	12.08	19.93
Others	1.44	-	1.25	-
Total	**28.42**	**58.80**	**27.50**	**50.12**

As at 31.03.2023 - Nil (as at 31.03.2022 - Nil) is included in the value of plan assets in respect of the Company's own financial instruments (corporate bonds).

Actual return on plan assets is ₹ 6.32 crore (previous year ₹ 4.77 crore).

(f) Significant actuarial assumptions

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at 31.03.2023 by TransValue Consultants. The present value of the defined benefit obligation, and the related current service cost, were measured using the projected unit credit method. The principal assumptions used for actuarial valuation are: -

Particulars	Gratuity		PRMS		ERS	
	As at 31.03.2023	As at 31.03.2022	As at 31.03.2023	As at 31.03.2022	As at 31.03.2023	As at 31.03.2022
Discount Rate & expected return on plan assets, if funded	7.33%	7.45%	7.33%	7.45%	7. 33%	7.45%
Salary Escalation Rate/ Medical inflation rate	6.00%	6.00%	6.00%	6.00%	6.00%	6.00%
Mortality Rate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate
Withdrawal rate	0.01%	0.01%	0.01%	0.01%	0.01%	0.01%

(g) Sensitivity Analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

(₹ in crore)

Particulars	As at 31.03.2023		As at 31.03.2022	
	Increase	Decrease	Increase	Decrease
Discount rate (0.50% movement)				
- Gratuity	(1.21)	1.30	(1.12)	1.21
- PRMS	(4.62)	5.33	(4.28)	4.82
- ERS	(0.28)	0.31	(0.24)	0.27
Salary Escalation/ Medical inflation Rate (0.50% movement)				
- Gratuity	0.19	(0.14)	0.14	(0.19)
- PRMS	2.72	(2.51)	4.60	(4.23)
- ERS	0.29	(0.25)	0.25	(0.22)
Medical Cost (10% movement)				
- PRMS	5.79	(5.09)	6.17	(5.15)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The Company actively monitors how the duration and expected yield of investments are matching the expected cash outflows arising from employee benefit obligations. Investments are well diversified, such that the failure of any single investment would not have a material impact on overall level of assets. There has been no change in the process used by the Company to manage its risks from prior periods.

(h) Expected maturity analysis of the defined benefit plans in future years

(₹ in crore)

Particulars	Gratuity		PRMS		ERS	
	31.03.2023	31.03.2022	31.03.2023	31.03.2022	31.03.2023	31.03.2022
Up to 1 year	1.85	1.72	2.26	2.01	0.99	0.82
1 to 5 years	10.77	10.64	15.25	13.56	3.17	3.30
Over 5 years	52.82	49.54	72.45	64.37	8.72	7.70
Total	**65.44**	**61.90**	**89.96**	**79.94**	**12.88**	**11.82**

The table above is drawn on the basis of expected cash flows.

(i) Expected contributions to post-employment benefit plans

(₹ in crore)

Particulars	Gratuity		PRMS	
	As at 31.03.2023	As at 31.03.2022	As at 31.03.2023	As at 31.03.2022
Expected contribution	2.49	1.51	8.61	9.36

(j) The weighted average duration of the defined benefit plan obligation at the end of the reporting period is 13.14 years (as at 31.03.2022: 13.98 years).

44.3 Other long term employee benefits

(a) Leave

The Company provides for earned leave benefit and half-pay leave benefit to the credit of the employees, which accrues on half-yearly basis at 15 days and 10 days respectively. A maximum of 300 days of earned leave can be accumulated at any point of time during the service. There is no limit for accumulation of half pay leave. On separation after 10 years of service or on superannuation, earned leave plus half pay leave taken together can be encashed subject to a maximum of 300 days. However, there is no restriction on the number of years of service for encashment of earned leave on separation from the service. Provision based on actuarial valuation amounting to ₹ 6.84 crore (previous year ₹ 11.62 crore) for the year has been made at the year end and debited to the Standalone Statement of Profit and Loss.

(b) Other employee benefits

Provision for settlement allowance and long service awards amounting to ₹ 4.57 crore for the year (previous year ₹ 1.14 crore) has been made on the basis of actuarial valuation and debited to the Standalone Statement of Profit and Loss.

44.4 Employee benefits (including Gratuity, PRMS, Terminal Benefits, leave encashment and other employee benefits) in respect of Company's employees working in its wholly-owned subsidiary on deputation / secondment basis are being allocated based on a fixed percentage of employee cost.

45. Leases

The Company has recognised a Right of Use Asset and Lease Liability with respect to leasehold land being used as office premises.

45.1 The table below shows the movement of lease liabilities during the year:

(₹ in crore)

Particulars	As at 31.03.2023	As at 31.03.2022
Opening balance	8.81	8.81
Additions during the year	-	-
Finance cost accrued during the period	0.77	0.77
Payment of lease liabilities	(0.77)	(0.77)
Closing balance	8.81	8.81

45.2 The table below provides details regarding the contractual maturities of lease liabilities on an undiscounted basis:

(₹ in crore)

Particulars	As at 31.03.2023	As at 31.03.2022
Upto 1 year	0.77	0.77
1-5 years	3.09	3.09
More than 5 years	54.74	55.51

45.3 During the year 2022-23, the expenses relating to short-term/low value leases amounting to ₹ 9.81 crore (Previous year ₹ 7.20 crore) has been charged to Standalone statement of Profit and Loss. Included in the amount above are leases pertaining to residential accommodation of employees, space for official use, hiring of EDP equipment & other office equipment etc. These leases are usually renewable on mutually agreed terms and are cancellable.

45.4 The total cash outflow towards all leases, including Right-of-Use Assets is ₹ 10.11 crore. (Previous year ₹ 8.10crore)

46. Contingent Liabilities and Commitments

(₹ in crore)

Sr. No.	Description	As at 31.03.2023	As at 31.03.2022
Contingent Liabilities

51. Government of India(GoI) schemes being implemented by the Company

The Company has been designated as Nodal Agency for operationalization and implementation of RDSS Scheme and IPDS (R-APDRP subsumed in it). Role of Nodal Agency *inter-alia* includes pass through of loans/grants to eligible utilities under schemes of GOI. The release of the funds under GoI schemes is ensured through Treasury Single Account (TSA) maintained with RBI, as per office memorandum issued by MoF, GoI dated 09th March 2022. This ensures that funds of these schemes are released 'Just in time' from the Consolidated Fund of India (CFI) to the beneficiaries.

51.1 Revamped Distribution Sector Scheme (RDSS)

This Scheme was launched by GoI in July, 2021 to improve the operational efficiencies and financial sustainability of DISCOMs, by providing financial assistance to DISCOMs. It is a Reform based and result linked Distribution sector scheme. PFC along with REC is the nodal agency for operationalization of the scheme. The implementation period of the Scheme is 5 Years (FY 2021-22 to FY 2025-26) with the sunset date of 31.03.2026. The key objectives of the scheme is to:

i) Improve the quality, reliability and affordability of power supply to consumers through a financially sustainable and operationally efficient distribution sector.

ii) Reduce AT&C losses to pan-India levels of 12-15% by 2024-25.
iii) Reduce ACS-ARR gap to zero by 2024-25.

The Scheme has an outlay of ₹ 3,03,758 crore with an estimated gross budgetary support of ₹ 97,631 crore from the GoI. The amount of grant received and administered to the eligible entities during FY 2022-23 is ₹ 1319.86 crore (previous year ₹ 359 crore) and the cumulative grant administered till 31.03.2023 is ₹ 1,678.86 crore (till 31.03.2022 is ₹ 359 crore).

Further, No amount of grant remained undisbursed as on 31.03.2023 and 31.03.2022.

The Company is eligible for nodal agency fee at the rate of 0.50% of the sum total of the gross budgetary component of the various projects approved by Monitoring Committee. The total amount of nodal agency fee income from this scheme for FY 2022-23 stands at ₹.71.58 crore. (Previous year Nil)

51.2 Integrated Power Development Scheme (IPDS) (with Restructured Accelerated Power Development and Reform Programme (R-APDRP) subsumed)

IPDS scheme was launched in December 2014 to extend financial assistance against capital expenditure for addressing the gaps in sub transmission & distribution network and metering in urban areas to supplement the resources of DISCOMs/ Power Departments. This scheme has the sunset date of 31.03.2022 and the ongoing approved projects have been subsumed as a separate component under the new RDSS scheme.

The estimated outlay of the scheme was ₹ 32,612 crore including a budgetary support of ₹ 25,354 crore from GoI. R-APDRP scheme cost of ₹ 44,011 crore including budgetary support of ₹ 22,727 crore have also been carried forward to IPDS scheme. The amount of fund received and administered to the eligible entities during FY 2022-23 is ₹ 474.46 crore (previous year ₹ 2125.01 crore) and the cumulative grant administered till 31.03.2023 is ₹ 18,381.91 crore (till 31.03.2022 ₹ 17,907.45 crore).

The amount of fund received under R-APDRP (subsumed with IPDS) and administered to the eligible entities during FY 2022-23 is ₹ 65.00 crore (previous year ₹ 326.64 crore) and the cumulative grant administered till 31.03.2023 is ₹ 13,562.07 crore (till 31.03.2022 ₹ 13,497.07 crore).

Further, no fund remained undisbursed as on 31.03.2023 and 31.03.2022.

The total amount of nodal agency fee income from this scheme for FY 2022-23 stands at Nil (previous year ₹ 8.60 crore). Additionally, the Company has also received Nil (previous year ₹ 28.20 crore) as reimbursement of expenditure from MoP under the said scheme.

52. (a) Status of documentation subsequent to reorganization of the State of Jammu & Kashmir

After the bifurcation of the State of Jammu & Kashmir into two Union territories- Jammu & Kashmir UT and Ladakh UT, the existing entities pertaining to the erstwhile state of Jammu & Kashmir have been restructured vide unbundling order dated 23.10.19. The addendums to the agreements with new restructured departments are yet to be executed. Pending the execution of such documents, the existing loans are being serviced/repaid in line with the existing loan agreement.

(b) Status of documentation subsequent to reorganization of the State of Andhra Pradesh

Subsequent to the reorganization of erstwhile Andhra Pradesh, the State of Telangana has been formed on 02.06.2014. However, the assets and liabilities are yet to be transferred to the respective power utilities through a formal gazette notification except for assets and liabilities of TSSPDCL which have been transferred to APSPDCL for R-APDRP loans only amounting to ₹.8.95 crore.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000485N New Delhi Chartered Accountants

Once the final transfer scheme is notified through Gazette Notification by Govt. duly indicating the transfer of assets and liabilities among the power utilities, action for execution of documentation formalities will be taken up in respect of all the outstanding loans (except for above R-APDRP loans) with the new / name changed utilities. Till that time, the demand for payment of interest / principal is being segregated by the utilities and the respective portions are being paid by utilities in Telangana and Andhra Pradesh.

53. Disclosures as required under RBI's Master Direction-Non-Banking Financial Company- Systemically Important Non-Deposit Taking Company and Deposit taking Company(Reserve Bank) Directions, 2016 as amended from time to time read with Scale Based Regulations and disclosures in Notes to Accounts thereto as issued by RBI vide Circular dated 22.10.2021 and 19.04.2022.

Being a Government owned NBFC the Company is subject to guidelines as prescribed under Scale based Regulation as applicable for the NBFC-ML (Middle Layer).

	Total Exposure to Capital Market	**19,242.23**	**18,673.28**

53.2.3 Details of financing of parent company products:

The Company does not have a parent company.

53.2.4 Details of Single Borrower Limit (SGL) / Group Borrower Limit (GBL) exceeded by the Company:

In respect of Private sector entities, the Company has been following RBI's Credit Concentration Norms. In respect of Central/State Government entities, RBI had exempted the Company from applicability of RBI's Credit Concentration Norms till 31.03.2022. Further, RBI vide its letter dated 24.08.2022 has allowed the existing exposure of Central/State Government entities of the company as on date of letter to run off till maturity without invoking any regulatory violation.

As per RBI's Scale Based Regulations, the Credit Concentration Limits need to be calculated based on Tier I Capital from 01.10.2022 as against Owned Funds. RBI vide its letter dated 20.03.2023 has, inter-alia, directed the Company to reckon Tier I Capital as on March 31st (based on annual results) while computing exposure. However during the year, for the purpose of Credit Concentration Limits, the Company has worked out the Owned Fund / Tier I Capital based on quarterly financial results till 21.03.2023.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No 000425N New Delhi Chartered Accountants

As on 31.03.2023, the exposure of the Company to Private / Government Sector entities are within the RBI's prescribed Credit Concentration Limits.

53.3 Details of registrations with regulators:

Sr. No.	Regulator	Particulars	Registration Details
1.	Ministry of Corporate Affairs	Corporate Identification Number	L65910DL1986GOI024862

(b) The Company is having adequate HQLA. However, for the above disclosure, HQLA amount required to meet the LCR level of 60% has been considered.

55.6.1 RBI vide its Master Direction-NBFC- Systemically Important Non-Deposit Taking Company,2016 issued the guidelines covering liquidity risk management for NBFCs wherein RBI introduced Liquidity Coverage Ratio (LCR) applicable on all non-deposit taking NBFCs with asset size of more than ₹ 5,000 crore. The guidelines aim to maintain a liquidity buffer in terms of LCR by ensuring that they have sufficient High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for next 30 days. As per the guideline, LCR is represented by Stock of High-Quality Liquid Assets (HQLA) divided by Total Net Cash Outflows (stressed outflow less stressed inflows) over the next 30 calendar days. HQLA are defined by RBI as the liquid assets that can be readily sold or immediately convertible into cash at little / no loss of value or can be used as collateral to obtain funds in stress situations.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. CA FRN No. 000425N New Delhi Chartered Accountants

The company has complied with LCR requirement w.e.f. 01.12.2020 against stipulated requirement of minimum LCR of 50%, progressively increasing up to the required level of 100% by December 1, 2024.The HQLA is being maintained by the company as balance with Banks in Current Account and Fixed Deposits with Scheduled Commercial Banks and eligible securities. The Company is maintaining LCR in INR only; hence there is no currency mismatch.

55.6.2 The position of HQLA holding is as follows

Independent Auditors' Report

TO THE MEMBERS OF POWER FINANCE CORPORATION LIMITED

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

1. OPINION

We have audited the accompanying Consolidated Financial Statements of Power Finance Corporation Limited (hereinafter referred to as "Holding Company") and its subsidiaries (Holding company and its subsidiaries together referred to as "the Group"), and its associates, which comprise the Consolidated Balance Sheet as at **March 31**, 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate Financial Statements and on the other financial information of the subsidiaries and associates, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under **Sec**tion 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group, and its associates as at 31st March, 2023, of consolidated profit (including other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

2. BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

3. Emphasis of matter

We draw attention to Note 46.1.2 of the Consolidated Financial Statements regarding the provision of impairment allowance in respect of loan assets, undisbursed letter of comfort and guarantee. The Company and one of its subsidiaries has recognized expected credit loss in respect of loan assets, undisbursed letter

of comfort and guarantee as required under Ind AS 109, on the basis of documents provided by independent expert agency appointed by them. Since the calculation parameters require certain technical and professional expertise, we have relied upon the basis of determination of impairment allowance in so far as it relates to technical aspects/parameters considered by the said independent expert agency and management's judgement on the same.

Our opinion is not modified in respect of the above said matter.

4. KEY AUDIT MATTERS

Key audit matters ("KAM") are those matters that, in our professional judgement, were of most significance in our audit of the consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the Key Audit Matters to be communicated in our report:

Sr. No.	Key Audit Matter	Auditors' Response
(i)	Credit impairment of financial instruments- Loan Assets The Holding Company follows a Board approved methodology wherein assessment for allowance is carried out by an external agency for impairment based on certain guidelines and procedures in respect of criterion/framework classifying the assets into various stages depending upon credit risk and level of evidence of impairment. Impairment loss measurement requires use of statistical models to estimate the Probabilities of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). These models are key driver to measure Impairment loss. The key indicators underlying for assessment of impairment allowance are appraised on the ongoing basis by the management. The most significant areas where we identified greater levels of management Judgement are: Significant Increase in Credit Risk (SICR) – Company has classified SICR based on the indicator defined in Ind AS, estimate the Probabilities of Default (PD), Loss Given Default (LGD) and Individually assessed Stage 3 carrying value. The carrying value of loans and advances to borrowers may be materially misstated if individual impairments are not appropriately	**Our audit procedures included:** • The Holding Company has availed services of independent expert to estimate the carrying value of the loan assets. We verified the criterion/ framework with various regulatory updates along with Company's internal guidelines and procedures in respect of the impairment allowance as well as the completeness and accuracy of the data shared with the independent experts. • Recoveries are verified applying the standard audit procedures. Loan balances are confirmed and quality of the borrower is evaluated and tested with key control parameters. • We have reviewed the underlying assumptions and broad methodology of ECL assessment and shared our inputs. • Components and calculations in the study for impairment allowance carried out by the third party are test checks, discussed with management and relied upon by us. Our audit procedure in the same is limited in view of not sharing certain parameters of study being considered confidential by such third party.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

	estimated based upon certain estimates, future cash flow and asset valuations. The effect of these matters is that, as part of our risk assessment, we determined that the value of ECL has a high degree of estimation & uncertainty. In view of the significance of the amount of loan assets in the Consolidated Financial Statements as a percentage of total assets, impairment of loan assets there on has been considered as Key Audit Matter in our audit.	We considered the credit impairment charge and provision recognized and the related disclosures to be acceptable & satisfactory.
(ii)	**Fair Valuation of Derivative financial instruments** The Holding Company enters into derivative contracts in accordance with RBI guidelines to mitigate its currency and interest rate risk in accordance with Company's board approved currency risk management policy. Derivative contracts are either categorized at Fair Value through P&L (FVTPL) or under cash flow hedge (Hedge Accounting). Mark to market gain/loss on derivatives categorized at FVTPL is recognized in P&L and that of Hedge Accounting is recognized in the other comprehensive income. We consider the valuation of the derivative financial instruments and hedge accounting as a key audit matter due to material exposure and the fact that the inappropriate application of these requirements/assumptions/estimate by contracting bank could lead to a material effect on the income statement.	**Our audit procedures included:** Discussing and understanding management's perception and studying policy of the company for risk management. Verification of fair value of derivative in term of Ind AS 109. Evaluation of key internal control over classification, of derivative instruments. The Holding Company obtains fair value of derivative from the counterparty banks. Our procedure includes evaluation of details of various financial derivative contracts outstanding as on 31.03.2023 and fair value thereon. Additionally, we verified the accounting of gain or loss on mark to market basis of derivative contracts in profit & loss account and other comprehensive income in case of derivatives contracts under cash flow hedge. We did not find any material misstatement in measuring derivative contracts at fair value obtained from counterparty banks.

The following key audit matters with respect to audit opinion on the financial statement of Company's subsidiary REC Limited has been reported by the component auditors vide their report dated 17th May, 2023 and has been reproduced by us as under :

S. No.	Key Audit Matter	Auditor's Response
1.	**Impairment allowance of Loan Assets –** (Refer Note No. 47.1.3 to the Standalone Ind AS Financial Statements read with accounting policy No. 3.11) The Company follows a Board approved methodology wherein assessment for allowance is carried out by an external agency for impairment based on certain criterion/framework classifying the assets into various stages depending upon credit risk and level of evidence of impairment. Impairment allowance is measured as product of the Probability of Default, Exposure at Default and Loss Given Default being the key parameters for assessing the impairment allowance. The key indicators underlying for assessment of impairment allowance are appraised on an ongoing basis by the management. Further the management has adopted a methodology which in addition to the model adopted as above is further analyzed on case to case basis and wherever impairment impact need to be changed the same is considered in the financial statements. In view of the significance of the amount of loan assets in the Standalone Ind AS Financial Statements i.e. 90.79% of total assets, the audit procedure for impairment of loan assets has been considered as Key Audit Matter in our audit.	**We have applied following audit procedures in this regard** a). According to the provisions of Ind AS 109 "Financial Instruments", we have obtained the report of the external agency and verified the criterion/framework with various regulatory updates alongwith Company's internal guidelines and procedures in respect of the impairment allowance. b) Verification of loan assets on test check basis covering substantial part of total loans with respect to monitoring thereof for recovery/performance aspects and assessment of the loan impairment considering management perception on the same. c) Recoveries are verified applying the standard audit procedures. Loan balances are confirmed and quality of the borrower is evaluated and tested with key control parameters. d) Assessment of impairment based upon performance of the loan assets is carried out on the basis of relevant evidence on record provided to us. e) We have discussed with the management wherever underlying weakness is observed and management assessment is carried out in detail in such cases. f) Components and calculations in the study for impairment allowance carried out by external agency are relied upon by us and test checks are carried out for the same. Such

S. No.	Key Audit Matter	Auditor's Response
		components are credit rating of borrowers (including ratings issued by Ministry of Power), calculation of probability of default/loan given defaults etc. Our audit procedure in the same are limited in view of reliance on report of the external agency. g) Further, the Management, pursuing a Board approved methodology reviews the impairment allowance in the report of the external agency and enhanced/reduced the impairment on case to case basis as management overlay. We have obtained a detailed analysis from the management for such changes. Our audit procedure in this regard is constrained by the management appraisal and we have relied upon the same.

5. **INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON**

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Director's Report including Annexures to Director's Report, Management Discussion and Analysis, Business Responsibility Report and Report on Corporate Governance but does not include the Consolidated Financial Statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this Auditor's report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions if required

6. **RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance (other Comprehensive Income), consolidated statement of changes in equity and consolidated cash flows of the Group including its associates in accordance with the Ind AS and other accounting principles generally accepted in India. The respective board of directors of the companies included in the Group and its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates are responsible for overseeing the financial reporting process of the Group and of its associates.

7. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Group and its associates have adequate internal financial controls system in place and the operating effectiveness of such controls.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management of holding company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates to express an opinion on the Consolidated Financial statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

8. OTHER MATTERS

a. We did not audit the Financial Statements / financial information of two subsidiaries whose Financial Statements / financial information reflect total assets of ₹ 4,65,779.72 crore as at 31st March, 2023, total revenues of ₹ 39,614.51 crore and net cash flows amounting to ₹ (175.47) crore for the year ended on that date, as considered in the consolidated Financial Statements. These Financial Statements / financial information have been audited by other auditors whose report has been furnished to us by the Management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

(3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

b. We did not audit the Financial Statements / financial information of one subsidiary, whose unaudited Financial Statements/financial information reflect total assets of ₹ 1.31 crore as at 31st March, 2023, total revenues ₹ NIL and net cash flows amounting to ₹ NIL for the year ended on that date, as considered in the consolidated Financial Statements. The consolidated Financial Statements also include unaudited financial Statements / other financial information in respect eleven associates, whose Financial Statements reflect Group's share of net profit of ₹ 0.01 crore for the year ended 31st March, 2023 as considered in the consolidated Financial Statements.

These Financial Statements / financial information are unaudited and have been furnished to us by the Management, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid associates and jointly controlled entity, is based solely on such unaudited Financial Statements / financial information. In our opinion and according to the information and explanations given to us by the Management, these Ind AS Financial Statements / financial information are not material to the Group.

Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done by expert agency, the reports of the other auditors and the Financial Statements / financial information certified by the Management.

9. REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

I As required by Section 143(3) of the Act, based on our audit and on consideration of reports of other auditors on separate Financial Statements and the other financial information of subsidiaries, associates as noted in the other matters paragraph, we report, to the extent applicable, that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.

(b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.

(c) The consolidated Balance Sheet, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), consolidated change in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of accounts maintained for the purpose of preparation of the Consolidated Financial Statements.

(d) In our opinion and to the best our information and explanation given to us, the aforesaid Consolidated Financial Statements comply with the Indian Accounting Standards (Ind AS specified under Section 133 of the Act, read with relevant rules;

(e) Being a Government Company, pursuant to the Notification No. GSR 463(E) dated 5th June 2015 issued by Ministry of Corporate Affairs, Government of India, provisions of sub-section (2) of Section 164 of the Act, are not applicable to the Holding company and its subsidiaries, & Associates.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000423N New Delhi Chartered Accountants

(f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in **Annexure A**.

(g) As per Notification No. GSR 463(E) dated 5 June 2015 issued by the Ministry of Corporate Affairs, Government of India, Section 197 of the Act is not applicable to the Government Companies. Accordingly, reporting in accordance with requirement of provisions of section 197(16) of the Act is not applicable to the Holding company and its subsidiaries, & Associates.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. The Consolidated Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group, - Refer Note 52 to the Consolidated Financial Statements;

ii. The group has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary and associate companies, incorporated in India.

iv. (a) The Management of the Group has represented (Refer Note 12.3), that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Group, to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Group, ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The Management of the Group, has represented (Refer Note 23.13) that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Group from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Group, shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement.

v. As stated in Note 29.2(iii) to the Consolidated Financial Statements :

(a) The final dividend proposed in the previous year, declared and paid by the Company during the year declared is in compliance with section 123 of the Companies Act, 2013.

(b) The interim dividend declared and paid during the year and until the date of this report is in compliance with section 123 of the Companies Act, 2013.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

(c) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 with respect to using accounting software for maintaining its books of account which has certain features e.g. edit log etc. as enumerated in aforesaid proviso is applicable to the Company with effect from 1st April, 2023. Therefore, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended 31st March, 2023.

II With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government in terms of sub-section (11) of section 143 of the Companies Act, 2013, to be included in the Auditor's report, on the basis of examination of the CARO reports of the subsidiaries included in the Consolidated Financial Statements, no qualifications or adverse remarks have been reported by the respective auditors.

Annexure - A to the Independent Auditors' Report on the Audit of the Consolidated Financial Statements

(Referred to in Para I(f) under the heading 'Report on other Legal and Regulatory Requirements' of our report of even date to The Members of Power Finance Corporation Limited on the Consolidated Financial Statements for the year ended 31st March, 2023)

Report on the Internal Financial Controls with reference to Consolidated Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Financial Statements of **Power Finance Corporation Limited** (hereinafter referred to as "the Holding Company") as of and for the year ended 31st March, 2023, we have audited the internal financial controls with reference to Consolidated Financial Statements of the Holding Company, its subsidiary companies, and its associate companies, which are companies incorporated in India, as of that date.

1. MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company, its subsidiary companies, and its associate companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company, its subsidiary companies, its associate companies, which are companies incorporated in India, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

2. AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated Financial Statements of the Holding Company, its subsidiary companies, and its associate companies, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Sub-section 10 of Section 143 of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls with reference to Financial Statements were established and maintained and if such controls operated effectively in all material respects.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000423N New Delhi Chartered Accountants

Our audit involves performing procedures to obtain audit evidence about the internal financial controls system with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial control with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their reports referred to in the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Consolidated Financial Statements.

3. MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED IND AS FINANCIAL STATEMENTS

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated Financial Statements.

4. INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED IND AS FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

5. OPINION

In our opinion, the Holding Company, its subsidiary companies, its associate companies, which are companies incorporated in India have, in all material respects, an internal financial controls system

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM & CO. FRN No. 000425N New Delhi Chartered Accountants

with reference to Financial Statements and such internal financial controls with reference to Financial Statements were operating effectively as at 31st March, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

6. OTHER MATTERS

Our aforesaid reports under Sub-section 3 (i) of Section 143 of the Act, on the internal financial controls with reference to Consolidated Financial Statements in so far as applicable three subsidiary companies is based on the corresponding reports of the auditors of such companies incorporated in India and in respect of eleven associates, we have relied on the explanation provided by the management of holding company in absence of report on Internal Financial Controls of such entities. In our opinion, the same is not considered material for the Consolidated Financial Statement of the Group and its associates.

1. Group Information

Power Finance Corporation Limited ("PFC" or "the Company") was incorporated in India in the year 1986. PFC is domiciled in India and is limited by shares, having its registered office at 'Urjanidhi', 1, Barakhamba Lane, Connaught Place, New Delhi – 110001 and conferred with 'Maharatna' Status by the Govt. of India.

PFC is a Government company engaged in extending financial assistance to power, logistics and infrastructure sector and is a Systemically Important Non-Deposit taking Non-Banking Financial Company (NBFC) registered with Reserve Bank of India (RBI) as an Infrastructure Finance Company (IFC). The Company being a Government owned NBFC is placed in Middle layer under framework for Scale Based Regulation for NBFCs issued by RBI.

Equity shares of PFC are listed on the National Stock Exchange of India Limited (NSE) and BSE Limited. Further, various debt securities of PFC are also listed on the Stock Exchanges.

These Consolidated Financial Statements comprise the financial statements of PFC & its subsidiaries (referred to collectively as the 'Group'), and its associates, as listed at Note 5. The Group is primarily engaged in extending financial assistance to power, logistics and infrastructure sector. Other businesses include providing consultancy services to power sector and facilitation of development of Ultra Mega Power Projects (UMPPs) and Independent Transmission Projects (ITPs) as per mandate from Government of India (GoI).

2. Statement of Compliance

These Consolidated Financial Statements comply with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms / guidelines. The Consolidated Balance Sheet, Statement of Profit and Loss and Statement of Changes in Equity are prepared and presented as per the requirements of Division III of Schedule III to the Companies Act, 2013 applicable for Non-Banking Financial Companies (NBFCs). The Consolidated Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 'Statement of Cash Flows'.

3. These Consolidated Financial Statements have been approved for issue by Board of Directors (BoD) of PFC on 27.05.2023.

4. Standards/ Amendments Issued but not yet effective

The Ministry of Corporate Affairs (MCA) has notified the Companies (Indian Accounting Standards) Amendment Rules, 2023 on 31.03.2023, whereby amendments to various Indian Accounting Standards has been made applicable w.e.f from 01.04.2023.

The Group has evaluated the amendments made vide the aforesaid notification dated 31.03.2023 and there will be no impact of the same on the Consolidated Financial Statements as and when these are made applicable.

5. The Consolidated Financial Statements represent consolidation of accounts of the Company, its Subsidiaries, and Associates as detailed below:

Sr. No.	Name of the company	Country of incorporation / Principal place of Business	Proportion of ownership interest as at		Status of Audit of financial statements for the year ended 31.03.2023
			31.03.2023	31.03.2022

*Consolidated Financial Statements of these subsidiaries (which incorporates financial statements of their subsidiaries, JVs and associates) have been used for preparation of Consolidated Financial Statements of PFC.
struck off during the year by the Registrar of Companies.

5.1 Coastal Karnataka Power Limited (CKPL), a wholly owned company of PFC Ltd was set up for managing the UMPPs as per the mandate from GoI and was considered as associate over PFC had significant influence. During FY 2022-23, CKPL's MoA has been amended to be used for bidding lenders' backed resolution plan by PFC and it has been renamed as PFC Projects Limited (PPL). Accordingly, the ability to direct activities of said Company now vests with PFC Ltd and the same is now considered as a subsidiary.

5.2 Wherever unaudited financial statements of subsidiaries, JV & associates are used for preparation of Consolidated Financial Statements, the audited financial statements of those companies are obtained subsequently and necessary adjustment is made in Consolidated Financial Statements of subsequent year and is presented under 'Other adjustments' line item in Statement of changes in equity.

6. Group's Significant Accounting Policies

The Group's significant accounting policies applied in preparation of the Consolidated Financial Statements are as given below:

6.1 Basis of Preparation and Measurement

These Consolidated Financial Statements have been prepared on going concern basis following accrual system of accounting. The assets and liabilities have been measured at historical cost or at amortised cost or at fair value as applicable at the end of each reporting period.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements are categorised into Level 1, 2 or 3 as per Ind AS requirement, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

6.2 Basis of Consolidation

The Consolidated Financial Statements incorporate the financial statements of the Company and its subsidiaries (collectively referred as the "Group"). The Group has investment in joint venture entity and associates which are accounted using equity method (except when the investment is classified as held for sale) in these Consolidated Financial Statements.

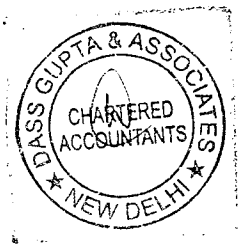
The financial statements of Subsidiaries, Joint Venture and Associates are drawn up to the same reporting date as of the Company for the purpose of Consolidation.

(i) Subsidiaries:

A subsidiary is an entity over which the Company has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which the Company obtains the control (except for Business Combinations under Common Control).

The Company combines the financial statements of its subsidiaries on a line by line basis, adding together like items of assets, liabilities, equity, income and expenses. The carrying amount of the Company's investment in each subsidiary and the Company's portion of equity of each subsidiary are eliminated. Intercompany transactions, balances, unrealised gains on transactions between the Company and subsidiaries are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Non-controlling interests (NCI) represent the proportion of income, other comprehensive income and net assets in subsidiaries that is not attributable to the Company's shareholders. Non-controlling interests are initially measured at the proportionate share of the recognised amounts of the acquiree's identifiable net assets. Subsequent to acquisition, the carrying amount of non- controlling interests is the amount of the interest at initial recognition plus the non-controlling interests' share of subsequent changes in equity.



The Consolidated Financial Statements are prepared using uniform accounting policies consistently for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's Standalone Financial Statements except as otherwise stated. When necessary, adjustments are made to the financial statements to bring their accounting policies in line with the Group's Significant Accounting Policies.

If the Company loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognized in Consolidated Statement of Profit and Loss.

(ii) Joint Venture and Associates:

A Joint Venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

An Associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of Joint Venture or Associates are incorporated in these Consolidated Financial Statements using the equity method of accounting, except when the investment or a portion thereof, is classified as held for sale, in which case it is measured at lower of their carrying amount and fair value less cost to sell. Under the equity method, an investment in a Joint Venture or Associate is initially recognised in the Consolidated Balance Sheet at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the Joint Venture or Associate. Distributions received from a joint venture/ associate reduce the carrying amount of the investment.

Upon loss of joint control over the Joint Venture or significant influence over the Associate, the Company measures and recognises any retained investment at its fair value. Any difference between a) the carrying amount of the Joint Venture or Associate upon loss of joint control or significant influence respectively and b) the fair value of the retained investment and proceeds from disposal is recognised in Consolidated Statement of Profit and Loss.

6.3 Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits. The Group considers cash equivalents as all short term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

6.4 Derivative Financial Instruments

(i) The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks.

(ii) Under hedge accounting, an entity can designate derivative contracts either as cashflow hedge or fair value hedge.

(iii) To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- there is an economic relationship between the hedged item and the hedging instrument.
- the effect of credit risk does not dominate the value changes that result from that economic relationship.
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Company actually hedges and the quantity of the hedging instrument that the Company actually uses to hedge that quantity of hedged item.

(iv) Cash flow hedge

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Consolidated Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Consolidated Statement of Profit and Loss on a systematic basis. The gain or loss relating to ineffective portion is recognized immediately in Consolidated Statement of Profit and Loss.

(v) Fair Value Hedge

In line with the recognition of change in the fair value of the hedging instruments in the Consolidated Statement of Profit & Loss, the change in the fair value of the hedged item attributable to the risk hedged is recognised in the Consolidated Statement of Profit and Loss. Such changes are made to the carrying amount of the hedged item and are adjusted in Effective Interest Rate in the period when the hedging instrument ceases to exist. If the hedged item is derecognised, the unamortised fair value is recognised immediately in Consolidated Statement of Profit and Loss.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

(vi) Hedge accounting is discontinued when the hedging instrument expires, or terminated, or exercised, or when it no longer qualifies for hedge accounting.

(vii) Derivatives, other than those designated under hedge relationship, are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in Consolidated Statement of Profit and Loss.

6.5 Financial Instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instruments.

On initial recognition, financial assets and financial liabilities are recognised at fair value plus/ minus transaction cost that is attributable to the acquisition or issue of financial assets and financial liabilities. In case of financial assets and financial liabilities which are recognised at fair value through profit and loss (FVTPL), its transaction costs are recognised in Consolidated Statement of Profit and Loss.

6.5.1 Financial Assets

All regular way purchases or sales of financial assets are recognised and derecognised on a settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

After initial recognition, financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

(i) Classification and Measurement of Financial Assets (other than Equity instruments)

a. Financial Assets at Amortised Cost:

Financial assets that meet the following conditions are subsequently measured at amortised cost using Effective Interest Rate method (EIR):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Effective Interest Rate (EIR) method

The effective interest rate method is a method of calculating the amortised cost of financial asset and of allocating interest income over the expected life. The Group while applying EIR method, generally amortises any fees, transaction costs and other premiums or discount that are integral part of the effective interest rate of a financial instrument.

Income is recognised in the Consolidated Statement of Profit and Loss on an effective interest rate basis for financial assets other than those classified as at FVTPL.

EIR is determined at the initial recognition of the financial asset. EIR is subsequently updated at every reset, in accordance with the terms of the respective contract.

Once the terms of financial assets are renegotiated, other than market driven interest rate movement, any gain / loss measured using the previous EIR as calculated before the modification, is recognised in the Consolidated Statement of Profit and Loss in period during which such renegotiations occur.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

b. Financial Assets at Fair Value Through Other Comprehensive Income (FVTOCI)

A financial asset is measured at FVTOCI if both the following conditions are met:

- the objective of the business model is achieved both by collecting contractual cash flows and selling the financial asset; and
- the contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

All fair value changes are recognised in Other Comprehensive Income (OCI) and accumulated in Reserve.

c. Financial Assets at Fair Value Through Profit or Loss (FVTPL)

A financial asset is measured at FVTPL unless it is measured at amortised cost or FVTOCI, with all changes in fair value recognised in Consolidated Statement of Profit and Loss.

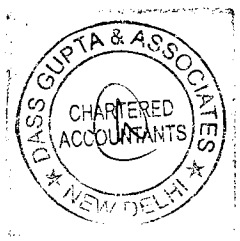
Business Model

An assessment of business model for managing financial assets is fundamental to the classification of a financial asset. The Group determines the business model at a level that reflects how financial assets are managed together to achieve a particular business objective of generating cash flows. The Group's business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

The Group is primarily in the business of lending loans across power sector value chain and such loans are managed to realize the contractual cash flows over the tenure of the loan. Further, other financial assets may also be held by the Group to collect the contractual cash flows.

(ii) Classification, Measurement and Derecognition of Equity Instruments

All equity investments other than in subsidiaries, joint ventures and associates are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group at initial recognition makes an irrevocable election to classify it as either FVTOCI or FVTPL. The Group makes such election on an instrument by instrument basis.



An equity investment classified as FVTOCI is initially measured at fair value plus transaction costs. Subsequently, it is measured at fair value and, all fair value changes are recognised in Consolidated Other Comprehensive Income (OCI) and accumulated in Consolidated Reserve. There is no recycling of the amounts from Consolidated OCI to Consolidated Statement of Profit and Loss, even on sale of investment. However, the Group transfers the cumulative gain/loss within consolidated equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Consolidated Statement of Profit and Loss.

(iii) Impairment of Financial Assets

Subsequent to initial recognition, the Group recognises expected credit loss (ECL) on financial assets measured at amortised cost as required under Ind AS 109 'Financial Instruments'. The Group presents the ECL charge or reversal (where the net amount is a negative balance for a particular period) in the Consolidated Statement of Profit and Loss as "Impairment on financial instruments" and as a cumulative deduction from gross carrying amount in the Consolidated Balance Sheet, wherever applicable.

The impairment requirements for the recognition and measurement of ECL are equally applied to financial asset measured at FVTOCI except that ECL is recognised in Other Comprehensive Income and is not reduced from the carrying amount in the Consolidated Balance Sheet.

a) Impairment of Loan Assets and commitments under Letter of Comfort (LoC):

The Group measures ECL on loan assets at an amount equal to the lifetime ECL if there is credit impairment or there has been significant increase in credit risk (SICR) since initial recognition. If there is no SICR as compared to initial recognition, the Group measures ECL at an amount equal to 12-month ECL. When making the assessment of whether there has been a SICR since initial recognition, the Group considers reasonable and supportable information, that is available without undue cost or effort. If the Group measured loss allowance as lifetime ECL in the previous period, but determines in a subsequent period that there has been no SICR since initial recognition due to improvement in credit quality, the Group again measures the loss allowance based on 12-month ECL.

ECL is measured on individual basis for credit impaired loan assets, and on other loan assets it is generally measured on collective basis using homogenous groups.

The Group measures impairment on commitments under LoC on similar basis as in case of Loan assets.

b) Impairment of financial assets, other than loan assets:

ECL on financial assets, other than loan assets, is measured at an amount equal to life time expected losses.

c) Financial assets are written off by RECL either partially or in their entirety only when it has stopped pursuing the recovery.

(iv) De-recognition of Financial Assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset along with all the substantial risks and rewards of ownership of the asset to another party. The renegotiation or modification of the contractual cash flows of a financial asset can also lead to derecognition of the existing financial asset.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received & receivable, and the cumulative gain or loss that had been recognised in Consolidated Other Comprehensive Income and accumulated in Consolidated Equity, is recognised in Consolidated Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Consolidated Statement of Profit and Loss on disposal of that financial asset.

6.5.2 Financial Liabilities

(i) All financial liabilities other than derivatives and financial guarantee contracts are subsequently measured at amortised cost using the effective interest rate (EIR) method.

EIR is determined at the initial recognition of the financial liability. EIR is subsequently updated for financial liabilities having floating interest rate, at the respective reset date, in accordance with the terms of the respective contract.

(ii) Financial Guarantee

A financial guarantee issued by the Group is initially measured at fair value and, if not designated as at FVTPL, is subsequently measured at the higher of:

- the best estimate of expenditure required to settle any financial obligation arising as a result of the guarantee; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in the Consolidated Statement of Profit and Loss.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

(iii) De-recognition of Financial Liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid & payable is recognised in Consolidated Statement of Profit and Loss.

6.5.3 Offsetting of Financial Assets and Financial Liabilities

Financial Assets and Financial Liabilities are offset and the net amount is reported in the Balance Sheet when currently there is legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

6.5.4 Embedded Derivatives

An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative cause some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, foreign exchange rate, or other variable, provided that, in the case of a non-financial variable, it is not specific to a party to the contract.

Derivatives embedded in all host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts or if the embedded derivative feature leverages the exposure and the host contracts are not held for trading or designated at fair value though profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

6.6 Property, Plant and Equipment (PPE) and Depreciation

(i) Items of PPE are initially recognised at cost. Subsequent measurement is done at cost less accumulated depreciation and accumulated impairment losses, if any, except for freehold land which is not depreciated. An item of PPE retired from active use and held for disposal is stated at lower of its book value or net realizable value.

(ii) The expenditure incurred on improvement of leasehold premises is recognised at cost and is shown as "Leasehold Improvements" under PPE.

(iii) In case of assets put to use, capitalisation is done on the basis of bills approved or estimated value of work done as per contracts where final bill(s) is/are yet to be received / approved subject to necessary adjustment in the year of final settlement.

(iv) Cost of replacing part of an item of PPE is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. Maintenance or servicing costs of PPE are recognized in Consolidated Statement of Profit and Loss as incurred.

(v) Under-construction PPE is carried at cost, less any recognised impairment loss. Such PPE items are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as of other assets, commences when the assets are ready for their intended use.

(vi) Depreciation is recognised so as to write-off the cost of assets less their residual values# as per written down value method*, over the estimated useful lives that are similar to as prescribed in Schedule II to the Companies Act, 2013, except following:

Nature of PPE	Life of PPE
Cell phones	2 years (in case of PFC & PFCCL)
Lease hold improvement[1]	Lease period or their useful lives whichever is shorter (in case of PFCCL)

Residual value is estimated as 5% of the original cost of PPE.

* Depreciation is provided using Straight line method by RECL

[1] Leasehold Improvements are amortised on straight line basis

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

(vii) Depreciation on additions to/deductions from PPE during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

(viii) An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the Consolidated Statement of Profit and Loss.

(ix) Capital expenditure directly attributable for Smart metering project are initially shown in 'Capital work-in-progress' (net of contribution from client) and capitalised as PPE when it is ready for use. Depreciation on items of PPE in smart metering project is recognised on pro-rata basis on Straight Line Method over the useful life of assets not exceeding project implementation period of 99 months.

(x) Items of PPE costing up to ₹ 5000/- each are fully depreciated, in the year of purchase.

(xi) The cost of PPE under construction at the reporting date is disclosed as 'Capital work-in-progress'. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Advances paid for the acquisition/ construction of PPE which are outstanding at the Balance Sheet date are classified under 'Capital Advances.'

6.7 Intangible Assets and Amortisation

(i) Intangible assets with finite useful lives that are acquired separately are recognised at cost. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use. Subsequent measurement is done at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives.

(ii) Expenditure incurred which are eligible for capitalisation under intangible assets is carried as Intangible Assets under Development till they are ready for their intended use. Advances paid for the acquisition/ development of intangible assets which are outstanding at the balance sheet date are classified under 'Capital Advances'.

(iii) Estimated useful life of intangible assets with finite useful lives has been estimated by the Group as 5 years. In case of PFCCL, life is estimated as 36 months.

(iv) An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Consolidated Statement of Profit and Loss when the asset is derecognised.

6.8 Assets/ Disposal Groups held for sale

Non-current Assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and the sale is highly probable. A sale is considered as highly probable when such assets have been decided to be sold by the Group; are available for immediate sale in their present condition; are being actively marketed for sale at a price and the sale has been agreed or is expected to be concluded within one year of the date of classification. Such non-current assets are measured at lower of carrying amount or fair value less cost to sell.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Non-current assets held for sale are presented separately from other assets in the Consolidated Balance Sheet.

Where the Group is committed to a sale plan involving loss of control of an entity, it classifies investment in the entity (i.e. all the assets and liabilities of that entity) as held for sale.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

6.9 Provisions, Contingent Liabilities and Contingent Assets

(i) Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, if it is probable that the Group will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(ii) The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

(iii) When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

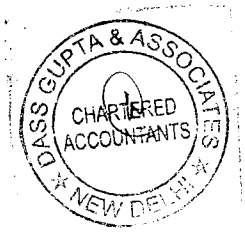
(iv) Where it is not probable that an outflow of economic benefits will be required or the amount cannot be estimated reliably, the obligation is disclosed as contingent liability in notes to accounts, unless the probability of outflow of economic benefits is remote.

(v) Contingent assets are not recognised in the Consolidated Financial Statements. However, contingent assets are disclosed in the Consolidated Financial Statements when inflow of economic benefits is probable.

6.10 Recognition of Income and Expenditure

(i) Interest income on financial assets subsequently measured at amortized cost, is recognized using the Effective Interest Rate (EIR) method. The Effective Interest Rate (EIR) is the rate that exactly discounts estimated future cash receipts through expected life of the financial asset to that asset's net carrying amount on initial recognition.

(ii) Unless otherwise specified, the recoveries from the borrowers of RECL are appropriated in the order of (i) costs and expenses of RECL (ii) delayed and penal interest including interest tax, if any (iii) overdue interest including interest tax, if any and (iv) repayment of principal; the oldest being adjusted first, except for credit impaired loans and recalled loans, where principal amount is appropriated only after the complete recovery of other costs, expenses, delayed and penal interest and overdue interest including interest tax, if any. The recoveries under One Time Settlement (OTS)/ Insolvency and Bankruptcy Code (IBC) proceedings are appropriated first towards the principal outstanding and remaining recovery thereafter, towards interest and other charges, if any.



(iii) Interest on financial assets subsequently measured at fair value through profit and loss (FVTPL), is recognized on accrual basis in accordance with the terms of the respective contract and is disclosed separately under the head 'Interest Income'.

(iv) Rebate on account of timely payment of dues by borrowers is recognized on receipt of entire dues in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

(v) The Group uses the principles laid down by Ind AS 115 to determine that how much and when revenue is recognized, what is the nature, amount, timing and uncertainty of revenues etc. In accordance with the same, revenue is recognised through a five-step approach:

a. Identify the contract(s) with customer;
b. Identify separate performance obligations in the contract;
c. Determine the transaction price;
d. Allocate the transaction price to the performance obligations; and
e. Recognise revenue when a performance obligation is satisfied.

Revenues are measured at the fair value of the consideration received or receivable, net of discounts and other indirect taxes.

In Cost Plus Contracts - Revenue is recognised by including eligible contractual items of expenditures plus proportionate margin as per contract;

In Fixed Price Contracts – Revenue is recognised on the basis of stage of completion of the contract. The Group has assessed that the stage of completion is determined as the proportion of the total time expected to complete the performance obligation to that has lapsed at the end of the reporting period, which is an appropriate measure of progress towards complete satisfaction of these performance obligations under Ind AS 115.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

(vi) Revenue from consulting services, in connection with development of Independent Transmission Projects (ITP) and Ultra Mega Power Projects (UMPP) taken up as per the directions from the Ministry of Power, Government of India, is recognized on completed contract method basis i.e. when the ITP /UMPP created for the project is transferred to a successful bidder evidenced by share purchase agreement. The expenses incurred on development of these projects which are not recovered as direct costs are recovered through billing manpower charges at agreed charge out rates decided by the management.

(vii) Income from Smart Metering services of PFCCL are recognised when bills for meter rent is raised to the clients and right to receive such income is established. Income from project development management agency charges (PDMA) during project implementation period is recognized over the period of contract.

(viii) The sale proceeds from Request for qualification (Rfq) documents for Independent Transmission Projects (ITPs) and Ultra Mega Power Project (UMPPs) are accounted for when received.

(ix) Income from short /medium term bidding of power and Coal Flexibility Scheme is recognised when letter of award (LOA) is issued to the successful bidder.

(x) Dividend income from investments including those measured at FVTPL, is recognized in Consolidated Statement of Profit and Loss under the head 'Dividend Income' when the Group's right to receive dividend is established and the amount of dividend can be measured reliably.

(xi) Interest expense on financial liabilities subsequently measured at amortized cost is recognized using Effective Interest Rate (EIR) method.

(xii) Other income and expenses are accounted on accrual basis, in accordance with terms of the respective contract.

(xiii) A Prepaid expense up to ₹ 1,00,000/- is recognized as expense upon initial recognition in the Consolidated Statement of Profit and Loss.

6.11 Expenditure on issue of Shares

Expenditure on issue of shares is charged to the securities premium account.

6.12 Borrowing Costs

Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition and/ or construction of a qualifying asset, till the time such a qualifying asset becomes ready for its intended use, are capitalized. A qualifying asset is one that necessarily takes a substantial period to get ready for its intended use.

All other borrowing costs are charged to the Consolidated Statement of Profit and Loss on an accrual basis as per the effective interest rate method.

6.13 Employee Benefits

(i) Defined Contribution Plan

Group's contribution paid / payable during the reporting period towards provident fund and pension are charged in the Consolidated Statement of Profit and Loss when employees have rendered service entitling them to the contributions.

(ii) Defined Benefit Plan

The Group's obligation towards gratuity to employees and post-retirement benefits such as medical benefit, economic rehabilitation benefit and settlement allowance after retirement are determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Actuarial gain / loss on re-measurement of gratuity and other post-employment defined benefit plans is recognized in Other Comprehensive Income (OCI). Past service cost is recognized in the Consolidated Statement of Profit and Loss in the period of a plan amendment.

(iii) Other long term employee benefits

The Group's obligation towards leave encashment, service award scheme is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These obligations are recognized in the Consolidated Statement of Profit and Loss.

(iv) Short term employee benefits

Short term employee benefits such as salaries and wages are recognised in the Consolidated Statement of Profit and Loss, in the period in which the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

(v) Loan to employees at concessional rate

Loans given to employees at concessional rate are initially recognized at fair value and subsequently measured at amortised cost. The difference between the initial fair value of such loans and transaction value is recognised as deferred employee cost upon issuance of Loan, which is amortised on a straight-line basis over the expected remaining period of the loan. In case of change in expected remaining period of the loan, the unamortised deferred employee cost on the date of change is amortised over the updated expected remaining period of the loan on a prospective basis.

6.14 Income Taxes

Income Tax expense comprises of current and deferred tax. It is recognised in Consolidated Statement of Profit and Loss, except when it relates to an item that is recognised in Consolidated Other Comprehensive Income (OCI) or directly in equity, in which case, tax is also recognised in OCI or directly in equity.

(i) Current Tax

Current tax is the expected tax payable on taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of earlier years.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and liability on a net basis.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

(ii) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Consolidated Financial Statements and the corresponding tax bases used in the computation of taxable income. Deferred tax is measured at the tax rates based on the laws that have been enacted or substantively enacted by the reporting date, based on the expected manner of realisation or settlement of the carrying amount of assets / liabilities. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against liabilities, and they relate to income taxes levied by the same tax authority.

A deferred tax liability is recognised for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

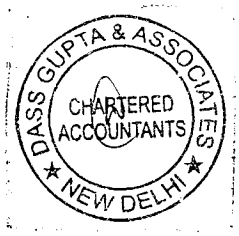
6.15 Leases

For recognition, measurement and presentation of lease contracts, the Group applies the principles of Ind AS 116 'Leases'.

(i) The Group as a lessee

The Group at inception of a contract assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether (a) the Group has substantially all of the economic benefits from use of the asset through the period of the lease, and (b) the Group has the right to direct the use of the identified asset.

The Group at inception of a lease contract recognizes a Right-of-Use (RoU) asset at cost and a corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets which are recognised as an operating expense on a straight-line basis over the term of the lease.



Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. RoU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use (RoU) assets are initially recognized at cost, which comprise the initial amount of the lease liability adjusted for any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. They are subsequently measured at cost less any accumulated depreciation and accumulated impairment losses. The right-of-use assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

The lease liability is initially measured at amortised cost at the present value of future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the Group's incremental borrowing rates in the country of domicile of the leases.

Lease liabilities are re-measured with a corresponding adjustment to the related right-of-use (RoU) asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and RoU asset is separately presented in the Balance Sheet. Interest expense on lease liability is presented separately from depreciation on right of use asset as a component of finance cost in the Consolidated Statement of Profit and Loss. Lease payments for the principal portion are classified as Cash flow used in financing activities and lease payments for the interest portion are classified as Cash flow used in operating activities.

(ii) The Group as a lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Contracts in which all the risks and rewards of the lease are substantially transferred to the lessee are classified as a finance lease. All other leases are classified as operating leases. For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

Amount due from lessee under finance leases is recognised as receivable at an amount equal to the net investment of the Group in the lease. Finance income on the lease is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of lease at the reporting date.

6.16 Foreign Currency Transactions and Translations

The functional currency of the Group is Indian Rupees. Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction.

At the end of each reporting period, monetary items denominated in foreign currency are translated using exchange rates prevailing on the last day of the reporting period. Exchange differences on monetary items are recognised in the Consolidated Statement of Profit and Loss in the period in which they arise. However, for the long-term monetary items recognised in the consolidated financial statements before April 1 2018, such exchange differences are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortized over the balance period of such long term monetary item.

6.17 Business Combination under Common Control

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and that control is not transitory.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize significant accounting policies.
- The financial information in the Consolidated Financial Statements in respect of prior periods is restated as if the business combination has occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination.

The balance of the retained earnings appearing in the Consolidated Financial Statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee. The identity of the reserves is preserved and the reserves of the transferor become the reserves of the transferee.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

6.18 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000625N New Delhi Chartered Accountants

6.19 Dividends and Other Payments to holders of Instruments classified as Equity

Final dividends are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Board of Directors of the respective company in the Group.

Liability for the payments to the holders of instruments classified as equity are recognized in the period when such payments are authorized for payment by the respective company in the Group.

6.20 Earnings per Share

Basic earnings per equity share are calculated by dividing the net profit or loss attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the financial year.

To calculate diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

7. Use of Estimates and Management Judgement

In preparation of the Consolidated Financial Statements, the Management is required to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and the related disclosures. The estimates and underlying assumptions are based on historical experience & other relevant factors and are reviewed on an ongoing basis. Actual results may differ from these estimates.

Changes in accounting estimates, if any, are recognized prospectively in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if it affects both current and future periods.

7.1 Significant Management Judgements

In order to enhance understanding of the Consolidated Financial Statements, information about significant areas of critical judgments, apart from those involving estimation (Note no. 7.2), in applying accounting policies that have the most significant effect on the amounts recognised in the Consolidated Financial Statements, are as under:

(i) Deferred Tax Liability on Special Reserve

The Company and its subsidiary RECL have obtained resolution from their respective Board of Directors that there is no intention to make withdrawal from the Special Reserve created and maintained under section 36(1)(viii) of the Income Tax Act, 1961 and the same is not capable of being withdrawn. Accordingly, no deferred tax liability has been created on the said reserve.

(ii) Non recognition of income on Credit Impaired Loan Assets

As a matter of prudence, income on credit impaired loan assets is recognised as and when received or on accrual basis either on resolutions of stressed assets or when expected realization is higher than the loan amount outstanding.

(iii) Amortisation of transaction cost on Credit Impaired Loans Assets

Outstanding amount of unamortised transaction cost is credited to Consolidated Statement of Profit and Loss on classification of loan asset as credit impaired.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. CA FRN No. 000425N New Delhi Chartered Accountants

(iv) Classification of Investments

In order to classify an investment in a company as investment in subsidiary or joint venture (JV) or associate, judgement is required to assess the level of control depending upon the facts and circumstances of each case.

a) Energy Efficiency Services Limited (EESL) was incorporated in 2009 as a Joint Venture (JV) of NTPC Ltd., Power Grid Corporation of India Ltd. (PGCIL), RECL and PFC. During the current financial year, amendments in the JV agreement were made vide Supplementary Agreement dated 01.09.2021, where by the substantive participative rights and privileges previously enjoyed by all the joint venture partners, through their right to affirmative vote on certain reserved matters stands withdrawn. Therefore, in absence of any joint control, EESL ceases to be a Joint Venture Company for the purpose of consolidation of financial statements.

The Company along with its subsidiary RECL is holding 33.33 % stake in equity share capital of Energy Efficiency Services Limited (EESL). However, in the absence of any practical ability to direct the relevant activities as per the requirements of Ind AS 28 'Investment in Associates and Joint Ventures', the Company does not have any significant influence, accordingly EESL has not been considered as an associate company for the purpose of consolidation of financial statements.

b) Ultra-Mega Power Projects (UMPPs), RECL's transmission projects (SPV) and PFCCL's ITPs are managed as per the mandate from Government of India (GoI) and the Group does not have the practical ability to direct their relevant activities unilaterally. The Group therefore, considers its investment in respective UMPPs, ITPs and SPVs as associates having significant influence despite the respective Companies holding 100% of their paid-up equity share capital.

c) By virtue of holding Board position or equity stake in borrower companies, the rights exercised by PFC in such companies are protective in nature. Thus, the borrower companies are not considered as associates.

(v) Low value leases

An assessment is required, if lessee opts not to apply the recognition and measurement requirements of Ind AS 116 'Leases' to leases where the underlying asset is of low value. For the purpose of determining low value, the Group has considered nature of assets and concept of materiality as defined in Ind AS 1 'Presentation of Financial Statements' and the conceptual framework of Ind AS which involve significant judgement.

(vi) Sundry Liabilities- Interest Capitalisation

Unrealised income on credit impaired loans, represented by Funded Interest Term Loan (FITL) / debt / equity instruments acquired under resolution, is transferred to a separate account titled 'Sundry Liabilities Account (Interest Capitalisation)' and is recognised in Consolidated Statement of Profit and Loss on repayment of FITL or sale / redemption of debt / equity instruments.

(vii) Evaluation of indicators for impairment loss allowance of financial assets

The evaluation of the applicability of indicators for computation of impairment loss allowance of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the Assets. The Group makes significant judgement in identifying the default, and significant increase in credit risk (SICR) as well as grouping of similar financial assets based on available information

(viii) Deferred tax liability / deferred tax asset in respect of undistributed profits/losses of subsidiaries, branches, investments in associates and joint ventures

Judgement is required in accounting for deferred tax liability / deferred tax asset in respect of Group's investments in respect of undistributed profits/losses of subsidiaries, investments in associates and joint ventures. In respect of undistributed profits/losses of subsidiaries, investments in joint ventures, the Company is able to control the timing of the reversal of the temporary differences and the temporary differences will not be reversed in the foreseeable future. Accordingly, the Group does not recognise a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries, and interests in joint ventures.

7.2 Assumptions and Key Sources of Estimation Uncertainty

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below:

(i) Defined benefit obligation (DBO)
The Group's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses as detailed at Note –50.

(ii) Impairment test of Financial Assets (Expected Credit Loss)
The measurement of impairment loss allowance for financial assets which includes loan LoCs and guarantees measured at amortised cost requires use of statistical models, expected future economic conditions, estimated cash flows and credit behaviour (e.g., inputs and weights used for credit risk scoring, likelihood of borrowers defaulting and resulting losses). In estimating the cash flows expected to be recovered from credit impaired loans, the borrower's financial situation, current status of the project, net realisable value of securities/ collateral etc. are assessed.

As these estimates are based on various assumptions, actual results may vary. Refer Note 46.1 for further details.

(iii) Fair value measurement
Fair value of financial instruments is required to be estimated for financial reporting purposes. The Group applies appropriate valuation techniques and inputs for fair value measurements. In estimating the fair value of an asset or a liability, the Group uses quoted prices and market-observable data to the extent it is available. In case of non-availability of the same, unobservable inputs are used for calculation of fair value of the assets/ liabilities. The information about the valuation techniques, inputs used in determination of fair value of various assets & liabilities and other details are disclosed at Note 48.

(iv) Income Taxes
Estimates are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset. Refer Note 43 and 16 for details.

(v) Useful life of Property, Plant & Equipment (PPE) and Intangible Assets
The Group reviews its estimate of the useful lives of depreciable/amortisable assets at the end of each financial year, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets. Refer Note 17 for details on useful lives and carrying values of PPE and Intangible assets.

8 Cash and Cash Equivalents

(₹ in crore)

Sr. No.	Particulars	As at 31.03.2023	As at 31.03.2022

[2] under process of striking off

13.3 Coastal Karnataka Power Limited (CKPL), a wholly owned company of PFC Ltd was set up for managing the UMPPs as per the mandate from GoI and was considered as associate over which PFC had significant influence. During FY 2022-23, CKPL's MoA has been amended to be used for bidding lenders' backed resolution plan by PFC and it has been renamed as PFC Projects Limited (PPL). Accordingly, the ability to direct activities of said Company now vests with PFC Ltd and the same is now considered as a subsidiary.

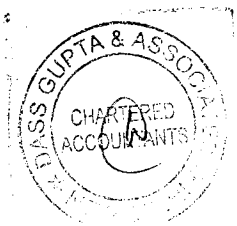
PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

13.4 At initial recognition, companies in the Group made an irrevocable election to present subsequent changes in the fair value of certain equity instruments in other comprehensive income. The Group's main operation is to extend financial assistance to power, logistics and infrastructure sector. Thus, in order to insulate the Consolidated Statement of Profit and Loss from price fluctuations of these instruments, the Management of the respective companies believes that FVTOCI classification provides a more meaningful presentation, rather than classifying them at FVTPL.

Details of FVTOCI instruments derecognised during the year:

(₹ in crore)



Details of investment	No. of shares/ units derecognised	Fair Value as on date of de-recognition	Cumulative gain/ (loss) on de-recognition
FY 2022-23			
NHPC Limited[1]	3,34,54,417	123.70	50.83
Total			**50.83**
FY 2021-22			
NHPC Limited[1]	18,46,45,279	510.44	108.28
'Small is Beautiful' Fund[2]	1,23,04,400	1.50	(10.80)
Total			**97.48**

[1]These equity shares were sold in tranches during the year considering the market scenario. The fair value and gain has been computed based on the price as on the respective date of de-recognition and has been presented above on aggregate basis.

[2]Pursuant to the completion of liquidation proceedings of 'Small is Beautiful' Fund; 1,23,04,400 units of the 'Small is Beautiful' Fund held by PFC and RECL have been derecognised from the books.

Subsequent to de-recognition of such investments, the Group has transferred the cumulative gain/(loss) on such shares within Equity (from Reserve for Equity instruments through OCI to Retained Earnings) during the year. Refer Consolidated Statement of Changes in Equity for further details.

13.5 Refer Note 48 for details of fair valuation of investments.

20.5 In respect of PFC's subsidiaries, REC Ltd. and PFC Consulting Ltd., their management had incorporated these entities with a view to sell them off as per the guidelines of Ministry of Power, through the bid process prescribed by Ministry of Power. There is no possibility that management will have benefits from these entities other than selling them off, hence all these investments (along with the related assets and liabilities) have been classified as 'held for sale'.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

20.6 Jharkhand Urja Sancharan Nigam Limited (JUSNL) has cancelled RFQ and RFP of transmission projects in State of Jharkhand. These projects have been kept in abeyance w.e.f. 01.10.2020. RECPDCL vide letters dated 14.10.2020, 06.11.2020 and 28.07.2021 has communicated JUSNL regarding recovery of expenses incurred on these SPVs. However, no communication has been received from JUSNL in this regard. As the bidding process of these SPVs has been cancelled and there is less probability of recovery of expenses already incurred, hence as an accounting prudence provision for impairment loss of ₹ 0.02 crore (previous year ₹ 9.71 crore) has been created.

20.7 With a view to monetise its idle assets, during the year the Company's subsidiary RECL has disposed certain residential building units through e-auction process, with carrying value ₹ 0.52 crores (previous year ₹ 1.18 crores), classified under "Assets classified as held for sale" as required under Ind-AS 105. Such sale has resulted in gain of ₹ 4.08 crores during the current year (previous year ₹ 30.19 crores) Further, residential building units with carrying value ₹ 0.34 crores (previous year ₹ 0.86 crores) classified under "Assets classified as held for sale" are pending for disposal as at 31st March 2023. The process for their disposal is expected to be completed during the year 2023-24 through e-auction process.

DAS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

25.3 Amounts payable under GoI Schemes:

(i) PFC has been designated as Nodal Agency for operationalization and implementation of RDSS Scheme and IPDS (R-APDRP subsumed in it). Role of Nodal Agency *inter-alia* includes pass through of loans/grants to eligible utilities under schemes of GOI. The release of the funds under GoI schemes is ensured through Treasury Single Account (TSA) maintained with RBI, as per office memorandum issued by MoF, GoI dated 09th March 2022. This ensures that funds of these schemes are released 'Just in time' from the Consolidated Fund of India (CFI) to the beneficiaries refer Note 55.

(ii) RECL has been appointed by GOI as a nodal agency for implementation of Deen Dayal Upadhyaya Gram Jyoti Yojna (DDUGJY), Pradhan Mantri Sahaj Bijli Har Ghar Yojana (Saubhagya) and Revamped Distribution Sector Scheme (RDSS). The funds received for disbursement to various agencies under the scheme are kept in a separate bank accounts. The undisbursed funds for the scheme (including the funds received under erstwhile RGGVY Scheme) including interest earned thereto are classified under the line item 'Interest Subsidy Fund and Other GOI Funds for Disbursement' under 'Other Financial Liabilities' . For further details of GOI schemes, refer Note 55.

(iii) Subsidy Under Accelerated Generation & Supply Programme (AG&SP)

REC is maintaining an Interest Subsidy Fund Account and was given AG&SP subsidy (for disbursement to the eligible borrowers) by Govt. of India at net present value calculated at indicative rates and year in accordance with GOI's letter vide D.O.No. 32024/17/97-PFC dated 23.09.1997 and O.M.No.32024/23/2001-PFC dated 07.03.2003 irrespective of the actual repayment schedule, moratorium year and duration of repayment of the eligible schemes. The impact of difference between the indicative rate and year considered at the time of drawl and the actual can be ascertained only after the end of the respective schemes.

Net amount of ₹ 0.75 crores as at 31st March 2023 (₹ 0.73 crores as at 31st March 2022) represents the balance amount of interest subsidy fund, which is to be passed on to the borrowers against their interest liability arising in future, under Accelerated Generation & Supply Programme (AG&SP), which comprises of the following:-

(₹ in crores)

Particulars	FY 2022-23	FY 2021-22
Opening Balance of Interest Subsidy Fund	0.73	0.71
Add: Interest earned during the year	0.02	0.02
Less: Interest subsidy passed on to the borrower	-	-
Closing Balance of Interest Subsidy Fund	0.75	0.73

(iv) The movement in Interest on Subsidy/ Grant of RECL is explained as under:

(₹ in crores)

* For movements during the period refer Consolidated Statement of Changes in Equity.

29.1 Nature and purpose of reserve

(i) Capital Reserve - Common Control

Consequent to the acquisition of REC Limited by PFC on 28th March,2019, the difference between PFC's share in equity share capital of REC Limited of ₹ 1039.50 and the consideration paid (including investment of ₹ 0.50 crore existing on the date of acquisition) of ₹ 14500.50 crore has been recognized as capital reserve-common control.

(ii) Securities Premium:

It represents amount of premium received on issue of equity share capital net of expense incurred on issue of equity shares. This amount can be utilised in accordance with the provisions of the Companies Act, 2013.

(iii) Foreign Currency Monetary Item Translation Difference Account:

It represents unamortized foreign exchange gain/loss on Long-term Foreign Currency Borrowings (raised up to 31.03.2018) and are amortized over the tenure of the respective borrowings.

(iv) Special Reserve created u/s 45-IC of Reserve Bank of India Act, 1934:

It represents transfer from retained earning @ 20 % of net profit after tax for the year as disclosed in profit and loss account and before any dividend is declared. No appropriation is allowed to be made from the reserve fund except for the purpose as may be specified by the Reserve Bank of India (RBI) from time to time and further, any such appropriation is also required to be reported to the RBI within 21 days from the date of such withdrawal.

(v) Reserve for Bad & doubtful debts u/s 36(1)(viia)(c) of Income-Tax Act,1961:

It has been created to enable the PFC and its subsidiary REC Ltd. to avail income tax deduction. The reserve so maintained is primarily utilised for adjustment of actual bad debts or part thereof. As per section 36(1)(viia)(c) of Income Tax Act, 1961, the Company and its subsidiary REC Ltd. is eligible to avail deduction in respect of any provision / reserve made for bad and doubtful debts, not exceeding five percent of the total income as per Income Tax Act.

(vi) Special Reserve created u/s 36(1)(viii) of Income Tax Act, 1961

It is maintained in order to enable PFC and its subsidiary REC Ltd. to avail tax benefits. As per section 36(1)(viii) of the Income Tax Act, 1961, the Company and its subsidiary REC Ltd. is eligible for deduction not exceeding 20% of profit derived from long term finance activity, provided such amount is transferred and maintained in special reserve account.

(vii) Interest Differential Reserve - KFW Loan:

It represents difference between the interest due and interest paid on KFW loan as per the loan agreement. Exchange gain/loss upon re-statement of loan balance, in accordance with the terms of the foreign currency borrowing from KFW, is adjusted against this reserve. The Company is not required to repay the unadjusted balance in the reserve after complete repayment of KFW Loan. Any unadjusted balance in the reserve after complete repayment of KFW Loan shall be used for further lending by the Company after consulting with KFW.

(viii) General Reserve:

General Reserve includes the amounts appropriated from the profits of the Group before declaration of dividend (as was required under erstwhile Companies Act, 1956). It also includes the amount transferred from Statutory Reserves on utilization / reversal of such Reserves. Further the Group appropriates profit to General Reserve in order to avail full eligible deduction of Special Reserve under section 36(1)(viii) of the Income Tax Act, 1961.

(ix) Retained Earnings:

It represent profits and specified items of other comprehensive income recognised directly in retained earnings earned by the Group after transfer to and from other reserves and dividend distributions.

(x) Reserve for Equity Instruments through Other Comprehensive Income :

The Companies in the Group elected to recognise changes in the fair value of certain investment in equity instruments through other comprehensive income. It represents cumulative gains and losses arising on the revaluation of equity instruments measured at fair value through other comprehensive income. When the asset is derecognized, amounts in the reserve are subsequently transferred to retained earnings and not to consolidated statement of profit and loss. Dividends on such investments are recognized in statement of profit & loss unless the dividend clearly represents a recovery of part of the cost of the investment.

(xi) Reserve for Effective portion of Cash Flow Hedges

The intrinsic value of hedging instruments which meets the qualifying criteria for hedge accounting & are designated and qualify as cash flow hedges is recognized in this reserve. The amounts recognized in such reserve are reclassified to the Statement of Profit or Loss when the hedged item affects profit or loss.

(xii) Cost of Hedging Reserve

The fair value of the time value of a hedging instruments which meets the qualifying criteria for hedge accounting & are designated and qualify as cash flow hedges is recognized in this reserve. The amounts recognized in such reserve are amortized to the Statement of Profit and Loss on a systematic basis.

29.2 (i) **The details of dividend declared/proposed by PFC on equity shares of face value of ₹10 each is as under:**

Particulars	FY 2022-23			FY 2021-22		
	% of Share Capital	Per equity share (₹)	Amount (₹ in crore)	% of Share Capital	Per equity share (₹)	Amount (₹ in crore)
Interim Dividend	87.50%	8.75	2,310.07	107.50%	10.75	2,838.09
Final Dividend	45.00%	4.50	1,188.04	12.50%	1.25	330.01
Total Dividend	132.50%	13.25	3,498.11	120.00%	12.00	3,168.10

(ii) **Events occurring after Balance Sheet date:**

Board of Directors in its meeting held on 27.05.2023 has recommended final dividend @ 45% on the paid up equity share capital i.e.₹ 4.50 per equity share of ₹ 10 each for the FY 2022-23 subject to approval of shareholders in ensuing Annual General Meeting.

(iii) The Dividend Paid/Proposed is in compliance with the provisions of section 123 of Companies Act 2013, as applicable.

	Total Non - Controlling Interest	**27,822.79**	**24,598.91**

30.1 PFC's subsidiary REC Ltd. had issued Perpetual Debt Instruments of face value of ₹ 10 lakhs each, with no maturity and callable only at the option of the Company after 10 years. The claims of the holders of the securities shall be (a) Superior to the claims of the holders of the equity shares issued by the Issuer; and (b) Subordinated to the claims of all other creditors of the Issuer. The instruments carry a step up provision if not called after 10 years. The payment of Coupons may be cancelled or suspended at the discretion of REC Ltd. The coupon of the securities is not cumulative except where the Issuer shall not be liable to pay coupon and may defer the payment of coupon, if (i) The capital to risk assets ratio ("CRAR") of the Issuer is below the minimum regulatory requirement prescribed by RBI; or (ii) the impact of such payment results in CRAR of the Issuer falling below or remaining below the minimum regulatory requirement prescribed by RBI.

As these securities are perpetual in nature and the Group does not have any redemption obligation and discretion on payment of coupon, these have been classified as Equity. Further as such Equity is not attributable , directly or indirectly to the parent viz PFC Limited, the same has been included under Non-Controlling interest. The periodic coupon payments are accordingly adjusted with retained earnings.

43.3 Reconciliation of tax expense and accounting profit

Reconciliation of tax expenses and product of profit before tax and corporate tax rate:

(₹ in crore)

Particulars	FY 2022-23	FY 2021-22
Profit before Tax	**26,499.14**	**23,382.22**
Applicable Tax Rate	25.168%	25.168%
Tax using the applicable tax rate	**6,669.30**	**5,884.83**
Tax effect of:		
Non-deductible tax expenses	107.46	139.88
Tax exempt income	(3.00)	(2.62)
Deduction u/s 80M of Income Tax act 1961	(439.13)	(609.93)
Deduction u/s 36(1)(viii) of Income Tax act 1961	(1,268.07)	(1,114.48)
Others	32.93	26.31
Tax expense pertaining to earlier years	(198.44)	(40.00)
Impact of change in tax rate	-	(3.98)
Effect of eliminations	416.43	334.00
Total tax expenses in the Consolidated Statement of Profit and Loss	**5,317.48**	**4,614.01**

43.4 Deductible temporary differences / unused tax losses / unused tax credits carried forward in respect of PFC

Particulars	As at 31.03.2023 (₹ in crore)	Expiry date	As at 31.03.2022 (₹ in crore)	Expiry date
Deductible temporary differences / unused tax losses / unused tax credits for which no deferred tax asset has been recognised	-	-	1.25	31.03.2024
	-	-	2.54	31.03.2025
	-	-	0.03	31.03.2028
	-	-	0.07	31.03.2029

44. Disclosure as per Ind AS 33 "Earnings per Share"

Sr. No.	Description	FY 2022-23	FY 2021-22
(A)	Profit for the period used as numerator (basic & diluted) (₹ in crore):		
	(i) from continuing operations	15,889.33	14,014.79
	(ii) from discontinued operations	-	-
	(iii) from continuing and discontinued operations	15,889.33	14,014.79
(B)	Weighted average number of equity shares used as denominator (basic & diluted)	2,64,00,81,408	2,64,00,81,408
(C)	Earning per equity share (basic & diluted), face value ₹ 10 each (₹):		
	(i) for continuing operations	60.19	53.08
	(ii) for discontinued operations	-	-
	(iii) for continuing and discontinued operations	60.19	53.08

45. Capital Management

The Group maintains a capital base that is adequate to support the Group's risk profile, regulatory and business needs. The Group sources funds from domestic and international financial markets, inter-alia leading to diverse investor base and optimised cost of capital. Refer Note 22, 23 & 24 for details w.r.t. sources of funds and refer Consolidated Statement of Changes in Equity for details w.r.t Equity.

As contained in RBI Master Directions - Non-Banking Financial Company - Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016, as amended from time to time (hereinafter referred to as "RBI Master Directions"), NBFCs are required to maintain a capital ratio consisting of Tier I and Tier II capital not less than 15% of its aggregate risk weighted assets on-balance sheet and of risk adjusted value of off-balance sheet items. Out of this, Tier I capital shall not be less than 10%. The Company and its subsidiary RECL are registered with RBI as Non Deposit Systematically Important (NDSI) NBFCs. Both the companies regularly monitor the maintenance of prescribed levels of Capital to Risk Weighted Assets Ratio (CRAR). Further, with regard to capital restructuring, the Company and its subsidiary RECL is also guided, inter alia, by guidelines on "Capital Restructuring of Central Public Sector Enterprises" issued by Department of Investment and Public Asset Management (DIPAM), Ministry of Finance, Department of Public Enterprises in respect of issue of bonus shares, dividend distribution, buy back of equity shares etc.

Capital to Risk Weighted Assets Ratio (CRAR) is as under:

Particulars	As at 31.03.2023		As at 31.03.2022	
	PFC	RECL	PFC	RECL
CRAR – Tier I Capital	21.61%	22.84%	20.00%	19.58%
CRAR – Tier II Capital	2.76%	2.94%	3.48%	4.03%
Total CRAR	24.37%	25.78%	23.48%	23.61%

* Computed as per applicable RBI guidelines.

Dividend Distribution Policy

The companies in the Group have a well-defined dividend distribution policy. Dividend distribution policy focuses on various factors including but not limited to GoI guidelines, RBI circulars / guidelines, future capital expenditure plans, profits earned during the financial year, cost of raising funds from alternate sources, cash flow position and applicable taxes if any, subject to the guidelines as applicable from time to time.

As per the extant guidelines issued by Department of Investment and Public Asset Management (DIPAM), Government of India, an entity is required to pay a minimum annual dividend of 30% of Profit after Tax or 5% of the net-worth, whichever is higher subject to the maximum dividend permitted under extant legal provisions.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000825N New Delhi Chartered Accountants

Though respective companies' endeavours to declare dividend as per these guidelines, they may propose a lower dividend after analysis of various financial parameters like net-worth, CAPEX/business expansion needs; additional investments in subsidiaries / associates of the respective company; other regulatory requirements etc. For details of dividend paid/proposed during the year, refer Note 29.2(i) and 29.2.(ii).

46. Financial Risk Management

The Group is exposed to several risks which are inherent to the environment that it operates in. The Group is primarily into the business of extending financial assistance to power, logistics and infrastructure sector. The principal risks which are inherent with the Group's business model and from its use of financial instruments include credit risk, liquidity risk and market risk (currency risk, interest rate risk and price risk).

The following table broadly explains the sources of risks which the Group is exposed to and how it manages the same and related impact in the consolidated financial statements:

Note	Risk	Exposure arising from	Measurement	Risk Management
46.1	Credit Risk	Loans, financial assets, investments, trade receivables, cash and cash equivalents	Ageing analysis	Detailed appraisal process, credit concentration limits, diversification of asset base and collateral including government guarantee
46.2	Liquidity Risk	Debt securities, borrowings, subordinated liabilities and other financial liabilities	Cash flow forecasts	Availability of committed credit lines and borrowing facilities
46.3	Market Risk – Foreign Currency Risk	Recognised financial liabilities not denominated in Indian Rupee (INR)	Sensitivity Analysis, cash flow forecasting	Derivative contracts for hedging currency risk
46.4	Market Risk – Interest Rate Risk	Debt securities, borrowings, subordinated liabilities and loans at variable interest rates	Interest rate gap analysis, Sensitivity analysis	Mix of loan arrangements with varied interest rate terms, derivative contract like interest rate swaps etc.
46.5	Market Risk – Price Risk	Investments in quoted equity instruments	Sensitivity Analysis	Diversification of portfolio, with focus on strategic investments

For managing these risks, the companies in the Group have put in place an integrated enterprise-wide risk management mechanism to ensure that these risks are monitored carefully and managed efficiently. In accordance with the RBI Master Direction in order to augment risk management practices in the respective Company, PFC and its subsidiary RECL has respective Chief Risk Officers (CRO) who are involved in the process of identification, measurement and mitigation of risks. The risk management approach i.e. objectives, polices and processes for identifying, measuring and managing each of above risk is set out in the subsequent paragraphs.

46.1 Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Group by failing to discharge its obligation. Details of financial assets that expose the Group to credit risk (gross carrying amount) are:

(₹ in crore)

Particulars	As at 31.03.2023	As at 31.03.2022
Low Credit Risk		
Cash and cash equivalents[a]	127.59	914.24
Bank balances other than included in cash and cash equivalents[a]	3,973.43	5,770.26
Loans (Principal outstanding)[c]	7,98,755.96	6,57,482.61
Trade Receivables[b]	185.69	123.02
Investments (Excluding equity investments) [a]	3,772.30	2,138.59
Other financial assets[b]	29,835.07	29,820.35
Moderate Credit Risk		
Loans (Principal outstanding) [c]	27,350.31	62,938.57
Trade receivables[b]	37.62	30.97
High Credit Risk		
Investments (Excluding equity investments)[a]	101.67	101.67
Loans (Principal outstanding) [c]	31,393.73	38,075.17
Other financial assets [b]	113.59	115.97
Trade receivables[b]	66.81	63.32

[a]Credit risk on cash and cash equivalents and other bank balances is limited as these are held with scheduled commercial public sector banks, high rated private sector banks and mutual fund houses, across the country with diversified deposit base. The Companies in the Group diversify the deposit base by deploying funds in various types of instruments with respective banks/ mutual fund houses.

Exposure to credit risk on investments is managed by diversifying the investment portfolio, periodically monitoring such investments, and applying the appropriate valuation techniques to arrive at the carrying value.

[b]Credit risk on trade receivables and other financial assets is mitigated by assessing the credit worthiness of debtors and is managed by monitoring the recoverability of such amounts. The Group carries requisite impairment loss allowance on such trade receivables and other financial assets.

[c]The Group is exposed to credit risk primarily through its lending operations. The same is explained in the paragraphs below (Note 46.1.1 – Note 46.1.13).

46.1.1 Credit Risk Management Approach for lending operations

A. In respect of PFC

PFC has put in place key policies and processes for managing credit risk, which include formulating credit policies, guiding the PFC's appetite for credit risk exposures, undertaking reviews & objective assessment of credit risk, and monitoring performance and management of portfolios. All the procedures and processes of the Company are ISO 9001:2015 certified.

The credit risk management covers two key areas, i.e., project appraisal & project monitoring. PFC selects the borrowers in accordance with the PFC's approved credit policy, which inter alia, defines factors to be considered for rating of the borrower/ project. PFC's customer selection procedure assesses viability of project along with that of its promoting entity. Rate of interest and maximum admissible exposure is, inter alia, based on internal rating awarded by PFC.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 00042SN New Delhi Chartered Accountants

(i) Appraisal of Projects

PFC follows a systematic, institutional project appraisal process to assess the credit risk before financing any project.

(a) Appraisal for Private Sector Power Projects

For private sector projects, a two-stage appraisal process is followed. Initially a preliminary appraisal is carried out in order to decide the prima facie preparedness of the project to be taken up for detailed appraisal. Detailed appraisal is carried out for those projects shortlisted by the Competent Authority on the basis of preliminary appraisal.

PFC along with evaluation of project viability also assesses the ability of its promoter(s) to contribute equity and complete the project. PFC follows an integrated rating methodology whereby Integrated Rating (IR) is calculated using the weighted average of the scores of the project grading and promoter grading. Based on the IR of the project, terms and conditions (including security package, interest rate and debt equity ratio) are stipulated.

(b) Appraisal for State Sector Power Projects

State sector projects are taken up for detailed appraisal to determine, inter-alia, if it is techno economically sound and compatible with integrated power development & expansion plans of the State.

PFC classifies state power generation and transmission utilities into various risk rating grades based on the evaluation of utility's performance against specific parameters covering operational and financial performance. With regards to transmission utilities, PFC adopts the categorisation of its subsidiary RECL as per its policy. With regard to State Power Distribution utilities including integrated utilities, PFC's categorisation policy provides for adoption of Ministry of Power's (MoP's) Integrated Ratings by aligning such ratings/ grading with that of PFC's rating structure.

Such categories/ ratings are used to determine credit exposure limits, security requirements and pricing of loans given to the State Sector Borrowers. PFC also has a mechanism in place for monitoring the exposure to single borrower and exposure within a State.

The detailed project appraisal involves technical and financial appraisal covering various aspects such as project inputs, statutory and non-statutory clearances, contracts, project linkages, financial modelling/ projections, calculation of returns, sensitivity analysis etc.

After detailed analysis indicated above, the overall viability of the project and entity is assessed and various conditions in the form of pre-commitment, pre-disbursement and other conditions are stipulated so as to ensure tying up of funds (debt and equity both), all physical inputs, appropriateness of all the contracts, compliance of conditions precedent in agreements/ contracts/ statutory and non- statutory clearances related to the project etc. and in general to ensure bankability of the project & protection of the interest of PFC as a lender for timely servicing of debt. PFC has an authorisation/ delegation structure for the approval of credit facilities commensurating with the size of the loan.

(ii) Security and Covenants

PFC stipulates a package of security measures/covenants to mitigate risks during the construction and post COD (commercial operation date) stage of the project. Based on the risk appetite and appraisal of the project, PFC adopts a combination of the following measures:

(a) Primary Security -Charge on Project Assets or State Government Guarantees
(b) Collateral Securities - Corporate guarantee, Personal guarantee of promoters, Pledge of shares, Charge on assets / revenues of group/other companies

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. CA FRN No. 000425N New Delhi Chartered Accountants

(c) Payment Security Mechanism - Escrow Account / Letter of Credit, Trust and Retention Account (TRA)
(d) Other covenants - Assignment of all project contracts, documents, insurance policies in favour of the Company, Upfront equity requirement, Debt Service Reserve Account (DSRA), Debt Equity ratio, shareholders' agreements, financial closure, etc.

(iii) Project Monitoring

PFC has comprehensive project/loan monitoring guidelines that captures aspects relating to monitoring, tracking of project construction, implementation, identifies risks where intervention is required to minimize the time/ cost overruns/ consequent slippages in disbursements and including progress of commissioned projects.

For State sector projects, monitoring is carried out based on project progress details obtained regularly from borrowers through progress monitoring reports, site visits, discussions with the borrowers, information/reports available on Central Electricity Authority's (CEA) website etc.

For private sector, where PFC is Lead Financial Institution (FI), PFC engages Lenders' Engineers (LEs) and Lenders' Financial Advisors (LFAs), which are independent agencies to act on behalf of various lenders / consortium members. The LEs conduct periodic site visits, review relevant documents, discusses with the borrowers and submit its reports on progress of the project. LFAs submit the statements of fund flow and utilization of funds in the project periodically. In cases where PFC is not the lead FI, the tasks related to LEs and LFAs services are coordinated with the concerned lead lender. From FY 2022-23 onwards PFC has started empanelling Project Management Agency (PMA), as a single entity, for private sector projects, thereby facilitating better coordination of project monitoring activities.

Also, the consolidated periodic progress report of certain projects is prepared comprising important observations/ issues viz. areas of concern, reasons for delay, issues affecting project construction/implementation etc. and is reviewed by PFC on a regular basis.

PFC continuously monitors delays and/or default of borrowers and their recoverability. On occurrence of default in the borrower's account, PFC initiates necessary steps which may involve action(s) including, but not limited to, Special Mention Account (SMA) reporting to RBI, credit information reporting to Central Repository of Information

on Large Credits (CRILC) etc., regularization of the account by recovering all overdues, invocation of guarantees/ securities to recover the dues, conversion of loan into equity as per loan agreement, restructuring of loan account, formulating resolution plan with the borrower, change in ownership, Corporate Insolvency Resolution Process (CIRP) under IBC -2016, sale of the exposures to other entities/investors, other recovery mechanisms like referring the case for legal action before Debt Recovery Tribunal (DRT), SARFAESI, etc. and other actions as specified under regulatory/legal framework.

B. In respect of RECL

The credit risk is managed at different levels including at appraisal, disbursements and post disbursement monitoring. RECL has "Integrated Rating Guidelines" and "Comprehensive Risk Management Policy". To mitigate credit risk, RECL follows systematic institutional and project appraisal process to assess the credit risk. These processes include a detailed appraisal methodology, identification of risks and suitable structuring and credit risk mitigation measures. Further, on periodic basis, the loan assets are reviewed and categorized as High/Moderate/Low based on ECL Methodology. The process for Credit Risk Management is as under:

(i) RECL has "Integrated Rating Guidelines" covering credit assessment, risk grading, collateral requirements, reporting, monitoring of end utilisation of funds etc. Further, independent Lender legal counsels are appointed to ensure effective documentation and mitigation of legal risk.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

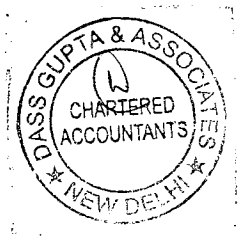
PREM GUPTA & CO. CA FRN No. 000425N New Delhi Chartered Accountants

(ii) For all existing private sector projects, where RECL is Lead Financial Institution, RECL engages Lender's Independent Engineers (LIE), Lender's Financial Advisors (LFA) and Lender's Insurance Advisors (LIA), which are independent agencies who act on behalf of various lenders and consortium members. LIE conducts periodic site visits and submits reports on progress status of the project, after discussion with borrower and inspection/ review of relevant documents. LFA submit the statements of fund flow and utilization of funds in the project periodically. In cases where RECL is not the lead Financial Institution, the tasks related to LIE and LFA services are being coordinated with the lead lender.

RECL also endeavours to appoint a separate Project Management Agency (PMA) for new projects being financed, which subsumes the entire works of LIE /Project Management Consultant (PMC), LFA and LIA for better coordination among the agencies. PMA is stationed at project site to closely monitor various day to day project execution activities including monitoring of project progress, review of EPC/non-EPC contracts & invoices, fund utilization and insurance for the project. PMA also verifies the bills of original equipment manufacturer/ supplier, composite works contractor and give its recommendation for disbursement. Initial due diligence is also be performed by PMA taking the sanctity of technical and financial parameters including original project cost & COD.

Concurrent Auditors/Agencies for Specialized monitoring/Cash Flow monitoring agencies are being appointed by REC/Lenders on case to case basis for effective monitoring of Trust & Retention Account (TRA) for stressed projects.

(iii) RECL has an authorisation structure for the approval and renewal of credit facilities. Authorisation limits have been established commensurating with the size of business proposal at CMD/Executive Committee/Loan Committee/Board of Directors based on the recommendation of Screening Committee, as appropriate.



(iv) RECL has developed risk grading structure to categorise its exposures according to the degree of risk of default by charging appropriate interest rates and security package.

(v) Regular reports on the credit quality of loan portfolios are provided to Risk Management Committee and Board, which may require appropriate corrective action to be taken.

(vi) External agencies are appointed from time to time to review the guidelines, policy and existing practices being followed by business units along with providing the specialist skills to promote best practice throughout RECL for management of credit risk.

(vii) Individual and Group Credit Exposures are assessed against designated limits, before facilities are committed to borrowers by the business unit concerned. Sanction of additional facilities is also subject to the same review process.

(viii) RECL continuously monitors delays and/ or default of borrowers & other counterparties and their recoverability. On occurrence of default in the borrower's account, RECL initiates necessary steps to cure the default which may involve action(s) including, but not limited to, Special Mention Account (SMA) reporting to RBI, credit information reporting to Central Repository of Information on Large Credits (CRILC), etc., monitoring of the TRA account, conversion of loan into equity as per loan agreement, restructuring of loan account, formulating resolution plan with the borrower, change in ownership, Corporate Insolvency Resolution Process (CIRP), sale of the exposures to other entities/ investors and other recovery mechanisms including invocation of guarantees/ securities to recover the dues.

46.1.2 Credit Risk Measurement - Impairment Assessment for Lending Operations

Ind-AS 109 outlines a three staged model for measurement of impairment based on changes in credit risk since initial recognition. For classification of its borrowers into various stages, the Group uses the following basis:

- A financial asset that is not credit impaired on initial recognition is classified in 'Stage 1'.

- If a significant increase in credit risk (SICR) is identified, the financial asset is moved to 'Stage 2'.

- If the financial asset is credit-impaired, it is moved to 'Stage 3' category.

A. In respect of PFC

PFC recognises impairment loss allowance in accordance using the expected credit loss (ECL) model for the financial assets which are not categorised at fair value through profit or loss.

I. **Default:** In accordance with Ind AS 109, PFC considers the rebuttable presumption to define a financial asset as in default, i.e. when the loan account is more than 90 days past due on its contractual payments. Credit impaired financial assets are aligned with the definition of default.

II. **SICR** - An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting date by considering the change in the risk of default occurring over the remaining life of the financial instrument. In accordance with Ind AS 109, PFC has applied rebuttable presumption that considers more than 30 days past due as a parameter for determining significant increase in credit risk.

In case of Stage 3 financial assets, after implementation of the resolution plan (except for change of ownership and/or resolution through NCLT), the financial asset is upgraded and classified as Stage 2 for two quarters from the date of implementation of resolution plan.

III. **Measurement of Expected Credit Loss (ECL)**

PFC recognises impairment loss allowance for the financial assets in accordance with a board-approved expected credit loss (ECL) policy. ECL is measured on either a 12 month or lifetime basis depending on whether there is significant increase in credit risk since initial recognition. ECL is the product of Probability of default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). PFC has appointed an independent agency, CRISIL Ltd., during the financial year for assessment of ECL in accordance with Ind AS 109. The brief methodology of computation of ECL is as follows:

(i) Probability of default (PD)

PD is an estimate of the likelihood of default over a given time horizon. It is estimated as at a point in time. For assessing 12 month PD, probability of a loan defaulting in next 12 months is ascertained and similarly for assessing lifetime PD, probability of a loan defaulting in its remaining lifetime is ascertained.

For Stage 1 accounts, 12 months PD is used.
For Stage 2 (significantly increased credit risk accounts), Lifetime PD is used.
For Stage 3 (credit impaired accounts), 100% PD is taken.

12-month PD: In case of State Sector borrowers, for the purpose of PD calculation, the risk rating grades of the utilities are considered. For Gencos/Transcos/Others, PFC's internal rating grades have been considered. For Discoms / Power Department borrowers, PFC has adopted the MoP ratings . The ratings as above has been be mapped with the standard external rating benchmarks. The PD factor associated with the mapped external rating as given in the PD transition matrix published by various Credit Rating Agencies(CRAs) have been used for PD calculation.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 00047SN New Delhi Chartered Accountants

In case of Private sector borrowers, the latest external rating as published by various Credit Rating Agencies have been referred to compute PD using the PD transition matrix published by various CRAs . If external rating is not available, the PD has been computed through Proxy Risk Scoring Model on a 10-point scale with 1 suggesting minimum risk and 10 suggesting the highest risk. The said model uses the Quantitative financial ratios like Gearing (Debt/Equity), Return on Capital Employed, Interest Coverage ratio, Debt to EBITDA ratio and qualitative factors like PLF, ACS/ ARR ratio or LAF to arrive at the final Risk score. The financial risk score obtained have been mapped to external rating benchmarks. This mapped rating has been referred to compute PD associated with the rating using the PD transition matrix published by various CRAs.

For Lifetime PD: Markov Chain Model has been used to compute Lifetime PDs of the rating grade.

(ii) Loss Given Default (LGD)

LGD is the loss factor which the Company may experience in case the default occurs.

For State sector borrowers, the company considers the credit worthiness of the states on various parameters while estimating the LGD for state utilities. For estimating the credit worthiness of the state, parameters like State GDP per capita, Fiscal deficit/GDP ratio and Proportion on Revenue Expenditure on Energy Sector, etc. are used as key inputs. The state utilities are bifurcated into Low, Medium and High-risk category based on the state category.

In case of Private sector borrowers, LGD has been assessed considering factors related to the project to arrive at realisable value of the plant such as generation capacity, project cost per MW, percentage completion of the plant, and book value of the assets etc. A stress factor was also applied as a haircut to arrive at the realisable value.

For Stage 3 borrowers, LGD has been assessed project wise based on Bid value/resolution plan amount/OTS amount/any other value/ discounted cash flows etc. as applicable.

(iii) Exposure at Default (EAD)

Exposure at Default is the outstanding exposure on which ECL is computed. EAD includes outstanding principal and interest accrued (including delayed charges) in respect of the loan. As per Note no.7.1.(ii) , income on credit impaired assets is recognised as and when received or on accrual basis when expected realisation is higher than the loan amount outstanding, therefore, the same is not used in computation of Exposure at default..

(iv) Key assumptions used in measurement of ECL

- PFC considers the date of initial recognition as the base date from which significant increase in credit risk is determined.

- Since PFC has a right to cancel any sanctioned but undrawn limits to any of its borrowers, EAD is assumed to be outstanding balance and interest of the loan as on the reporting date.

(v) The assessment of significant increase in risk and the calculation of ECL both incorporate forward-looking information. Further, the independent agency appointed to assist the Company in ECL assessment also consider the forward-looking information in the determination of the impairment allowance to be assigned to the borrower, by taking into consideration various project operational parameters, project financial ratios, extension of the project completion and also possibility of stressed and favourable economic conditions. Further, the independent agency has also added some additional macroeconomic parameters such as IIP (index of industrial production) electricity y-o-y growth rate, Money supply y-o-y growth rate to arrive at a weighted shock factor to the base PD term structure for ECL computation so as to reflect the right risk assessment of the utilities.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

B. In respect of RECL

The impairment loss allowance on loan assets is provided as per Ind AS 109 in accordance with a board-approved policy, which measures the credit risk on the basis of key financial and operational parameters to assess improvement/ deterioration in credit quality. Management overlays to the model output, if any, are duly documented and approved by the Audit Committee. The evaluation of Expected Credit Loss (ECL) is undertaken by an independent agency, ICRA Analytics Limited (formerly ICRA Online Limited).

I. RECL has an internal system of grading for State Governments, Public Sector Undertakings and State Power Utilities. However, for State Distribution Companies (DISCOMs), RECL adopts the ratings by the Ministry of Power as and when they are updated. These ratings are mapped with external rating grades published by various credit rating agencies as part of rating transition matrix. For private borrowers, RECL uses the external rating as published by various credit rating agencies or proxy risk scores in case such rating is not available. The proxy risk score model considers following parameters:

➢ Quantitative factors

- Debt/ EBITDA (30% weightage)
- Return on Capital Employed (15% weightage)
- Interest Coverage (25% weightage)
- Gearing (Debt/Equity) (30% weightage)

➢ Qualitative Factors

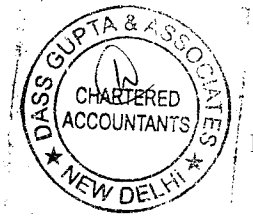
- Quarter wise Operational Parameters like PPA, PLF, ACS – ARR Gap, and LAF
- Actual Default dates
- Status of the Project

II. Significant Increase in Credit Risk (SICR)

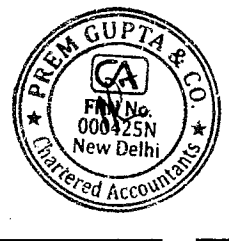
RECL considers a financial instrument to have experienced a significant increase in credit risk when on any financial instrument if the payment is more than 30 days past due on its contractual payments.

III. Definition of default and credit-impaired assets

RECL defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when the loan account is more than 90 days past due on its contractual payments or any such period allowed by RECL in line with circular issued by the Reserve Bank of India.



IV. Measuring ECL - explanation of inputs, assumptions and estimation techniques



Expected credit losses are the product of the probability of default (PD), exposure at default (EAD) and loss given default (LGD), defined as follows:

- PD represents the likelihood of the borrower defaulting on its obligation either over next 12 months or over the remaining lifetime of the instrument.
- EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that RECL expects to be owed at the time of default.
- LGD represents RECL's expectation of loss given that a default occurs. LGD is expressed in percentage and it shows the proportion of the amount that will actually be lost post recoveries in case of a default.

V. Determination of Probability of Default (PD)

RECL has analysed the available annual rating transition matrix published by credit rating agencies to arrive at annual transition matrix based PD. This annual transition matrix was extrapolated to arrive at the lifetime probability of default of various rating grades by loan tenure / maturity profile i.e. lifetime PD. However, for State Distribution Companies (DISCOMs), the Company adopts the ratings by the Ministry of Power as and when they are updated.

VI. Loss Given Default (LGD) computation model

Based on the historical trend, research and industry benchmarking, RECL has constructed a LGD model. Factors reviewed in the LGD model include Project cost per unit, PPA status, FSA status etc. Based on internal research RECL has benchmarked these factors for Thermal, Renewable in Private Sector. In case of Private sector borrowers, the realizable value of the assets were arrived at using suitable assumptions, including valuation on outcome of the resolution process etc., to arrive at LGD. For State Government and Public sector projects, RECL has factored in the state support and assumed that the State/Central governments would step in to repay debt obligations of the state utilities as witnessed in the past.

VII. Alignment of LGD in case of Stage 3 Assets

Stage 3 Assets, where RECL and PFC (Group Companies) are in Consortium for Stage-3 Loan accounts, RECL considers LGD on the following basis:

a) In cases where either RECL or PFC is lead lender, LGD % calculated by the lead lender is adopted
b) In cases where neither RECL nor PFC is lead lender, higher of the LGD% worked out by RECL and PFC is adopted.

VIII. Key assumptions used in measurement of ECL

a) RECL considers the date of initial recognition as the base date from which significant increase in credit risk is determined.
b) EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that RECL expects to be owed at the time of default.

IX. Collateral and other credit enhancements

RECL employs a range of policies and practices to mitigate credit risk. The most common of these is accepting collateral for funds disbursed. RECL has internal policies on the acceptability of specific classes of collateral or credit risk mitigation. The principal collateral types for loans and advances are:

- Mortgage of Immovable properties
- Hypothecation of Moveable property
- Assignment of project contract documents
- Pledge of instruments through which promoters' contribution is infused in the project
- Pledge of Promoter Shareholding
- Corporate and personal Guarantee of Promoters

46.1.3 Credit risk analysis for Lending Operations

Exposure to credit risk

For loans recognized in the balance sheet, the gross exposure to credit risk equals their carrying amount. Refer Note 12 'Loans' for Group's exposure to credit risk arising from loans.

For financial guarantee issued, the maximum exposure to credit risk is the maximum amount that the Group would have to pay if the guarantees are called upon. For irrevocable loan commitments, the maximum exposure to credit risk is the full amount of the commitment facilities. Refer Note 52 for exposure of Guarantee and Outstanding Disbursement Commitments.

A. In case of PFC

The credit quality and maximum exposure (principal outstanding) to credit risk based on days past due and year end stage classification of loans is tabulated below:

(₹ in crore)

Days past Due (DPD)	As at 31.03.2023				As at 31.03.2022			
	Stage 1	Stage 2	Stage 3	Total	Stage 1	Stage 2	Stage 3	Total
No overdue	3,89,559.28	674.51#	-	3,90,233.79	3,20,384.30	594.09 *	-	3,20,978.39
1-30 days	0.07		-	0.07	5,320.69	-	-	5,320.69
31-60 days	-	-	-	-	-	2,190.12	-	2,190.12
61-90 days	-	15,111.70	-	15,111.70	-	21,477.77	-	21,477.77
More than 90 days	-	650.51@	16,501.65	17,152.16	-	2,252.36 @	20,915.28	23,167.64
Total	**3,89,559.35**	**16,436.72**	**16,501.65**	**4,22,497.73**	**3,25,704.99**	**26,514.34**	**20,915.28**	**3,73,134.61**

Pending transfer of ownership, the account has been classified as Stage 2.

*Since the borrower is in Stage 2 in other loans, these loans (which otherwise would have been categorised in Stage 1) have also been categorised in stage 2.

@ Refer Note 46.1.10

B. In respect of RECL

Credit Risk Exposure in respect of the borrowers with different credit ratings is as under

(₹ in crore)

Credit Risk Category (Internal/ Mapped Ratings)	As at 31.03.2023				As at 31.03.2022			
	Stage 1	Stage 2	Stage 3	Total	Stage 1	Stage 2	Stage 3	Total

46.1.4 Concentration of credit risk

Credit concentration risk refers to risk associated with large credit/investment exposure to a single company or a group of companies based on its ownership, sector, region etc. that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions, with the potential to adversely affect lender's core operations.

The following table sets out an analysis of risk concentration of overall loan portfolio of PFC and its subsidiary, RECL on the basis of similar risk characteristics:

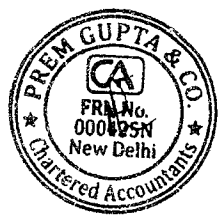
(₹ in crore)

Particulars	As at 31.03.2023		As at 31.03.2022	
	Principal outstanding	Impairment loss allowance*	Principal outstanding	Impairment loss allowance*
Concentration by ownership				
Loans to state sector (i.e. entities under the control of state and /or central government)	7,42,981.50	5,828.25	6,64,451.23	4,210.05
Loans to private sector	1,14,518.50	24,526.97	94,045.12	27,864.03
Total	**8,57,500.00**	**30,355.22**	**7,58,496.35**	**32,074.08**

*including impairment loss allowance on Letter of Comfort (LoC) and Guarantee of ₹ 66.80 Crore. (As at 31.03.2022 ₹ 98.11 Crore.)

Loans to state sector are well diversified as these are extended to multiple entities under the control of various State Governments and Central Government. The Companies considers that these loans have a low credit risk in comparison to lending to private sector mainly due to low default / loss history in state sector and availability of government guarantee in certain loans. Presence of Government interest in these projects also lowers the risk of non-recoverability of dues.

Further, the Companies have a lending portfolio comprising of loans to generation, renewable, transmission and distribution power projects spread across diverse geographical areas.



(₹ in crore)

Particulars	As at 31.03.2023		As at 31.03.2022	
	Principal outstanding	Impairment loss allowance*	Principal outstanding	Impairment loss allowance*
Concentration by schemes–				
Generation	3,42,425.28	22,913.72	3,28,159.85	24,617.30
Renewable	77,270.92	3,426.45	48,626.18	3,059.17
Transmission	79,173.24	404.07	95,379.62	2,072.49
Distribution	3,40,947.29	3,492.22	2,80,113.01	2,304.13
Others	17,683.27	118.76	6,217.69	20.98
Total	**8,57,500.00**	**30,355.22**	**7,58,496.35**	**32,074.08**

*Including Impairment loss allowance on Letter of Comfort (LoC) and Guarantee of ₹ 66.80 Crore. (as at 31.03.2022 ₹ 98.11 Crore.)

The exposure to various projects and borrowers is constantly monitored in line with the Credit Concentration Norms applicable to the Companies in the Group.

46.1.5 Details of Stage wise Principal outstanding and Impairment loss Allowance in respect of PFC & RECL:

(₹ in crore)

Particulars	As at 31.03.2023			As at 31.03.2022		
	Principal Outstanding	Impairment loss allowance*	%	Principal Outstanding	Impairment loss allowance*	%
Stage 1	7,98,755.96	6,415.49	0.80	6,57,482.61	4,849.04	0.74
Stage 2	27,350.31	1,420.84	5.19	62,938.57	1,314.93	2.09
Stage 3	31,393.73	22,518.89	71.73	38,075.17	25,910.11	68.05
Total	**8,57,500.00**	**30,355.22**	**3.54**	**7,58,496.35**	**32,074.08**	**4.23**

	(d)	**Closing balance**	**22,518.89**	**25,910.11**

46.1.8 Write off of Loan Assets

PFC and RECL writes off financial assets, in whole or in part in line with the write off policy of the respective companies, when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include ceasure of enforcement activity or where the Company's recovery method is foreclosing on collateral and the value of collateral is such that there is no reasonable expectation of recovery in full. The waiver/write off is done in whole or in part as per the restructuring/settlement/resolution process.

46.1.9 Policy for sale out of amortised cost business

PFC & RECL does not resort to the sale of financial assets, in ordinary course of business. However, the respective companies have approved policies that they may proceed for resolution of stressed assets by either restructuring, change of ownership, settlement or otherwise. The assets are then assessed for derecognition as per Ind AS 109 'Financial Instruments'

46.1.10 Disclosure in respect of accounts that are beyond 90 days overdue but not treated as credit impaired:

Particulars	As at 31.03.2023	As at 31.03.2022
Number of Borrowers	1	4
Amount of loan outstanding (₹ in crore)	650.51	2,252.36
Amount overdue* (₹ in crore)	160.91	188.18
Amount of Impairment Loss allowance (₹ in crore)	422.68	815.87

*excluding overdue interest of ₹ 186.06 crore as at 31.03.2023 (As at 31.03.2022 ₹ 242.87 crore).

Pursuant to Ad-interim order from Hon'ble High Court(s), these borrower(s) accounts have not been classified as Credit Impaired. The Group holds adequate impairment loss allowance with respect to these loan accounts and has categorised them into Stage 2. The interest income is also not been recognized on these loan accounts on accrual basis since these loans are more than 90 days past due.

46.1.11 In accordance with RBI's Master Direction-Non-Banking Financial Company- Systemically Important Non-Deposit Taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 as amended from time to time, NPA ratios are as under:

NPA ratios duly considering the loans which would have been otherwise required to be classified as NPA as per RBI norms is as under:

Particulars	PFC		RECL	
	As at 31.03.2023	As at 31.03.2022	As at 31.03.2023	As at 31.03.2022

46.1.13 Expected Credit Loss for Trade Receivables

A. In respect of RECL

RECL provides for lifetime credit losses in respect of trade receivables of RECPDCL, one of the subsidiaries of RECL using simplified approach under ECL method

(₹ in crore)

Particulars	Less than 1 year	1 year- 2 year	2 year- 3 year	More than 3 year	Total
As at 31.03.2023					
Gross carrying value	127.15	21.32	16.31	56.35	221.13
Expected loss rate	20.19%	62.85%	89.94%	99.31%	49.61%
Expected credit loss (provision)	25.67	13.40	14.67	55.96	109.70
Carrying amount (net of impairment)	101.48	7.92	1.64	0.39	111.43
As at 31.03.2022					
Gross carrying value	88.93	19.35	14.56	54.43	177.27
Expected loss rate	14.03%	6.82%	99.52%	100.00%	46.66%
Expected credit loss (provision)	12.48	1.32	14.49	54.43	82.72
Carrying amount (net of impairment)	76.45	18.03	0.07	-	94.55

B. In respect of PFCCL

The trade receivables of PFCCL comprises mainly amount recoverable from the State Government entities. RECL considers that the exposure to state sector have a low credit risk mainly due to low default/ loss history. Further, the presence of Government interest lowers the risk of non-recoverability.

Subsequent to initial recognition, PFCCL recognises expected credit loss (ECL) on financial assets especially on trade receivables other than related parties. ECL is recognised at 100% on the trade receivables due for more than 2 years and 50% on the trade receivables due for more than one year and less than 2 years.

Ageing analysis of Trade receivables is as follows:

(₹ in crore)

Particulars	0 to 1 year	1 to 2 year	More than 2 years	Total
Gross carrying amount as at 31.03.2023	43.50	2.87	21.06	67.43
Gross carrying amount as at 31.03.2022	16.88	5.29	17.86	40.04

Movement in the expected credit loss allowance

(₹ in crore)

Particulars	As at 31.03.2023	As at 31.03.2022
Opening Balance	8.96	7.46
Impairment allowance reversal	-	-
Impairment losses recognised	0.29	1.50
Closing Balance	**9.25**	**8.96**

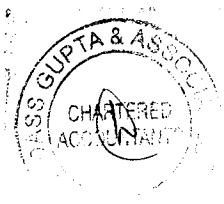
46.2 Liquidity Risk

Liquidity risk is the risk that the Group doesn't have sufficient financial resources to meet its obligations as and when they fall due. The risk arises from the mismatches in the timing of the cash flows which are inherent in all financing operations and can be affected by a range of company specific and market wide events.

46.2.1 The following table analyses the maturity pattern of items of financial liabilities (debt securities, borrowings and subordinated liabilities) by remaining maturity of contractual principal and interest on an undiscounted basis:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2023				
Domestic borrowings				
Principal	90,123.05	259,152.30	229,514.69	**578,790.04**
Interest	41,565.92	114,557.45	67,338.04	**223,461.42**
Foreign Currency borrowings				
Principal	40,666.15	78,286.85	39,465.75	**158,418.75**
Interest	5,948.78	13,717.92	2,684.65	**22,351.35**
Total	**178,303.90**	**465,714.52**	**339,003.13**	**983,021.56**
As at 31.03.2022				
Domestic borrowings				
Principal	61,140.51	2,56,738.15	1,96,977.66	**5,14,856.32**
Interest	35,470.38	98,125.96	59,474.65	**1,93,070.99**
Foreign Currency borrowings				
Principal	22,025.66	72,280.41	37,794.67	**1,32,100.74**
Interest	3,850.14	10,465.79	3,686.87	**18,002.80**
Total	**1,22,486.69**	**4,37,610.31**	**2,97,933.85**	**8,58,030.85**



*In the above table, bonds with put & call option have been shown considering the earliest exercise date. Further, the commercial papers and zero-coupon bonds have been shown at the maturity value.

46.2.2 The following table analyses the maturity pattern of Derivative financial liabilities:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2023				
Forward	21.06	0.00	0.00	**21.06**
Option/ swaps	64.24	310.18	605.79	**980.21**
Total	**85.30**	**310.18**	**605.79**	**1,001.27**
As at 31.03.2022				
Forward	-	-	-	**-**
Option/ swaps	75.64	125.49	455.25	**656.38**
Total	**75.64**	**125.49**	**455.25**	**656.38**

* The above table details Group's liquidity analysis for its derivative financial liabilities based on MTMs received from counterparties. Maturity buckets are as per the remaining tenor of the respective derivative instrument.

46.2.3 Significant cash flows required for meeting the financial liabilities shall be funded through cash flows (principal and interest repayments) generated from loan assets. The following table analyses the maturity pattern of loans by remaining maturity of contractual principal and interest on an undiscounted basis:

(₹ in crore)

Particulars*	Upto 1 year	1 – 5 years	More than 5 years	Total
As at 31.03.2023				
Loan Assets				
Principal	1,16,979.37	3,08,341.85	4,09,659.87	8,34,981.09
Interest	76,654.89	2,22,171.89	1,73,464.65	4,72,291.43
Total	**1,93,634.26**	**5,30,513.74**	**5,83,124.52**	**13,07,272.52**
As at 31.03.2022				
Loan Assets				
Principal	66,026.51	2,77,929.73	3,88,637.47	7,32,593.71
Interest	70,190.29	2,11,553.57	1,72,778.27	4,54,522.13
Total	**1,36,216.80**	**4,89,483.30**	**5,61,415.74**	**11,87,115.84**

* The principal cash flows net of impairment loss allowance relating to Stage 3 assets have been considered in over 5 years bucket irrespective of the maturity date.

46.2.4 Liquidity Risk Management

In order to effectively manage liquidity risk, the Group endeavours to maintain sufficient cash flows to cover maturing liabilities and projected disbursements without incurring unacceptable losses or risking damage to its reputation and also endeavours to maintain a diversified fund base by raising resources through different funding instruments. The adequacy of the Group's liquidity position is determined keeping in view the current liquidity position; anticipated future funding needs; present and future earning capacity; and available sources of funds.

The Companies in the Group manages its day to day liquidity to ensure that they have sufficient liquidity to meet their financial obligation as & when due.

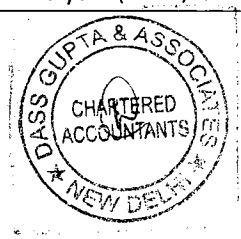
Further, for overall liquidity monitoring and supervision, PFC and RECL has their respective Asset Liability Committee (ALCO). The ALCO tracks the liquidity risk by analysing the maturity or cash flow mis-matches of its financial assets and liabilities.

46.2.5 Financing arrangements

A. In respect of PFC

PFC has access to cash credit, overdraft, line of credits and working capital demand loans from banks to meet unanticipated liquidity need. Further, PFC has the highest Domestic Credit Rating of AAA, thereby enabling it to mobilize funds from the domestic market within a short span of time. PFC has access to the following undrawn borrowing facilities:

(₹ in crore)



Particulars	As at 31.03.2023	As at 31.03.2022
CC/ OD/ LoC / WCDL limits	8,116.17	5,398.00

B. In respect of RECL

RECL had access to the following undrawn borrowing facilities at the end of the reporting period:

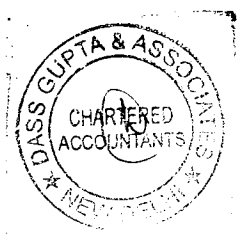
(₹ in crore)

Particulars	As at 31.03.2023	As at 31.03.2022
Expiring within one year (cash credit and other facilities)-Floating Rate	13,364.88	8,803.05
Expiring beyond one year (loans/ borrowings)-Floating Rate	1,393.58	1,245.90

46.2.6 RBI vide its Master Directions applicable for NBFCs prescribe Liquidity Coverage Ratio (LCR) framework for all non-deposit taking NBFCs with asset size of more than ₹ 5,000 crore. The guidelines aim to maintain a liquidity buffer in terms of LCR by ensuring that they have sufficient High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for next 30 days. PFC and its subsidiary, RECL maintains sufficient liquidity buffer in the form of High-Quality Liquid Assets (HQLA) as prescribed.

46.3 Market Risk – Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument, denominated in currency other than functional currency, will fluctuate because of changes in foreign exchange rates.



46.3.1 The Company and its subsidiary, RECL is exposed to foreign currency risk mainly on its borrowings denominated in foreign currency. The carrying amount of the foreign currency denominated borrowings of these companies is as follows:

Description	As at 31.03.2023		As at 31.03.2022	
	Crore in respective currency	₹ in Crore	Crore in respective currency	₹ in Crore
USD Loans	**1,585.32**	**130,340.51**	**1,621.87**	**1,22,949.09**
- Hedged	1,304.70	107,268.39	1,169.50	88,656.40
- Unhedged	280.62	23,072.12	452.37	34,292.69
Euro Loans	**162.13**	**14,527.63**	**33.46**	**2,832.49**
- Hedged	123.99	11,110.66	0.09	7.37
- Unhedged	38.14	3,416.97	33.38	2,825.12
JPY Loans	**19,073.36**	**11,787.34**	**9,506.59**	**5,915.95**
- Hedged	9,925.81	6,134.16	2,084.61	1,297.25
- Unhedged[#]	9,147.55	5,653.18	7,421.98	4,618.70
SGD Loans	**28.53**	**1,763.27**	**7.21**	**403.21**
- Hedged	28.53	1,763.27	7.21	403.21
- Unhedged	-	-	-	-
Total		**158,418.75**		**1,32,100.74**
- Hedged		126,276.48		90,364.23
- Unhedged		32,142.27		41,736.51

[#]includes JPY loan liability hedged for one leg (USD/JPY) for ₹ 5,653.18 crore as at 31.03.2023 (As at 31.03.2022 - Nil)

46.3.2 **Foreign currency risk monitoring and management**

PFC & RECL have their respective Board approved risk management policies to manage risks associated with foreign currency borrowings. These policies prescribe appropriate systems and controls to identify, measure and monitor the foreign currency risks through committees comprising of senior level officials. Derivative transactions are done to cover exchange/interest rate risks through various instruments like foreign currency forwards contracts, currency options, principal only swaps, and IRS and forward rate agreements. These derivative transactions are done for hedging purpose and not for trading or speculative purpose.

46.3.3 **Foreign Currency Sensitivity Analysis**

The table below represents the impact on Group's total equity ((Gain / (Loss)) for 5% change in foreign currency exchange rate against INR on unhedged portfolio of outstanding foreign currency borrowings:

(₹ in crore)

Foreign Currency	As at 31.03.2023		As at 31.03.2022	
Liabilities	**Decrease**	**Increase**	**Decrease**	**Increase**
USD	1,050.14	(1,050.14)	1,541.40	(1,541.40)
Euro	169.06	(169.06)	138.54	(138.54)
JPY	282.66	(282.66)	201.27	(201.27)
SGD	-	-	-	-
Total	**1,501.86**	**(1,501.86)**	**1,881.21**	**(1,881.21)**

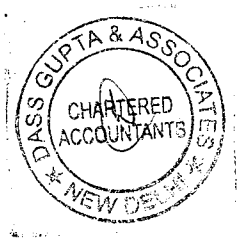
46.4 Market Risk - Interest Rate Risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in interest rates. Interest rates are dynamic and dependent on various internal and external factors including but not limited to RBI policy changes, liquidity in the market, movement of external benchmarks such as AAA bond/ G-Sec yields/ LIBOR etc. The impact may be beneficial or adverse depending on the direction of change in interest rates and whether assets or liabilities re-price faster.

A. In respect of PFC

(i) Interest rate risk is managed with the objective to control market risk exposure while optimizing the return.

The Asset Liability Committee (ALCO) tracks the interest rate risk through the gap analysis i.e. by analysing the mismatches between Rate Sensitive Assets and Rate Sensitive Liabilities. For gap analysis, the interest rate sensitivity statement prescribed by RBI is used, wherein the gap is measured between the Rate Sensitive Assets and Rate Sensitive Liabilities which are distributed based on the maturity date or the re-pricing date whichever is earlier.



Further, for managing the interest rate risk, PFC reviews its interest rates periodically based on prevailing market conditions, borrowing cost, yield, spread, competitors' rates, etc. The asset mix is managed by PFC through its interest rate & credit policies which inter-alia covers aspects like reset periods; repayment periods, prepayment premium etc. The liabilities are managed keeping in view factors like cost, market appetite, timing, market scenario, ALM gap position etc. PFC also enters into various derivatives transactions like interest rate swaps, cross-currency interest rate swaps to hedge its interest rate risk.

(ii) Interest Rate Sensitivity Analysis

As per RBI Guidelines, Earning at Risk (EaR) is an important focal point for interest risk management. For interest rate sensitivity analysis, the impact of movement of interest rates has been measured on the Earning at Risk derived from the gap statements. The impact has been worked out considering 25 basis upward/downward shock to interest rates over a one-year period, assuming a constant balance sheet. The analysis shows that if rates are increased/decreased by 25 bps, the impact on EaR will be (+/-) ₹ 194.52 crore. (As at 31.03.2022 (+/-) ₹ 118.77.00 crore).

The analysis assumes that the Rate Sensitive Assets and Rate Sensitive Liabilities are being re-priced at the same time. Further, the analysis considers the earliest/first re-pricing date of the Rate Sensitive Assets and Rate Sensitive Liabilities.

Note: A 25 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

(iii) Disclosures in respect of Interest Rate Benchmark Reform

PFC has variable interest rate borrowings whose interest rate is based on interest rate benchmarks. Also, to hedge the variability of cash flows on these borrowings, PFC has entered into multiple interest rate swaps with key terms (principal amount, payment dates, repricing dates, currency) that match those of the debt on which it pays a fixed rate and receives a variable rate. Significant interest rate benchmark used in PFC's borrowings is 6 month USD /JPY LIBOR (London Interbank Offered Rate).

a) Exposure directly affected by the interest rate benchmark reform

The total amount of exposure that is directly affected by Interest Rate Benchmark Reform (IBOR) i.e. after June 2023 is USD 656.24 million (Amount in INR ₹ 5,395.44 crore) as on 31.03.2023. Out of this, the amount of the Derivative exposure linked with such liabilities and accounted for under hedge accounting is USD 650 million (Amount in INR ₹ 5,344.10 Crore).

Following is the detail of the foreign currency borrowings which will be impacted based on LIBOR transition from 6 month USD LIBOR as planned after June 2023:-

Benchmark	As at 31.03.2023				As at 31.03.2022			
	Amount in respective currency (million)	Amount (₹ in crore)	Of which, have yet to transition to an alternative benchmark rate		Amount in respective currency (million)	Amount (₹ in crore)	Of which, have yet to transition to an alternative benchmark rate	
			Amount in respective currency (million)	Amount (₹ in crore)			Amount in respective currency (million)	Amount (₹ in crore)
Non-derivative financial liabilities								
6 month USD LIBOR	656.24	5.395.44	650.00	5,344.10	657.67	4,985.66	650.00	4,927.46
Derivatives								
6 month USD LIBOR	650.00	5,344.10	650.00	5,344.10	650.00	4,927.46	650.00	4,927.46

(ii) Managing the process of transition to alternative benchmark rates

PFC has in place a Board approved Policy for undertaking Libor Transition namely "Framework for transition from London Inter Bank Offered Rate (LIBOR) to Alternative Reference Rate (ARR)'. The framework inter-alia covers aspects such as assessment of exposure linked to LIBOR, identification of risk arising out of LIBOR transition, contracts remediation, operational readiness, governing structure, regulatory compliance & reporting, etc. Further, PFC shall undertake all transition activities as per the process/ guidelines detailed in the policy. The process of transition from 6 month USD LIBOR to Alternative Reference Rate has been initiated & shall be completed within available timelines.

(iii) Significant assumptions for exposure affected by the interest rate benchmark reform

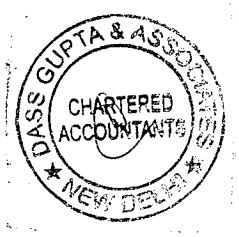
Ind AS 109 provides temporary exceptions to all the hedging relationships directly impacted by the interest rate benchmark reform. The alternative reference rate / benchmarks for the LIBOR linked loans and their derivatives are yet to be agreed with the lenders and the derivative bankers. However, it has been assumed that as a result of such reform there shall be no change in the relationship of the hedged items, hedged instruments and its corresponding hedge effectiveness.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000[illegible] New Delhi Chartered Accountants

B. In respect of RECL

(i) RECL's borrowings are exposed to interest rate risk with floating interest rates linked to USD LIBOR (London Inter Bank Offered Rate), SORA (Singapore Overnight Rate Average), TONAR (Tokyo Overnight Average Rate), SOFR (Secured Overnight Financing Rate), T-Bills, Repo Rate etc. RECL manages its interest rate risk through various derivative contracts like interest rate swap contracts, forward interest rate contracts to minimize the risk of fluctuation in interest rates. RECL also uses cross-currency interest rate swaps as a cost-reduction strategy to benefit from the interest differentials in different currencies.



The table below shows the overall exposure of RECL to the liabilities linked with floating interest rates as at 31.03.2023 is as under:

(Foreign Currency & INR Equivalent in ₹ crore)

Currency	As at 31.03.2023			As at 31.03.2022		
	Floating Interest Rate Exposure	Hedged through Derivatives	Unhedged Exposure	Floating Interest Rate Exposure	Hedged through Derivatives	Unhedged Exposure
INR Borrowings	**62,798.20**	-	**62,798.20**	**50,178.32**	-	**50,178.32**
USD $	506.20	189.20	317.00	463.60	132.50	331.10
INR Equivalent	**41,618.19**	**15,555.43**	**26,062.76**	**35,144.17**	**10,044.44**	**25,099.73**
JPY ¥	5,835.28	1,032.72	4,802.56	5,835.27	1,032.72	4,802.56
INR Equivalent	**3,606.20**	**638.22**	**2,967.98**	**3,631.29**	**642.66**	**2,988.63**
EURO €	60.40	-	60.40	-	-	-
INR Equivalent	**5,412.51**	-	**5,412.51**	-	-	-
SGD $	28.53	7.21	21.32	7.21	7.21	-
INR Equivalent	**1,763.27**	**445.47**	**1,317.80**	**403.21**	**403.21**	-
Total INR Equivalent	**1,15,198.37**	**16,639.12**	**98,559.25**	**89,356.99**	**11,090.31**	**78,266.68**

RECL also uses Interest Rate Swaps to manage fair value risk on interest rate borrowings to mitigate the interest rate sensitivity mismatch. Through such swaps, the fixed rate borrowings amounting to ₹ 15,950.70 crore as on 31st March 2022 (Previous year ₹ 11,850.70) have been converted into floating rate borrowings through the use of MIBOR- linked Overnight Indexed Swaps.

RECL's lending portfolio carries interest at semi-fixed rate i.e. fixed rate of interest with 1/3/10 year reset option with the borrower. RECL reviews its lending rates periodically based on prevailing market conditions, borrowing cost, yield, spread, competitors' rates, sanctions and disbursements etc. In order to manage pre-payment risks, RECL charges pre-payment premium from borrowers in case of pre- payment of loan. The interest rate risk is managed by the analysis of interest rate sensitivity gap statements and by evaluating the creation of assets and liabilities with a mix of fixed and floating interest rates.

RECL is exposed to interest rate risk on following loan assets which are at semi-fixed rates:

(₹ in crore)

Description	As at 31.03.2023	As at 31.03.2022
Rupee Loans	4,31,992.47	3,75,805.76

(ii) Sensitivity Analysis

The table below represents the impact on P&L (Gain / (Loss)) for 50 basis points increase or decrease in interest rate on RECL's floating rate assets and liabilities on the unhedged exposures:

(₹ in crore)

Particulars	As at 31.03.2023		As at 31.03.2022	
	Increase	(Decrease)	Increase	(Decrease)
Floating Rate Loan Liabilities	(368.77)	368.77	(292.84)	292.84
Interest Rate Swaps	(59.68)	59.68	(44.34)	44.34
Floating/ semi-fixed Rate Loan Assets	1,616.34	(1,616.34)	1,406.11	(1406.11)

*Holding all other variables constant

The above sensitivity analysis has been prepared assuming that the amount outstanding at the end of the reporting period remains outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

(iii) Disclosures in respect of Interest Rate Benchmark Reform(IBOR)

RECL has variable interest rate borrowings with interest rates linked with different benchmarks. Such interest rate benchmarks for foreign currency borrowings include 3/6 Months' USD LIBOR (London Inter Bank Offered Rate), 3/6 Months' EURIBOR (Euro Inter Bank Offered Rate), Overnight SOFR (Secured Overnight Financing Rate), 3/6 Months' Term SOFR, SORA (Singapore Overnight Rate Average), TONAR (Tokyo Overnight Average Rate), SOFR (Secured Overnight Financing Rate) etc. The summary of such borrowings as on March 31, 2023 as per the contracted interest rate benchmark is as below:

Benchmark	As at 31-03-2023		As at 31-03-2022	
	Amount (₹ in Crore)	Amount (USD Mn Equivalent)	Amount (₹ in Crore)	Amount (USD Mn Equivalent)
3M USD LIBOR	1,233.26	150.00	7,201.67	950.00
6M USD LIBOR	29,080.13	3,537.00	27,373.94	3,611.00
3M Term SOFR	6,988.44	850.00	-	-
6M Term SOFR	822.17	100.00	-	-
O/N SOFR	3,494.22	425.00	568.55	75.00
3M EURIBOR	3,595.53	437.32	-	-
6M EURIBOR	3,134.74	381.28	-	-
O/N TONA	3,606.20	438.62	3,631.29	479.02
O/N SORA	445.48	54.18	403.21	53.19
Total	**52,400.17**	**6,373.40**	**39,178.67**	**5,168.21**

As announced by the UK Financial Conduct Authority (FCA) on 5 March 2021, 3 Month and 6 Month USD LIBOR will cease to be published after 30th June 2023.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. Chartered Accountants New Delhi

(a) Exposure directly affected by the Interest Rate Benchmark Reform (IBOR)

While some of the floating rate borrowings of the Company are already under the new benchmarks, some of the borrowings will also get repaid before the cessation date of the respective interest rates, i.e. 3M USD LIBOR and 6M USD LIBOR. Accordingly, the total amount of exposure that is directly affected by the Interest Rate Benchmark Reform (IBOR) is ₹ 28,159.29 crores (USD 3.425 Billion) as on 31st March, 2023 (₹ 25,963.93 crores (USD 3.425 Billion) as on 31st March, 2022). Out of this, the nominal amount of the derivative exposure linked with such liabilities and accounted for under hedge accounting is ₹ 4,110.85 crores (USD 0.500 Billion) [previous year ₹ 3,790.36 crores (USD 0.500 Billion)].

(b) Managing the process to transition to alternative benchmark rates

Pursuant to the Interest Rate Benchmark Reform, LIBOR will be replaced with alternative Risk-Free Rates (RFRs). SOFR (Secured Overnight Financing Rate) will be the replacement for USD LIBOR, while TONA (Tokyo Overnight Average Rate) will replace JPY LIBOR. ISDA (International Swaps and Derivatives Association), the globally recognized statutory body governing the global derivative deals, has come up with the ISDA 2020 IBOR Fallbacks Protocol (commonly referred to as Fallback Protocol) to move all the legacy contracts to new benchmarks. The Company has adhered to the Fallbacks Protocol under which the fallbacks for the various LIBOR benchmarks will automatically become applicable to the existing derivative trades with all counterparties.

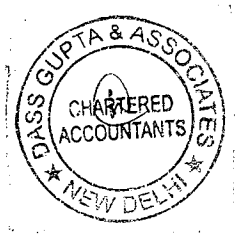
With respect to the term loans, REC has been actively engaging with the lenders to initiate the transition exercise at an early stage. During the year 2022-23, lenders for 10 USD loans amounting to USD 3,275 Million (INR equivalent as on March 31, 2023 ₹ 26,926.04 crores) have agreed for transition of the benchmarks from USD LIBOR to Overnight SOFR/ Term SOFR.

During previous year, the company has completed the transition documentation for two JPY loans amounting to JPY 20,846.12 Billion (INR equivalent as on 31st March, 2022 ₹ 1,297.25 crores) with the benchmark changed from JPY LIBOR to TONA. Additionally, an active transition for one SGD loan amounting to SGD 72.08 Million (INR equivalent as on 31st March, 2022 ₹ 403.21 crores) has also been concluded during the previous year with the benchmark changed from 6M SOR (Singapore Swap Offer Rate) to SORA (Singapore Overnight Rate Average).

(c) Significant Assumptions for exposures affected by the Interest Rate Benchmark Reform

Ind AS 109 provides temporary exceptions to all the hedging relationships directly impacted by the Interest Rate Benchmark Reform. While the benchmarks for the underlying loan are yet to be agreed with the lenders, it has been assumed that there will be no change in the alternative benchmark rates of the underlying loan and the derivative contracts and hedge effectiveness is not altered as a result of such reform.

46.5 Market Risk - Price risk



(a) The Group is exposed to price risks arising from investments in listed equity shares. Refer Note 13A 'Investments' for Group's exposure to the same.

(b) Sensitivity Analysis

The table below represents the impact on Consolidated Statement of Profit and Loss for 5% increase or decrease in the respective prices on Group's equity investments, outside the Group:

(₹ in crore)

Particulars	As at 31.03.2023		As at 31.03.2022	
	Increase	(Decrease)	Increase	(Decrease)
Impact on P&L	4.84	(4.84)	8.77	(8.77)
Impact on OCI	59.86	(59.86)	50.16	(50.16)

47 Hedge Accounting

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognized in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Consolidated Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognized in 'Cost of Hedging Reserve'. The amounts recognized in such reserve are amortized to the Consolidated Statement of Profit and Loss on a systematic basis.

The table below provides Movement in Effective Portion of Cash Flow Hedges and Cost of Hedging Reserve for PFC and subsidiary RECL:

(₹ in crore)

Sr. No.	Particulars	FY 2022-23	FY 2021-22
	Effective Portion of Cash flow Hedges		
(a)	**Opening balance of Reserves (net of tax)**	**394.55**	**(278.95)**
(b)	Changes in intrinsic value of options contracts	7,502.40	1,537.09
(c)	Changes in fair value of PoS/Forwards/IRS contracts	674.18	665.14
(d)	Amount reclassified from OCI to P&L	(7,244.23)	(1,302.21)
(e)	**Net amount recognised in OCI during the year (b + c + d)**	**932.35**	**900.02**
(f)	Deferred Tax on (e) above	(234.65)	(226.52)
(g)	**Net amount recognised in OCI during the year (Net of Tax) (e + f)**	**697.70**	**673.50**
(h)	**Closing balance of Reserves (net of Tax) (a + g)**	**1,092.25**	**394.55**
	Cost of Hedging Reserve		
(a)	**Opening balance of Reserves (net of tax)**	**(690.70)**	**18.21**
(b)	Changes in deferred time value of options/PoS/IRS contracts/Forwards	(5,453.45)	(2,792.42)
(c)	Amortisation of time value	2,889.49	1,845.09
(d)	**Net amount recognised in OCI during the year (b + c)**	**(2,563.96)**	**(947.33)**
(e)	Deferred Tax on (d) above	645.29	238.42
(f)	**Net amount recognised in OCI during the year (Net of Tax) (d + e)**	**(1,918.67)**	**(708.91)**
(g)	**Closing balance of Reserves (net of Tax) (a + f)**	**(2,609.37)**	**(690.70)**

A. In respect of PFC

(i) Hedge Effectiveness

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. The Company applies the following effectiveness testing strategies:

a) For derivatives other than options that exactly match the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method (where principal terms of the hedging instrument and the hedged item are same).

b) For option structures, the Company analyses the relationship of changes in value of the hedging instrument and hedged item using regression analysis based dollar offset method.

B. In respect of RECL

Hedge ineffectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. RECL applies the following effectiveness testing strategies:

(i) For cross currency swaps, principal only swaps and interest rate swaps that exactly match the terms of the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method.

(ii) For other interest rate swaps (in cases of late designation), the Company uses dollar offset method using a hypothetical derivatives, dollar offset method is a quantitative method that consists of comparing the change in fair value or cash flows of the hedging instrument with the change in fair value or cash flows of the hedged item attributable to the hedged risk.

(iii) For option structures, RECL analyses the behaviour of the hedging instrument and hedged item using regression analysis based dollar offset method.

RECL has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk and notional amount of the hedging instruments are identical to the hedged items.

(iii) Fair Value Hedges

At 31st March 2023, Company has outstanding interest rate swap agreements of ₹ 15,950.70 crores (Previous year ₹ 11,850.70 crores) wherein the Company receives a fixed rate of interest and pays interest at a variable rate on the notional amount. Such agreements are being used to hedge the exposure to the changes in fair value of fixed rate borrowings.

There is an economic relationship between the hedged item and the hedging instrument as the terms of the interest rate swap match the terms of the fixed rate loan (i.e., notional amount, maturity, payment and reset dates). As such, a hedge ratio of 1:1 for the hedging relationships has been established as the underlying risk of the interest rate swap is identical to the hedged risk component.

The impact of the hedging instrument on the balance sheet is as follows:

(₹ in Crore)

Particulars	Fair value hedge	Notional amount	Carrying amount *	Line item in balance sheet where hedging instrument is disclosed	Changes in fair value for calculating hedge ineffectiveness
As at 31-03-2023	- Interest rate swap	15,950.70	(279.02)	Derivative financial instruments	(167.10)
As at 31-03-2022	- Interest rate swap	11,850.70	(111.92)	Derivative financial instruments	(111.92)

* Carrying amount here is exclusive of the Interest receivable under such derivative contract as on reporting date

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

The impact of the hedged item on the balance sheet is as follows:

(₹ in Crore)

Particulars	Fair value hedge	Carrying amount	Accumulated fair value adjustments	Line item in the balance sheet in which the hedged item is included	Change in value used for calculating hedge ineffectiveness
As at 31-03-2023	- Subordinated Liabilities	4,748.24	(178.16)	Subordinated Liabilities	(49.83)
	- Institutional bonds	7,773.47	(100.86)	Debt Securities-Institutional Bonds	(117.27)
As at 31-03-2022	- Subordinated Liabilities	4,148.36	(128.33)	Subordinated Liabilities	(128.33)
	- Institutional bonds	7,881.97	16.41	Debt Securities-Institutional Bonds	16.41

The decrease in fair value of the interest rate swap of ₹ 167.10 crores (Previous year ₹ 111.92 crores) has been offset with a similar gain on the respective subordinated liabilities and debt securities.

48 Fair Value Measurements

48.1 Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

(₹ in crore)

Sr. No.	Financial asset/ Financial Liability - Recurring fair value	Fair Value as at 31.03.2023	Fair Value as at 31.03.2022	Fair value hierarchy (Refer Note 6.1)	Valuation technique(s) & Key input(s)
1	**Quoted Equity investments**				
	- PTC India Limited	102.06	98.70	Level 1	Quoted market price
	- Coal India Limited	298.35	255.62

(3) Fair value gain/ (loss) on Investments at FVTPL forms part of line item 'Net Loss/(Gain) on Fair Value changes' in the Consolidated Statement of Profit and Loss.

48.4 Fair Value of financial assets/ liabilities measured at amortised cost:

(₹ in crore)

Asset/Liability	Fair value hierarchy	As at 31.03.2023		As at 31.03.2022	
		Amortized Cost	Fair Value	Amortized Cost	Fair Value
Loans	Level 3	832,903.36	840,976.30	7,32,850.76	7,39,774.58
Investments [a]	Level 1/3	3,159.96	3,176.94	1,850.32	1,888.89
Other financial assets	Level 2	29,835.15	29,841.80	29,820.35	29,829.30
Debt securities[a]	Level 1 / 2	496,729.38	485,766.39	4,49,731.56	4,58,028.81
Borrowings other than debt securities[b]	Level 2	238,343.00	234,437.30	1,94,616.98	1,91,511.59
Subordinated liabilities	Level 2	16,085.14	16,589.24	16,127.74	17,091.64

[a]Includes listed instruments with Level 1 fair value hierarchy
Investment in G-Sec and SDL being fair valued using market price as at reporting date.
Foreign currency Notes (GMTN issuances) being fair valued as per closing prices as per Reuters.
[b] Includes foreign currency loans linked to LIBOR/Alternative reference rate and multilateral agencies loans being valued at par.

(i) The fair value of the above financial assets and financial liabilities have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant input being the discount rate that reflects the credit risk of counterparties except for the cases where quoted market prices are available. These fair values were calculated for disclosure purposes only.

(ii) The carrying amounts of financial assets and financial liabilities other than those shown in the above table are considered to be a reasonable approximation of their fair values.

(iii) Loans and advances given to Directors/KMPs have specified terms / period of repayment and are in line with the HR Policies of the respective Companies in the group.

(iv) The Companies in the Group makes advances to its associate companies which are incorporated as SPVs to meet the preliminary expenditure. Such advances carry interest rates at the rate applicable to Term Loans as per the respective Company's policy.

(v) The interest and/or dividend paid to the Trusts and Key Managerial Personnel are on account of their investments in the debt securities and/or equity shares of the respective Company and the interest and/or dividend paid on such securities is uniformly applicable to all the holders.

(vi) Outstanding balances of Group companies at the year-end are unsecured.

50 Employee Benefits

50.1 Defined contribution plans:

50.1.1 Pension

The Companies in the Group pays fixed contribution to National Pension Scheme (NPS) for its pension obligation towards employees at pre-determined rates into the Tier-I NPS Account (Pension Account) of the employees.

50.1.2 Provident Fund

The Companies in the Group pays fixed contribution on account of provident fund at prescribed rates to a separate trusts, which invests the funds in permitted securities. The trusts have to ensure, a minimum rate of return to the members, as specified by GoI. However, any shortfall for payment of interest to members as per specified rate of return has to be compensated by the Companies in the Group. The Companies in the Group estimates that no liability will arise in this regard in the near future and hence, no further provision is considered necessary.

The Group has recognised an expense in the Consolidated Statement of Profit and Loss of ₹ 30.87 Crore (previous year ₹ 26.47 Crore) towards defined contribution plans.

50.2 Defined benefit plans:

50.2.1 Gratuity

The Companies in the Group have a defined gratuity scheme which is managed by a separate trust. Every employee who has rendered continuous service of five years or more is entitled to gratuity at 15 days salary for each completed year of service subject to a maximum of ₹ 0.20 crore on superannuation, resignation, termination, disablement or on death, considering the provisions of the Payment of Gratuity Act, 1972, as amended. The liability for the same is recognised on the basis of actuarial valuation.

50.2.2 Post-Retirement Medical Scheme (PRMS)

The Companies in the Group have Post-Retirement Medical Scheme (PRMS) to provide medical facilities to superannuated and deceased employees and their dependent family members. The liability for PRMS is recognised on the basis of actuarial valuation.

This scheme is managed by a separate trust. The trust has to ensure adequate corpus for meeting the medical expenditure incurred by the eligible employees. However, any short fall has to be compensated by the respective Company. The Companies in the Group estimates that no liability will arise in this regard in the near future and hence, no further provision is considered necessary.

VII. Closing Balance (I+II+III+IV+V+VI)	**11.99**	**10.92**

50.2.4 Risk exposure

Through its defined benefit plans, the Companies in the Group are exposed to a number of risks, the most significant of which are detailed below:

(i) Investment risk/ Asset Volatility Risk

Most of the plan asset investments are in government securities, other fixed income securities with high rating grades and mutual funds. The fair value of these assets is subject to volatility due to change in interest rates and other market & macro-economic factors. There is also a risk of asset liability matching i.e. the cashflow for plan assets does not match with cashflow for plan liabilities.

(ii) Changes in discount rate

The present value of defined benefit plan liabilities is calculated using a discount rate which is determined by reference to government bonds' yields at the end of the reporting period. A decrease (increase) in discount rate will increase (decrease) present values of plan liabilities, although this will be partially offset by an increase in the value of the plans' investments.

(iii) Mortality rate risk/ Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

(iv) Salary escalation risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

(v) Employee Turnover rate/Withdrawal rate

If the actual employee withdrawal rate in the future turns out to be more or less than expected then it may result in increase/decrease in the liability.

50.2.5 Plan Assets

The value of plan assets for each category, are as follows:

(₹ in crore)

Particulars	As at 31.03.2023		As at 31.03.2022	
	Gratuity	PRMS	Gratuity	PRMS
Cash & Cash Equivalents	0.27	1.16	0.40	0.20
State/ Central Government Debt Securities	25.71	76.40	14.15	52.68
Corporate Bonds/ Debentures	20.69	161.02	12.08	162.04
Others	8.30	-	30.96	-
Total	**54.97**	**238.58**	**57.59**	**214.92**

- Actual return on plan assets is ₹ 22.44 crore (previous year ₹ 19.67 crore).

50.2.6 Significant Actuarial Assumptions

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at 31.03.2023 by TransValue Consultants for Companies in the Group. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

The principal assumptions used for actuarial valuation are:-

A. In respect of PFC

Particulars	Gratuity		PRMS		ERS	
	As at 31.03.2023	As at 31.03.2022	As at 31.03.2023	As at 31.03.2022	As at 31.03.2023	As at 31.03.2022
Discount rate & expected return on plan assets, if funded	7.33%	7.45%	7.33%	7.45%	7. 33%	7.45%
Salary escalation rate/ Medical inflation rate	6.00%	6.00%	6.00%	6.00%	6.00%	6.00%
Mortality rate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate	As per IALM (2012-14) Ultimate
Withdrawal rate	0.01%	0.01%	0.01%	0.01%	0.01%	0.01%

B. In respect of RECL

Particulars	Gratuity		PRMS		ERS	
	As at 31.03.2023	As at 31.03.2022	As at 31.03.2023	As at 31.03.2022	As at 31.03.2023	As at 31.03.2022
Method used	PUCM					
Discount rate & expected return on plan assets	7.31%	7.37%	7.31%	7.37%	7.31%	7.37%
Future salary escalation/ medical inflation	6.00%	6.00%	6.00%	6.00%	6.00%	6.00%
Expected average remaining working lives of employees (years)	17.72	17.35	17.72	17.35	17.72	17.35

50.2.7 Sensitivity Analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation of PFC & RECL by the amounts shown below:

(₹ in crore)

Particulars	As at 31.03.2023		As at 31.03.2022	
	Increase	Decrease	Increase	Decrease
Discount rate (0.50% movement)				
- Gratuity	(2.05)	2.21	(1.92)	2.06
- PRMS	(16.72)	17.93	(16.44)	17.48
- ERS	(0.43)	0.48	(0.39)	0.44
Salary Escalation/ Medical inflation rate (0.50% movement)				
- Gratuity	0.40	(0.32)	0.33	(0.40)
- PRMS	14.34	(13.03)	16.28	(14.80)
- ERS	0.44	(0.39)	0.40	(0.36)
Medical Cost (10% movement)				
- PRMS	22.68	(21.28)	23.15	(21.43)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The Group actively monitors how the duration and expected yield of investments are matching the expected cash outflows arising from employee benefit obligations. Investments are well diversified, such that the failure of any single investment would not have a material impact on overall level of assets. There has been no change in the process used by the Group to manage its risks from prior periods.

50.2.8 Expected maturity analysis of the defined benefit plans in future years

(₹ in crore)

Particulars	Gratuity		PRMS		ERS	
	As at 31.03.2023	As at 31.03.2022	As at 31.03.2023	As at 31.03.2022	As at 31.03.2023	As at 31.03.2022
Up to 1 year	8.28	6.43	16.24	16.03	2.11	1.93
1 to 5 years	26.89	28.25	93.89	97.02	5.50	6.90
Over 5 years	88.11	82.46	379.01	392.00	11.83	12.44
Total	**123.28**	**117.14**	**489.14**	**505.05**	**19.44**	**21.27**

The table above is drawn on the basis of expected cash flows.

50.2.9 Expected contributions to post-employment benefit plans

(₹ in crore)

Particulars	Gratuity		PRMS	
	As at 31.03.2023	As at 31.03.2022	As at 31.03.2023	As at 31.03.2022
Expected contribution	6.26	3.27	8.61	13.71

50.2.10 The weighted average duration of the defined benefit plan obligation at the end of the reporting period is 13.14 years (as at 31.03.2022: 13.98 years) for PFC and 11.18 years (as at 31.03.2022: 12.20 years) for subsidiary, RECL.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

50.3 Other long term employee benefits

50.3.1 Leave

The companies in the Group provides for earned leave benefit and half-pay leave benefit to the credit of the employees, which accrues on half-yearly basis at 15 days and 10 days respectively. A maximum of 300 days of earned leave can be accumulated at any point of time during the service. There is no limit for accumulation of half pay leave. On separation after 10 years of service or on superannuation, earned leave plus half pay leave taken together can be encashed subject to a maximum of 300 days. However, there is no restriction on the number of years of service for encashment of earned leave on separation from the service. Provision based on actuarial valuation amounting to ₹ 11.88 crore (previous year ₹ 20.99 crore) for the year has been made at the year end and debited to the Consolidated Statement of Profit and Loss.

50.3.2 Other employee benefits

Provision for settlement allowance and long service awards amounting to ₹ 5.04 crore for the year (previous year ₹ 1.14 crore) has been made on the basis of actuarial valuation and debited to the Consolidated Statement of Profit and Loss.

50.3.3 In case of RECPDCL, the Loyalty incentive to the employees is payable after completion of three years of continuous service only, except in case of separation due to death. The payment of dues to outgoing employee is released at the time of separation. Expenses amounting to nil (previous year nil) have been debited to the Consolidated Statement of Profit and Loss on the basis of actuarial valuation.

50.4 Employee benefits (viz. Gratuity, PRMS, Terminal Benefits, Leave encashment and other employee benefits) in respect of PFC's employees working in its wholly-owned subsidiary PFCCL on deputation / secondment basis, are being allocated based on a fixed percentage of employee cost.

51 Leases

The Group has recognised a Right of Use Asset and Lease Liability with respect to leasehold land:

51.1 The table below shows the movement of Lease Liabilities during the year

(₹ in crore)

Particulars	As at 31.03.2023	As at 31.03.2022
Opening balance	**19.07**	**9.43**
Additions during the year	-	11.95

55 The Government of India (GoI) schemes being implemented in the Group

A. In respect of PFC

PFC has been designated as Nodal Agency for operationalization and implementation of RDSS Scheme and IPDS (R-APDRP subsumed in it). Role of Nodal Agency *inter-alia* includes pass through of loans/grants to eligible utilities under schemes of GOI. The release of the funds under GoI schemes is ensured through Treasury Single Account (TSA) maintained with RBI, as per office memorandum issued by MoF, GoI dated 09th March 2022. This ensures that funds of these schemes are released 'Just in time' from the Consolidated Fund of India (CFI) to the beneficiaries

55.1 Revamped Distribution Sector Scheme (RDSS)

This Scheme was launched by GoI in July, 2021 to improve the operational efficiencies and financial sustainability of DISCOMs, by providing financial assistance to DISCOMs. It is a Reform based and result linked Distribution sector scheme. PFC along with REC is the nodal agency for operationalization of the scheme. The implementation period of the Scheme is 5 Years (FY 2021-22 to FY 2025-26) with the sunset date of 31.03.2026. The key objectives of the scheme is to:

i) Improve the quality, reliability and affordability of power supply to consumers through a financially sustainable and operationally efficient distribution sector.
ii) Reduce AT&C losses to pan-India levels of 12-15% by 2024-25.
iii) Reduce ACS-ARR gap to zero by 2024-25.

The Scheme has an outlay of ₹ 3, 03,758 crore with an estimated gross budgetary support of ₹ 97,631 crore from the GoI. The amount of grant received and administered to the eligible entities during FY 2022-23 is ₹ 1319.86 crore (previous year ₹ 359 crore) and the cumulative grant administered till 31.03.2023 is ₹ 1,678.86 crore (till 31.03.2022 is ₹ 359 crore).

Further, No amount of grant remained undisbursed as on 31.03.2023 and 31.03.2022.

PFC is eligible for nodal agency fee at the rate of 0.50% of the sum total of the gross budgetary component of the various projects approved by Monitoring Committee. The total amount of nodal agency fee income from this scheme for FY 2022-23 stands at ₹.71.58 crore. (Previous year Nil).

55.2 Integrated Power Development Scheme (IPDS) (with Restructured Accelerated Power Development and Reform Programme (R-APDRP) subsumed)

IPDS scheme was launched in December 2014 to extend financial assistance against capital expenditure for addressing the gaps in sub transmission & distribution network and metering in urban areas to supplement the resources of DISCOMs/ Power Departments. This scheme has the sunset date of 31.03.2022 and the ongoing approved projects have been subsumed as a separate component under the new RDSS scheme.

The estimated outlay of the scheme was ₹ 32,612 crore including a budgetary support of ₹ 25,354 crore from GoI. R-APDRP scheme cost of ₹ 44,011 crore including budgetary support of ₹ 22,727 crore have also been carried forward to IPDS scheme. The amount of fund received and administered to the eligible entities during FY 2022-23 is ₹ 474.46 crore (previous year ₹ 2125.01 crore) and the cumulative grant administered till 31.03.2023 is ₹ 18,381.91 crore (till 31.03.2022 ₹ 17,907.45 crore).

The amount of fund received under R-APDRP (subsumed with IPDS) and administered to the eligible entities during FY 2022-23 is ₹ 65.00 crore (previous year ₹ 326.64 crore) and the cumulative grant administered till 31.03.2023 is ₹ 13,562.07 crore (till 31.03.2022 ₹ 13,497.07 crore).

Further, no fund remained undisbursed as on 31.03.2023 and 31.03.2022.

The total amount of nodal agency fee income from this scheme for FY 2022-23 stands at Nil (previous year ₹ 8.60 crore). Additionally, PFC has also received Nil (previous year ₹ 28.20 crore) as reimbursement of expenditure from MoP under the said scheme.

B. In respect of RECL

55.3 Pradhan Mantri Sahaj Bijli Har Ghar Yojana (SAUBHAGYA)

Government of India launched a scheme "Pradhan Mantri Sahaj Bijli Har Ghar Yojana" - Saubhagya to achieve universal household electrification in the country during Oct 2017. The scheme envisaged to provide last mile connectivity and electricity connections to all remaining un-electrified households in rural areas and poor households in urban areas. The capital outlay of Saubhagya Scheme was ₹ 16,320 Crore including Gross Budgetary Support of ₹ 12,320 Crore during the entire implementation period. Ministry of Power designated REC as the Nodal agency for operationalization of Saubhagya Scheme. The scheme has been successfully completed and closed in its sunset year FY 2021-22 i.e. 31.03.2022.

55.4 Deen Dayal Upadhyaya Gram Jyoti Yojana (DDUGJY)

Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY), the flagship scheme of Government of India covering all aspects of rural power distribution was launched in Nov 2014. Under the scheme 60% of the project cost (85% for special States) is provided as grant by Government of India and additional grant up to 15% (5% for special States) on achievement of prescribed milestones. DDUGJY facilitates towards achievement of '24x7 Power for All' in the country through the following project components:

(i) Separation of agriculture and non-agriculture feeders facilitating adequate power supply to agriculture & continuous power supply to non-agricultural consumers in the rural areas;
(ii) Strengthening and augmentation of sub-transmission & distribution infrastructure in rural areas, including metering of distribution transformers/ feeders/ consumers;
(iii) Micro-grid and Off-grid distribution network;
(iv) Rural Electrification component under the RGGVY 12th and 13th plans, subsumed to DDUGJY.

The scheme had estimated outlay of ₹ 75,893 Crore including budgetary support of ₹ 63,027 Crore from Government of India during the entire implementation period. Additional Infra under DDUGJY was sanctioned with a total outlay of ₹ 7,069 Crore including budgetary support of ₹ 5,302 Crore. The scheme has been successfully completed and closed in its sunset year FY 2021-22 i.e. 31.03.2022.

DASS GUPTA & ASSOCIATES CHARTERED ACCOUNTANTS NEW DELHI

PREM GUPTA & CO. FRN No. 000425N New Delhi Chartered Accountants

55.5 National Electricity Fund (NEF)

The National Electricity Fund (NEF), an interest subsidy scheme, has become operational since FY 2012-13. The scheme has been introduced by the Government of India to promote capital investment in the distribution sector. The scheme provides interest subsidy linked with reform measures, on the loans taken by public and private distribution power utilities for various capital works in the Distribution sector. NEF would provide interest subsidy aggregating up to ₹ 8,466 Crore (including interest subsidy to the borrowers, Service Charges to the Nodal Agency, payments to Independent Evaluators and other incidental expenses) spread over 14 years for loan disbursement against projects approved during 2012-13 and 2013-14. RECL has been nominated as the Nodal Agency for operationalization of NEF scheme across the country.

55.6 Revamped Distribution Sector Scheme (RDSS)

Government of India has approved the Revamped Distribution Sector Scheme (RDSS) to help DISCOMs improve their operational efficiencies and financial sustainability by providing result-linked financial assistance to them so as to strengthen supply infrastructure based on meeting pre-qualifying criteria and achieving basic minimum benchmarks. The scheme has an outlay of ₹ 3,03,758 Crore over 5 years i.e. FY 2021-22 to FY 2025-26 including an estimated Government Budgetary Support (GBS) of ₹ 97,631 Crore.

(i) Reduction of AT&C losses to pan-India levels of 12-15% by 2024-25.

(ii) Reduction of ACS-ARR gap to zero by 2024-25.

(iii) Improvement in the quality, reliability and affordability of power supply to consumers through a financially sustainable and operationally efficient distribution sector.

Components of the scheme are:
Part A – Financial support for Prepaid Smart Metering & System Metering and up-gradation of the Distribution Infrastructure.
Part B – Training & Capacity Building and other Enabling & Supporting Activities.

55.7 J&K Prime Minister's Development Plan (PMDP)

Government of Jammu & Kashmir, Power Development Department has appointed RECPDCL as a Project Implementing Agency (PIA) for design, engineering, procurement, supply, erection, testing and commissioning of all the material and services works to be taken-up for execution of transmission projects under PMDP in J&K state and Ladakh on nomination basis, as per actual cost to be discovered through competitive biddings.

55.8 11 kV Feeder Monitoring

Ministry of Power has appointed RECPDCL to implement 11 kV Feeder Monitoring Scheme. The scheme is to develop a Self-sustained independent web based system for automated 11 kV Rural Feeder Monitoring System through Data Logging of various essential parameters of all the Outgoing 11kV rural feeders from 66, 33/11 kV sub stations and make the information available online for various stake holders including public portal, on real time basis for power supply monitoring, alerts, meter data analysis, information dissemination and energy audit.

C. In respect of subsidiary PFCCL

55.9 PFC's subsidiary PFCCL has been selected as nodal agency for facilitating short term power requirements through competitive bidding as per MoP guidelines dated 30.03.2016. As per the guidelines, every bidder is required to deposit with PFCCL the requisite fees of ₹ 500 per MW plus applicable taxes for the maximum capacity a bidder is willing to bid. Only successful bidder(s) will have to pay the fees to PFCCL for the quantum allocated to each bidder after completion of activity and the balance amount will be refunded to the bidder.

55.10 In connection with Aatma Nirbhar Bharat Abhiyan of Govt of India, Power Departments/ Utilities in Union Territories has to be corporatised/privatised. MoP through PFC has conveyed to provide hand-holding support and the services of a transaction advisor to the UTs and to fund the expenditure incurred in this regard which will be recoverable from the successful bidder/MoP alongwith interest. PFC has appointed PFCCL as the nodal agency for this work.

PREM GUPTA & CO. FRN No. 00[illegible]25N New Delhi Chartered Accountants

56 Status of documentation subsequent to unbundling of SEBs

Some of the erstwhile State Electricity Boards (SEBs) against whom loans were outstanding or on whose behalf guarantees were given, were restructured by the respective State Governments and new entities were formed in the past. Consequently, the liabilities of the erstwhile SEBs stand transferred to new entities.

56.1 Status of documentation subsequent to reorganisation of the State of Jammu & Kashmir

After the bifurcation of the state of Jammu & Kashmir into two union territories- Jammu & Kashmir UT and Ladakh UT, the existing entities pertaining to the erstwhile state of Jammu & Kashmir have been restructured vide unbundling order dated 23.10.19. The addendums to the agreements with new restructured departments are yet to be executed. Pending the execution of such documents, the existing loans are being serviced/ repaid in line with the existing loan agreements.

56.2 Status of documentation subsequent to reorganization of the State of Andhra Pradesh

Subsequent to the reorganization of erstwhile Andhra Pradesh, the State of Telangana has been formed on 02.06.2014. However, the assets and liabilities are yet to be transferred to the respective power utilities through a formal gazette notification.

Once the final transfer scheme is notified through Gazette Notification by Govt. duly indicating the transfer of assets and liabilities among the power utilities, action for execution of documentation formalities will be taken up in respect of all the outstanding loans (except for above R-APDRP loans) with the new / name changed utilities. Till that time, the demand for payment of interest / principal is being segregated by the utilities and the respective portions are being paid by utilities in Telangana and Andhra Pradesh.

In respect of RECL,

56.2.1 Where ever the loans have been sanctioned to erstwhile APCPDCL, APNPDCL and APGENCO prior to bifurcation and documentation has not been done, these schemes have been re-sanctioned in the name of newly formed utilities and documentation formalities completed and accordingly the charge has been registered with the Ministry of Corporate Affairs (MCA).

56.2.2 Where ever the loans sanctioned in the name of erstwhile APCPDCL, APNPDCL prior to bifurcation and documentation formalities completed and drawls have been made, in these schemes an undertaking has been obtained from the name changed / newly formed utility and disbursements have been made to the newly formed utility by changing the name of the borrower in the name of new / name changed utility.

56.2.3 Where ever the Loan is sanctioned in the name of erstwhile APCPDCL, APNPDCL prior to bifurcation and documentation formalities completed with Government Guarantee and drawls have been made, further documentation for these schemes shall be done on Gazette Notification.

57 In the context of reporting business / geographical segment as required by Ind AS 108 - 'Operating Segments'

The Group's operations majorly comprise of one business segment i.e. lending to power , logistics and infrastructure sector entities. All activities revolve around the main business. Accordingly, there are no reportable segments as per Ind AS 108. Based on "management approach" as defined in Ind AS 108 'Operating Segments', the Chief Operating Decision Maker evaluates the Group's performance based on analysis of various factors of one business segment.

57.1 The Group does not have any geographical segments as its operations are mainly carried out within the country.
